Packaged in multiples of 10 units. Each product number represents one unit.

For quick-connect version 2 x 2.8 mm, replace the "T" with an "F" and add **\$2.00 (GO-10A1)** to the list price.

Up to four side auxiliary contacts may be installed on contactors or relays with standard coils with a maximum of two contacts per side. Optimum performance is obtained when the contact configuration is balanced.

Side contacts may be combined with front-mount auxiliary contacts for a total maximum number of six added auxiliary contacts.
