

We are India's First Servo Motor Tester

Feedback devices are adjusted to the correct timing, waveform shape, offset angle, and voltage level

All Tests are recorded including Back-EMF winding waveform, feedback signal and alignment data

Our experienced servo repair specialists have years of technical training and practical repair knowledge.

BW STAR AUTOMATIONS
INDUSTRIAL & AUTOMATION SOLUTION

ABOUT COMPANY

Star Automations, established in the year 2000, envisions becoming India's single-source provider of comprehensive electronics repair services, field maintenance services, and distribution across various industries. These industries include automotive, aviation, pharmaceuticals, HVAC, offshore, chemicals, plastics, printing and packaging, oil and gas, textiles, food and beverage, marine, and railways. Star Automations takes pride in its expertise, emphasizing the crucial role automation plays in driving efficiency and productivity. Their team swiftly locates replacement parts through a vast database and supplier network, ensuring quality assurance and compatibility with industry demands.

OUR SERVICE

Servo Motor / Drive Repair

In - House / On - Site Repair

Preventive maintenance management

Annual Maintenance Contract Service

Warranty Reapair Management

Obsolete Parts Sourcing and Supply

Retrofit and Upgrade

Installation and Commissioning

WHAT WE DO

Supplying Obsolete Automation Equipment Worldwide: Our commitment extends beyond borders. We specialize in sourcing and delivering obsolete automation equipment to clients across the globe. Whether it's vintage machinery or elusive components, we bridge the gap by providing these essential parts. Our global network ensures that legacy systems keep running smoothly.

Buying Surplus Stock of New and Used Parts: Got surplus inventory? We're all ears! If you have excess PLCs, HMIs, Servo motors, Servo drives, or AC drives, we're interested. Our team purchases these components from various brands, giving them a second life in other systems. Sustainability meets efficiency!
