B-Line

The robust B-Line connectors are ideal for applications (tunneling, mining), where high mechanical loads may arise. Furthermore, numerous options, such as the saltwater-resistant housing, make the connecors also suitable for marine applications.

Technical data	Unit	B-Line	
Norminal current	A	250	400
Rated current	A	315	450
Rated voltage	V	1000	
Rated frequency	Hz	50/60	
Withstand voltage (1 Min/50 Hz)	V	4000	
Protection grade		IP67	
Shock resistance		IK10	
Ambient temperature	°C	-40/+100	
Insulation resistance (Phase-phase and phase-earth	MOhm	>500	
Comparative tracking index of the insert	CTI	>600	
Terminal cross-section (EN 60228 Class 5)	mm^2	70-240	
Max cross section pilot cable, conductor (EN 60228 Class 5)	mm^2	4	
Diameter of cable - separat pilot cable	mm	34-66	
Diameter of cable	mm	8-15

carat®
Everyday indulgence.

Extraordinary and distinct design, of the highest quality. Each piece becomes a unique object of any interior. It attracts attention and that is the point. Solid frames made from bronze, polished steel or glossy glass, show immediately their real value and an exquisite owner's taste. The aesthetics, together with innovative functions make every day luxurious.

	SP, 1gang 1way switch **2000/1 US-500**	2CKA001012A2059	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Rocker Switch Mechanism [1] **2gang 2way** With screwless terminals. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	2000/6/6US-101-500	2CKA001011A0928	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Rocker Switch Mechanism [1] [2] **DP, 1gang 1way** For switching high loads. Rated voltage: 250 V~ Rated current: 16 AX IEC 60669-1		
	2000/2 US-101-500	2CKA001012A2193	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Also for switching SCHUKO® socket outlets.

	Rocker Switch Mechanism [1] [2] **3-pole, 1gang 1way switch** Rated voltage: 400 V~ Rated current: 16 AX IEC 60669-1		
	2000/3 US	2CKA001011A0816	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] With screw-type terminals. Non-illuminable.

	**Rocker Switch Mechanism** [1] With neon lamp 8338-1. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	1gang 2way [2] **2000/6 USGL-500**	2CKA001012A2194	10/100
	2gang 1way **2000/5 USGL**	2CKA001012A1135	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Replacement lamps 8360, 8362, and 8363 and LED inserts.

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker Switch Mechanism, control** [1] [2] [3] With neon lamp. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	1gang 2way with N-terminal **2000/6 USK-500**	2CKA001022A0659	10/100
	DP, 1gang 1way **2000/2 UK**	2CKA001022A0656	10

[1] With 1 mA neon lamp.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[3] Illuminable by using lamps 8360, 8362, 8363, 8365, 8366, and 8367 and LED inserts.

	**Push-switch mechanism** [1] **SP, with normally open contact (operating current)** With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC 60669-1		
	2020 US	2CKA001413A0475	10/100
	2020 US-500	2CKA001413A0574	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	**Push-switch mechanism** [1] **SP, with normally open contact (operating current)** With 2 independent signalling contacts. Rated voltage: 250 V~ Inputs: 1 Outputs: 1 Rated current: 10 A IEC 60669-1		
	2020 US-201	2CKA001413A0483	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	**Push-switch mechanism** [1] [2] [3] **SP, with normally open contact (operating current)** With illumination. With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC 60669-1		
	2020 USGL-500	2CKA001413A1106	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Replacement lamps 8360, 8362, and 8363 and LED inserts.
[3] For relay and touch dimmer applications.

	**Push-switch mechanism** [1] With one input terminal and 2 actuating covers. Rated voltage: 250 V~ Inputs: 1 Outputs: 2x Normally open contact Rated current: 10 A IEC 60669-1		
	2020 US-205-500	2CKA001413A1105	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5) 6) 7)] **Flush-mounted, LED, 2-100 W** With rotary control, two-way switch and soft-catch. 2-wire connection (neutral conductor not required) Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. Via mode switch adjustable between leading edge control and trailing edge control. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 250 W/VA (non-LED loads). Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C IEC 60669-2-1, British Standard EN 60669-2-1 		
	6523 U-102-500	2CKA006512A0335	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Also applicable for 1gang 2way installations.
[5)] Provided with terminal for net disconnection devices.
[6)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[7)] Recommendation: Please use loads and types of one producer.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-touch dimmer [1) 2) 3) 4) 5) 6)] **Flush-mounted, LED, 2-100 W** Touch dimmer. 2-wire connection (neutral conductor not required) Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Optimised for dimming of retrofit LED lamps (LEDi). For incandescent lamps, 230V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers and dimmable halogen energy-saving lamps. Mix operaton of LEDi with conventional loads possible. With adjustable minimum brightness. The minimum brightness for the leading edge control can be adjusted using the potentiometer. The potentiometer at the left limit stop corresponds with the trailing edge control mode. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With light-level memory and minimum brightness memory. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control cover with control lamp 6543-xxx-10x. For Busch-Remote control IR control cover 6066-xxx-10x. For comfort timer control element 6455-101-500. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 200 W/VA (non-LED loads). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C IEC 60669-2-1, British Standard EN 60669-2-1 		
	6526 U-500	2CKA006512A0323	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[5)] Recommendation: Please use loads and types of one producer.
[6)] In connection with 6810-21x-101 and 6800-xx-104 (M) only suitable for switching retrofit LEDs (for 2-conductor connection).

	Busch-rotary dimmer [1) 2) 3) 4)] **flush mounted, R, 60-600 W** With rotary control, 2way On-Off switching and soft-catch. Leading Edge control. [3)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[4)] Making-current limiters have to be provided in case of too high making currents.

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1)]
flush mounted, DALI
For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
An additional DALI power supply is needed, e.g. by Tridonic, Philips, Helvar or 2117/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

	2117 U-500	2CKA006599A2987	1

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Busch-rotary dimmer [1)]
flush mounted, DALI, with internal power supply
For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
With electronic short-circuit protection.
With electronic overload protection.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

	Comfort blind insert [1) 2) 3)] **with memory and positioning function** For the manual and automatic control of roller blinds. The roller blind moves to the position set using the turn knob. Executes the individually programmed switching commands (UP/DOWN) in a 24-hour rhythm. Suitable for roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. Power reserve of 45 minutes (maintenance-free as capacitor). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 1.3 A, cos ϕ 0.5 Rated power: 300 VA Temperature range (Device): 0 °C to 35 °C		
	6419 U	2CKA006410A0390	1/10

[1)] Pertinent cover plates 6436-xx.
[2)] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.
[3)] Only suitable for single unit control.

	Basic blind insert [1) 2)] Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. For control cover 6430-xx-xxx. For standard timer control element 6456-101. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Temperature range (Device): 0 °C to 35 °C		
	6418 U-500	2CKA006410A0376	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1)] N-conductor connection required for operation with control cover 6430-7x, illuminated.
[2)] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.

	**WLAN access point, flush-mounted** [1) 2)] **power supply from mains power** Operation as WLAN access point for the connection of WLAN terminal devices to the LAN. Operation as WLAN repeater for extending the transmission range of a WLAN. Operation as WLAN adapter for integrating Ethernet terminal devices into a WLAN. Supports WLAN standards IEEE 802.11b/g/n with 2.4 GHz; integrated WLAN antenna. Backward connection of an Ethernet cable via screw terminals (10/100 Mbit/s). Front-side Ethernet connection via a RJ45 socket (10/100 Mbit/s). The three connections (WLAN, Ethernet/screw terminals and Ethernet/RJ45)can be used in parallel via the integrated switch. Power supply via 2-pole connecting terminal. Nominal voltage: 100 - 240 V~ For mounting in commercially available deep flush-mounted and hollow-wall boxes. Rated frequency: 50 Hz - 60 Hz		
	8186/31-101-500	2CKA008100A0359	1

[1)] Suitable for cover plate 1803-xxx.

	Busch-DigitalRadio [1) 2) 3) 4) 5)] RDS stereo radio alarm clock for flush-mounted installation. Reception frequency: 87.50 MHz - 108.00 MHz. With display and background illumination. With external input for Busch-iDock. Remote control possible via Busch-iDock. For mono/stereo operation. 8 radio stations storable. With time display. With alarm function. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated antenna. With additional connection for external antenna. Permitted speaker impedance: 4 - 8 Ohm Can be installed as 1gang and in multiple combinations. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 5 °C to 40 °C Dimensions: (L x W x D): 71 mm x 71 mm x 49 mm Mounting depth: 34 mm		
	8215 U-500	2CKA008200A0182	1/10

[1] No claw. Screw-fixing via keyholes.
[2] Matching loudspeaker insert 8223 U.
[3] Also combinable with built-in ceiling loudspeaker (8225 EB & 8226 EB) and HiFi built-in ceiling loudspeaker (8226/11 EB).
[4] Can also be combined with built-in loudspeaker (8222 EB) and moist atmosphere loudspeaker (8224 EB).
[5] To be mounted only in connection with commercially available flush-mounted installation boxes according to DIN 49073 > 40 mm depth gauge or Busch-Jaeger art. no. 3040, 3050 or 3060.

Room thermostat, flush-mounted [1) 2) 3)]
NC contact, sliding switch, actual value indication, 24 V
With actual value temperature display
Automatic controller calibration
Switch contact opens when the set temperature is reached.
With built-in slide switch and control lamp for nightly reduction of 4 K.
With fixing claws.
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 24 V~
Rated current: 1 A
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1096 UTA	2CKA001032A0489	1/10

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] Servo-valves, "closed when de-energized", are necessary for connection to thermostat, e.g., Art. No. 6164/10 .
[3)] Switching temperature difference: ± 0.5 K.

Room thermostat, flush-mounted [1) 2) 3)]
Change-over contact, actual value indication
With actual value temperature display
Automatic controller calibration
With fixing claws.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 5 A
EN 60730-2-9, British Standard EN 60669-2-1

	1097 UTA	2CKA001032A0490	1/10

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] Servo valves of "closed or open when de-energized" design are required for the controller. E.g. article no. 6164/10-101.
[3)] Switching temperature difference: ± 0.5 K.

Room thermostat, flush-mounted [1) 2) 3)]
Change-over contact, setpoint indication, timer
With change-over contact.
Easy adjustment using menu and text-based display.
4 switching times per day can be user-defined for each day of the week.
With fixing claws.
Automatic summer/wintertime switch-over
Power reserve > 10 hours.
To fit cover plate 6435-xxx.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 10 A
Temperature range (Device): 5 °C to 30 °C
NEW EN 60730-2-9

Room thermostats

Product	Article-No.	Order-No.	Pack/Qty

Room thermostat, flush-mounted [1]
NC contact, remote sensor
With remote sensor and thermal feedback
For underfloor heating.
With built-in slide switch and control lamp for nightly reduction of 4 K.
Switch contact opens when the set temperature is reached.
With fixing claws.
Remote sensor cable length: 4 m.
Sensor =NTC, 10 kilo-ohm at 25 degrees C.
Adjusting range: +10 to +50° C.
Connecting cable: 1mm² to 2.5 mm²
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 16 A, cos ϕ 1
EN 60730-2-9, British Standard EN 60669-2-1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Servo valves of "closed or open when de-energized" design are required for the controller. E.g. article no. 6164/10-101.

Electrothermal Valve Drives with function indicator
For the actuation of heaters and cooling ceilings in connection with conventional room temperature controllers (e.g., 1094 U) or KNX, or free@home heating/valve actuators (e.g., 6164/46, 6254/0.XX)).
With function display (opened or closed).
de-energized when closed
Max. opening/closing time: 3.5 min
For installing, a suitable valve adapter is required.
Power input: 4 mA (approx. 1 W)
Inrush current: < 550 mA (max. 100 ms)
Connecting cable: 1.0 m (pluggable)
Rated voltage: 230 V~
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 54
Dimensions: (L x W x D): 59 mm x 45 mm x 53 mm

Busch-dynasty®
Opulence with a story.

It's like a painting with a stylish frame. Inspired by a real fairy tale, which takes you to a different world. Exclusive design, the finest material and perfect effect. The frames decorated with curved latticework. Polished and antique brass. Beauty and functionality come together to attain perfection. Something unique for your residence.

Rocker switches / push switches

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker Switch Mechanism** [1] Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	1gang 2way **2000/6 US-500**	2CKA001012A2198	10/100
	2gang 1way **2000/5 US-500**	2CKA001012A1150	10/100
	DP, 1gang 2way **2000/6/2 US**	2CKA001012A0954	10
	1gang intermediate **2000/7 US-500**	2CKA001012A2199	10/100
	DP, 1gang 1way **2000/2 US-500**	2CKA001012A2196	10/100
	SP, 1gang 1way switch **2000/1 US-500**	2CKA001012A2059	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Rocker Switch Mechanism [1] **2gang 2way** With screwless terminals. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	2000/6/6US-101-500	2CKA001011A0928	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Rocker Switch Mechanism [1] [2] **DP, 1gang 1way** For switching high loads. Rated voltage: 250 V~ Rated current: 16 AX IEC 60669-1		
	2000/2 US-101-500	2CKA001012A2193	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Also for switching SCHUKO® socket outlets.

Product	Article-No.	Order-No.	Pack/Qty
	Rocker Switch Mechanism [1] With neon lamp 8338-1. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	1gang 2way [2] **2000/6 USGL-500**	2CKA001012A2194	10/100
	2gang 1way **2000/5 USGL**	2CKA001012A1135	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Replacement lamps 8360, 8362, and 8363 and LED inserts.

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker Switch Mechanism, control** [1] [2] [3] With neon lamp. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	1gang 2way with N-terminal **2000/6 USK-500**	2CKA001022A0659	10/100
	DP, 1gang 1way **2000/2 UK**	2CKA001022A0656	10

[1] With 1 mA neon lamp.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[3] Illuminable by using lamps 8360, 8362, 8363, 8365, 8366, and 8367 and LED inserts.

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] **SP, with normally open contact (operating current)** With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC 60669-1		
	2020 US	2CKA001413A0475	10/100
	2020 US-500	2CKA001413A0574	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] **SP, with normally open contact (operating current)** With 2 independent signalling contacts. Rated voltage: 250 V~ Inputs: 1 Outputs: 1 Rated current: 10 A IEC 60669-1		
	2020 US-201	2CKA001413A0483	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] [2] [3] **SP, with normally open contact (operating current)** With illumination. With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC 60669-1		
	2020 USGL-500	2CKA001413A1106	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Replacement lamps 8360, 8362, and 8363 and LED inserts.
[3] For relay and touch dimmer applications.

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] With one input terminal and 2 actuating covers. Rated voltage: 250 V~ Inputs: 1 Outputs: 2x Normally open contact Rated current: 10 A IEC 60669-1		
	2020 US-205-500	2CKA001413A1105	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Busch-dynasty®

Rocker switches / push switches

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] **2 x SP, 2 normally open contact** 2 normally open contacts. Rated voltage: 250 V~ Inputs: 2 Outputs: 2x Normally open contact Rated current: 10 A IEC 60669-1		
	2020 US-205-101	2CKA001413A0509	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	**Push-switch mechanism** [1] **SP, 1gang 2way** Can be wired for normally open contacts (stand-by current) or normally closed contacts (operating current). With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC 60669-1		
	2020 US-206-500	2CKA001413A1104	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Rocker For flush-mounted switch 1g1w, 1g2w, intermediate, push switch.		
anthracite	**1786-81-500**	2CKA001751A3079	10/100
ivory white	**1786-82-500**	2CKA001751A3083	10/100
antique brass [1]	**1786-840-500**	2CKA001751A3116	10/100

[1] Real metal surface refined by hand.

	Rocker For flush-mounted switch 2g 1w, 2g push switch.		
anthracite	**1785-81**	2CKA001751A2930	10

antique brass [1]	**1789-840-500**	2CKA001751A3118	10

[1] Real metal surface refined by hand.

Product	Article-No.	Order-No.	Pack/Qty
	Rocker [1] [2] **with labelling field** With pilot lamp for uniform illumination of the labelling field. For flush-mounted switch 1g1w, 1g2w, intermediate, push switch. Size of labelling field: 59.7 x 11.7 mm.		
anthracite	**1764 NLI-81**	2CKA001731A1552	10
ivory white	**1764 NLI-82**	2CKA001731A1876	10
antique brass [3]	**1764 NLI-840-500**	2CKA001731A2024	10

[1] For compatible lettering software, visit www.BUSCH-JAEGER-labelingtool.com.
[2] Illumination using neon lamp 8353 or incandescent lamp 8344-1 and LED inserts.
[3] Plastic surface refined by hand.

	Rocker With marking. For flush-mounted switch 2g 1w, 2g push switch. With Marking " DO NOT DISTURB / MAKE UP ROOM"		
ivory white	**1785/11-82**	2CKA001751A2991	10
antique brass [1]	**1785/11-840-500**	2CKA001751A3119	10

[1] Real metal surface refined by hand.

	**Card switch 10 A** [1] **SP, with normally open contact (operating current)** Illuminable. With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC60669-1, British Standard EN 60669-1		
	2025 U	2CKA001012A1713	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
delivery form:	Adapter plate APBS to be ordered separate.		

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Cover plate For card switch. For insert 2025 U. Suitable for cards sized 54 x 86 mm. The inner part of the cover plate is made of light-conducting plastic, so that the card slot is illuminated.

ivory white	**1792-82**	2CKA001710A3640	10
antique brass [1]	**1792-840-500**	2CKA001710A4078	10

[1] Plastic surface refined by hand.

Busch-dynasty®
Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5) 6) 7)] **Flush-mounted, LED, 2-100 W** With rotary control, two-way switch and soft-catch. 2-wire connection (neutral conductor not required) Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. Via mode switch adjustable between leading edge control and trailing edge control. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 250 W/VA (non-LED loads). Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C IEC 60669-2-1, British Standard EN 60669-2-1 R,L,C LEDi		
	6523 U-102-500	2CKA006512A0335	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Also applicable for 1gang 2way installations.
[5)] Provided with terminal for net disconnection devices.
[6)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[7)] Recommendation: Please use loads and types of one producer.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-touch dimmer [1) 2) 3) 4) 5) 6)] **Flush-mounted, LED, 2-100 W** Touch dimmer. 2-wire connection (neutral conductor not required) Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Optimised for dimming of retrofit LED lamps (LEDi). For incandescent lamps, 230V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers and dimmable halogen energy-saving lamps. Mix operaton of LEDi with conventional loads possible. With adjustable minimum brightness. The minimum brightness for the leading edge control can be adjusted using the potentiometer. The potentiometer at the left limit stop corresponds with the trailing edge control mode. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With light-level memory and minimum brightness memory. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control cover with control lamp 6543-xxx-10x. For Busch-Remote control IR control cover 6066-xxx-10x. For comfort timer control element 6455-101-500. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 200 W/VA (non-LED loads). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C IEC 60669-2-1, British Standard EN 60669-2-1 R,L,C LEDi		
	6526 U-500	2CKA006512A0323	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[5)] Recommendation: Please use loads and types of one producer.
[6)] In connection with 6810-21x-101 and 6800-xx-104 (M) only suitable for switching retrofit LEDs (for 2-conductor connection).

	Busch-rotary dimmer [1) 2) 3) 4)] **flush mounted, R, 60-600 W** With rotary control, 2way On-Off switching and soft-catch. Leading Edge control. For incandescent lamps and 230 V tungsten halogen lamps. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 60 - 600 W IEC 60669-2-1, British Standard EN 60669-2-1 R,L		
	2250 U-500	2CKA006515A0848	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] Also applicable for 1gang 2way installations.
[3)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[4)] Provided with terminal for net disconnection devices.

Busch-dynasty®
Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5)] **flush mounted, RL, 20-500 W** With rotary control, 2way On-Off switching and soft-catch. Leading Edge control. For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 20 - 500 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	2247 U-500	2CKA006512A0302	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Provided with terminal for net disconnection devices.
[4)] Also applicable for 1gang 2way installations.
[5)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Busch-rotary dimmer [1) 2) 3) 4) 5) 6)] **UP, RL, 200-700 W** With rotary control, 2way On-Off switching and soft-catch. Leading Edge control. For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer. Short-circuit-proof, overload-protected. With adjustable minimum brightness. Without cover plate. Without claws. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 200 - 700 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6520 U-500	2CKA006520A0227	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Provided with terminal for net disconnection devices.
[4)] Also applicable for 1gang 2way installations.
[5)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[6)] Should be mounted in a seperate wallbox.

	Busch-2gang switch/rotary dimmer [1) 2) 3)] **flush mounted, RL, 60-400 W** 1 channel designed as dimmer. 1 channel designed as switch contact (1gang 2way contact element) with leading edge control For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer. With adjustable minimum brightness. Without cover plate. Rated current 6A (changeover contact switch output). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 60 - 400 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6517 U-101-500	2CKA006517A0018	1/10

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Can be used to replace a 2gang 1way switch.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5) 6)] **flush mounted, RC, 40-420 W** With rotary control, soft-catch and with trailing edge control. For incandescent lamps, 230 V tungsten halogen lamps and lowvoltage halogen lamps with electronic transformers. Low-noise, short-circuit-proof, overload-protected. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 40 - 420 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6513 U-102	2CKA006513A0568	1/10

[1)] Not suitable with conventional transformers.
[2)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Provided with terminal for net disconnection devices.
[5)] Also applicable for 1gang 2way installations.
[6)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Busch-rotary dimmer [1) 2) 3) 4) 5) 6)] **flush mounted, RC, 40-550 W** With rotary control, soft-catch and with trailing edge control. For incandescent lamps, 230 V tungsten halogen lamps and lowvoltage halogen lamps with electronic transformers. Low-noise, short-circuit-proof, overload-protected. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 40 - 550 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6519 U	2CKA006519A0011	1

[1)] Not suitable with conventional transformers.
[2)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Provided with terminal for net disconnection devices.
[5)] Also applicable for 1gang 2way installations.
[6)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Busch-dynasty®
Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5)] **flush mounted, RLC, 60-420 W** with soft-catch With intelligence for universal operation. For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers. Short-circuit-proof, overload-protected. Capacity expansion via output-side, parallel connectable load line with a power module 6594 U up to 735 W/VA possible. Operation via rotary-type remote control 6592 U possible, Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Rated power: 60 - 420 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6591 U-101-500	2CKA006513A0588	1/10

[1)] Illuminable with neon lamp 3855. Neon lamp included in delivery with cover plate.
[2)] In case of electronic transformers, 5 % transformer losses.
[3)] In the case of conventional transformers, take ~20% transformer loss into account.
[4)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[5)] Cannot be combined with a 2way switch.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer, extension [1) 2)] **flush mounted** for connection to 6591 U-101, To be used with Busch-Dimmer®, MDRC 6583. with soft-catch A maximum of 5 multi-way extensions can be connected to a 6591U-101, Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz		
	6592 U-500	2CKA006513A0590	1

[1)] Control elements 2115-xxx and 6540-xxx.
[2)] Required for illuminating the N-connection control element.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4)] **flush mounted, 1-10V** With rotary control. For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC. For LED control via control gears Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Rated power: 700 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	2112 U-101-500	2CKA006599A2873	1/10

[1)] Non-illuminable.
[2)] Use cover plates 2115 J-.../2115-.../6540-... .
[3)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[4)] Making-current limiters have to be provided in case of too high making currents.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1)] **flush mounted, DALI** For DALI broadcast service (via central telegram). For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. Fool proved. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Max. current consumption: 15 mA. Not suitable for combining with other DALI sensors or central units of other manufacturers. An additional DALI power supply is needed, e.g. by Tridonic, Philips, Helvar or 2117/11 U. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate. Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C		
	2117 U-500	2CKA006599A2987	1

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1)] **flush mounted, DALI, with internal power supply** For DALI broadcast service (via central telegram). With integrated DALI power adaptor. For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. With electronic short-circuit protection. With electronic overload protection. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Up to 3 potentiometers are connectable in parallel in active mode. Not suitable for combining with other DALI sensors or central units of other manufacturers. DALI-voltage: 15,5 V= Rated current: max. 75 mA Power consumption: < 2,5 W Number of DALI-units: 37 in case of one active power-potentiometer in case of three active power-potentiometer in parallel connection: 111 Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices. Passive mode: the potentiometer is suitable as additional operation point. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C		
	2117/11 U-500	2CKA006599A2988	1

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Busch-dynasty®
Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Busch-touch dimmer [1) 2)] **flush mounted, RL, 25-500 W** With light-level memory and leading edge control. For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer. Compatible with control covers 6543-xxx-10x. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Parallel operation of several transformers and/or incandescents lamps possible. Without control cover. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Rated power: 25 - 500 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6560 U-101-500	2CKA006560A1207	1/10

[1)] In the case of conventional transformers, take ~20% transformer loss into account.
[2)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Busch touch-dimmer range [1) 2) 3) 4)] **flush mounted, RC, 45-315 W** For switching and dimming 2 independent devices. With trailing edge control. 2gang 1way For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with electronic transformers. Compatible with control covers 6545-xxx. Without cover, without cover plate. Outputs: 2 independent dimmer channels. Rated power: 40-315 W/VA per channel. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz IEC 60669-2-1, British Standard EN 60669-2-1		
	6565 U-500	2CKA006565A0057	1/10

[1)] Not suitable with conventional transformers.
[2)] In case of electronic transformers, 5 % transformer losses.
[3)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[4)] Does not provide an extension input.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-touch dimmer [1) 2) 3) 4)] **flush mounted, RLC, 60-420 W** With light-level memory and intelligence for universal operation. Selectable Soft-ON/OFF function and memory function. Capacity expansion via output-side, parallel connectable load line with a power module 6594 U up to 735 W/VA possible. For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers. Short-circuit-proof, overload-protected. With touch control. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control cover with control lamp 6543-xxx-10x. For Busch-Remote control IR control cover 6066-xxx-10x. For comfort timer control element 6455-101-500. For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101. For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Combinable with Busch-Watchdog extension insert 6805 U. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 60 - 420 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6593 U-500	2CKA006590A0171	1/10

[1)] In the case of conventional transformers, take ~20% transformer loss into account.
[2)] In case of electronic transformers, 5 % transformer losses.
[3)] In conjunction with 6800-xxx-104 (M) a Soft Off can be adjusted.
[4)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Dimmer®, capacity booster [1)] **flush mounted, RLC, 200-315 W** The control is effected by a Busch-Universal master dimmer 6593 U or Busch-Universal rotary dimmer 6591U-101 For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers. Can only be installed in conjunction with a cover plate 2114-xxx and 6541-xxx. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 200 - 315 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6594 U-500	2CKA006590A0172	1

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	Comfort blind insert [1) 2) 3)] **with memory and positioning function** For the manual and automatic control of roller blinds. The roller blind moves to the position set using the turn knob. Executes the individually programmed switching commands (UP/DOWN) in a 24-hour rhythm. Suitable for roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. Power reserve of 45 minutes (maintenance-free as capacitor). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 1.3 A, cos ϕ 0.5 Rated power: 300 VA Temperature range (Device): 0 °C to 35 °C		
	6419 U	2CKA006410A0390	1/10

[1)] Pertinent cover plates 6436-xx.
[2)] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.
[3)] Only suitable for single unit control.

	Basic blind insert [1) 2)] Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. For control cover 6430-xx-xxx. For standard timer control element 6456-101. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Temperature range (Device): 0 °C to 35 °C		
	6418 U-500	2CKA006410A0376	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1)] N-conductor connection required for operation with control cover 6430-7x, illuminated.
[2)] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Blind control II switch insert [1)] Suitable for blind, roller blind and awning drives with mechanical or electronic limit switch shut-off. With two 230 V multi-way input terminals (Up/Down) for group control. With operating mode switch for the following modes: normal, louvre, base station, position. With party function (disables the local control unit) in combination with Busch-Blind control II control cover 6430-xx-xxx, 6066-xx-xxx. Wind alarm, cleaning functions can be accommodated via extension input. For control cover 6430-xx-xxx. For IR control element 6066-xx-xxx. For comfort timer control element 6455-101-500. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Control/Signal outputs: 2 Temperature range (Device): 0 °C to 35 °C		
	6411 U-101	2CKA006410A0377	1/10

[1)] Compatible with types 6411 U/x.

	Burglar alert sensor For insert 6411U/S-101. With 4 m connecting cable.		
	6413-500	2CKA006410A0349	10
	Brightness sensor For insert 6411U/S-101. With 2 m connecting cable. Measuring range: 15-50,000 lux.		
	6414-101	2CKA006410A0389	1/10
	Sun sensor For insert 6411U/S-101. Measuring range: 5-50,000 lux.

[1] Continuous lighting of the turn knob possible using glow lamp 3855. Not included in delivery. Neutral wire required for operation with neon lamp.
[2] Real metal surface refined by hand.

Standard timer control element [1]
For manual and time-controlled switching of blinds and roller blinds.
With dusk to dawn program including (Astro-program)
Individual Astro adjustment and Astro blocking time.
The controlled devices can be manually operated at any time.
Simple setting via high-resolution display with background illumination.
With preset switching times/date/time.
Factory-set switching times can be individually adjusted.
Automatic switchover from summer time to winter time (switch-off function).
Switching times/programme are safely stored in the event of a mains power failure.
Power reserve for time and date > 10 years.
Simple toggling between manual/automatic/vacation modes.
Programming possible only with control element attached and energized.
2 switching times per day can be user-defined for each day of the week.
Astro switching times and switching times can be combined.
For basic blind insert 6418 U.
Temperature range (Device): 0 °C to 35 °C

	6456-101	2CKA006410A0398	1/10

Suitable for 10-Gigabit Ethernet. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Flex cable entries from all sides without buckles. Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed. Suitable for Mix-and-Match operation. Suitable for RJ 11, RJ 12 und RJ 45. For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22. For trunk systems, flush-mounted wall boxes and underfloor systems. Without claws. Mounting depth: 31 mm.		
	0218/11-101	2CKA000230A0409	1/10

[1] Suitable for cover plate 1803-xxx.

Product	Article-No.	Order-No.	Pack/Qty
	Data-connection box, RJ 45, cat. 6a iso, shielded [1] **2 x outlets, 8/8-pole** With down-leading outlet and LSA self-cutting clamps. RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06. Terminal marking A and B according to TIA/EIA-568-B.2. Typ according to EN 60 603-7-51:2011-01. Shielding according to DIN EN 55022, Class B. Up to 500 MHz on all pairs of wires. Suitable for 10-Gigabit Ethernet. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Flex cable entries from all sides without buckles. Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed. Suitable for Mix-and-Match operation. Suitable for RJ 11, RJ 12 und RJ 45. For data cables with a diameter of 6 -10 mm. For trunk systems, flush-mounted wall boxes and underfloor systems. For wires of AWG 24-22. Without claws. Mounting depth: 31 mm.		
	0218/12-101	2CKA000230A0411	1/10

[1] Suitable for cover plate 1803-02-xxx.

	**Universal data connection box 8(6)/ telephone unit 6F+N - connection box** [1] **2 x 6-pole** with straight outlet, with screw contacts, Universal data-connection boxes: RJ 11/12, ISDN capable Cat. 3 in acc. with IEC 603-7/German Standard DIN EN 60603-7, Telecommunication outlet (telephone unit): for 1 telephone, 1 auxiliary device or 1 data transmission unit, With claw.		
white	**UAE 8(6)TAE 6 F+N**	2CKA000230A0381	10/100

[1] Suitable for cover plate 2539-xxx, 1766-xxx and 1746-2xx-FN.

	**Satellite co-axial outlets 2 connectors/dead-end feeder** Broadband technology 5-2.400 MHz For DVB-T, satellite and broad-band cable systems. For analogue and digital transmission. With claw. Minimal installation depth, class A.		
	0230-101	2CKA000230A0250	10/100

	**Satellite co-axial outlets Radio/TV/SAT 3gang dead-end feeder** Broadband technology 47-2.150 MHz. SAT connection designed as screwable F-male plug. with remote feed via F-bush For DVB-T and broadband-cable-systems. For analogue and digital transmission. With claw. Minimal installation depth, class A.

	Terminating resistor 75 Ohm		
	0239	2CKA000230A0201	10/100
	Mounting plate [1) 2)] **with green insert** For 2 modular jack inserts. For systems: CommScope (AVAYA / AT&T / Lucent Technologies), GigaSPEED, PowerSUM, 360 GS 10E bis MGS 600-BK, M1 BH-xx, MPS 100E-xx. With R&M adapter R310694 suitable for R&M connection modules R305111, R305112, R305113 and R305114. Pitch dimensions: (WxH) approx. 16.9 x 17.9 mm. Without claws.		
	1810	2CKA001753A8048	10/100
	1810-500	2CKA001753A9974	10/100
	Mounting plate [1) 2)] **with red insert** For 2 modular jack inserts. Suitable for Art. Nos. 0210, 0211 and 0219-101. For systems: AMP / tyco Electronics, BTR, EFB, Krone, Panduit, Quante, Radiall, Setec, Dr.-Ing. Sieger, Telena, Thomas & Betts For Telegärtner AMJ/UMJ connection modules/ couplings. For 2 fiber optic modules of the following types: 3M-Volition, Krone, mvk. Pitch dimensions: (WxH) approx. 14.8 x 19.4 mm. Without claws.		
	1812-500	2CKA001753A9972	10/100
	Mounting plate [1) 2)] **with black insert** For MTRJ or 2 modular jack inserts. For systems: Ackermann, AMP / tyco Electronics (Slim Line (SL) -SM 2gang/switches: 110Connect Jacks, Toolless Jacks / Standard 110Connect Jacks), Brand-Rex, CombiNet, EFB Electronic, Telena. For 2 fiber optic modules of the following types: AMP / tyco Electronics MTRJ. Pitch dimensions: (WxH) approx. 14.8 x 20.4 mm. Without claws.

	Universal module, RJ 45, cat. 6a iso, shielded [1] **1gang** For installation in installation adapter 0219/12 or 0219/13. Also suited for mounting into cover plate 2561 and bases 1812, 1866 EB, and 1867 EB. RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06. Cat. 6A according to ISO/IEC 11801: 2011-06. Terminal marking A and B according to TIA/EIA-568-B.2. Typ according to EN 60 603-7-51:2011-01. Shielding according to DIN EN 55022, Class B. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Bend-radius optimised cable feed (30°). Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed. Suitable for Mix-and-Match operation. For 8-pole plug RJ 45 only. Housing made from diecast zinc. With integrated dust-protection cap (can be removed if necessary). With insulation displacement connection For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22. For trunk systems, flush-mounted wall boxes and underfloor systems.		
	0219-101	2CKA000230A0413	1/10

[1] With assembly adapters appropriate for telephone unit cover plates 2539-21x and 1766-xxx.

	Modular-Jack insert **6-pole Cat. 3 (AMP-No. 216000-2)** For cover plate 2561- and insert 1812, 1866 built-in, 1867 built-in. For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).		
	0210	2CKA000225A0078	10

	Modular-Jack insert **8-pole Cat. 3 (AMP-No. 216005-4)** For cover plate 2561- and insert 1812, 1866 built-in, 1867 built-in. For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).		
	0211	2CKA000225A0086	10

	Built-in jack For potential balancing jack cover plate and installation in cover plates. For devices of 19 mm diameter.		
	0471-0-0037	2CKA000471A0037	10

Product	Article-No.	Order-No.	Pack/Qty
	Potential balancing plug Suitable for plug 2095 UC-212 and built-in jack 0471-0-0037 acc. to German Standard DIN 42801. For potential balancing jack cover plate (connection up to 6 mm² crimped or soldered).

	Busch-DigitalRadio [1) 2) 3) 4) 5)] RDS stereo radio alarm clock for flush-mounted installation. Reception frequency: 87.50 MHz - 108.00 MHz. With display and background illumination. With external input for Busch-iDock. Remote control possible via Busch-iDock. For mono/stereo operation. 8 radio stations storable. With time display. With alarm function. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated antenna. With additional connection for external antenna. Permitted speaker impedance: 4 - 8 Ohm Can be installed as 1gang and in multiple combinations. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 5 °C to 40 °C Dimensions: (L x W x D): 71 mm x 71 mm x 49 mm Mounting depth: 34 mm		
	8215 U-500	2CKA008200A0182	1/10

[1)] No claw. Screw-fixing via keyholes.
[2)] Matching loudspeaker insert 8223 U.
[3)] Also combinable with built-in ceiling loudspeaker (8225 EB & 8226 EB) and HiFi built-in ceiling loudspeaker (8226/11 EB).
[4)] Can also be combined with built-in loudspeaker (8222 EB) and moist atmosphere loudspeaker (8224 EB).
[5)] To be mounted only in connection with commercially available flush-mounted installation boxes according to DIN 49073 > 40 mm depth gauge or Busch-Jaeger art. no. 3040, 3050 or 3060.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Radio iNet [1) 2) 3) 4)] WLAN Internet radio alarm clock for flush-mounted installation. For the reception of national and international radio stations via Internet. Radio station search possible via various genres. With high resolution graphic display and background illumination. With external input for Busch-iDock. Remote control possible via Busch-iDock. Integrated web-server for configuration and control. Remote operation with smartphone via browser surface. UPnP replay function. It is controlled via smartphone. For mono/stereo operation. 8 radio stations storable. With time and date display. With alarm function. With short-time timer. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated WLAN antenna. WLAN standards: IEEE 802.11b / IEEE 802.11g. WLAN safety: WPA / WPA2. Permitted speaker impedance: 4 - 8 Ohm Can be installed as 1gang and in multiple combinations. Rated voltage: 110 - 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 5 °C to 40 °C Dimensions: (L x W x D): 71 mm x 71 mm x 49 mm Mounting depth: 33 mm APP		
	8216 U-500	2CKA008200A0153	1/10

[1)] No claw. Screw-fixing via keyholes.
[2)] Matching loudspeaker insert 8223 U.
[3)] Can also be combined with built-in loudspeaker (8222 EB) and moist atmosphere loudspeaker (8224 EB).
[4)] To be mounted only in connection with commercially available flush-mounted installation boxes according to DIN 49073 > 40 mm depth gauge or Busch-Jaeger art. no. 3040, 3050 or 3060.

	Loudspeaker insert [1)] **5 cm (2")** For Busch-DigitalRadio 8215 U/8216 U. For Busch-Radio iNet 8216 U. For Busch-Radio BTconnect 8217 U. For Busch Bluetooth receiver 8219 U. With broadband characteristics. With flat plug connector. Incl. speaker connection cable. Rated output: 2 W (RMS) Frequency response: 200 - 20,000 Hz Impedance: 4 Ohm Protection class (Device): IP 20, SELV Mounting depth: 32 mm		
	8223 U-500	2CKA008200A0183	1/10

[1)] No claw. Screw-fixing via keyholes.

[1] Please follow the recommendations of the cable and device producers for the max. VGA cable lengths.

Product	Article-No.	Order-No.	Pack/Qty
	USB connection unit [1] **with screw-type terminals and strain relief** Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx. To link mobile devices like e.g. printer, scanner, USB-sticks or digital cameras etc. USB-type A, USB 2.0 compatible. For 5-wire USB- cables via srew-type terminals. For trunk systems, flush-mounted wall boxes and underfloor systems. For easy installation and to follow the valid bending radii the "Kaiser- electronic-wall-box" type 1068-02 or 9062-74 is recommended. Without cover plate. Without claws. Mounting depth: 34 mm

Busch-dynasty®

Room thermostats

Product	Article-No.	Order-No.	Pack/Qty

Room thermostat, flush-mounted [1) 2) 3)]
NC contact
Switch contact opens when the set temperature is reached.
With fixing claws.
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 10 A
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1094 U-500	2CKA001032A0512	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] Servo-valves, "closed when de-energized", are necessary for connection to thermostat. e.g. Article No. 6164/10-, see KNX chapter.
[3)] Switching temperature difference: ± 0.5 K.

Room thermostat, flush-mounted [1) 2) 3)]
NC contact, slide switch
With built-in slide switch and control lamp for nightly reduction of 4 K.
Switch contact opens when the set temperature is reached.
With fixing claws.
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 10 A
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1095 U-500	2CKA001032A0514	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] Servo-valves, "closed when de-energized", are necessary for connection to thermostat. e.g. Article No. 6164/10-, see KNX chapter.
[3)] Switching temperature difference: ± 0.5 K.

Product	Article-No.	Order-No.	Pack/Qty

Room thermostat, flush-mounted [1) 2) 3)]
NC contact, sliding switch, 24 V
With built-in slide switch and control lamp for nightly reduction of 4 K.
Switch contact opens when the set temperature is reached.
With fixing claws.
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 24 V~
Rated current: 1 A
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1096 U	2CKA001032A0485	1
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] Servo-valves, "closed when de-energized", are necessary for connection to thermostat. e.g. Article No. 6164/10.
[3)] Switching temperature difference: ± 0.5 K.

Room thermostat, flush-mounted [1) 2) 3)]
1gang 2way
With fixing claws.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 5 A
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1097 U-500	2CKA001032A0513	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] Servo valves of "closed or open when de-energized" design are required for the controller. E.g. article no. 6164/10-101.
[3)] Switching temperature difference: ± 0.5 K.

Busch-dynasty®
Room thermostats

Product	Article-No.	Order-No.	Pack/Qty

Room thermostat, flush-mounted [1) 2) 3)]
NC contact, actual value indication
With actual value temperature display
Automatic controller calibration
Switch contact opens when the set temperature is reached.
With fixing claws.
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~

Busch-dynasty®

WaveLINE control elements

Product	Article-No.	Order-No.	Pack/Qty
	Wall-mounted transmitter WaveLINE [1) 2)] **1-channel** 1gang wall-mounted transmitter independent of mains power supply. With labelling field and labelling strip. For switching and dimming. For controlling blinds and light scenes. 1 radio channel can be operated or up to 2 light scenes can be called up. For flush-mounted WaveLINE actuators 6701-101, 6702, 6703, 6704 and 6705-101. For LED display WaveLINE 6730-xxx. Compatible with WaveLINE KNX gateway TP-RF 6770. Send frequency: 868 MHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery Type CR2032. Battery service life: typically 5 years, therefore practically maintenance-free. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Control element: rocker switch left/right Display elements: LED to indicate the transmission Rated voltage: 3 V- Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 16 mm

	Control element, 2/4gang, with RTC [1) 2) 3)] **multi-function/colour concept** With labelling field. For ABB i-bus® KNX bus coupler 6120/12-101, 6120/13. Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. Rocker switch left/right (switching/dimming/blind/ value sender/light scenes/fan function). Rocker switch left/right (switching/dimming/blind/ value sender/light scenes/fan function). The controller is a constant room temperature controller for ventilator convectors (fan coils) in 2-pipe and 4-pipe systems and conventional heating or cooling systems. The fan stage can be switched manually or in automatic mode. Transparent labelling sheet with standard symbols included in delivery. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Control element: Switch contacts left/right, also for selecting setpoint and mode of operation. Display elements: LCD displaying operation mode, temperature, time and date Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm

Busch-dynasty®

free@home control elements

Product	Article-No.	Order-No.	Pack/Qty
	Movement detector/switch actuator, 1gang [1) 2)] **for ABB-free@home®** With select lens for detection with animal access. For automatic switching of ABB-free@home® actuators dependent on movement and brightness. Switch-off delay of the actuator can be programmed via the web interface of the System Access Point. For switching 127 V~/230 V~ consumers. With integrated switch actuator. Switching function is available also without prior programming (pre-configured). Configuration can be changed later via the web interface (groups, scenes, etc.). The bus can be connected via enclosed terminal block. When installing in the flush-mounted box, a spatial division between the bus cable and 127 V/230 V installation cable is to be adhered to! If this minimum distance is not possible, use electronic boxes or insulating tubes. Bus voltage: 24 V Outputs: 1x Normally open contact, potential free Suitable for: ohmic Rated current: 10 A Output voltage: 230 V~ Rated power: 2300 W Suitable for: capacitive Rated current: 10 AX Rated power: 2300 VA Suitable for: inductive Rated current: 10 AX Rated power: 2300 VA Detection range: frontal: 6 m, lateral: 3 m Detection angle: 180 ° Brightness limit value: 1 Lux - 500 Lux Mounting height: 1.1 m - 1.3 m Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 71 mm x 71 mm x 53 mm Mounting depth: 32 mm Position for installation: vertical

pure stainless steel
Lasts a lifetime.

Fascinatingly bold straight lines in a time proof material. It is pure stainless steel. Fingerprints? It is impossible, thanks to the unique finishing. An accord of aesthetics, functions and durability. Absolute quality. Pure stainless steel is simply permanent.

01 Switch/push-switch
02 2gang-1way/2way switch
03 Busch-Blind control switch
04 Busch-Comfort switch
05 20A double pole switch with marking and indicator

Colour: stainless steel

Materials
The series is surface-coated in a special manufacturing process. This means that fingerprints or other greasy spots are reduced to a minimum (anti-fingerprint).

ANTI FINGERPRINT

pure stainless steel

Rocker switches / push switches

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker Switch Mechanism** [1] Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	1gang 2way **2000/6 US-500**	2CKA001012A2198	10/100
	2gang 1way **2000/5 US-500**	2CKA001012A1150	10/100
	DP, 1gang 2way **2000/6/2 US**	2CKA001012A0954	10
	1gang intermediate **2000/7 US-500**	2CKA001012A2199	10/100
	DP, 1gang 1way **2000/2 US-500**	2CKA001012A2196	10/100
	SP, 1gang 1way switch **2000/1 US-500**	2CKA001012A2059	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Rocker Switch Mechanism [1] **2gang 2way** With screwless terminals. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	2000/6/6US-101-500	2CKA001011A0928	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Rocker Switch Mechanism [1] [2] **DP, 1gang 1way** For switching high loads. Rated voltage: 250 V~ Rated current: 16 AX IEC 60669-1		
	2000/2 US-101-500	2CKA001012A2193	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Also for switching SCHUKO® socket outlets.

Product	Article-No.	Order-No.	Pack/Qty
	Rocker Switch Mechanism [1] [2] **3-pole, 1gang 1way switch** Rated voltage: 400 V~ Rated current: 16 AX IEC 60669-1		
	2000/3 US	2CKA001011A0816	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] With screw-type terminals. Non-illuminable.

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker Switch Mechanism** [1] With neon lamp 8338-1. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	1gang 2way [2] **2000/6 USGL-500**	2CKA001012A2194	10/100
	2gang 1way **2000/5 USGL**	2CKA001012A1135	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Replacement lamps 8360, 8362, and 8363 and LED inserts.

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker Switch Mechanism, control** [1] [2] [3] With neon lamp. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	1gang 2way with N-terminal **2000/6 USK-500**	2CKA001022A0659	10/100
	DP, 1gang 1way **2000/2 UK**	2CKA001022A0656	10

[1] With 1 mA neon lamp.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[3] Illuminable by using lamps 8360, 8362, 8363, 8365, 8366, and 8367 and LED inserts.

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] **SP, with normally open contact (operating current)** With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC 60669-1		
	2020 US	2CKA001413A0475	10/100
	2020 US-500	2CKA001413A0574	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] **SP, with normally open contact (operating current)** With 2 independent signalling contacts. Rated voltage: 250 V~ Inputs: 1 Outputs: 1 Rated current: 10 A IEC 60669-1		
	2020 US-201	2CKA001413A0483	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] [2] [3] **SP, with normally open contact (operating current)** With illumination. With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC 60669-1		
	2020 USGL-500	2CKA001413A1106	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Replacement lamps 8360, 8362, and 8363 and LED inserts.
[3] For relay and touch dimmer applications.

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] With one input terminal and 2 actuating covers. Rated voltage: 250 V~ Inputs: 1 Outputs: 2x Normally open contact Rated current: 10 A IEC 60669-1		
	2020 US-205-500	2CKA001413A1105	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

pure stainless steel

Rocker switches / push switches

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] **2 x SP, 2 normally open contact** 2 normally open contacts. Rated voltage: 250 V~ Inputs: 2 Outputs: 2x Normally open contact Rated current: 10 A IEC 60669-1		
	2020 US-205-101	2CKA001413A0509	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] **SP, 1gang 2way** Can be wired for normally open contacts (stand-by current) or normally closed contacts (operating current). With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC 60669-1		
	2020 US-206-500	2CKA001413A1104	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Rocker For flush-mounted switch 1g1w, 1g2w, intermediate, push switch. Material stainless steel. Anti fingerprint.		
stainless steel	**1786-866-500**	2CKA001751A3077	10/100
	Rocker For flush-mounted switch 2g 1w, 2g push switch. Material stainless steel. Anti fingerprint.		
stainless steel	**1785-866-500**	2CKA001751A3087	10/100
	Rocker **with small red spherical cap** As cover for flush-mounted 1gang 1way, 1gang 2way switch, intermediate switch, push-button and control switch 1gang 2way. Material stainless steel. Anti fingerprint.		
stainless steel	**1789-866**	2CKA001751A2957	10/100
	Switch rocker with marking **with small transparent lens** With symbol. As cover for flush-mounted 1gang 1way, 1gang 2way switch, intermediate switch, push-button and control switch 1gang 2way. Material stainless steel. Anti fingerprint.		
stainless steel	**1789 LI-866**	2CKA001751A2958	10

Product	Article-No.	Order-No.	Pack/Qty
	Switch rocker with marking **with small transparent lens** With key symbol. For flush-mounted push switch. Material stainless steel. Anti fingerprint.		
stainless steel	**1789 TR-866**	2CKA001751A2960	10
	Switch rocker with marking **with small transparent lens** With bell symbol. For flush-mounted push switch. Material stainless steel. Anti fingerprint.		
stainless steel	**1789 KI-866**	2CKA001751A2959	10
	Rocker [1] [2] **with labelling field** With pilot lamp for uniform illumination of the labelling field. For flush-mounted switch 1g1w, 1g2w, intermediate, push switch. Size of labelling field: 59.7 x 11.7 mm. Surface painted.		
stainless steel	**1764 NLI-866**	2CKA001731A1953	10

[1] For compatible lettering software, visit www.BUSCH-JAEGER-labelingtool.com.
[2] Illumination using neon lamp 8353 or incandescent lamp 8344-1 and LED inserts.

Product	Article-No.	Order-No.	Pack/Qty
	Switch rocker with marking **with small red spherical cap** With imprint "0" and "I". As cover for 2-pole or 3-pole flush-mounted on-off switch and 2-pole control on-off switch. Material stainless steel. Anti fingerprint.		
stainless steel	**1788-866**	2CKA001751A2961	10
	Switch rocker with marking **with small red spherical cap** With marking "Heizung". As cover for flush-mounted 1gang 1way, 1gang 2way switch, intermediate switch, push-button and control switch 1gang 2way. As cover for 2-pole or 3-pole flush-mounted on-off switch and 2-pole control on-off switch. Material stainless steel. Anti fingerprint.		
stainless steel	**1789 H-866**	2CKA001751A2963	10
	Switch rocker with marking For flush-mounted switch 1g1w, 1g2w, intermediate, push switch. DO NOT DISTURB Material stainless steel. Anti fingerprint.		
stainless steel	**1786/11-866**	2CKA001751A3002	10
	Switch rocker with marking For flush-mounted switch 2g 1w, 2g push switch. DO NOT DISTURB MAKE UP ROOM Material stainless steel. Anti fingerprint.		
stainless steel	**1785/11-866**	2CKA001751A2996	10

pure stainless steel

Rocker switches

Product	Article-No.	Order-No.	Pack/Qty
	Card switch 10 A [1] **SP, with normally open contact (operating current)** Illuminable. With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC60669-1, British Standard EN 60669-1		
	2025 U	2CKA001012A1713	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
delivery form:	Adapter plate APBS to be ordered separate.		

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Cover plate For card switch. For insert 2025 U. Suitable for cards sized 54 x 86 mm. The inner part of the cover plate is made of light--conducting plastic, so that the card slot is illuminated. Material stainless steel. Anti fingerprint.		
stainless steel	**1792-866**	2CKA001710A3757	10

	Pull switch [1] **SP, with normally open contact (operating current)** With 2-metre pull cord, red handle, and red neon indicator. Rated voltage: 250 V~ Rated current: 10 A		
	2020/01 US	2CKA001413A1077	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Pull switch [1] **SP, break contact** With 2-metre pull cord, red handle, and red neon indicator. Rated voltage: 250 V~ Rated current: 10 A		
	2020/10 US	2CKA001413A1076	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Rocker **open for red pull switch neon indicator** For pull switch 2020/xx US. Material stainless steel. Anti fingerprint.		
stainless steel	**1720-866**	2CKA001731A1954	10

	Three-step rotary switch [1] **SP, with zero position** With zero position. Rated voltage: 250 V~ Rated current: 16 A		
	2710 U	2CKA001101A0918	1/10

[1] Install only in conjunction with wall boxes ø 60 mm.

	Three-step rotary switch [1] **SP, without zero position** Without zero position. Rated voltage: 250 V~ Rated current: 16 A		
	2710/1 U	2CKA001101A0919	1/10

[1] Install only in conjunction with wall boxes ø 60 mm.

	Cover plate **with rotary control, with marking** As cover for flush mounted three-step rotary switch. With zero position. For insert 2710 U. Material stainless steel. Anti fingerprint.		
stainless steel	**2542 DR/01-866**	2CKA001710A3758	10

	Cover plate **with rotary control, with marking** As cover for flush mounted three-step rotary switch. Without zero position. For insert 2710/1 U. Material stainless steel. Anti fingerprint.		
stainless steel	**2542 DR/02-866**	2CKA001710A3759	10

pure stainless steel
Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5) 6) 7)] **Flush-mounted, LED, 2-100 W** With rotary control, two-way switch and soft-catch. 2-wire connection (neutral conductor not required) Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. Via mode switch adjustable between leading edge control and trailing edge control. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 250 W/VA (non-LED loads). Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C IEC 60669-2-1, British Standard EN 60669-2-1 		
	6523 U-102-500	2CKA006512A0335	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Also applicable for 1gang 2way installations.
[5)] Provided with terminal for net disconnection devices.
[6)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[7)] Recommendation: Please use loads and types of one producer.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-touch dimmer [1) 2) 3) 4) 5) 6)] **Flush-mounted, LED, 2-100 W** Touch dimmer. 2-wire connection (neutral conductor not required) Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA) Optimised for dimming of retrofit LED lamps (LEDi). For incandescent lamps, 230V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers and dimmable halogen energy-saving lamps. Mix operaton of LEDi with conventional loads possible. With adjustable minimum brightness. The minimum brightness for the leading edge control can be adjusted using the potentiometer. The potentiometer at the left limit stop corresponds with the trailing edge control mode. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With light-level memory and minimum brightness memory. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control cover with control lamp 6543-xxx-10x. For Busch-Remote control IR control cover 6066-xxx-10x. For comfort timer control element 6455-101-500. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 200 W/VA (non-LED loads). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C IEC 60669-2-1, British Standard EN 60669-2-1 		
	6526 U-500	2CKA006512A0323	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[5)] Recommendation: Please use loads and types of one producer.
[6)] In connection with 6810-21x-101 and 6800-xx-104 (M) only suitable for switching retrofit LEDs (for 2-conductor connection).

	Busch-rotary dimmer [1) 2) 3) 4)] **flush mounted, R, 60-600 W** With rotary control, 2way On-Off switching and soft-catch. Leading Edge control. For incandescent lamps and 230 V tungsten halogen lamps. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 60 - 600 W IEC 60669-2-1, British Standard EN 60669-2-1 		
	2250 U-500	2CKA006515A0848	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] Also applicable for 1gang 2way installations.
[3)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[4)] Provided with terminal for net disconnection devices.

pure stainless steel

Dimmers

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1) 2) 3) 4) 5)]
flush mounted, RL, 20-500 W
With rotary control, 2way On-Off switching and soft-catch.
Leading Edge control.
For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer.
With adjustable minimum brightness.
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Rated power: 20 - 500 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	2247 U-500	2CKA006512A0302	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Provided with terminal for net disconnection devices.
[4)] Also applicable for 1gang 2way installations.
[5)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Busch-rotary dimmer [1) 2) 3) 4) 5) 6)]
UP, RL, 200-700 W
With rotary control, 2way On-Off switching and soft-catch.
Leading Edge control.
For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer.
Short-circuit-proof, overload-protected.
With adjustable minimum brightness.
Without cover plate.
Without claws.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Rated power: 200 - 700 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	6520 U-500	2CKA006520A0227	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Provided with terminal for net disconnection devices.
[4)] Also applicable for 1gang 2way installations.
[5)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[6)] Should be mounted in a seperate wallbox.

Busch-2gang switch/rotary dimmer [1) 2) 3)]
flush mounted, RL, 60-400 W
1 channel designed as dimmer.
1 channel designed as switch contact (1gang 2way contact element) with leading edge control
For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer.
With adjustable minimum brightness.
Without cover plate.
Rated current 6A (changeover contact switch output).
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Rated power: 60 - 400 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	6517 U-101-500	2CKA006517A0018	1/10

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Can be used to replace a 2gang 1way switch.

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1) 2) 3) 4) 5) 6)]
flush mounted, RC, 40-420 W
With rotary control, soft-catch and with trailing edge control.
For incandescent lamps, 230 V tungsten halogen lamps and lowvoltage halogen lamps with electronic transformers.
Low-noise, short-circuit-proof, overload-protected.
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Rated power: 40 - 420 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

[2)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Provided with terminal for net disconnection devices.
[5)] Also applicable for 1gang 2way installations.
[6)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

pure stainless steel
Dimmers

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1) 2) 3) 4) 5)]
flush mounted, RLC, 60-420 W
with soft-catch
With intelligence for universal operation.
For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers.
Short-circuit-proof, overload-protected.
Capacity expansion via output-side, parallel connectable load line with a power module 6594 U up to 735 W/VA possible.
Operation via rotary-type remote control 6592 U possible,
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 60 - 420 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	6591 U-101-500	2CKA006513A0588	1/10

[1)] Illuminable with neon lamp 3855. Neon lamp included in delivery with cover plate.
[2)] In case of electronic transformers, 5 % transformer losses.
[3)] In the case of conventional transformers, take ~20% transformer loss into account.
[4)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[5)] Cannot be combined with a 2way switch.

Busch-rotary dimmer, extension [1) 2)]
flush mounted
for connection to 6591 U-101,
To be used with Busch-Dimmer®, MDRC 6583.
with soft-catch
A maximum of 5 multi-way extensions can be connected to a 6591U-101,
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz

	6592 U-500	2CKA006513A0590	1

[1)] Control elements 2115-xxx and 6540-xxx.
[2)] Required for illuminating the N-connection control element.

Busch-rotary dimmer [1) 2) 3) 4)]
flush mounted, 1-10V
With rotary control.
For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC.
For LED control via control gears
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 700 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	2112 U-101-500	2CKA006599A2873	1/10

[1)] Non-illuminable.
[2)] Use cover plates 2115 J-.../2115-.../6540-... .
[3)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[4)] Making-current limiters have to be provided in case of too high making currents.

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1)]
flush mounted, DALI
For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
An additional DALI power supply is needed, e.g. by Tridonic, Philips, Helvar or 2117/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

	2117 U-500	2CKA006599A2987	1

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Busch-rotary dimmer [1)]
flush mounted, DALI, with internal power supply
For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
With electronic short-circuit protection.
With electronic overload protection.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

	2117/11 U-500	2CKA006599A2988	1

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

pure stainless steel
Dimmers

Product	Article-No.	Order-No.	Pack/Qty

Busch-touch dimmer [1) 2)]
flush mounted, RL, 25-500 W
With light-level memory and leading edge control.
For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer.
Compatible with control covers 6543-xxx-10x.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Parallel operation of several transformers and/or incandescents lamps possible.
Without control cover.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 25 - 500 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

6560 U-101-500	2CKA006560A1207	1/10

[1)] In the case of conventional transformers, take ~20% transformer loss into account.
[2)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Busch touch-dimmer range [1) 2) 3) 4)]
flush mounted, RC, 45-315 W
For switching and dimming 2 independent devices.
With trailing edge control.
2gang 1way
For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with electronic transformers.
Compatible with control covers 6545-xxx.
Without cover, without cover plate.
Outputs: 2 independent dimmer channels.
Rated power: 40-315 W/VA per channel.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
IEC 60669-2-1, British Standard EN 60669-2-1

6565 U-500	2CKA006565A0057	1/10

[1)] Not suitable with conventional transformers.
[2)] In case of electronic transformers, 5 % transformer losses.
[3)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[4)] Does not provide an extension input.

Product	Article-No.	Order-No.	Pack/Qty

Busch-touch dimmer [1) 2) 3) 4)]
flush mounted, RLC, 60-420 W
With light-level memory and intelligence for universal operation.
Selectable Soft-ON/OFF function and memory function.
Capacity expansion via output-side, parallel connectable load line with a power module 6594 U up to 735 W/VA possible.
For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers.
Short-circuit-proof, overload-protected.
With touch control.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control cover with control lamp 6543-xxx-10x.
For Busch-Remote control IR control cover 6066-xxx-10x.
For comfort timer control element 6455-101-500.
For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101.
For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M.
For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx.
Combinable with Busch-Watchdog extension insert 6805 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Rated power: 60 - 420 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

6593 U-500	2CKA006590A0171	1/10

[1)] In the case of conventional transformers, take ~20% transformer loss into account.
[2)] In case of electronic transformers, 5 % transformer losses.
[3)] In conjunction with 6800-xxx-104 (M) a Soft Off can be adjusted.
[4)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Busch-Dimmer®, capacity booster [1)]
flush mounted, RLC, 200-315 W
The control is effected by a Busch-Universal master dimmer 6593 U or Busch-Universal rotary dimmer 6591U-101
For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers.
Can only be installed in conjunction with a cover plate 2114-xxx and 6541-xxx.
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Rated power: 200 - 315 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	Comfort blind insert [1) 2) 3)] **with memory and positioning function** For the manual and automatic control of roller blinds. The roller blind moves to the position set using the turn knob. Executes the individually programmed switching commands (UP/DOWN) in a 24-hour rhythm. Suitable for roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. Power reserve of 45 minutes (maintenance-free as capacitor). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 1.3 A, cos ϕ 0.5 Rated power: 300 VA Temperature range (Device): 0 °C to 35 °C		
	6419 U	2CKA006410A0390	1/10

[1)] Pertinent cover plates 6436-xx.
[2)] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.
[3)] Only suitable for single unit control.

	Basic blind insert [1) 2)] Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. For control cover 6430-xx-xxx. For standard timer control element 6456-101. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Temperature range (Device): 0 °C to 35 °C		
	6418 U-500	2CKA006410A0376	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1)] N-conductor connection required for operation with control cover 6430-7x, illuminated.
[2)] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Blind control II switch insert [1)] Suitable for blind, roller blind and awning drives with mechanical or electronic limit switch shut-off. With two 230 V multi-way input terminals (Up/Down) for group control. With operating mode switch for the following modes: normal, louvre, base station, position. With party function (disables the local control unit) in combination with Busch-Blind control II control cover 6430-xx-xxx, 6066-xx-xxx. Wind alarm, cleaning functions can be accommodated via extension input. For control cover 6430-xx-xxx. For IR control element 6066-xx-xxx. For comfort timer control element 6455-101-500. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Control/Signal outputs: 2 Temperature range (Device): 0 °C to 35 °C		
	6411 U-101	2CKA006410A0377	1/10

[1)] Compatible with types 6411 U/x.

	Burglar alert sensor For insert 6411U/S-101. With 4 m connecting cable.		
	6413-500	2CKA006410A0349	10
	Brightness sensor For insert 6411U/S-101. With 2 m connecting cable. Measuring range: 15-50,000 lux.		
	6414-101	2CKA006410A0389	1/10
	Sun sensor For insert 6411U/S-101. Measuring range: 5-50,000 lux.

stainless steel	**6436-866**	2CKA006430A0362	10

[1] Continuous lighting of the turn knob possible using glow lamp 3855. Not included in delivery. Neutral wire required for operation with neon lamp.
[2] Surface painted.

Product	Article-No.	Order-No.	Pack/Qty
	Standard timer control element [1] For manual and time-controlled switching of blinds and roller blinds. With dusk to dawn program including (Astro-program) Individual Astro adjustment and Astro blocking time. The controlled devices can be manually operated at any time. Simple setting via high-resolution display with background illumination. With preset switching times/date/time. Factory-set switching times can be individually adjusted. Automatic switchover from summer time to winter time (switch-off function). Switching times/programme are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/automatic/vacation modes. Programming possible only with control element attached and energized. 2 switching times per day can be user-defined for each day of the week. Astro switching times and switching times can be combined. For basic blind insert 6418 U. Temperature range (Device): 0 °C to 35 °C		
	6456-101	2CKA006410A0398	1/10

Cat. 6 according to DIN EN 50173-1:2003-06, ISO/IEC 1180:2002, and TIA/EIA-568-B.2:2002. Marking in accordance with EIA/TIA 568 A and B. According to EN 60 603-7-3:2010-06. Shielding according to DIN EN 55022, Class B. Up to 250 MHz on all pairs of wires. Suitable for Gigabit Ethernet. Suitable for PoE+ according to IEEE 802.3at, >- 2.500 contact durability. Flex cable entries from all sides without buckles. Earthing of housing via 6,3 mm blade terminal at the back possible. Suitable for Mix-and-Match operation. Suitable for RJ 11, RJ 12 und RJ 45. Clearly colour-coded connection identification. For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22. For trunk systems, flush-mounted wall boxes and underfloor systems. Without claws. Mounting depth: 31 mm.		
	0217-102	2CKA000230A0467	1/10

[1] Suitable for cover plate 1803-02-xxx.

Product	Article-No.	Order-No.	Pack/Qty
	Data-connection box, RJ 45, cat. 6a iso, shielded [1] **1gang** With down-leading outlet and LSA self-cutting clamps. RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06. Terminal marking A and B according to TIA/EIA-568-B.2. Typ according to EN 60 603-7-51:2011-01. Shielding according to DIN EN 55022, Class B. Up to 500 MHz on all pairs of wires. Suitable for 10-Gigabit Ethernet. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Flex cable entries from all sides without buckles. Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed. Suitable for Mix-and-Match operation. Suitable for RJ 11, RJ 12 und RJ 45. For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22. For trunk systems, flush-mounted wall boxes and underfloor systems. Without claws. Mounting depth: 31 mm.

	Terminating resistor 75 Ohm		
	0239	2CKA000230A0201	10/100
	Mounting plate [1) 2)] **with green insert** For 2 modular jack inserts. For systems: CommScope (AVAYA / AT&T / Lucent Technologies), GigaSPEED, PowerSUM, 360 GS 10E bis MGS 600-BK, M1 BH-xx, MPS 100E-xx. With R&M adapter R310694 suitable for R&M connection modules R305111, R305112, R305113 and R305114. Pitch dimensions: (WxH) approx. 16.9 x 17.9 mm. Without claws.		
	1810	2CKA001753A8048	10/100
	1810-500	2CKA001753A9974	10/100
	Mounting plate [1) 2)] **with red insert** For 2 modular jack inserts. Suitable for Art. Nos. 0210, 0211 and 0219-101. For systems: AMP / tyco Electronics, BTR, EFB, Krone, Panduit, Quante, Radiall, Setec, Dr.-Ing. Sieger, Telena, Thomas & Betts For Telegärtner AMJ/UMJ connection modules/ couplings. For 2 fiber optic modules of the following types: 3M-Volition, Krone, mvk. Pitch dimensions: (WxH) approx. 14.8 x 19.4 mm. Without claws.		
	1812-500	2CKA001753A9972	10/100
	Mounting plate [1) 2)] **with black insert** For MTRJ or 2 modular jack inserts. For systems: Ackermann, AMP / tyco Electronics (Slim Line (SL) -SM 2gang/switches: 110Connect Jacks, Toolless Jacks / Standard 110Connect Jacks), Brand-Rex, CombiNet, EFB Electronic, Telena. For 2 fiber optic modules of the following types: AMP / tyco Electronics MTRJ. Pitch dimensions: (WxH) approx. 14.8 x 20.4 mm. Without claws.

	Universal module, RJ 45, cat. 6a iso, shielded [1] **1gang** For installation in installation adapter 0219/12 or 0219/13. Also suited for mounting into cover plate 2561 and bases 1812, 1866 EB, and 1867 EB. RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06. Cat. 6A according to ISO/IEC 11801: 2011-06. Terminal marking A and B according to TIA/EIA-568-B.2. Typ according to EN 60 603-7-51:2011-01. Shielding according to DIN EN 55022, Class B. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Bend-radius optimised cable feed (30°). Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed. Suitable for Mix-and-Match operation. For 8-pole plug RJ 45 only. Housing made from diecast zinc. With integrated dust-protection cap (can be removed if necessary). With insulation displacement connection For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22. For trunk systems, flush-mounted wall boxes and underfloor systems.		
	0219-101	2CKA000230A0413	1/10

[1] With assembly adapters appropriate for telephone unit cover plates 2539-21x and 1766-xxx.

	Modular-Jack insert **6-pole Cat. 3 (AMP-No. 216000-2)** For cover plate 2561- and insert 1812, 1866 built-in, 1867 built-in. For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).		
	0210	2CKA000225A0078	10

	Modular-Jack insert **8-pole Cat. 3 (AMP-No. 216005-4)** For cover plate 2561- and insert 1812, 1866 built-in, 1867 built-in. For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).		
	0211	2CKA000225A0086	10

	Built-in jack For potential balancing jack cover plate and installation in cover plates. For devices of 19 mm diameter.		
	0471-0-0037	2CKA000471A0037	10

Product	Article-No.	Order-No.	Pack/Qty
	Potential balancing plug Suitable for plug 2095 UC-212 and built-in jack 0471-0-0037 acc. to German Standard DIN 42801. For potential balancing jack cover plate (connection up to 6 mm² crimped or soldered).		
	0299-0-0032	2CKA000299A0032	10

	Blank plate **with metal mounting plate** Material stainless steel. Anti fingerprint.			
stainless steel	**1742-866**	2CKA001710A3751	10	

	Cover plate [1] **with metal mounting plate** As cover for flex outlet, for cords up to 10.3 mm diameter. With strain relief (without terminal block). Material stainless steel. Anti fingerprint.			
stainless steel	**1749-866**	2CKA001710A3752	10	

[1] Cover plate can also be used individually as cover for telephone connector boxes (VDo).

	Cover plate [1] As cover for universal data connection boxes. Art.-No. 0213 (Cat 3/ISDN), 0216-101, 0218/11-101 (Cat 5e/6 data technology) and comparable types of the company Rutenbeck. For WLAN access points 8186/31 and 8186/41. Brand-Rex (WAEGV 8 EKR/EK). BTR (universal data connecting unit design and IAE design). Telegärtner (AMJ 45, UMJ 45). With down-leading outlet. With labelling field. Size of labelling field: 60 x 9 mm. Material stainless steel. Anti fingerprint.

	Busch-DigitalRadio [1) 2) 3) 4) 5)] RDS stereo radio alarm clock for flush-mounted installation. Reception frequency: 87.50 MHz - 108.00 MHz. With display and background illumination. With external input for Busch-iDock. Remote control possible via Busch-iDock. For mono/stereo operation. 8 radio stations storable. With time display. With alarm function. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated antenna. With additional connection for external antenna. Permitted speaker impedance: 4 - 8 Ohm Can be installed as 1gang and in multiple combinations. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 5 °C to 40 °C Dimensions: (L x W x D): 71 mm x 71 mm x 49 mm Mounting depth: 34 mm		
	8215 U-500	2CKA008200A0182	1/10

[1)] No claw. Screw-fixing via keyholes.
[2)] Matching loudspeaker insert 8223 U.
[3)] Also combinable with built-in ceiling loudspeaker (8225 EB & 8226 EB) and HiFi built-in ceiling loudspeaker (8226/11 EB).
[4)] Can also be combined with built-in loudspeaker (8222 EB) and moist atmosphere loudspeaker (8224 EB).
[5)] To be mounted only in connection with commercially available flush-mounted installation boxes according to DIN 49073 > 40 mm depth gauge or Busch-Jaeger art. no. 3040, 3050 or 3060.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Radio iNet [1) 2) 3) 4)] WLAN Internet radio alarm clock for flush-mounted installation. For the reception of national and international radio stations via Internet. Radio station search possible via various genres. With high resolution graphic display and background illumination. With external input for Busch-iDock. Remote control possible via Busch-iDock. Integrated web-server for configuration and control. Remote operation with smartphone via browser surface. UPnP replay function. It is controlled via smartphone. For mono/stereo operation. 8 radio stations storable. With time and date display. With alarm function. With short-time timer. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated WLAN antenna. WLAN standards: IEEE 802.11b / IEEE 802.11g. WLAN safety: WPA / WPA2. Permitted speaker impedance: 4 - 8 Ohm Can be installed as 1gang and in multiple combinations. Rated voltage: 110 - 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 5 °C to 40 °C Dimensions: (L x W x D): 71 mm x 71 mm x 49 mm Mounting depth: 33 mm APP		
	8216 U-500	2CKA008200A0153	1/10

Room thermostats

Product	Article-No.	Order-No.	Pack/Qty

Room thermostat, flush-mounted [1) 2) 3)]
NC contact
Switch contact opens when the set temperature is reached.
With fixing claws.
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 10 A
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1094 U-500	2CKA001032A0512	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] Servo-valves, "closed when de-energized", are necessary for connection to thermostat. e.g. Article No. 6164/10-, see KNX chapter.
[3)] Switching temperature difference: ± 0.5 K.

Room thermostat, flush-mounted [1) 2) 3)]
NC contact, slide switch
With built-in slide switch and control lamp for nightly reduction of 4 K.
Switch contact opens when the set temperature is reached.
With fixing claws.
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 10 A
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1095 U-500	2CKA001032A0514	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] Servo-valves, "closed when de-energized", are necessary for connection to thermostat. e.g. Article No. 6164/10-, see KNX chapter.
[3)] Switching temperature difference: ± 0.5 K.

Product	Article-No.	Order-No.	Pack/Qty

Room thermostat, flush-mounted [1) 2) 3)]
NC contact, sliding switch, 24 V
With built-in slide switch and control lamp for nightly reduction of 4 K.
Switch contact opens when the set temperature is reached.
With fixing claws.
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 24 V~
Rated current: 1 A
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1096 U	2CKA001032A0485	1
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.

	1098 UF-101	2CKA001032A0509	1/10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Servo valves of "closed or open when de-energized" design are required for the controller. E.g. article no. 6164/10-101.

Electrothermal Valve Drives with function indicator
For the actuation of heaters and cooling ceilings in connection with conventional room temperature controllers (e.g., 1094 U) or KNX, or free@home heating/valve actuators (e.g., 6164/46, 6254/0.XX)).
With function display (opened or closed).
de-energized when closed
Max. opening/closing time: 3.5 min
For installing, a suitable valve adapter is required.
Power input: 4 mA (approx. 1 W)
Inrush current: < 550 mA (max. 100 ms)
Connecting cable: 1.0 m (pluggable)
Rated voltage: 230 V~
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 54
Dimensions: (L x W x D): 59 mm x 45 mm x 53 mm

Product	Article-No.	Order-No.	Pack/Qty
	Wall-mounted transmitter WaveLINE [1) 2) 3)] **4-channel** 4gang wall-mounted transmitter independent of mains power supply. With labelling field and labelling strip. For switching and dimming. For controlling blinds and light scenes. 4 radio channels can be operated or up to 8 light scenes can be called up. For flush-mounted WaveLINE actuators 6701-101, 6702, 6703, 6704 and 6705-101. For LED display WaveLINE 6730-xxx. Compatible with WaveLINE KNX gateway TP-RF 6770. Send frequency: 868 MHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery Type CR2032. Battery service life: typically 5 years, therefore practically maintenance-free. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Surface painted. Control element: rocker switch left/right Display elements: LED to indicate the transmission Rated voltage: 3 VProtection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 16 mm

Product	Article-No.	Order-No.	Pack/Qty
	WaveLINE LED display [1) 2) 3)] For status display of window handle positions: open = red, closed = green, tilted = yellow. Direct onsite operation possible for switching / dimming an electrical device depending on the flush-mounted insert. 4 individual LED display channels. Up to 8 WaveLine transmitters can be taught-in on each LED display channel. Up to 8 WaveLine transmitters can be taught-in on onsite operation. After a power cut all LED-Display channels light in red. The cyclic telegram repeat of the WaveLINE window position sensor 6720-xxx sensor automatically updates the window open state. Status display for depleted WaveLINE transmitter battery. Status display for faulty transmission link and defective WaveLINE transmitter. User-friendly start-up without PC / software. Printed labelling sheet with 8 different inlay sheets. For WaveLINE window position sensor 6720-6x. For WaveLINE 6721-xx universal signalling unit. For Busch-Watchdog 220 WaveLINE 6747 AGM. For Busch-Universal relay switch insert 6404 U. For universal dimmer switch insert 6595 U. Free-field range: approx. 100 m. Send/receive frequency: 868 MHz. Surface painted. Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm

Accessories

Product	Article-No.	Order-No.	Pack/Qty
	Extension of claws [1] For the installation of flush-mounted SCHUKO® socket outlets and also switches, push-buttons, etc. and deeply installed flush-mounted boxes.		
	2148	2CKA002148A0120	100

[1] Not suitable for types 2000/3 US, 2000/6/2 US, 2000/6/6 US-101 and double socket outlets

	Braille symbol self-adhesive (transparent) for cover 2506-xxx		
	light **2144 LI**	2CKA001714A0295	10/1000
	bell **2144 KI**	2CKA001714A0296	10/1000
	key **2144 TR**	2CKA001714A0297	10/1000

	Braille symbol **socket outlet** self-adhesive, transparent for SCHUKO® socket outlets with hinged lid 20 EUK-xxx		
	2144 ST	2CKA001714A0298	10/1000

	DIN A 4 labelling sheet [1] **plastic foil** Suitable for all to be labeled Busch-Jaeger devices. For laser printer. The text of the foil is printed via the Busch-Jaeger labeling service.		
translucent	**1799/02**	2CKA001799A0959	1
transparent	**1799/03**	2CKA001799A0960	1

[1] 1 piece = 1 sheet.

	RC suppressor For protection against the damage or destruction of electronic devices due to overvoltages. For wiring network-interconnected inductivities (e.g.. relay, protection, fluorescent lamps, transformers, etc.). Eliminates functional disturbances on electronic devices, e.g. automatic circuit reclosure (clocking) of a movement detector. Dimensions: diameter 25 mm, length 35 mm, length of the connecting cable approx. 100 mm. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz		
	6899	2CKA006899A0231	10

Cover frames

Product	Article-No.	Order-No.	Pack/Qty
	Cover frame [1] **1gang frame** Material stainless steel. Anti fingerprint.		
stainless steel	**1721-866K-500**	2CKA001754A4500	10/100

[1] Suitable for installation in trunking systems with 80 mm conduit.

	Cover frame [1] **2gang frame** For vertical or horizontal installation. Material stainless steel. Anti fingerprint.		
stainless steel	**1722-866K-500**	2CKA001754A4501	10/100

[1] Suitable for installation in trunking systems with 80 mm conduit.

	Cover frame [1] **3gang frame** For vertical or horizontal installation. Material stainless steel. Anti fingerprint.		
stainless steel	**1723-866K**	2CKA001754A4319	10

[1] Suitable for installation in trunking systems with 80 mm conduit.

	Cover frame [1] **4gang frame** For vertical or horizontal installation. Material stainless steel. Anti fingerprint.		
stainless steel	**1724-866K**	2CKA001754A4320	1

[1] Suitable for installation in trunking systems with 80 mm conduit.

	Cover frame [1] **5gang frame** For vertical or horizontal installation. Material stainless steel. Anti fingerprint.		
stainless steel	**1725-866K**	2CKA001754A4321	1

[1] Suitable for installation in trunking systems with 80 mm conduit.

Rocker switches / push switches

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker Switch Mechanism** [1] Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	1gang 2way **2000/6 US-500**	2CKA001012A2198	10/100
	2gang 1way **2000/5 US-500**	2CKA001012A1150	10/100
	DP, 1gang 2way **2000/6/2 US**	2CKA001012A0954	10
	1gang intermediate **2000/7 US-500**	2CKA001012A2199	10/100
	DP, 1gang 1way **2000/2 US-500**	2CKA001012A2196	10/100
	SP, 1gang 1way switch **2000/1 US-500**	2CKA001012A2059	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Rocker Switch Mechanism [1] **2gang 2way** With screwless terminals. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	2000/6/6US-101-500	2CKA001011A0928	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Rocker Switch Mechanism [1] [2] **DP, 1gang 1way** For switching high loads. Rated voltage: 250 V~ Rated current: 16 AX IEC 60669-1		
	2000/2 US-101-500	2CKA001012A2193	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Also for switching SCHUKO® socket outlets.

	Rocker Switch Mechanism [1] [2] **3-pole, 1gang 1way switch** Rated voltage: 400 V~ Rated current: 16 AX IEC 60669-1		
	2000/3 US	2CKA001011A0816	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] With screw-type terminals. Non-illuminable.

	**Rocker Switch Mechanism** [1] With neon lamp 8338-1. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	1gang 2way [2] **2000/6 USGL-500**	2CKA001012A2194	10/100
	2gang 1way **2000/5 USGL**	2CKA001012A1135	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Replacement lamps 8360, 8362, and 8363 and LED inserts.

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker Switch Mechanism, control** [1] [2] [3] With neon lamp. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	1gang 2way with N-terminal **2000/6 USK-500**	2CKA001022A0659	10/100
	DP, 1gang 1way **2000/2 UK**	2CKA001022A0656	10

[1] With 1 mA neon lamp.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[3] Illuminable by using lamps 8360, 8362, 8363, 8365, 8366, and 8367 and LED inserts.

	**Push-switch mechanism** [1] **SP, with normally open contact (operating current)** With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC 60669-1		
	2020 US	2CKA001413A0475	10/100
	2020 US-500	2CKA001413A0574	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	**Push-switch mechanism** [1] **SP, with normally open contact (operating current)** With 2 independent signalling contacts. Rated voltage: 250 V~ Inputs: 1 Outputs: 1 Rated current: 10 A IEC 60669-1		
	2020 US-201	2CKA001413A0483	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	**Push-switch mechanism** [1] [2] [3] **SP, with normally open contact (operating current)** With illumination. With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC 60669-1		
	2020 USGL-500	2CKA001413A1106	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Replacement lamps 8360, 8362, and 8363 and LED inserts.
[3] For relay and touch dimmer applications.

	**Push-switch mechanism** [1] With one input terminal and 2 actuating covers. Rated voltage: 250 V~ Inputs: 1 Outputs: 2x Normally open contact Rated current: 10 A IEC 60669-1		
	2020 US-205-500	2CKA001413A1105	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Dimmers

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1) 2) 3) 4) 5) 6) 7)]
Flush-mounted, LED, 2-100 W
With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
Via mode switch adjustable between leading edge control and trailing edge control.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
With adjustable minimum brightness.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA (retrofit LED loads).
Nominal power: 10 - 250 W/VA (non-LED loads).
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C
IEC 60669-2-1, British Standard EN 60669-2-1

R,L,C LEDi

6523 U-102-500	2CKA006512A0335	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Also applicable for 1gang 2way installations.
[5)] Provided with terminal for net disconnection devices.
[6)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[7)] Recommendation: Please use loads and types of one producer.

Product	Article-No.	Order-No.	Pack/Qty

Busch-touch dimmer [1) 2) 3) 4) 5) 6)]
Flush-mounted, LED, 2-100 W
Touch dimmer.
2-wire connection (neutral conductor not required)
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
Optimised for dimming of retrofit LED lamps (LEDi).
For incandescent lamps, 230V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers and dimmable halogen energy-saving lamps.
Mix operaton of LEDi with conventional loads possible.
With adjustable minimum brightness.
The minimum brightness for the leading edge control can be adjusted using the potentiometer.
The potentiometer at the left limit stop corresponds with the trailing edge control mode.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
With light-level memory and minimum brightness memory.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control cover with control lamp 6543-xxx-10x.
For Busch-Remote control IR control cover 6066-xxx-10x.
For comfort timer control element 6455-101-500.
For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx.
Nominal power: 2 - 100 W/VA (retrofit LED loads).
Nominal power: 10 - 200 W/VA (non-LED loads).
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C
IEC 60669-2-1, British Standard EN 60669-2-1

R,L,C LEDi

6526 U-500	2CKA006512A0323	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[5)] Recommendation: Please use loads and types of one producer.
[6)] In connection with 6810-21x-101 and 6800-xx-104 (M) only suitable for switching retrofit LEDs (for 2-conductor connection).

Busch-rotary dimmer [1) 2) 3) 4)]
flush mounted, R, 60-600 W
With rotary control, 2way On-Off switching and soft-catch.
Leading Edge control.
For incandescent lamps and 230 V tungsten halogen lamps.
With adjustable minimum brightness.
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Rated power: 60 - 600 W
IEC 60669-2-1, British Standard EN 60669-2-1

R,L

2250 U-500	2CKA006515A0848	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] Also applicable for 1gang 2way installations.
[3)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[4)] Provided with terminal for net disconnection devices.

For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. For comfort timer control element 6455-101-500. For Busch-Remote control IR control cover 6067-xxx-10x. For control cover with control lamp 6543-xxx-10x. Combinable with Busch-Watchdog extension insert 6805 U. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Outputs: 1x Normally open contact, potential-bound Suitable for: 230 V incandescent lamps, 230 V halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are operated via transformers. Rated current: 10 AX Rated power: 2300 W/VA Temperature range (Device): -25 °C to 55 °C British Standard EN 60669-2-1		
	6401 U-102-500	2CKA006401A0049	1/10
	Busch-Universal 2gang 1way insert 3 wire connection (neutral conductor required). For the serial switch operating mode: 2 separate outputs, 2 separate extension inputs. For operation mode timer: output 1 (eg lighting), output 2: ON/Off delay in dependence of output 1 (eg fan control). For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101. For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. For Busch-Remote control IR control cover 6066-xxx-10x and 6067-xxx-10x. For control cover 6430-xxx-10x and 6543-xxx-10x. Combinable with Busch-Watchdog extension insert 6805 U. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact, potential-bound Suitable for: 230 V incandescent lamps, 230 V halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are operated via transformers. Rated current: 10 AX Rated power: 2300 W/VA Temperature range (Device): 0 °C to 35 °C British Standard EN 60669-2-1		
	6402 U-500	2CKA006401A0051	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	neon lamp 3855, one neon lamp is supplied together with control cover plates 6540-2x.

	Busch-Watchdog MOS-Fet Insert [1) 2) 3) 4) 5) 6)] 2-wire connection (neutral conductor not required) For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101. For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Combinable with Busch-Watchdog extension insert 6805 U. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 60 - 420 W/VA Temperature range (Device): 0 °C to 35 °C British Standard EN 60669-2-1		
	6804 U-101-500	2CKA006800A2219	1/10

[1)] In case of electronic transformers, 5 % transformer losses.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Not suitable for the activation of energy-saving lamps, conventional and electronic ballast units and LED lamps.
[4)] Not suitable for activating the staircase time delay.
[5)] Cannot be used to control relais.
[6)] Requires an NIS international socket, E-No. 372507676.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Watchdog extension insert [1)] 3 wire connection (neutral conductor required). For extending Busch-Watchdog 180 flush-mounted and Busch-Watchdog Presence tech installations. For combination with relay insert 6401 U-102 and 6402 U. For combination with MOS-Fet insert 6804 U-101. For combination with Dimmer insert 6593 U and 6550 U-101. For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101. For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Control/Signal outputs: 1, electronic output, potential-bound Temperature range (Device): 0 °C to 35 °C		
	6805 U-500	2CKA006800A2161	1/10

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	Comfort blind insert [1) 2) 3)] **with memory and positioning function** For the manual and automatic control of roller blinds. The roller blind moves to the position set using the turn knob. Executes the individually programmed switching commands (UP/DOWN) in a 24-hour rhythm. Suitable for roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. Power reserve of 45 minutes (maintenance-free as capacitor). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 1.3 A, cos ϕ 0.5 Rated power: 300 VA Temperature range (Device): 0 °C to 35 °C		
	6419 U	2CKA006410A0390	1/10

[1)] Pertinent cover plates 6436-xx.
[2)] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.
[3)] Only suitable for single unit control.

	Basic blind insert [1) 2)] Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. For control cover 6430-xx-xxx. For standard timer control element 6456-101. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Temperature range (Device): 0 °C to 35 °C		
	6418 U-500	2CKA006410A0376	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1)] N-conductor connection required for operation with control cover 6430-7x, illuminated.
[2)] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Blind control II switch insert [1)] Suitable for blind, roller blind and awning drives with mechanical or electronic limit switch shut-off. With two 230 V multi-way input terminals (Up/Down) for group control. With operating mode switch for the following modes: normal, louvre, base station, position. With party function (disables the local control unit) in combination with Busch-Blind control II control cover 6430-xx-xxx, 6066-xx-xxx. Wind alarm, cleaning functions can be accommodated via extension input. For control cover 6430-xx-xxx. For IR control element 6066-xx-xxx. For comfort timer control element 6455-101-500. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Control/Signal outputs: 2 Temperature range (Device): 0 °C to 35 °C		
	6411 U-101	2CKA006410A0377	1/10

Product	Article-No.	Order-No.	Pack/Qty
	**WLAN access point, flush-mounted** [1) 2)] **power supply from mains power** Operation as WLAN access point for the connection of WLAN terminal devices to the LAN. Operation as WLAN repeater for extending the transmission range of a WLAN. Operation as WLAN adapter for integrating Ethernet terminal devices into a WLAN. Supports WLAN standards IEEE 802.11b/g/n with 2.4 GHz; integrated WLAN antenna. Backward connection of an Ethernet cable via screw terminals (10/100 Mbit/s). Front-side Ethernet connection via a RJ45 socket (10/100 Mbit/s). The three connections (WLAN, Ethernet/screw terminals and Ethernet/RJ45)can be used in parallel via the integrated switch. Power supply via 2-pole connecting terminal. Nominal voltage: 100 - 240 V~ For mounting in commercially available deep flush-mounted and hollow-wall boxes. Rated frequency: 50 Hz - 60 Hz

	Terminating resistor 75 Ohm		
	0239	2CKA000230A0201	10/100
	Mounting plate [1) 2)] **with green insert** For 2 modular jack inserts. For systems: CommScope (AVAYA / AT&T / Lucent Technologies), GigaSPEED, PowerSUM, 360 GS 10E bis MGS 600-BK, M1 BH-xx, MPS 100E-xx. With R&M adapter R310694 suitable for R&M connection modules R305111, R305112, R305113 and R305114. Pitch dimensions: (WxH) approx. 16.9 x 17.9 mm. Without claws.		
	1810	2CKA001753A8048	10/100
	1810-500	2CKA001753A9974	10/100
	Mounting plate [1) 2)] **with red insert** For 2 modular jack inserts. Suitable for Art. Nos. 0210, 0211 and 0219-101. For systems: AMP / tyco Electronics, BTR, EFB, Krone, Panduit, Quante, Radiall, Setec, Dr.-Ing. Sieger, Telena, Thomas & Betts For Telegärtner AMJ/UMJ connection modules/ couplings. For 2 fiber optic modules of the following types: 3M-Volition, Krone, mvk. Pitch dimensions: (WxH) approx. 14.8 x 19.4 mm. Without claws.		
	1812-500	2CKA001753A9972	10/100
	Mounting plate [1) 2)] **with black insert** For MTRJ or 2 modular jack inserts. For systems: Ackermann, AMP / tyco Electronics (Slim Line (SL) -SM 2gang/switches: 110Connect Jacks, Toolless Jacks / Standard 110Connect Jacks), Brand-Rex, CombiNet, EFB Electronic, Telena. For 2 fiber optic modules of the following types: AMP / tyco Electronics MTRJ. Pitch dimensions: (WxH) approx. 14.8 x 20.4 mm. Without claws.		
	1814-500	2CKA001753A9973	10/100

	Universal module, RJ 45, cat. 6a iso, shielded [1] **1gang** For installation in installation adapter 0219/12 or 0219/13. Also suited for mounting into cover plate 2561 and bases 1812, 1866 EB, and 1867 EB. RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06. Cat. 6A according to ISO/IEC 11801: 2011-06. Terminal marking A and B according to TIA/EIA-568-B.2. Typ according to EN 60 603-7-51:2011-01. Shielding according to DIN EN 55022, Class B. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Bend-radius optimised cable feed (30°). Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed. Suitable for Mix-and-Match operation. For 8-pole plug RJ 45 only. Housing made from diecast zinc. With integrated dust-protection cap (can be removed if necessary). With insulation displacement connection For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22. For trunk systems, flush-mounted wall boxes and underfloor systems.		
	0219-101	2CKA000230A0413	1/10

[1] With assembly adapters appropriate for telephone unit cover plates 2539-21x and 1766-xxx.

	Modular-Jack insert **6-pole Cat. 3 (AMP-No. 216000-2)** For cover plate 2561- and insert 1812, 1866 built-in, 1867 built-in. For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).		
	0210	2CKA000225A0078	10

	Modular-Jack insert **8-pole Cat. 3 (AMP-No. 216005-4)** For cover plate 2561- and insert 1812, 1866 built-in, 1867 built-in. For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).		
	0211	2CKA000225A0086	10

	Built-in jack For potential balancing jack cover plate and installation in cover plates. For devices of 19 mm diameter.		
	0471-0-0037	2CKA000471A0037	10

Product	Article-No.	Order-No.	Pack/Qty
	Potential balancing plug Suitable for plug 2095 UC-212 and built-in jack 0471-0-0037 acc. to German Standard DIN 42801. For potential balancing jack cover plate (connection up to 6 mm² crimped or soldered).

Multimedia / communication adapters

Product	Article-No.	Order-No.	Pack/Qty
	USB connection unit [1] **with screw-type terminals and strain relief** Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx. To link mobile devices like e.g. printer, scanner, USB-sticks or digital cameras etc. USB-type A, USB 2.0 compatible. For 5-wire USB- cables via srew-type terminals. For trunk systems, flush-mounted wall boxes and underfloor systems. For easy installation and to follow the valid bending radii the "Kaiser- electronic-wall-box" type 1068-02 or 9062-74 is recommended. Without cover plate. Without claws. Mounting depth: 34 mm

WaveLINE control elements

Product	Article-No.	Order-No.	Pack/Qty
	Wall-mounted transmitter WaveLINE [1) 2)] **1-channel** 1gang wall-mounted transmitter independent of mains power supply. With labelling field and labelling strip. For switching and dimming. For controlling blinds and light scenes. 1 radio channel can be operated or up to 2 light scenes can be called up. For flush-mounted WaveLINE actuators 6701-101, 6702, 6703, 6704 and 6705-101. For LED display WaveLINE 6730-xxx. Compatible with WaveLINE KNX gateway TP-RF 6770. Send frequency: 868 MHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery Type CR2032. Battery service life: typically 5 years, therefore practically maintenance-free. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Control element: rocker switch left/right Display elements: LED to indicate the transmission Rated voltage: 3 V- Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 16 mm

Busch-axcent®
Individuality with an accent.

Express yourself. Enjoy freedom with bright colours and high gloss surfaces. Such choice brings joy. Each room can have accessories in a different colour, each room can have a different personality. Straight lines and bold edges perfectly correspond with the modern style of furnishing. Primary colours can be used as a colour-key for quick and efficient organisation of appliances and equipment.

	Switch rocker with marking **with small red spherical cap** With imprint "0" and "I". As cover for 2-pole or 3-pole flush-mounted on-off switch and 2-pole control on-off switch.		
studio white	**1788-84**	2CKA001751A2750	10/100

	Switch rocker with marking **with small red spherical cap** With marking "Heizung". As cover for flush-mounted 1gang 1way, 1gang 2way switch, intermediate switch, push-button and control switch 1gang 2way. As cover for 2-pole or 3-pole flush-mounted on-off switch and 2-pole control on-off switch.		
studio white	**1789 H-84**	2CKA001751A2751	10

	Switch rocker with marking For flush-mounted switch 1g1w, 1g2w, intermediate, push switch. DO NOT DISTURB		
studio white	**1786/11-84**	2CKA001751A2998	10

	Switch rocker with marking For flush-mounted switch 2g 1w, 2g push switch. DO NOT DISTURB MAKE UP ROOM		
studio white	**1785/11-84**	2CKA001751A2992	10

Busch-axcent®

Rocker switches

Product	Article-No.	Order-No.	Pack/Qty
	Card switch 10 A [1] **SP, with normally open contact (operating current)** Illuminable. With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC60669-1, British Standard EN 60669-1		
	2025 U	2CKA001012A1713	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
delivery form:	Adapter plate APBS to be ordered separate.		

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Cover plate For card switch. For insert 2025 U. Suitable for cards sized 54 x 86 mm. The inner part of the cover plate is made of light-conducting plastic, so that the card slot is illuminated.		
studio white	**1792-84**	2CKA001710A3641	10

	Pull switch [1] **SP, with normally open contact (operating current)** With 2-metre pull cord, red handle, and red neon indicator. Rated voltage: 250 V~ Rated current: 10 A		
	2020/01 US	2CKA001413A1077	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Pull switch [1] **SP, break contact** With 2-metre pull cord, red handle, and red neon indicator. Rated voltage: 250 V~ Rated current: 10 A		
	2020/10 US	2CKA001413A1076	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Rocker **open for red pull switch neon indicator** For pull switch 2020/xx US.		
studio white	**1720-84**	2CKA001731A1916	10

Product	Article-No.	Order-No.	Pack/Qty
	Three-step rotary switch [1] **SP, with zero position** With zero position. Rated voltage: 250 V~ Rated current: 16 A		
	2710 U	2CKA001101A0918	1/10

[1] Install only in conjunction with wall boxes ø 60 mm.

	Three-step rotary switch [1] **SP, without zero position** Without zero position. Rated voltage: 250 V~ Rated current: 16 A		
	2710/1 U	2CKA001101A0919	1/10

[1] Install only in conjunction with wall boxes ø 60 mm.

	Cover plate **with rotary control, with marking** As cover for flush mounted three-step rotary switch. With zero position. For insert 2710 U.		
studio white	**2542 DR/01-84**	2CKA001710A3646	10

	Cover plate **with rotary control, with marking** As cover for flush mounted three-step rotary switch. Without zero position. For insert 2710/1 U.		
studio white	**2542 DR/02-84**	2CKA001710A3651	10

Busch-axcent®

Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5) 6) 7)] **Flush-mounted, LED, 2-100 W** With rotary control, two-way switch and soft-catch. 2-wire connection (neutral conductor not required) Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. Via mode switch adjustable between leading edge control and trailing edge control. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 250 W/VA (non-LED loads). Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C IEC 60669-2-1, British Standard EN 60669-2-1 		
	6523 U-102-500	2CKA006512A0335	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Also applicable for 1gang 2way installations.
[5)] Provided with terminal for net disconnection devices.
[6)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[7)] Recommendation: Please use loads and types of one producer.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-touch dimmer [1) 2) 3) 4) 5) 6)] **Flush-mounted, LED, 2-100 W** Touch dimmer. 2-wire connection (neutral conductor not required) Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Optimised for dimming of retrofit LED lamps (LEDi). For incandescent lamps, 230V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers and dimmable halogen energy-saving lamps. Mix operaton of LEDi with conventional loads possible. With adjustable minimum brightness. The minimum brightness for the leading edge control can be adjusted using the potentiometer. The potentiometer at the left limit stop corresponds with the trailing edge control mode. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With light-level memory and minimum brightness memory. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control cover with control lamp 6543-xxx-10x. For Busch-Remote control IR control cover 6066-xxx-10x. For comfort timer control element 6455-101-500. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 200 W/VA (non-LED loads). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C IEC 60669-2-1, British Standard EN 60669-2-1 		
	6526 U-500	2CKA006512A0323	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[5)] Recommendation: Please use loads and types of one producer.
[6)] In connection with 6810-21x-101 and 6800-xx-104 (M) only suitable for switching retrofit LEDs (for 2-conductor connection).

	Busch-rotary dimmer [1) 2) 3) 4)] **flush mounted, R, 60-600 W** With rotary control, 2way On-Off switching and soft-catch. Leading Edge control. For incandescent lamps and 230 V tungsten halogen lamps. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 60 - 600 W IEC 60669-2-1, British Standard EN 60669-2-1 		
	2250 U-500	2CKA006515A0848	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] Also applicable for 1gang 2way installations.
[3)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[4)] Provided with terminal for net disconnection devices.

Busch-axcent®

Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5)] **flush mounted, RL, 20-500 W** With rotary control, 2way On-Off switching and soft-catch. Leading Edge control. For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 20 - 500 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	2247 U-500	2CKA006512A0302	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Provided with terminal for net disconnection devices.
[4)] Also applicable for 1gang 2way installations.
[5)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5) 6)] **UP, RL, 200-700 W** With rotary control, 2way On-Off switching and soft-catch. Leading Edge control. For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer. Short-circuit-proof, overload-protected. With adjustable minimum brightness. Without cover plate. Without claws. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 200 - 700 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6520 U-500	2CKA006520A0227	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Provided with terminal for net disconnection devices.
[4)] Also applicable for 1gang 2way installations.
[5)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[6)] Should be mounted in a seperate wallbox.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-2gang switch/rotary dimmer [1) 2) 3)] **flush mounted, RL, 60-400 W** 1 channel designed as dimmer. 1 channel designed as switch contact (1gang 2way contact element) with leading edge control For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer. With adjustable minimum brightness. Without cover plate. Rated current 6A (changeover contact switch output). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 60 - 400 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6517 U-101-500	2CKA006517A0018	1/10

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Can be used to replace a 2gang 1way switch.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5) 6)] **flush mounted, RC, 40-420 W** With rotary control, soft-catch and with trailing edge control. For incandescent lamps, 230 V tungsten halogen lamps and lowvoltage halogen lamps with electronic transformers. Low-noise, short-circuit-proof, overload-protected. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 40 - 420 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6513 U-102	2CKA006513A0568	1/10
	6513 U-102-500	2CKA006513A0586	1/10

[1)] Not suitable with conventional transformers.
[2)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Provided with terminal for net disconnection devices.
[5)] Also applicable for 1gang 2way installations.
[6)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5) 6)] **flush mounted, RC, 40-550 W** With rotary control, soft-catch and with trailing edge control. For incandescent lamps, 230 V tungsten halogen lamps and lowvoltage halogen lamps with electronic transformers. Low-noise, short-circuit-proof, overload-protected. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 40 - 550 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6519 U	2CKA006519A0011	1

[1)] Not suitable with conventional transformers.
[2)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Provided with terminal for net disconnection devices.
[5)] Also applicable for 1gang 2way installations.
[6)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Busch-axcent®
Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5)] **flush mounted, RLC, 60-420 W** with soft-catch With intelligence for universal operation. For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers. Short-circuit-proof, overload-protected. Capacity expansion via output-side, parallel connectable load line with a power module 6594 U up to 735 W/VA possible. Operation via rotary-type remote control 6592 U possible, Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Rated power: 60 - 420 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6591 U-101-500	2CKA006513A0588	1/10

[1)] Illuminable with neon lamp 3855. Neon lamp included in delivery with cover plate.
[2)] In case of electronic transformers, 5 % transformer losses.
[3)] In the case of conventional transformers, take ~20% transformer loss into account.
[4)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[5)] Cannot be combined with a 2way switch.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer, extension [1) 2)] **flush mounted** for connection to 6591 U-101, To be used with Busch-Dimmer®, MDRC 6583. with soft-catch A maximum of 5 multi-way extensions can be connected to a 6591U-101, Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz		
	6592 U-500	2CKA006513A0590	1

[1)] Control elements 2115-xxx and 6540-xxx.
[2)] Required for illuminating the N-connection control element.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4)] **flush mounted, 1-10V** With rotary control. For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC. For LED control via control gears Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Rated power: 700 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	2112 U-101-500	2CKA006599A2873	1/10

[1)] Non-illuminable.
[2)] Use cover plates 2115 J-.../2115-.../6540-... .
[3)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[4)] Making-current limiters have to be provided in case of too high making currents.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1)] **flush mounted, DALI** For DALI broadcast service (via central telegram). For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. Fool proved. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Max. current consumption: 15 mA. Not suitable for combining with other DALI sensors or central units of other manufacturers. An additional DALI power supply is needed, e.g. by Tridonic, Philips, Helvar or 2117/11 U. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate. Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C		
	2117 U-500	2CKA006599A2987	1

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1)] **flush mounted, DALI, with internal power supply** For DALI broadcast service (via central telegram). With integrated DALI power adaptor. For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. With electronic short-circuit protection. With electronic overload protection. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Up to 3 potentiometers are connectable in parallel in active mode. Not suitable for combining with other DALI sensors or central units of other manufacturers. DALI-voltage: 15,5 V= Rated current: max. 75 mA Power consumption: < 2,5 W Number of DALI-units: 37 in case of one active power-potentiometer in case of three active power-potentiometer in parallel connection: 111 Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices. Passive mode: the potentiometer is suitable as additional operation point. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C		
	2117/11 U-500	2CKA006599A2988	1

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

[1)] Compatible with previous type 6543-xxx.
[2)] Touch-type Controller 6550 U-xxx non-illuminable.
[3)] Replacement neon lamp 3857.

	Control element [1)] **with neon lamp** Combinable with Busch-Memory 2gang dimmer 6565 U.		
studio white	**6545-84**	2CKA006599A2908	1/10

[1)] Replacement neon lamp 3857.

	Cover plate **for cooling element** For Busch-Universal master dimmer power module 6594 U. For room temperature controller object range 6108/0x and base for blind cover 6930/01.		
studio white	**6541-84**	2CKA006599A2835	10

	IR control element [1)] **with marking, illuminated** For LED dimmer insert 6524 U and 6526 U. For Busch-Universal master dimmer insert 6593 U. For Busch-Blind control II insert 6411 U-101, 6411 U/S-101. For Busch-Universal 2gang 1way insert 6402 U. for Busch-Universal touch-type controller 6550 U-101 Manual operation on-site and remote control via IR remote control (6010-25) or wall-mounted transmitter (6020-xx/6021-xx) possible.		
studio white	**6066-84**	2CKA006020A1334	1/10

[1)] Touch-type Controller 6550 U-101 non-illuminable.

	IR control element **with marking, illuminated** For Busch-Universal relay switch insert 6401 U-10x and Busch-Universal 2gang 1way insert 6402 U. Manual operation on-site and remote control via IR remote control (6010-25) or wall-mounted transmitter (6020-xx/6021-xx) possible.

Busch-axcent®

Movement detectors / comfort switches

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Comfort switch 2-wire insert [1) 2) 3) 4) 5) 6)] 2-wire connection (neutral conductor not required) For Busch-Comfort switch sensors 6815-xxx. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 40 - 300 W/VA Temperature range (Device): 0 °C to 35 °C British Standard EN 60669-2-1		
	6815 U	2CKA006800A2270	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
Cover frames:	1gang frame 1721 BS-2xG or Dual Box frame 1722 BSDB-2xG.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1)] In case of electronic transformers, 5 % transformer losses.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Not suitable for the activation of energy-saving lamps, conventional and electronic ballast units and LED lamps.
[4)] Not suitable for activating the staircase time delay.
[5)] Cannot be used to control relais.
[6)] Output cannot be connected in parallel.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Comfort switch relay mechanism [1) 2) 3)] 3 wire connection (neutral conductor required). For Busch-Comfort switch sensors 6815-xxx. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformer. Rated power: 2300 W/VA Suitable for: 230 V halogen lamps Rated power: 1200 W Suitable for: Fluorescent lamps Rated current: 10 AX, cos ϕ 0.5 Rated power: 2300 VA Temperature range (Device): 0 °C to 35 °C British Standard EN 60669-2-1		
	6816 U-500	2CKA006800A2621	1/10

[1)] In case of electronic transformers, 5 % transformer losses.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Output can be connected in parallel.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Universal relay switch insert 3 wire connection (neutral conductor required). For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101. For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M. For Busch-Watchdog 180 FP sensor for All Weather 44 6800-3x-102C. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. For comfort timer control element 6455-101-500. For Busch-Remote control IR control cover 6067-xxx-10x. For control cover with control lamp 6543-xxx-10x. Combinable with Busch-Watchdog extension insert 6805 U. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Outputs: 1x Normally open contact, potential-bound Suitable for: 230 V incandescent lamps, 230 V halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are operated via transformers. Rated current: 10 AX Rated power: 2300 W/VA Temperature range (Device): -25 °C to 55 °C British Standard EN 60669-2-1		
	6401 U-102-500	2CKA006401A0049	1/10

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Universal 2gang 1way insert 3 wire connection (neutral conductor required). For the serial switch operating mode: 2 separate outputs, 2 separate extension inputs. For operation mode timer: output 1 (eg lighting), output 2: ON/Off delay in dependence of output 1 (eg fan control). For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101. For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. For Busch-Remote control IR control cover 6066-xxx-10x and 6067-xxx-10x. For control cover 6430-xxx-10x and 6543-xxx-10x. Combinable with Busch-Watchdog extension insert 6805 U. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact, potential-bound Suitable for: 230 V incandescent lamps, 230 V halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are operated via transformers. Rated current: 10 AX Rated power: 2300 W/VA Temperature range (Device): 0 °C to 35 °C British Standard EN 60669-2-1		
	6402 U-500	2CKA006401A0051	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	neon lamp 3855, one neon lamp is supplied together with control cover plates 6540-2x.

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	**Key Switch Insert** [1) 2) 3)] **breaking circuit, 1-pole** For profile semi-cylindrical lock. In switched-on and switched-off status the key can be pulled out in the central position, respectively. Delivered without cylindrical lock. Rated voltage: 250 V~ Rated current: 10 AX IEC60669-1, British Standard EN 60669-1		
	2733 USL-101	2CKA001101A0914	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		
delivery form:	Adapter plate APBS to be ordered separate.		

[1)] For installation on British Standard wallboxes please use adapter plate APBS (6599-0-2813). (Depth of box 60 mm.)
[2)] Use the cylindrical lock according to the enclosed drawing.
[3)] See profile semi-cylindrical lock.

	**Blind switch insert** [1) 2)] With interlock. Rated voltage: 250 V~ Rated current: 10 AX IEC60669-1, British Standard EN 60669-1		
	SP, switch **2000/4 US-500**	2CKA001012A2197	10/100
	SP, push switch **2020/4 US-500**	2CKA001413A1103	10/100

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] These blind switches/push buttons safely prevent a switch-over of the running direction being carried out too quickly.

	Blind switch insert [1) 2)] With rotary knob/switch and push switch. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1, British Standard EN 60669-1		
	DP [3)] **2712 U**	2CKA001101A0534	10

Busch-axcent®

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	Comfort blind insert [1) 2) 3)] **with memory and positioning function** For the manual and automatic control of roller blinds. The roller blind moves to the position set using the turn knob. Executes the individually programmed switching commands (UP/DOWN) in a 24-hour rhythm. Suitable for roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. Power reserve of 45 minutes (maintenance-free as capacitor). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 1.3 A, cos ϕ 0.5 Rated power: 300 VA Temperature range (Device): 0 °C to 35 °C		
	6419 U	2CKA006410A0390	1/10

[1)] Pertinent cover plates 6436-xx.
[2)] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.
[3)] Only suitable for single unit control.

	Basic blind insert [1) 2)] Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. For control cover 6430-xx-xxx. For standard timer control element 6456-101. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Temperature range (Device): 0 °C to 35 °C		
	6418 U-500	2CKA006410A0376	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1)] N-conductor connection required for operation with control cover 6430-7x, illuminated.
[2)] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Blind control II switch insert [1)] Suitable for blind, roller blind and awning drives with mechanical or electronic limit switch shut-off. With two 230 V multi-way input terminals (Up/Down) for group control. With operating mode switch for the following modes: normal, louvre, base station, position. With party function (disables the local control unit) in combination with Busch-Blind control II control cover 6430-xx-xxx, 6066-xx-xxx. Wind alarm, cleaning functions can be accommodated via extension input. For control cover 6430-xx-xxx. For IR control element 6066-xx-xxx. For comfort timer control element 6455-101-500. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Control/Signal outputs: 2 Temperature range (Device): 0 °C to 35 °C		
	6411 U-101	2CKA006410A0377	1/10

[1)] Compatible with types 6411 U/x.

	Burglar alert sensor For insert 6411U/S-101. With 4 m connecting cable.		
	6413-500	2CKA006410A0349	10
	Brightness sensor For insert 6411U/S-101. With 2 m connecting cable. Measuring range: 15-50,000 lux.		
	6414-101	2CKA006410A0389	1/10
	Sun sensor For insert 6411U/S-101. Measuring range: 5-50,000 lux.

Product	Article-No.	Order-No.	Pack/Qty
	**WLAN access point, flush-mounted** [1) 2)] **power supply from mains power** Operation as WLAN access point for the connection of WLAN terminal devices to the LAN. Operation as WLAN repeater for extending the transmission range of a WLAN. Operation as WLAN adapter for integrating Ethernet terminal devices into a WLAN. Supports WLAN standards IEEE 802.11b/g/n with 2.4 GHz; integrated WLAN antenna. Backward connection of an Ethernet cable via screw terminals (10/100 Mbit/s). Front-side Ethernet connection via a RJ45 socket (10/100 Mbit/s). The three connections (WLAN, Ethernet/screw terminals and Ethernet/RJ45)can be used in parallel via the integrated switch. Power supply via 2-pole connecting terminal. Nominal voltage: 100 - 240 V~ For mounting in commercially available deep flush-mounted and hollow-wall boxes. Rated frequency: 50 Hz - 60 Hz		
	8186/31-101-500	2CKA008100A0359	1

Data communication

Product	Article-No.	Order-No.	Pack/Qty
	Cover plate For telephone connection unit. For USB, VGA, HDMI inserts and communication adapter. USB power adapter insert 6472 U. For loudspeaker connection box. Suitable for part number 0248/0x-101. For data modules. Suitable for Art. No. 0219/12 and 0219/13. For modular outlets with 90° RJ45 outlet from Telegärtner (type MJ and WE).		
studio white	**1766-84-500**	2CKA001710A3992	10/100
	Cover plate As cover for telephone connector boxes (VDo). Can be knocked out for single or double connection.		
studio white	**1745-84**	2CKA001710A3173	10
	Cover plate [1) 2)] **as cover for standard Radio/TV/SAT socket outlets** With 2 connectors Acc. to German Standard DIN 45330. Radio/TV/SAT. With M3 fixing screw.		
studio white	**1743-84-500**	2CKA001724A4332	10/100

[1)] Third opening can be knocked out.
[2)] See inserts for satellite coaxial socket outlets.

	Cover plate [1)] **with labelling field** For modular jack with slide entrance. To fit only Art. No. 1810, 1812, 1814, 1816, 1818, 1819 and 1820. Size of labelling field: 60 x 9 mm.		
studio white	**1800-84-500**	2CKA001710A3990	10/100

[1)] For compatible lettering software, visit www.BUSCH-JAEGER-labelingtool.com.

	Cover plate For telecommunication inserts with cover plate 50 x 50 mm. With cover plate 50 x 50 mm, AMP, Brand-Rex, Rutenbeck, BTR, Telegärtner, etc.		
studio white	**1746/10-84-500**	2CKA001710A3993	10/100
	Intermediate ring For fitting cover plates from the Busch-Duro 2000® SI and Reflex SI range.		
studio white	**1747 SI-84**	2CKA001710A3863	10
	Cover plate **with hinged lid** For telecommunication inserts with cover plate 50 x 50 mm. With cover plate 50 x 50 mm, AMP, Brand-Rex, Rutenbeck, BTR, Telegärtner, etc.

Multimedia / communication adapters

Product	Article-No.	Order-No.	Pack/Qty
	Busch-DigitalRadio [1) 2) 3) 4) 5)] RDS stereo radio alarm clock for flush-mounted installation. Reception frequency: 87.50 MHz - 108.00 MHz. With display and background illumination. With external input for Busch-iDock. Remote control possible via Busch-iDock. For mono/stereo operation. 8 radio stations storable. With time display. With alarm function. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated antenna. With additional connection for external antenna. Permitted speaker impedance: 4 - 8 Ohm Can be installed as 1gang and in multiple combinations. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 5 °C to 40 °C Dimensions: (L x W x D): 71 mm x 71 mm x 49 mm Mounting depth: 34 mm		
	8215 U-500	2CKA008200A0182	1/10

[1)] No claw. Screw-fixing via keyholes.
[2)] Matching loudspeaker insert 8223 U.
[3)] Also combinable with built-in ceiling loudspeaker (8225 EB & 8226 EB) and HiFi built-in ceiling loudspeaker (8226/11 EB).
[4)] Can also be combined with built-in loudspeaker (8222 EB) and moist atmosphere loudspeaker (8224 EB).
[5)] To be mounted only in connection with commercially available flush-mounted installation boxes according to DIN 49073 > 40 mm depth gauge or Busch-Jaeger art. no. 3040, 3050 or 3060.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Radio iNet [1) 2) 3) 4)] WLAN Internet radio alarm clock for flush-mounted installation. For the reception of national and international radio stations via Internet. Radio station search possible via various genres. With high resolution graphic display and background illumination. With external input for Busch-iDock. Remote control possible via Busch-iDock. Integrated web-server for configuration and control. Remote operation with smartphone via browser surface. UPnP replay function. It is controlled via smartphone. For mono/stereo operation. 8 radio stations storable. With time and date display. With alarm function. With short-time timer. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated WLAN antenna. WLAN standards: IEEE 802.11b / IEEE 802.11g. WLAN safety: WPA / WPA2. Permitted speaker impedance: 4 - 8 Ohm Can be installed as 1gang and in multiple combinations. Rated voltage: 110 - 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 5 °C to 40 °C Dimensions: (L x W x D): 71 mm x 71 mm x 49 mm Mounting depth: 33 mm APP		
	8216 U-500	2CKA008200A0153	1/10

[1)] No claw. Screw-fixing via keyholes.
[2)] Matching loudspeaker insert 8223 U.
[3)] Can also be combined with built-in loudspeaker (8222 EB) and moist atmosphere loudspeaker (8224 EB).
[4)] To be mounted only in connection with commercially available flush-mounted installation boxes according to DIN 49073 > 40 mm depth gauge or Busch-Jaeger art. no. 3040, 3050 or 3060.

	Loudspeaker insert [1)] **5 cm (2")** For Busch-DigitalRadio 8215 U/8216 U. For Busch-Radio iNet 8216 U. For Busch-Radio BTconnect 8217 U. For Busch Bluetooth receiver 8219 U. With broadband characteristics. With flat plug connector. Incl. speaker connection cable. Rated output: 2 W (RMS) Frequency response: 200 - 20,000 Hz Impedance: 4 Ohm Protection class (Device): IP 20, SELV Mounting depth: 32 mm		
	8223 U-500	2CKA008200A0183	1/10

[1)] No claw. Screw-fixing via keyholes.

Multimedia / communication adapters

Product	Article-No.	Order-No.	Pack/Qty
	HDMI connection unit [1] **with screw-type terminals and strain relief** Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx. To link high-definition digital audio and video data from e.g. SAT-receiver, DVD-/Blue-Ray-player to plasma-type, LCD- or-LED-TVs/screens. HDMI-type A, 3D-compatible. Fully HD ready (1920 x 1080 pixel). For 20-wire HDMI-cables via srew-type terminals. For trunk systems, flush-mounted wall boxes and underfloor systems. For easy installation and to follow the valid bending radii the "Kaiser- electronic-wall-box" type 1068-02 or 9062-74 is recommended. Without cover plate. Without claws. Mounting depth: 34 mm		
white	**0261/31-500**	2CKA000230A0430	1
alpine white	**0261/32-500**	2CKA000230A0431	1
grey	**0261/33-500**	2CKA000230A0432	1

[1] Please follow the recommendations of the cable and device producers for the max. HDMI cable lengths.

	VGA connection unit [1] **with screw-type terminals and strain relief** Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx. To link analogue video data between PCs and laptops to monitors or digital projectors etc. VGA-type: D-type, 15-pole. Fully HD ready (1920 x 1080 pixel). For 15-wire VGA-cables via srew-type terminals. For trunk systems, flush-mounted wall boxes and underfloor systems. For easy installation and to follow the valid bending radii the "Kaiser- electronic-wall-box" type 1068-02 or 9062-74 is recommended. Without cover plate. Without claws. Mounting depth: 34 mm		
white	**0261/21-500**	2CKA000230A0424	1

Busch-axcent®

Room thermostats

Product	Article-No.	Order-No.	Pack/Qty

Room thermostat, flush-mounted [1) 2) 3)]
NC contact, sliding switch, actual value indication, 24 V
With actual value temperature display
Automatic controller calibration
Switch contact opens when the set temperature is reached.
With built-in slide switch and control lamp for nightly reduction of 4 K.
With fixing claws.
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 24 V~
Rated current: 1 A
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1096 UTA	2CKA001032A0489	1/10

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] Servo-valves, "closed when de-energized", are necessary for connection to thermostat, e.g., Art. No. 6164/10 .
[3)] Switching temperature difference: ± 0.5 K.

Room thermostat, flush-mounted [1) 2) 3)]
Change-over contact, actual value indication
With actual value temperature display
Automatic controller calibration
With fixing claws.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 5 A
EN 60730-2-9, British Standard EN 60669-2-1

	1097 UTA	2CKA001032A0490	1/10

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] Servo valves of "closed or open when de-energized" design are required for the controller. E.g. article no. 6164/10-101.
[3)] Switching temperature difference: ± 0.5 K.

Room thermostat, flush-mounted [1)]
NC contact, remote sensor
With remote sensor and thermal feedback
For underfloor heating.
With built-in slide switch and control lamp for nightly reduction of 4 K.
Switch contact opens when the set temperature is reached.
With fixing claws.
Remote sensor cable length: 4 m.
Sensor =NTC, 10 kilo-ohm at 25 degrees C.
Adjusting range: +10 to +50° C.
Connecting cable: 1mm² to 2.5 mm²
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 16 A, cos ϕ 1
EN 60730-2-9, British Standard EN 60669-2-1

	1095 UF	2CKA001032A0497	1/10

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty

Electrothermal Valve Drives with function indicator
For the actuation of heaters and cooling ceilings in connection with conventional room temperature controllers (e.g., 1094 U) or KNX, or free@home heating/valve actuators (e.g., 6164/46, 6254/0.XX)).
With function display (opened or closed).
de-energized when closed
Max. opening/closing time: 3.5 min
For installing, a suitable valve adapter is required.
Power input: 4 mA (approx. 1 W)
Inrush current: < 550 mA (max. 100 ms)
Connecting cable: 1.0 m (pluggable)
Rated voltage: 230 V~
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 54
Dimensions: (L x W x D): 59 mm x 45 mm x 53 mm

	6164/10-102	2CKA006151A0257	1/100

Room thermostat, flush-mounted [1) 2) 3)]
2 NC contacts, heating/cooling
With separate connection (230 V~) for external switchover between heating or cooling.
Switch contact opens when the set temperature is reached.
With fixing claws.
Nominal current: 10 A heating
Nominal current: 5 A cooling
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1099 UHK	2CKA001032A0515	1/10

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] Servo-valves, "closed when de-energized", are necessary for connection to thermostat. e.g. Article No. 6164/10-, see KNX chapter.
[3)] Switching temperature difference: ± 0.5 K.

Room thermostat, flush-mounted [1) 2) 3)]
2 NC contacts, heating/cooling, sliding switch
With built-in sliding switch for switchover between cooling or heating.
Switch contact opens when the set temperature is reached.
With fixing claws.
Nominal current: 10 A heating
Nominal current: 5 A cooling
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1099 UHKEA	2CKA001032A0516	1/10

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] Servo-valves, "closed when de-energized", are necessary for connection to thermostat. e.g. Article No. 6164/10-, see KNX chapter.

WaveLINE control elements

Product	Article-No.	Order-No.	Pack/Qty
	Wall-mounted transmitter WaveLINE [1) 2)] **1-channel** 1gang wall-mounted transmitter independent of mains power supply. With labelling field and labelling strip. For switching and dimming. For controlling blinds and light scenes. 1 radio channel can be operated or up to 2 light scenes can be called up. For flush-mounted WaveLINE actuators 6701-101, 6702, 6703, 6704 and 6705-101. For LED display WaveLINE 6730-xxx. Compatible with WaveLINE KNX gateway TP-RF 6770. Send frequency: 868 MHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery Type CR2032. Battery service life: typically 5 years, therefore practically maintenance-free. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Control element: rocker switch left/right Display elements: LED to indicate the transmission Rated voltage: 3 V- Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 16 mm		
studio white	**6731-84-500**	2CKA006730A0038	1/10

[1)] Battery included in delivery.
[2)] For compatible lettering software, visit www.BUSCH-JAEGER-labelingtool.com.

Product	Article-No.	Order-No.	Pack/Qty

Product	Article-No.	Order-No.	Pack/Qty
	WaveLINE LED display [1)] For status display of window handle positions: open = red, closed = green, tilted = yellow. Direct onsite operation possible for switching / dimming an electrical device depending on the flush-mounted insert. 4 individual LED display channels. Up to 8 WaveLine transmitters can be taught-in on each LED display channel. Up to 8 WaveLine transmitters can be taught-in on onsite operation. After a power cut all LED-Display channels light in red. The cyclic telegram repeat of the WaveLINE window position sensor 6720-xxx sensor automatically updates the window open state. Status display for depleted WaveLINE transmitter battery. Status display for faulty transmission link and defective WaveLINE transmitter. User-friendly start-up without PC / software. Printed labelling sheet with 8 different inlay sheets. For WaveLINE window position sensor 6720-6x. For WaveLINE 6721-xx universal signalling unit. For Busch-Watchdog 220 WaveLINE 6747 AGM. For Busch-Universal relay switch insert 6404 U. For universal dimmer switch insert 6595 U. Free-field range: approx. 100 m. Send/receive frequency: 868 MHz. Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm

Accessories

Product	Article-No.	Order-No.	Pack/Qty
	Extension of claws [1)] For the installation of flush-mounted SCHUKO® socket outlets and also switches, push-buttons, etc. and deeply installed flush-mounted boxes.		
	2148	2CKA002148A0120	100

[1)] Not suitable for types 2000/3 US, 2000/6/2 US, 2000/6/6 US-101 and double socket outlets

	Braille symbol self-adhesive (transparent) for cover 2506-xxx		
	light **2144 LI**	2CKA001714A0295	10/1000
	bell **2144 KI**	2CKA001714A0296	10/1000
	key **2144 TR**	2CKA001714A0297	10/1000

	Braille symbol **socket outlet** self-adhesive, transparent for SCHUKO® socket outlets with hinged lid 20 EUK-xxx		
	2144 ST	2CKA001714A0298	10/1000

	DIN A 4 labelling sheet [1)] **plastic foil** Suitable for all to be labeled Busch-Jaeger devices. For laser printer. The text of the foil is printed via the Busch-Jeager labeling service.		
translucent	**1799/02**	2CKA001799A0959	1
transparent	**1799/03**	2CKA001799A0960	1

[1)] 1 piece = 1 sheet.

	RC suppressor For protection against the damage or destruction of electronic devices due to overvoltages. For wiring network-interconnected inductivities (e.g.. relay, protection, fluorescent lamps, transformers, etc.). Eliminates functional disturbances on electronic devices, e.g. automatic circuit reclosure (clocking) of a movement detector. Dimensions: diameter 25 mm, length 35 mm, length of the connecting cable approx. 100 mm. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz		
	6899	2CKA006899A0231	10

Busch-axcent®

Tools

Product	Article-No.	Order-No.	Pack/Qty
	Mounting set Busch-axcent® flat [1) 2) 3) 4)] For flat flush-mounted installation, stonework Suitable for cover frame Busch-axcent® flat. Suitable for Busch-axcent® frames without carrier. Set consists of a flush-mounted box for brickwork 3040. With plastering moulding tool and positioning device. With integrated RFID-chip for easy detection. With vertically adjustable rotary ring. With Torx/slotted screws. With variable basement depth. Mounting boxes are combinable directly. With flex knockouts for cables or pipes. The boxes need to be plastered. Hole size : 82 mm		
	1gang **3048/10**	2CKA001740A0061	1
	2gang **3048/20**	2CKA001740A0062	1
	3gang **3048/30**	2CKA001740A0063	1
	4gang **3048/40**	2CKA001740A0064	1
	5gang **3048/50**	2CKA001740A0065	1

[1)] Not suitable for Busch-axcent® white glass.
[2)] Carrier needs to remove from Busch-axcent® cover frame.
[3)] RFID = Radio Frequency IDentification
[4)] Not suitable for fixing claws.

Product	Article-No.	Order-No.	Pack/Qty
	Mounting set Busch-axcent® flat [1) 2)] For flat flush-mounted installation, hollow wall Suitable for cover frame Busch-axcent® flat. Suitable for Busch-axcent® frames without carrier. For double planking. Set consists of a flush-mounted box for cavity walls 3050. With positioning device and adapter rings. Suitable for drywalls and plasterboards for 9,5 mm, 10 mm and 12,5 mm. With Torx/slotted screws. Mounting boxes are combinable directly. With flex knockouts for cables or pipes. Fast installation via cable strap latches. A 74 mm diameter moulding cutter with countersink is needed. Hole size : 74 mm		
	1gang **3058/10**	2CKA001740A0072	1
	2gang **3058/20**	2CKA001740A0073	1
	3gang **3058/30**	2CKA001740A0074	1
	4gang **3058/40**	2CKA001740A0075	1
	5gang **3058/50**	2CKA001740A0076	1

[1)] Not suitable for Busch-axcent® white glass.
[2)] Carrier needs to remove from Busch-axcent® cover frame.

Product	Article-No.	Order-No.	Pack/Qty
	Mounting set Busch-axcent® flat [1) 2)] For flat flush-mounted installation, concrete construction Suitable for cover frame Busch-axcent® flat. Suitable for Busch-axcent® frames without carrier. Suitable for prefabricated and in-situ concrete directly onto the formwork. Set consists of a flush-mounted box for concrete walls 3060. Delivered with a lid with distance positioning device. Fixing exclusively and directly to formwork by nailing or hot gluing. With Torx/slotted screws. Mounting boxes are combinable directly. With flex knockouts for pipes.		
	1gang **3068/10**	2CKA001740A0083	1
	2gang **3068/20**	2CKA001740A0084	1

	DP, 1gang 1way **2000/2 US-500**	2CKA001012A2196	10/100
	SP, 1gang 1way switch **2000/1 US-500**	2CKA001012A2059	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Rocker Switch Mechanism [1] **2gang 2way** With screwless terminals. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	2000/6/6US-101-500	2CKA001011A0928	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Rocker Switch Mechanism [1] [2] **DP, 1gang 1way** For switching high loads. Rated voltage: 250 V~ Rated current: 16 AX IEC 60669-1		
	2000/2 US-101-500	2CKA001012A2193	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Also for switching SCHUKO® socket outlets.

Product	Article-No.	Order-No.	Pack/Qty
	Rocker Switch Mechanism [1] [2] **3-pole, 1gang 1way switch** Rated voltage: 400 V~ Rated current: 16 AX IEC 60669-1		
	2000/3 US	2CKA001011A0816	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] With screw-type terminals. Non-illuminable.

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker Switch Mechanism** [1] With neon lamp 8338-1. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	1gang 2way [2] **2000/6 USGL-500**	2CKA001012A2194	10/100
	2gang 1way **2000/5 USGL**	2CKA001012A1135	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Replacement lamps 8360, 8362, and 8363 and LED inserts.

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker Switch Mechanism, control** [1] [2] [3] With neon lamp. Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1		
	1gang 2way with N-terminal **2000/6 USK-500**	2CKA001022A0659	10/100
	DP, 1gang 1way **2000/2 UK**	2CKA001022A0656	10

[1] With 1 mA neon lamp.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[3] Illuminable by using lamps 8360, 8362, 8363, 8365, 8366, and 8367 and LED inserts.

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] **SP, with normally open contact (operating current)** With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC 60669-1		
	2020 US	2CKA001413A0475	10/100
	2020 US-500	2CKA001413A0574	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] **SP, with normally open contact (operating current)** With 2 independent signalling contacts. Rated voltage: 250 V~ Inputs: 1 Outputs: 1 Rated current: 10 A IEC 60669-1		
	2020 US-201	2CKA001413A0483	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] [2] [3] **SP, with normally open contact (operating current)** With illumination. With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC 60669-1		
	2020 USGL-500	2CKA001413A1106	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Replacement lamps 8360, 8362, and 8363 and LED inserts.
[3] For relay and touch dimmer applications.

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] With one input terminal and 2 actuating covers. Rated voltage: 250 V~ Inputs: 1 Outputs: 2x Normally open contact Rated current: 10 A IEC 60669-1		
	2020 US-205-500	2CKA001413A1105	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Rocker switches

Product	Article-No.	Order-No.	Pack/Qty
	**Card switch 10 A** [1] **SP, with normally open contact (operating current)** Illuminable. With N terminal. Rated voltage: 250 V~ Rated current: 10 A IEC60669-1, British Standard EN 60669-1		
	2025 U	2CKA001012A1713	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
delivery form:	Adapter plate APBS to be ordered separate.		

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Cover plate For card switch. For insert 2025 U. Suitable for cards sized 54 x 86 mm. The inner part of the cover plate is made of light-conducting plastic, so that the card slot is illuminated.

future® linear
Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5) 6) 7)] **Flush-mounted, LED, 2-100 W** With rotary control, two-way switch and soft-catch. 2-wire connection (neutral conductor not required) Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. Via mode switch adjustable between leading edge control and trailing edge control. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 250 W/VA (non-LED loads). Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C IEC 60669-2-1, British Standard EN 60669-2-1 		
	6523 U-102-500	2CKA006512A0335	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Also applicable for 1gang 2way installations.
[5)] Provided with terminal for net disconnection devices.
[6)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[7)] Recommendation: Please use loads and types of one producer.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-touch dimmer [1) 2) 3) 4) 5) 6)] **Flush-mounted, LED, 2-100 W** Touch dimmer. 2-wire connection (neutral conductor not required) Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Optimised for dimming of retrofit LED lamps (LEDi). For incandescent lamps, 230V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers and dimmable halogen energy-saving lamps. Mix operaton of LEDi with conventional loads possible. With adjustable minimum brightness. The minimum brightness for the leading edge control can be adjusted using the potentiometer. The potentiometer at the left limit stop corresponds with the trailing edge control mode. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With light-level memory and minimum brightness memory. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control cover with control lamp 6543-xxx-10x. For Busch-Remote control IR control cover 6066-xxx-10x. For comfort timer control element 6455-101-500. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 200 W/VA (non-LED loads). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C IEC 60669-2-1, British Standard EN 60669-2-1 		
	6526 U-500	2CKA006512A0323	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[5)] Recommendation: Please use loads and types of one producer.
[6)] In connection with 6810-21x-101 and 6800-xx-104 (M) only suitable for switching retrofit LEDs (for 2-conductor connection).

	Busch-rotary dimmer [1) 2) 3) 4)] **flush mounted, R, 60-600 W** With rotary control, 2way On-Off switching and soft-catch. Leading Edge control. For incandescent lamps and 230 V tungsten halogen lamps. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 60 - 600 W IEC 60669-2-1, British Standard EN 60669-2-1 		
	2250 U-500	2CKA006515A0848	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] Also applicable for 1gang 2way installations.
[3)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[4)] Provided with terminal for net disconnection devices.

	Busch-rotary dimmer [1) 2) 3) 4) 5) 6)] **UP, RL, 200-700 W** With rotary control, 2way On-Off switching and soft-catch. Leading Edge control. For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer. Short-circuit-proof, overload-protected. With adjustable minimum brightness. Without cover plate. Without claws. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 200 - 700 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6520 U-500	2CKA006520A0227	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Provided with terminal for net disconnection devices.
[4)] Also applicable for 1gang 2way installations.
[5)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[6)] Should be mounted in a seperate wallbox.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-2gang switch/rotary dimmer [1) 2) 3)] **flush mounted, RL, 60-400 W** 1 channel designed as dimmer. 1 channel designed as switch contact (1gang 2way contact element) with leading edge control For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer. With adjustable minimum brightness. Without cover plate. Rated current 6A (changeover contact switch output). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 60 - 400 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6517 U-101-500	2CKA006517A0018	1/10

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Can be used to replace a 2gang 1way switch.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5) 6)] **flush mounted, RC, 40-420 W** With rotary control, soft-catch and with trailing edge control. For incandescent lamps, 230 V tungsten halogen lamps and lowvoltage halogen lamps with electronic transformers. Low-noise, short-circuit-proof, overload-protected. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 40 - 420 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6513 U-102	2CKA006513A0568	1/10
	6513 U-102-500	2CKA006513A0586	1/10

[1)] Not suitable with conventional transformers.
[2)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Provided with terminal for net disconnection devices.
[5)] Also applicable for 1gang 2way installations.
[6)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5) 6)] **flush mounted, RC, 40-550 W** With rotary control, soft-catch and with trailing edge control. For incandescent lamps, 230 V tungsten halogen lamps and lowvoltage halogen lamps with electronic transformers. Low-noise, short-circuit-proof, overload-protected. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 40 - 550 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6519 U	2CKA006519A0011	1

[1)] Not suitable with conventional transformers.
[2)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[3)] In case of electronic transformers, 5 % transformer losses.

future® linear
Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5)] **flush mounted, RLC, 60-420 W** with soft-catch With intelligence for universal operation. For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers. Short-circuit-proof, overload-protected. Capacity expansion via output-side, parallel connectable load line with a power module 6594 U up to 735 W/VA possible. Operation via rotary-type remote control 6592 U possible, Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Rated power: 60 - 420 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6591 U-101-500	2CKA006513A0588	1/10

[1)] Illuminable with neon lamp 3855. Neon lamp included in delivery with cover plate.
[2)] In case of electronic transformers, 5 % transformer losses.
[3)] In the case of conventional transformers, take ~20% transformer loss into account.
[4)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[5)] Cannot be combined with a 2way switch.

	Busch-rotary dimmer, extension [1) 2)] **flush mounted** for connection to 6591 U-101, To be used with Busch-Dimmer®, MDRC 6583. with soft-catch A maximum of 5 multi-way extensions can be connected to a 6591U-101, Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz		
	6592 U-500	2CKA006513A0590	1

[1)] Control elements 2115-xxx and 6540-xxx.
[2)] Required for illuminating the N-connection control element.

	Busch-rotary dimmer [1) 2) 3) 4)] **flush mounted, 1-10V** With rotary control. For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC. For LED control via control gears Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Rated power: 700 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	2112 U-101-500	2CKA006599A2873	1/10

[1)] Non-illuminable.
[2)] Use cover plates 2115 J-.../2115-.../6540-... .
[3)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[4)] Making-current limiters have to be provided in case of too high making currents.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1)] **flush mounted, DALI** For DALI broadcast service (via central telegram). For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. Fool proved. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Max. current consumption: 15 mA. Not suitable for combining with other DALI sensors or central units of other manufacturers. An additional DALI power supply is needed, e.g. by Tridonic, Philips, Helvar or 2117/11 U. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate. Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C		
	2117 U-500	2CKA006599A2987	1

[1)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

	Busch-rotary dimmer [1)] **flush mounted, DALI, with internal power supply** For DALI broadcast service (via central telegram). With integrated DALI power adaptor. For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. With electronic short-circuit protection. With electronic overload protection. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Up to 3 potentiometers are connectable in parallel in active mode. Not suitable for combining with other DALI sensors or central units of other manufacturers. DALI-voltage: 15,5 V= Rated current: max. 75 mA Power consumption: < 2,5 W Number of DALI-units: 37 in case of one active power-potentiometer in case of three active power-potentiometer in parallel connection: 111 Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices. Passive mode: the potentiometer is suitable as additional operation point. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C		
	2117/11 U-500	2CKA006599A2988	1

Movement detectors / comfort switches

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Comfort switch 2-wire insert [1) 2) 3) 4) 5) 6)] 2-wire connection (neutral conductor not required) For Busch-Comfort switch sensors 6815-xxx. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 40 - 300 W/VA Temperature range (Device): 0 °C to 35 °C British Standard EN 60669-2-1		
	6815 U	2CKA006800A2270	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
Cover frames:	1gang frame 1721 BS-2xG or Dual Box frame 1722 BSDB-2xG.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1)] In case of electronic transformers, 5 % transformer losses.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Not suitable for the activation of energy-saving lamps, conventional and electronic ballast units and LED lamps.
[4)] Not suitable for activating the staircase time delay.
[5)] Cannot be used to control relais.
[6)] Output cannot be connected in parallel.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Comfort switch relay mechanism [1) 2) 3)] 3 wire connection (neutral conductor required). For Busch-Comfort switch sensors 6815-xxx. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformer. Rated power: 2300 W/VA Suitable for: 230 V halogen lamps Rated power: 1200 W Suitable for: Fluorescent lamps Rated current: 10 AX, cos ϕ 0.5 Rated power: 2300 VA Temperature range (Device): 0 °C to 35 °C British Standard EN 60669-2-1		
	6816 U-500	2CKA006800A2621	1/10

[1)] In case of electronic transformers, 5 % transformer losses.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	Comfort blind insert [1) 2) 3)] **with memory and positioning function** For the manual and automatic control of roller blinds. The roller blind moves to the position set using the turn knob. Executes the individually programmed switching commands (UP/DOWN) in a 24-hour rhythm. Suitable for roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. Power reserve of 45 minutes (maintenance-free as capacitor). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 1.3 A, cos ϕ 0.5 Rated power: 300 VA Temperature range (Device): 0 °C to 35 °C		
	6419 U	2CKA006410A0390	1/10

[1)] Pertinent cover plates 6436-xx.
[2)] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.
[3)] Only suitable for single unit control.

	Basic blind insert [1) 2)] Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. For control cover 6430-xx-xxx. For standard timer control element 6456-101. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Temperature range (Device): 0 °C to 35 °C		
	6418 U-500	2CKA006410A0376	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1)] N-conductor connection required for operation with control cover 6430-7x, illuminated.
[2)] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Blind control II switch insert [1)] Suitable for blind, roller blind and awning drives with mechanical or electronic limit switch shut-off. With two 230 V multi-way input terminals (Up/Down) for group control. With operating mode switch for the following modes: normal, louvre, base station, position. With party function (disables the local control unit) in combination with Busch-Blind control II control cover 6430-xx-xxx, 6066-xx-xxx. Wind alarm, cleaning functions can be accommodated via extension input. For control cover 6430-xx-xxx. For IR control element 6066-xx-xxx. For comfort timer control element 6455-101-500. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Control/Signal outputs: 2 Temperature range (Device): 0 °C to 35 °C

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	Standard timer control element [1] For manual and time-controlled switching of blinds and roller blinds. With dusk to dawn program including (Astro-program) Individual Astro adjustment and Astro blocking time. The controlled devices can be manually operated at any time. Simple setting via high-resolution display with background illumination. With preset switching times/date/time. Factory-set switching times can be individually adjusted. Automatic switchover from summer time to winter time (switch-off function). Switching times/programme are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/automatic/vacation modes. Programming possible only with control element attached and energized. 2 switching times per day can be user-defined for each day of the week. Astro switching times and switching times can be combined. For basic blind insert 6418 U. Temperature range (Device): 0 °C to 35 °C		
	6456-101	2CKA006410A0398	1/10

Data communication

Product	Article-No.	Order-No.	Pack/Qty
	WLAN access point, flush-mounted [1) 2)] **power supply from mains power** Operation as WLAN access point for the connection of WLAN terminal devices to the LAN. Operation as WLAN repeater for extending the transmission range of a WLAN. Operation as WLAN adapter for integrating Ethernet terminal devices into a WLAN. Supports WLAN standards IEEE 802.11b/g/n with 2.4 GHz; integrated WLAN antenna. Backward connection of an Ethernet cable via screw terminals (10/100 Mbit/s). Front-side Ethernet connection via a RJ45 socket (10/100 Mbit/s). The three connections (WLAN, Ethernet/screw terminals and Ethernet/RJ45)can be used in parallel via the integrated switch. Power supply via 2-pole connecting terminal. Nominal voltage: 100 - 240 V~ For mounting in commercially available deep flush-mounted and hollow-wall boxes. Rated frequency: 50 Hz - 60 Hz		
	8186/31-101-500	2CKA008100A0359	1

[1)] Suitable for cover plate 1803-xxx.
[2)] Not to be mounted in SM box 1701-xxx, 1702-xxx, 1703-xxx.

	Reset magnet For resetting WLAN access point UP 8186/31-101 and WLAN access point PoE UP 8186/41 to the factory settings.		
	8186/11-500	2CKA008100A0361	1

	**Universal data connection unit, cat. 3** [1)] **1gang** With down-leading outlet. For 8-pole plug, RJ 11/12, RJ 45, ISDN capability, Cat. 3. Design according to IEC 60 603-7-2:2007. Screw contacts With claw.

	Universal module, RJ 45, cat. 6a iso, shielded [1] **1gang** For installation in installation adapter 0219/12 or 0219/13. Also suited for mounting into cover plate 2561 and bases 1812, 1866 EB, and 1867 EB. RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06. Cat. 6A according to ISO/IEC 11801: 2011-06. Terminal marking A and B according to TIA/EIA-568-B.2. Typ according to EN 60 603-7-51:2011-01. Shielding according to DIN EN 55022, Class B. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Bend-radius optimised cable feed (30°). Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed. Suitable for Mix-and-Match operation. For 8-pole plug RJ 45 only. Housing made from diecast zinc. With integrated dust-protection cap (can be removed if necessary). With insulation displacement connection For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22. For trunk systems, flush-mounted wall boxes and underfloor systems.		
	0219-101	2CKA000230A0413	1/10

[1] With assembly adapters appropriate for telephone unit cover plates 2539-21x and 1766-xxx.

	Modular-Jack insert **6-pole Cat. 3 (AMP-No. 216000-2)** For cover plate 2561- and insert 1812, 1866 built-in, 1867 built-in. For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).

Multimedia / communication adapters

Product	Article-No.	Order-No.	Pack/Qty
	HDMI connection unit [1] **with screw-type terminals and strain relief** Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx. To link high-definition digital audio and video data from e.g. SAT-receiver, DVD-/Blue-Ray-player to plasma-type, LCD- or-LED-TVs/screens. HDMI-type A, 3D-compatible. Fully HD ready (1920 x 1080 pixel). For 20-wire HDMI-cables via srew-type terminals. For trunk systems, flush-mounted wall boxes and underfloor systems. For easy installation and to follow the valid bending radii the "Kaiser- electronic-wall-box" type 1068-02 or 9062-74 is recommended. Without cover plate. Without claws. Mounting depth: 34 mm		
white	**0261/31-500**	2CKA000230A0430	1

Rated current: 16 A, cos ϕ 1
EN 60730-2-9, British Standard EN 60669-2-1

	1095 UF	2CKA001032A0497	1/10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Room thermostat, flush-mounted [1] [2]
Change-over contact, setpoint indication, timer, remote sensor
With change-over contact.
Easy adjustment using menu and text-based display.
4 switching times per day can be user-defined for each day of the week.
With fixing claws.
Automatic summer/wintertime switch-over
Remote sensor cable length: 4 m.
Sensor =NTC, 10 kilo-ohm at 25 degrees C.
Power reserve > 10 hours
To fit cover plate 6435-xxx.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 16 A
Temperature range (Device): 10 °C to 50 °C
NEW
EN 60730-2-9

	1098 UF-101	2CKA001032A0509	1/10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Servo valves of "closed or open when de-energized" design are required for the controller. E.g. article no. 6164/10-101.

Product	Article-No.	Order-No.	Pack/Qty

Electrothermal Valve Drives with function indicator
For the actuation of heaters and cooling ceilings in connection with conventional room temperature controllers (e.g., 1094 U) or KNX, or free@home heating/valve actuators (e.g., 6164/46, 6254/0.XX)).
With function display (opened or closed).
de-energized when closed
Max. opening/closing time: 3.5 min
For installing, a suitable valve adapter is required.
Power input: 4 mA (approx. 1 W)
Inrush current: < 550 mA (max. 100 ms)
Connecting cable: 1.0 m (pluggable)
Rated voltage: 230 V~
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 54
Dimensions: (L x W x D): 59 mm x 45 mm x 53 mm

	6164/10-102	2CKA006151A0257	1/100

Room thermostat, flush-mounted [1] [2] [3]
2 NC contacts, heating/cooling
With separate connection (230 V~) for external switchover between heating or cooling.
Switch contact opens when the set temperature is reached.
With fixing claws.
Nominal current: 10 A heating
Nominal current: 5 A cooling
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1099 UHK	2CKA001032A0515	1/10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
2) Servo-valves, "closed when de-energized", are necessary for connection to thermostat. e.g. Article No. 6164/10-, see KNX chapter.
3) Switching temperature difference: ± 0.5 K.

Room thermostat, flush-mounted [1] [2] [3]
2 NC contacts, heating/cooling, sliding switch
With built-in sliding switch for switchover between cooling or heating.
Switch contact opens when the set temperature is reached.
With fixing claws.
Nominal current: 10 A heating
Nominal current: 5 A cooling
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1099 UHKEA	2CKA001032A0516	1/10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[2] Servo-valves, "closed when de-energized", are necessary for connection to thermostat. e.g. Article No. 6164/10-, see KNX chapter.
[3] Switching temperature difference: ± 0.5 K.

WaveLINE control elements

Product	Article-No.	Order-No.	Pack/Qty
	Wall-mounted transmitter WaveLINE [1) 2)] **1-channel** 1gang wall-mounted transmitter independent of mains power supply. With labelling field and labelling strip. For switching and dimming. For controlling blinds and light scenes. 1 radio channel can be operated or up to 2 light scenes can be called up. For flush-mounted WaveLINE actuators 6701-101, 6702, 6703, 6704 and 6705-101. For LED display WaveLINE 6730-xxx. Compatible with WaveLINE KNX gateway TP-RF 6770. Send frequency: 868 MHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery Type CR2032. Battery service life: typically 5 years, therefore practically maintenance-free. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Control element: rocker switch left/right Display elements: LED to indicate the transmission Rated voltage: 3 V- Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 16 mm

Product	Article-No.	Order-No.	Pack/Qty
	RC suppressor For protection against the damage or destruction of electronic devices due to overvoltages. For wiring network-interconnected inductivities (e.g.. relay, protection, fluorescent lamps, transformers, etc.). Eliminates functional disturbances on electronic devices, e.g. automatic circuit reclosure (clocking) of a movement detector. Dimensions: diameter 25 mm, length 35 mm, length of the connecting cable approx. 100 mm. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz

basic55®

One concept, numerous possibilities.

Square but still round, white but colourful. A smart concept which inspires the imagination and acknowledges the desire for individual styling. Elements formed into a creative solution. White rockers and frames fine-tuned with discreet colour rings. The concept which makes its own style.

basic55®

basic55® range has many facets. It fulfils every wish for creative design. Six frame colours can be perfectly combined with two rocker colours to meet individual expectations. Plus the luxurious champagne version as alternative. Thirteen exclusive options for combining puristic design with modern, pleasant colours.

Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Busch-rotary dimmer [1) 2) 3) 4) 5) 6) 7)] **UP, LED, 2-400 W** Very small installation depth: < 20 mm Without claws. With rotary control, two-way switch and soft-catch. 2-wire connection (neutral conductor not required) Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum/maximum brightness. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (leading edge control) Nominal power: 2 - 400 W/VA (trailing edge control) Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C IEC 60669-2-1, British Standard EN 60669-2-1 		
	6523 UR-103-500	2CKA006512A0345	1/10

[1)] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] In case of electronic transformers, 5 % transformer losses.
[4)] Also applicable for 1gang 2way installations.
[5)] Provided with terminal for net disconnection devices.
[6)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[7)] Recommendation: Please use loads and types of one producer.

Dimmers

Product	Article-No.	Order-No.	Pack/Qty

Busch-touch dimmer [1) 2) 3) 4) 5) 6)]
Flush-mounted, LED, 2-100 W
Touch dimmer.
2-wire connection (neutral conductor not required)
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
Optimised for dimming of retrofit LED lamps (LEDi).
For incandescent lamps, 230V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers and dimmable halogen energy-saving lamps.
Mix operaton of LEDi with conventional loads possible.
With adjustable minimum brightness.
The minimum brightness for the leading edge control can be adjusted using the potentiometer.
The potentiometer at the left limit stop corresponds with the trailing edge control mode.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
With light-level memory and minimum brightness memory.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control cover with control lamp 6543-xxx-10x.
For Busch-Remote control IR control cover 6066-xxx-10x.
For comfort timer control element 6455-101-500.
For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx.
Nominal power: 2 - 100 W/VA (retrofit LED loads).
Nominal power: 10 - 200 W/VA (non-LED loads).
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C
IEC 60669-2-1, British Standard EN 60669-2-1

[2)] In case of electronic transformers, 5 % transformer losses.
[3)] In the case of conventional transformers, take ~20% transformer loss into account.
[4)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[5)] Cannot be combined with a 2way switch.

Busch-rotary dimmer, extension [1) 2)]
flush mounted
for connection to 6591 U-101,
To be used with Busch-Dimmer®, MDRC 6583.
with soft-catch
A maximum of 5 multi-way extensions can be connected to a 6591U-101,
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz

	6592 U-500	2CKA006513A0590	1

[1)] Control elements 2115-xxx and 6540-xxx.
[2)] Required for illuminating the N-connection control element.

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1) 2) 3) 4)]
flush mounted, 1-10V
With rotary control.
For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC.
For LED control via control gears
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 700 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	2112 U-101-500	2CKA006599A2873	1/10

[1)] Non-illuminable.
[2)] Use cover plates 2115 J-.../2115-.../6540-... .
[3)] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[4)] Making-current limiters have to be provided in case of too high making currents.

Busch-rotary dimmer [1)]
flush mounted, DALI, with internal power supply
For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
With electronic short-circuit protection.
With electronic overload protection.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

	2117/11 U-500	2CKA006599A2988	1

Rated power: 60 - 420 W/VA Temperature range (Device): 0 °C to 35 °C British Standard EN 60669-2-1		
	6804 U-101-500	2CKA006800A2219	1/10

[1)] In case of electronic transformers, 5 % transformer losses.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Not suitable for the activation of energy-saving lamps, conventional and electronic ballast units and LED lamps.
[4)] Not suitable for activating the staircase time delay.
[5)] Cannot be used to control relais.
[6)] Requires an NIS international socket, E-No. 372507676.

Movement detectors / comfort switches

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Watchdog extension insert [1] 3 wire connection (neutral conductor required). For extending Busch-Watchdog 180 flush-mounted and Busch-Watchdog Presence tech installations. For combination with relay insert 6401 U-102 and 6402 U. For combination with MOS-Fet insert 6804 U-101. For combination with Dimmer insert 6593 U and 6550 U-101. For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101. For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Control/Signal outputs: 1, electronic output, potential-bound Temperature range (Device): 0 °C to 35 °C		
	6805 U-500	2CKA006800A2161	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
Cover frames:	1gang frame 1721 BS-2xG or Dual Box frame 1722 BSDB-2xG.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1] Not combinable with relay switch insert 6812 U-101.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Comfort switch 2-wire insert [1] [2] [3] [4] [5] [6] 2-wire connection (neutral conductor not required) For Busch-Comfort switch sensors 6815-xxx. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 40 - 300 W/VA Temperature range (Device): 0 °C to 35 °C British Standard EN 60669-2-1		
	6815 U	2CKA006800A2270	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
Cover frames:	1gang frame 1721 BS-2xG or Dual Box frame 1722 BSDB-2xG.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1] In case of electronic transformers, 5 % transformer losses.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] Not suitable for the activation of energy-saving lamps, conventional and electronic ballast units and LED lamps.
[4] Not suitable for activating the staircase time delay.
[5] Cannot be used to control relais.
[6] Output cannot be connected in parallel.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Comfort switch relay mechanism [1] [2] [3] 3 wire connection (neutral conductor required). For Busch-Comfort switch sensors 6815-xxx. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformer. Rated power: 2300 W/VA Suitable for: 230 V halogen lamps Rated power: 1200 W Suitable for: Fluorescent lamps Rated current: 10 AX, cos ϕ 0.5 Rated power: 2300 VA Temperature range (Device): 0 °C to 35 °C British Standard EN 60669-2-1

Product	Article-No.	Order-No.	Pack/Qty
	Comfort timer control element [1] For manual and time-controlled switching of blinds, roller blinds, awnings, lighting and other electrical devices. With dusk to dawn program including (Astro-program) Individual Astro adjustment and Astro blocking time. The controlled devices can be manually operated at any time. Simple setting via high-resolution display with background illumination. With preset switching times/date/time. Factory-set switching times can be individually adjusted. Automatic switchover from summer time to winter time (switch-off function). Switching times/programme are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/automatic/vacation modes. Combined with Busch-Blind control II insert 6411 U/S-101, sun protection and twilight function. Freely adjustable temperature and brightness-dependent sun protection function. Freely adjustable twilight function. User-adjustable running times for blinds and air conditioning. Programming possible only with control element attached and energized. 6 switching times per day can be user-defined for each day of the week. Astro switching times and switching times can be combined. When combined with LED dimmer 6524 U, Busch-Universal master dimmer insert 6593 U or Busch-Memory touch-type controller 6550 U-101, the brightness of the lighting can be adjusted for each ON switching time. For Busch-Blind control II insert 6411 U-101, 6411 U/S-101. For Busch-Universal relay switch insert 6401 U-102. For Busch-Universal master dimmer insert 6593 U. For LED dimmer insert 6524 U and 6526 U. For Busch-Memory touch-type controller 6550 U-101. Temperature range (Device): 0 °C to 35 °C		
	6455-101-500	2CKA006410A0399	1/10

Product	Article-No.	Order-No.	Pack/Qty
	**Universal data connection unit, cat. 3** [1] **1gang** With down-leading outlet. For 8-pole plug, RJ 11/12, RJ 45, ISDN capability, Cat. 3. Design according to IEC 60 603-7-2:2007. Screw contacts With claw.		
	0213-507	2CKA000230A0378	1/10

[1] Suitable for cover plate 1803-xxx.

	Data-connection box, RJ45, cat.5e, shielded [1] **1gang** With down-leading outlet and LSA self-cutting clamps. Cat. 5 in accordance with DIN EN 50173-1:2011-09. Cat. 5e (Category 5 enhanced) according to TIA/EIA-568-B.2-2001. Marking in accordance with EIA/TIA 568 A and B. According to EN 60 603-7-3:2010-06. Shielding according to DIN EN 55022, Class B. Up to 100 MHz on all pairs of wires. Suitable for Gigabit Ethernet. Suitable for PoE+ according to IEEE 802.3at, >- 2.500 contact durability. Flex cable entries from all sides without buckles. Earthing of housing via 6,3 mm blade terminal at the back possible. Suitable for Mix-and-Match operation. Suitable for RJ 11, RJ 12 und RJ 45. Clearly colour-coded connection identification. For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22. For trunk systems, flush-mounted wall boxes and underfloor systems. Without claws. Mounting depth: 31 mm.		
metal clad	**0216-101-507**	2CKA000230A0406	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		

[1] Suitable for cover plate 1803-xxx.

	Universal data connection unit, RJ45, Cat. 5e, unshielded, with down-leading outlet [1] **1gang** With down-leading outlet and LSA self-cutting clamps. Cat. 5 in accordance with DIN EN 50173-1:2003-06. Cat. 5e (Category 5 enhanced) according to TIA/EIA-568-B.2-2001. Marking in accordance with EIA/TIA 568 A and B. Design according to IEC 60 603-7-2:2007. Up to 100 MHz on all pairs of wires. Suitable for Gigabit Ethernet. With claw.

anthracite	**0248/05-101**	2CKA000230A0404	10/100

[1] Suitable for cover telephone unit 1766-xxx and 2539-21x.

Product	Article-No.	Order-No.	Pack/Qty
	USB connection unit [1] **with screw-type terminals and strain relief** Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx. To link mobile devices like e.g. printer, scanner, USB-sticks or digital cameras etc. USB-type A, USB 2.0 compatible. For 5-wire USB- cables via srew-type terminals. For trunk systems, flush-mounted wall boxes and underfloor systems. For easy installation and to follow the valid bending radii the "Kaiser- electronic-wall-box" type 1068-02 or 9062-74 is recommended. Without cover plate. Without claws. Mounting depth: 34 mm		
white	**0261/11-500**	2CKA000230A0418	1

[1] Please follow the recommendations of the cable and device producers for the max. USB cable lengths.

	VGA connection unit [1] **with screw-type terminals and strain relief** Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx. To link analogue video data between PCs and laptops to monitors or digital projectors etc. VGA-type: D-type, 15-pole. Fully HD ready (1920 x 1080 pixel). For 15-wire VGA-cables via srew-type terminals. For trunk systems, flush-mounted wall boxes and underfloor systems. For easy installation and to follow the valid bending radii the "Kaiser- electronic-wall-box" type 1068-02 or 9062-74 is recommended. Without cover plate. Without claws. Mounting depth: 34 mm		
white	**0261/21-500**	2CKA000230A0424	1

[1] Please follow the recommendations of the cable and device producers for the max. VGA cable lengths.

	HDMI connection unit [1] **with screw-type terminals and strain relief** Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx. To link high-definition digital audio and video data from e.g. SAT-receiver, DVD-/Blue-Ray-player to plasma-type, LCD- or-LED-TVs/screens. HDMI-type A, 3D-compatible. Fully HD ready (1920 x 1080 pixel). For 20-wire HDMI-cables via srew-type terminals. For trunk systems, flush-mounted wall boxes and underfloor systems. For easy installation and to follow the valid bending radii the "Kaiser- electronic-wall-box" type 1068-02 or 9062-74 is recommended. Without cover plate. Without claws. Mounting depth: 34 mm		
white	**0261/31-500**	2CKA000230A0430	1

	Satellite co-axial outlets **2 connectors/dead-end feeder** Broadband technology 5-2.400 MHz For DVB-T, satellite and broad-band cable systems. For analogue and digital transmission. With claw. Minimal installation depth, class A.		
	0230-101-507	2CKA000230A0380	10/100
	**Antenna socket insert Radio/TV** **2 connectors/loop through type** Broadband technology 5-2.400 MHz For DVB-T, satellite and broad-band cable systems. For analogue and digital transmission. With claw. Minimal installation depth, class A.		
	0231-101	2CKA000230A0268	10/100
	**Satellite co-axial outlets Radio/TV/SAT** **3gang dead-end feeder** Broadband technology 47-2.150 MHz. SAT connection designed as screwable F-male plug. with remote feed via F-bush For DVB-T and broadband-cable-systems. For analogue and digital transmission. With claw. Minimal installation depth, class A.		
	0232-101-500	2CKA000230A0463	10/100
	Terminating resistor **75 Ohm**		
	0239	2CKA000230A0201	10/100
	Modular-Jack insert **Cat. 5e non-shielded, 8 (8)-pole** For cover plate 2561- and insert 1812, 1866 built-in, 1867 built-in. For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).		
	0211/11-507	2CKA000225A0153	1/10

Product	Article-No.	Order-No.	Pack/Qty
	Modular-Jack insert **6-pole Cat. 3 (AMP-No. 216000-2)** For cover plate 2561- and insert 1812, 1866 built-in, 1867 built-in. For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).		
	0210	2CKA000225A0078	10
	Modular-Jack insert **8-pole Cat. 3 (AMP-No. 216005-4)** For cover plate 2561- and insert 1812, 1866 built-in, 1867 built-in. For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22).		
	0211	2CKA000225A0086	10
	Universal module, RJ 45, cat. 6a iso, shielded [1] **1gang** For installation in installation adapter 0219/12 or 0219/13. Also suited for mounting into cover plate 2561 and bases 1812, 1866 EB, and 1867 EB. RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06. Cat. 6A according to ISO/IEC 11801: 2011-06. Terminal marking A and B according to TIA/EIA-568-B.2. Typ according to EN 60 603-7-51:2011-01. Shielding according to DIN EN 55022, Class B. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Bend-radius optimised cable feed (30°). Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed. Suitable for Mix-and-Match operation. For 8-pole plug RJ 45 only. Housing made from diecast zinc. With integrated dust-protection cap (can be removed if necessary). With insulation displacement connection For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22. For trunk systems, flush-mounted wall boxes and underfloor systems.		
metal clad	**0219-101-507**	2CKA000230A0414	1/10

[1] With assembly adapters appropriate for telephone unit cover plates 2539-21x and 1766-xxx.

Product	Article-No.	Order-No.	Pack/Qty
	Mounting plate [1) 2)] **with green insert** For 2 modular jack inserts. For systems: CommScope (AVAYA / AT&T / Lucent Technologies), GigaSPEED, PowerSUM, 360 GS 10E bis MGS 600-BK, M1 BH-xx, MPS 100E-xx. With R&M adapter R310694 suitable for R&M connection modules R305111, R305112, R305113 and R305114. Pitch dimensions: (WxH) approx. 16.9 x 17.9 mm. Without claws.		
	1810-500	2CKA001753A9974	10/100

[1)] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2)] For further information, please refer on the Internet.

	Mounting plate [1) 2)] **with red insert** For 2 modular jack inserts. Suitable for Art. Nos. 0210, 0211 and 0219-101. For systems: AMP / tyco Electronics, BTR, EFB, Krone, Panduit, Quante, Radiall, Setec, Dr.-Ing. Sieger, Telena, Thomas & Betts For Telegärtner AMJ/UMJ connection modules/ couplings. For 2 fiber optic modules of the following types: 3M-Volition, Krone, mvk. Pitch dimensions: (WxH) approx. 14.8 x 19.4 mm. Without claws.		
	1812-500	2CKA001753A9972	10/100

[1)] Compatibility with other manufacturers not listed is to be checked in accordance with specified snap-in dimensions.
[2)] For further information, please refer on the Internet.

	Mounting plate [1) 2)] **with black insert** For MTRJ or 2 modular jack inserts. For systems: Ackermann, AMP / tyco Electronics (Slim Line (SL) -SM 2gang/switches: 110Connect Jacks, Toolless Jacks / Standard 110Connect Jacks), Brand-Rex, CombiNet, EFB Electronic, Telena. For 2 fiber optic modules of the following types: AMP / tyco Electronics MTRJ. Pitch dimensions: (WxH) approx. 14.8 x 20.4 mm. Without claws.

	Busch-DigitalRadio [1) 2) 3) 4) 5)] RDS stereo radio alarm clock for flush-mounted installation. Reception frequency: 87.50 MHz - 108.00 MHz. With display and background illumination. With external input for Busch-iDock. Remote control possible via Busch-iDock. For mono/stereo operation. 8 radio stations storable. With time display. With alarm function. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated antenna. With additional connection for external antenna. Permitted speaker impedance: 4 - 8 Ohm Can be installed as 1gang and in multiple combinations. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 5 °C to 40 °C Dimensions: (L x W x D): 71 mm x 71 mm x 49 mm Mounting depth: 34 mm		
	8215 U-500	2CKA008200A0182	1/10

[1)] No claw. Screw-fixing via keyholes.
[2)] Matching loudspeaker insert 8223 U.
[3)] Also combinable with built-in ceiling loudspeaker (8225 EB & 8226 EB) and HiFi built-in ceiling loudspeaker (8226/11 EB).
[4)] Can also be combined with built-in loudspeaker (8222 EB) and moist atmosphere loudspeaker (8224 EB).
[5)] To be mounted only in connection with commercially available flush-mounted installation boxes according to DIN 49073 > 40 mm depth gauge or Busch-Jaeger art. no. 3040, 3050 or 3060.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Radio iNet [1) 2) 3) 4)] WLAN Internet radio alarm clock for flush-mounted installation. For the reception of national and international radio stations via Internet. Radio station search possible via various genres. With high resolution graphic display and background illumination. With external input for Busch-iDock. Remote control possible via Busch-iDock. Integrated web-server for configuration and control. Remote operation with smartphone via browser surface. UPnP replay function. It is controlled via smartphone. For mono/stereo operation. 8 radio stations storable. With time and date display. With alarm function. With short-time timer. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated WLAN antenna. WLAN standards: IEEE 802.11b / IEEE 802.11g. WLAN safety: WPA / WPA2. Permitted speaker impedance: 4 - 8 Ohm Can be installed as 1gang and in multiple combinations. Rated voltage: 110 - 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 5 °C to 40 °C Dimensions: (L x W x D): 71 mm x 71 mm x 49 mm Mounting depth: 33 mm APP		
	8216 U-500	2CKA008200A0153	1/10

Room thermostats

Product	Article-No.	Order-No.	Pack/Qty

Room thermostat, flush-mounted [1) 2) 3)]
NC contact
Switch contact opens when the set temperature is reached.
With fixing claws.
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 10 A
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1094 U-500	2CKA001032A0512	1/10

1) Only in conjunction with standard flush-mounting boxes according to DIN 49073.
2) Servo-valves, "closed when de-energized", are necessary for connection to thermostat. e.g. Article No. 6164/10-, see KNX chapter.
3) Switching temperature difference: ± 0.5 K.

Room thermostat, flush-mounted [1) 2) 3)]
1gang 2way
With fixing claws.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 5 A
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

	1097 U-500	2CKA001032A0513	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

1) Only in conjunction with standard flush-mounting boxes according to DIN 49073.
2) Servo valves of "closed or open when de-energized" design are required for the controller. E.g. article no. 6164/10-101.
3) Switching temperature difference: ± 0.5 K.

Room thermostat, flush-mounted [1) 2) 3)]
NC contact, slide switch
With built-in slide switch and control lamp for nightly reduction of 4 K.
Switch contact opens when the set temperature is reached.
With fixing claws.
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 10 A
Temperature range (Device): 5 °C to 30 °C
EN 60730-2-9, British Standard EN 60669-2-1

Zenit
Natural in its habitat.

Zenit is forever a good decision, it becomes a corner stone for your projects. You can always count on it. Modular system with a wide choice of functionalities for greater comfort. Appreciated design. Various frame materials from more modest finishes to glass, steel or even slate. Blends into its surroundings or presents itself gracefully. All you need to do is choose.

	9329.1	2CLA932910A1001	1
	Installation box for 5" loudspeaker For 9329.1 loudspeaker. For flush-mounted assembly. Drilling measurements: 174 mm. Mounting depth: 84 mm.		
	9399	2CLA939900A1001	12
	Installation ring for 5" loudspeaker For 9329.1 loudspeaker. For mounting in hollow walls/ceilings. With spring brackets. Drilling measurements: 160 mm. Mounting depth: 110 mm.		
	9399.1	2CLA939910A1001	12
	Embellishing grid for 5" loudspeaker Embellishing grid for 5" loudspeaker code: 9329.1. Plastic material. With central fixation screw.		
	9399.2	2CLA939920A1001	12
	Auxiliary 20W amplifier Rated voltage: 230 Vac ± 10 % / 50-60 Hz. Power consumption: 3,5 VA (max. 36 VA). Output voltage: 15 V- (max. 1,5 A). Output power: - 10 + 10 W (2 Ω). - 20 W (4 Ω). Speaker impedance: - 2 - 16 Ω (10 + 10 W). - 4 - 16 Ω (20 W). Can be operated in booster mode with FM radio modules 9368 and 9368.7 and multiroom modules 9368.1. Can be operated in "standalone" mode with one audio input. Can be used in bridge operation. For extending the number of speakers at one amplifier insert. For max. 16 speakers code 9329 or 9329.1. DIN-rail installation. Module width: 7.		
	9335.1	2CLA933510A1001	1

Room thermostats

Product	Article-No.	Order-No.	Pack/Qty
	Rotatory thermostat with floor sensor - 2M Rated voltage: 230 Vac ±10% / 50-60 Hz. Load power: 2.300 W. Load type: floor heating resistor. Control temperature: +5ºC to +45ºC (Set point). OFF state: at OFF position, the thermostat is off, so that it does not address the temperature measured by the floor temperature probe. The relay output contact is open. Temperature accuracy: 0,5º C. Hysteresis: 0,5º C. Floor temperature sensor: NTC, 10 KΩ at 25º C, -40º C. to 80º C. Double isolated cable, 4 m. length. LED light indication: Red and green. Ambient temperature: -20º C to 45º C.		
White	**N2240.3 BL**	2CLA224030N1102	1
Silver	**N2240.3 PL**	2CLA224030N1302	1
Anthracite	**N2240.3 AN**	2CLA224030N1802	1
Champagne	**N2240.3 CV**	2CLA224030N1902	1
	Digital room thermostat - 2M Rated voltage: 230 Vac / 50-60 Hz. Power consumption: < 1W. Operating temperature range: + 0º C to 50º C. Measurement accuracy: ±2º C (±1º C with calibration). Resolution: 0.1º C. Control output: Potential-free relay contacts Normally Open (NO). Maximum load: 3A cos = 0,5. Output relay operation modes: - Hysteresis: 0.5º C. - Pulse-width modulation: with a ±4ºC difference with the set-point temperature, variable from 100% to 0% modulation. To be installed with N2240.5 cover plates.		
	8140.5	2CLA814050A1002	1
	Cover plate for digital thermostat- 2M Cover plate for digital room thermostat code 8140.5.

	ABB-free@homeTouch 7” For the central control of up to 16 configurable ABB-free@home® functions of type: switching, dimming, blind, RTC, scene, Philips HUE. Display of the video image of the outdoor station of ABB-Welcome door entry system. Suitable as room temperature controller extension unit (up to 8). Surface mounting. The bus can be connected via enclosed terminal block. Display size / resolution: 17.8 cm (7’’) / 800 x 480 Consumer units: 11 Display elements: TFT Touch Display Dimensions: (L x W x D): 155 mm x 218 mm x 29 mm Programming only with bus voltage applied via the web interface of the System Access Point. The power is supplied by the ABB-Welcome system controller or when using the ABB-free@home panel without an ABB-Welcome system, a separate ABB 24 V- power supply is required. Protection class (device): IP30 Temperature range (device): -5 °C to 40 °C		
White	**DP7-S-611**	2CKA008300A0356	1
Black	**DP7-S-625**	2CKA008300A0357	1
	ABB-free@homeTouch 4.3” For the central control of up to 16 configurable ABB-free@home® functions. For the display of configurable system messages. A configurable primary function can be triggered with a multi-touch gesture. Capacitive touch screen with closed glass surface. With integrated room temperature controller and temperature sensor. In connection with temperature sensor 6226/T the integrated room temperature controller can be fitted with a remote sensor. Suitable as room temperature controller extension unit (up to 8). Requires additional ABB power supply 24 VDC. Display size / resolution: 10.9 cm (4.3’’) / 480 x 854. Mounting height: 8 mm. Control element: freely programmable touch surfaces. Display elements: LCD display Bus voltage: 24 V- Dimensions: (L x W x D): 104 mm x 143 mm x 53 mm Programming only with bus voltage applied via the web interface of the System Access Point. Protection class (device): IP20 Temperature range (device): -5 °C to 40 °C		
White	**DP4-1-611**	2CKA006220A0119	1
Black	**DP4-1-625**	2CKA006220A0120	1
	Flush mounting installation box For flush-mounted in hollow-wall installation of the ABB-free@homeTouch 4.3”. Windproof. Installation dimensions (H x W x D): 82 mm. x 123 mm. x 50 mm. Mounting depth: 50 mm. Halogen free.		
Black	**DP4-F**	2CKA006220A0389	1

	Temperature sensor For use as remote sensor with ABB- free@homeTouch 4.3”. Line type: H03 VV-F Cable length: 4 m Type: NTC 10 kohm.		
	DP4-T-1	2CKA006220A0721	1
	System Access Point - Wireless For commissioning and remote control of the ABB-free@home® system. With integrated free@home wireless antenna. With integrated free@home bus connection. Allows the execution of astro and time programs. Commissioning and remote control is executed via the web interface or app. No additional commissioning software is required. Easy commissioning with WLAN ad-hoc mode. WLAN modes switchable via local operation. Connection to the home network via WLAN client mode or via CAT cable. The bus connection is provided via the enclosed bus terminal. Display elements: LED for status display. Rated voltage: 230 V~; 50/60 Hz. Bus voltage: 24 V. Dimensions: (L x W x D): 110 mm x 170 mm x 31 mm Programming via the web interface of the System Access Point. Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C		
	SAP-S-2	2CKA006200A0105	1
	External antenna - Wireless For use with System Access Point SAP-S-2 and SAP-S-127.2. Feed the free@home wireless signal to the outside when the internal antenna of the System Access Point is shielded due to structural conditions. With magnetic base. Cable length: 1.5 m.		
	SAP-1-WL	2CKA006200A0100	1
	Weather station For recording and transmitting of brightness, temperature, wind speed and rain. Weather data can be linked with actuators to automatically control functions. Weather data can be visualized in the free@home web interface and the free@home app. Wind speed measuring range 2 - 30 m/s The bus can be connected via enclosed terminal block. Rated voltage: 110 V~ - 230 V~; 50/60 Hz. Bus voltage: 24 V- Inputs: 4 Temperature range (sensor): Brightness limit value: 1 lux - 100000 lux Dimensions: (L x W x D): 108 mm x 121 mm x 227 mm Protection class (device): IP44 Temperature range (device): -20 °C to 55 °C

Product	Article-No.	Order-No.	Pack/Qty
	Power supply Power supply with integrated choke. Fast diagnosis due to LED display for operational readiness and errors. The bus can be connected via enclosed terminal block. Display elements: operational load/overload LED Rated voltage: 127 V~ - 230 V~, +10 % / -15 %; 50/60Hz Secondary: 30 V, +2 V / --2 V Outputs: 1 Rated current: 640 mA Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 72 mm x 64 mm Module width (DIN-rail): 4 MW		
	PS-M-64.1.1	2CDG510001R0011	1
	Binary input 2-gang Conventional push-buttons or auxiliary contacts can be connected to 2 channels. The information of the contact scanning can be used for activating ABB-free@home® actuators or for recording status information. The contact polling voltage is made available from the binary input itself. Extension of the connecting cables possible by a maximum of 10 m. Flush-mounted device for installation in a 60 mm device box or distribution box. The bus can be connected via enclosed terminal block. Programming only with bus voltage applied via the web interface of the System Access Point. Bus voltage: 24 V Inputs: 2 Polling voltage: 20 V- Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 39 mm x 40 mm x 12 mm.		
	BI-F-2.0.1	2CDG510002R0011	1
	Binary input 4-gang Conventional push-buttons or auxiliary contacts can be connected to 4 channels. The information of the contact scanning can be used for activating ABB-free@home® actuators or for recording status information. The contact polling voltage is made available from the binary input itself. Extension of the connecting cables possible by a maximum of 10 m. Flush-mounted device for installation in a 60 mm device box or distribution box. The bus can be connected via enclosed terminal block. Programming only with bus voltage applied via the web interface of the System Access Point. Bus voltage: 24 V Inputs: 4 Polling voltage: 20 V- Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 39 mm x 40 mm x 12 mm		
	BI-F-4.0.1	2CDG510003R0011	1

Product	Article-No.	Order-No.	Pack/Qty
	Binary input 4-gang The device detects AC/DC signals of 10 - 230 V via 4 channels. The information of the signal evaluation can be used for controlling ABB-free@home® actuators or for recording status information. The bus can be connected via enclosed terminal block. Programming only with bus voltage applied via the web interface of the System Access Point. Bus voltage: 24 V Inputs: 4 Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 36 mm x 64 mm Module width DIN-rail): 2 MW		
	BI-M-4.0.1	2CDG510004R0011	1
	Binary input 8-gang / switch actuator 8-gang Combination device with 8 binary inputs and 8 switch actuators. Conventional push-buttons or auxiliary contacts can be connected to 8 channels. The information of the contact scanning can be used for activating ABB-free@home® actuators or for recording status information. The contact polling voltage is made available by the device itself. Maximum cable length at a cable cross-section of 1.5 mm² < 100 m For switching 8 independent 230 V~ loads. No additional commissioning software is required. Programming only with bus voltage applied via the web interface of the System Access Point. Bus voltage: 24 V Inputs: 8 Polling voltage: 35 V- Outputs: 8 Normally Open contact, potential free Suitable for: AC1 (Output voltage: 230 V~) Rated current: 6 A, cos ϕ0.8 Suitable for: AC3 (Output voltage: 230 V~) Rated current: 6 A, cos ϕ0.45 Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 144 mm x 64.5 mm Module width (DIN-rail): 8 MW.		
	SA-M-8.8.1	2CDG510007R0011	1
	Switch actuator 4-gang For switching 4 independent 127 V~/230 V~ loads. Each contact has a manual operation function independent of auxiliary voltage for additionally displaying the contact setting. The bus can be connected via enclosed terminal block. Control element: relay control element. Display elements: relay control element. Programming only with bus voltage applied via the web interface of the System Access Point. Power dissipation: 4 W Bus voltage: 24 V Outputs: 4 Suitable for: AC1 (Output voltage: 230 V~) Rated current: 16 A, cos ϕ0.8 Suitable for: AC3 Rated current: 8 A, cos ϕ0.45 Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 72 mm x 64 mm Module width (DIN-rail): 4 MW.

Product	Article-No.	Order-No.	Pack/Qty
	Dimming actuator 4-gang Multi-channel universal dimming actuator for controlling LEDs, incandescent lamps, 230 V halogen lamps, low-voltage halogen lamps with conventional or electronic transformers, and dimmable energy-saving halogen lamps. For dimmable Retrofit-LEDs (LEDi). Increasing the max. load via channel bridging possible. The outputs can be switched parallel in any combination. Outputs automatically recognize the connected load. In addition, the operating mode can be selected manually. Status indication of the channels via LED. The bus can be connected via enclosed terminal block. Display elements: outputs status indication via LED. Programming only with bus voltage applied via the web interface of the System Access Point. Rated voltage: 230 V~; 50/60 Hz Bus voltage: 24 V Outputs: 4 dimming channel Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformer. Rated power: 10 - 315 W/VA Suitable for: LEDi and energy-saving bulbs; typical Rated power: 2 - 80 W/VA Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 144 mm x 64 mm Module width (DIN-rail): 8 MW.		
	DA-M-0.4.2	2CKA006220A0395	1
	Blind actuator 4-gang For controlling 4 independent blind or roller shutter drives. The outputs are inversely blocked. The bus can be connected via enclosed terminal block. Programming only with bus voltage applied via the web interface of the System Access Point. Power dissipation: 2 W Bus voltage: 24 V Outputs: 4 Suitable for: AC3 (Output voltage: 230 V~) Rated current: 6 A, cos ϕ0.45 Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 72 mm x 64 mm Module width (DIN-rail): 4 MW.		
	BA-M-0.4.1	2CDG510011R0011	1
	Heating actuator 6-gang For controlling thermoelectric actuating drives in heating/cooling systems. The outputs are protected against short-circuit and overload. The bus can be connected via enclosed terminal block. Programming only with bus voltage applied via the web interface of the System Access Point. Power dissipation: 2 W Bus voltage: 24 V Outputs: 6 Suitable for: resistive Rated current: 160 mA Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C. Dimensions: (L x W x D): 90 mm x 72 mm x 64 mm. Module width (DIN-rail): 4 MW.		
	HA-M-0.6.1	2CDG510008R0011	1

Product	Article-No.	Order-No.	Pack/Qty
	Heating actuator 12-gang For controlling thermoelectric actuating drives in heating/cooling systems. The outputs are protected against short-circuit and overload. The bus can be connected via enclosed terminal block. Programming only with bus voltage applied via the web interface of the System Access Point. Power dissipation: 4 W Bus voltage: 24 V Outputs: 12 Suitable for: ohmic Rated current: 160 mA Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 144 mm x 64 mm. Module width: 8 MW.		
	HA-M-0.12.1	2CDG510009R0011	1
	Fan coil actuator For controlling blower convectors. Supports 2-pipe and 4-pipe system for heating and cooling. The fan speed levels can be switched using a changeover or step switch function. Three contacts for switching a three-stage fan. Two contacts for activating the heating and cooling valves. Supports 24V and 230V valves. With two binary inputs for connecting dew-point and condensation contacts. The scanning voltage is provided by the device. The bus connection is provided via the enclosed bus terminal. Programming only with bus voltage applied via the web interface of the System Access Point. Bus voltage: 24 V Inputs: 2 Polling voltage: 10 V- Outputs: 3 Normally Open contact, potential free Suitable for: AC3 (Output voltage: 230 V~) Rated current: 6 A Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C. Dimensions: (L x W x D): 90 mm x 108 mm x 64.5 mm. Module width (DIN-rail): 6 MW.

Zenit KNX sensors

Product	Article-No.	Order-No.	Pack/Qty
	KNX sensor - 1/2-gang - 2M For ABB i-bus® KNX. Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. The accompanying symbol can be replaced by the symbols for lighting, blinds, room thermostat, szene and FanCoil. Push switch function: switching / dimming / blind / sending values / scenes etc. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Control element: Switch contacts. Display elements: LED to indicate the function. Temperature range (Device): -5 °C to 45 °C. To be installed with N2221.2 cover plates.		
	6125/98-509	2CKA006115A0444	1
	KNX sensor - 2/4-gang - 2M For ABB i-bus® KNX. Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. The accompanying symbol can be replaced by the symbols for lighting, blinds, room thermostat, szene and FanCoil. Push switch function: switching / dimming / blind / sending values / scenes etc. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Control element: Switch contacts. Display elements: LED to indicate the function. Temperature range (Device): -5 °C to 45 °C. To be installed with N2221.4 cover plates.		
	6126/98-509	2CKA006116A0219	1
	KNX sensor - 3/6-gang - 2M For ABB i-bus® KNX. Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. The accompanying symbol can be replaced by the symbols for lighting, blinds, room thermostat, szene and FanCoil. Push switch function: switching / dimming / blind / sending values / scenes etc. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Control element: Switch contacts. Display elements: LED to indicate the function. Temperature range (Device): -5 °C to 45 °C. To be installed with N2221.6 cover plates.		
	6129/96-509	2CKA006118A0105	1

Product	Article-No.	Order-No.	Pack/Qty
	KNX sensor - 3/6-gang with IR receiver - 2M For ABB i-bus® KNX. Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. The accompanying symbol can be replaced by the symbols for lighting, blinds, room thermostat, szene and FanCoil. Push switch function: switching / dimming / blind / sending values / scenes etc. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Control element: Switch contacts. Display elements: LED to indicate the function. Temperature range (Device): -5 °C to 45 °C. To be installed with N2221.7 cover plates.		
	6129/98-509	2CKA006118A0108	1
	KNX room temperature controller - 2M For ABB i-bus® KNX. Control element with room thermostat function for triggering the heating, ventilation and fan-coil actuators. The controller is a thermostat for Fan Coil units in 2 - and 4-pipe systems and conventional heating or cooling systems. The fan stage can be switched manually or in automatic mode. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Switch contacts for operating mode selection and dial for setpoint or fan speed adjustment. Display elements: LCD showing operation modes. Temperature range (Device): -5 °C to 45 °C. To be installed with N2240.4 cover plates.		
	6124/98-509	2CKA006134A0297	1
	KNX 180° motion sensor - 2M For ABB i-bus® KNX. Movement detector with up to 4 channels. Protection class (Device): IP 20. Temperature range (Device): -5 °C to 45 °C. Detection range: frontal: 6 m, lateral: 6 m. Brightness limit value: 5 Lux - 150 Lux. Detection angle: 180 ° Dimensions: (L x W x D): 53 mm x 44 mm. Position for installation: vertical. Mounting height: 1.1 m. To be installed with N2241.4 cover plates.		
	6122/98-509	2CKA006132A0307	1

	Seal for switches, IP44 Seal for 85mm cover frame. Switches and push switches are IP21 when installed on a rough surface with a seal. Protection class is IP44 when using screw-mounted rocker frame with a seal.		
	2463	2TKA000002G1	20/200

Product	Article-No.	Order-No.	Pack/Qty
	Screw-mounted rocker frames, IP44 Screw-mounted rocker frames are used with the seals 2463 or 2464 to reach IP44 protection class on switches and push switches. Furthermore, it can be used to connect the switch frame to the insert for improved security.		
	Supporting frame for 1/3-gang rocker, screw fastening		
	2474	2TKA000004G1	20/200
	Supporting frame for 2-gang rocker, screw fastening		
	2475	2TKA000005G1	20/200
	Lamps for switches Lamps for switches and push buttons. Lamps can be installed in 1-gang switch inserts that include the signal-/search light possibility. Lamps can't be installed in 2- or 3-gang switch inserts.		
	Lamp, 230V/0.4mA, fluorescent, for 1-gang switches		
	8370	2TKA000045G1	10/100
	Lamp, 230V/2mA, fluorescent, for 1-gang switches		
	8372	2TKA000047G1	10/100
	Lamp, 24V/22mA, incandescent, for 1-gang switches		
	8375	2TKA000048G1	10/100
	Lamp, 12V/40mA, incandescent, for 1-gang switches		
	8376	2TKA000049G1	10/100
	Lamp, 230V/1.5mA, fluorescent, for card switch		
	8331	2TKA000042G1	10/100
	Lamp, 250V/0.4mA, LED, for 1-gang switches		
	8370R	2TKA00003241	10/100
	Lamp, 5-24V/0,5-2,5mA, LED, for 1-gang switches

Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Flat LED-dimmer, with rotary control Rotary control dimmer for LED lamps. Via mode switch adjustable between leading edge control (RL) or trailing edge control (RC). 2-wire connection (N-wire not needed). Nominal power: 2 - 100 VA or 10-400W (details in manual). Linear and low-noise operation. Mixed loads allowed. Electronic short-circuit and overload protection. Adjustable minimum brightness. Also applicable for 1-gang 2-way installations. Nominal voltage 230 V/50-60 Hz. Maximum 20 LED lamps behind one dimmer. Compatibility with defined Philips LED lamps is guaranteed. 		
	LED dimmer, rotary 2-100VA, with neon lamp		
	6523URCGL-84-103		1/10
	LED dimmer, rotary 2-100VA, insert with neon lamp		
	6523UR-103-500		1/10
	Dimmer center plate, with neon lamp

	LED-Touch Dimmer Touch dimmer for LED lamps. Leading and trailing edge control (RLC-type). 2-wire connection. Rated power 2 - 100 VA. Linear and low-noise operation. Mixed loads allowed. Electronic short-circuit and overload protection. Adjustable minimum brightness. Nominal voltage 230 V/50-60 Hz. Also applicable for 1-gang 2-way installations. Operation also possible via conventional push buttons (Functions: on, off and dim). Maximum 20 LED lamps behind one dimmer. Compatibility with defined Philips LED lamps is guaranteed.		
	Sold in parts

aluminium	Center plate, for thermostat **T-11-83**	2TKA00000273	1/10
	Combination thermostat 15A Combination thermostat can be used as a combination thermostat or only either as a room thermostat or floor heating thermostat. Set the room temperature to the desired value with the round adjustment knob; the adjustment range is +5...+35 °C Set the maximum floor temperature by turning the adjustment screw in the top left corner; the adjustment range is +20...+50 °C. When the thermostat is used to adjust a floor heating element heating a floor made of wood or corresponding material, never set the maximum floor temperature to over +35 °C (factory setting), or according to the floor material manufacturer's instructions. The device measures the temperature inside the floor, which differs from the floor's surface temperature. Freezing protection: Set the adjustment knob to position 5, and the thermostat will keep room temperature at +5 °C. Temperature limiting: There are limiting pins under the adjustment knobs that use to limit the movement of the adjustment knob. Move the pins to the desired position to set the maximum and minimum temperatures. 230V~ / 50Hz / 15A / 3450W / IP 31 / doubleinsulated / sensor: 3 m / NTC 15 kΩ / 25 °C / Operating temperature: -10…+30 °C / switch: 2-pole / screw terminals: max. 2x2.5 mm2/ temperature drop: fixed 5 °C / adjustment range: +5…+ 45 °C / hysteresis +/- 0.4 °C.

Product	Article-No.	Order-No.	Pack/Qty
	Claws Claws for 1-gang socket outlets, Euro socket outlets, switches and push switches. Not suitable for 2-gang Impressivo socket outlet inserts. Inserts with claws are also available.		
	Claws for socket outlets and swithces		
	ASE1	2TKA001721G1	10/100
	Screw-mounted rocker frames, IP44 Screw-mounted rocker frame is used with the seals 2463 or 2464 to reach IP44 protection class on switches and push switches. Furthermore, it can be used to connect the switch frame to the insert with screws for improved security.		
	Modular		
	Supporting frame for 1/3-gang rocker, screw fastening		
	2474	2TKA000004G1	20/200
	Supporting frame for 2-gang rocker, screw fastening		
	2475	2TKA000005G1	20/200
	Seal 85mm for 1-gang socket outlet, IP44 1-gang socket outlet inserts installed with the seal and a center plate with hinged lid are IP44. Switches and push buttons installed with the seal and with the screwmounted rocker frames are IP44.		
	2463	2TKA000002G1	20/200
	Seal 100mm for 2-gang socket outlet, IP44 2-gang socket outlet inserts installed with the seal and a center plate with hinged lids are IP44. Switches, push buttons and 1-gang socket outlets with a hinged lid are also IP44, when using the seal with adaptor 2519-xx. Screw mounted rocker frame must be used to reach IP44 protection class.		
	2464	2TKA000003G1	20/200
	Blind center plate, 85mm 85mm blind center plate can be used to cover an empty box. It can be used together with 85mm flush- and surface mounting frames. Flush mounting: On a smooth surface IP21, on a rough surface IP20 (seal can't be used). When installed on surface with 2456.26 and 172xS85-xx, protection class is IP44.

Impressivo – surface mounting

Cover frames

Product	Article-No.	Order-No.	Pack/Qty
	Surface mounting cover frames 85mm, IP21/IP44 1-gang Surface mounting cover frames for 1-gang devices, such as switches and socket outlets. Suitable for both horizontal and vertical installation. To be used with surface mounting box 2456.26. Dimmers do not fit in the frame. Wires must be installed downwards for IP44 protection class. Final IP class of installation is defined by the used center plate (IP21/IP44). h=40mm

KNX

Product	Article-No.	Order-No.	Pack/Qty
	Bus Coupler For connecting operating elements such as a push buttons (1-, 2-, 4-fold), motion detectors, room thermostats etc. to the ABB i-bus® KNX system.		
	6120/12-101-500	2TKA00000219	1/10
	Switch sensor, 1/2-gang Flush mounted multifunction push button for ABB i-bus KNX 6120/12-101-500. With labelling field, transparent labelling sheet with standard symbols included in delivery. Support of KNX functions through innovative colour concept yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. Cover plate not included.		
white	**6125/02-84-500**	2TKA00000271	1/10
anthracite	**6125/02-81-500**	2TKA00000266	1/10
aluminium	**6125/02-83-500**	2TKA00000269	1/10
	Switch sensor, 2/4-gang Flush mounted multifunction push button for ABB i-bus KNX 6120/12-101-500. With labelling field, transparent labelling sheet with standard symbols included in delivery. Support of KNX functions through innovative colour concept yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. Cover plate not included.		
white	**6126/02-84-500**	2TKA00000311	1/10

aluminium	**6127/02-83-500**	2TKA00000325	1/10
	Switch sensor, 3/6-gang with IR-receiver Flush mounted multifunction push button with IR-receiver for ABB i-bus KNX 6120/12-101-500. With labelling field, transparent labelling sheet with standard symbols included in delivery. Support of KNX functions through innovative colour concept yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. Cover plate not included. Controlling with the IR remote control 6010-25.		
white	**6129/01-84-500**	2TKA00000246	1/10
anthracite	**6129/01-81-500**	2TKA00000242	1/10
aluminium	**6129/01-83-500**	2TKA00000244	1/10

Product	Article-No.	Order-No.	Pack/Qty
	IR remote control Infrared hand-held transmitter. Network-independent remote control for infrared receiver and KNX flushmounted infrared interface (10 consumers switchable in 2 groups, 1 – 5/6 – 10, programming and selection of 2 MEMO memories per address group). Supply: 4 alkaline manganese batteries, IEC LR03 (not included in scope of supply) Range: frontal, approx. 15 m.		
	6010-25	2TKA001017G1	1
	Control element, 2/4gang, with RTC multi-function/colour concept For ABB i-bus® KNX bus coupler 6120/12-101-500, 6120/13-500. Support of KNX functions through innovative colour concept (yellow = lighting, blue = blind, orange = RTC, magenta = scene and white = neutral/no function assigned) or standard illumination red/green. Rocker switch left/right (switching/dimming/blind/ value sender/light scenes/fan function). Master/slave configuration. With base-load operation. The controller is a constant room temperature controller for ventilator convectors (fan coils) in 2-pipe and 4-pipe systems and conventional heating or cooling systems. The fan stage can be switched manually or in auto- matic mode. Transparent labelling sheet with standard symbols included in delivery. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Control element: Switch contacts left/right, also for selecting setpoint and mode of operation. Display elements: LCD showing operation mode and temperature. Protection class (Device): IP20. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 63 mm x 63 mm.

	Dimming actuator 4gang Multi-channel universal dimming actuator for controlling LEDs, incandescent lamps, 230 V halogen lamps, low-voltage halogen lamps with conventional or electronic transformers, and dimmable energy-saving halogen lamps. For dimmable retrofit LED lamps (LEDi). Increasing the maximum load via channel bridging possible. The outputs can be switched parallel in any combination. Outputs automatically recognise the connected load. In addition, the operating mode can be selected manually. Status indication of the channels via LED.

[1] The neon lamp and LED are not part of the switch – see page 11/384.

Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Dimmer insert for dimmable LEDs with rotary control and ON/OFF soft-catch [9] [13] Adjustable minimum brightness. Low-noise level thanks to MOSFET electronics. Electronic short-circuit and overload protection. For dimmable retrofi t sources with LEDs (LEDi) at 230 V AC or 12 V AC [11], optimized for dimming Philips Master series retrofi t LEDs. For incandescent lamps, 230V AC tungsten halogen 230 V AC or 12 V AC [11] halogen lamps with conventional transformers or electronic (LC) transformers (version C not allowed). Mix operation of LEDi with conventional loads is possible. Can be combined with 1g2w or 1g2w/intermediate switches (for ON/OFF operation only, brightness control is not possible). min. 2 W/V·A, max. 100 W/V·A for dimmable LEDi sources, 230 V AC min. 4 W/V·A, max. 100 W/V·A for dimmable LEDi sources, 12 V AC (L, LC) [11] min. 10 W/V·A, max. 100 W/V·A for halogen lamps, 12 V AC (L, LC) [11] min. 10 W, max. 100 W for dimmable halogen energy saving lamps, 230 V AC min. 10 W, max. 100 W for vacuum and halogen lamps, 230 V AC 2-wire connection, 230 V AC, 50/60 Hz		
	6523 U-500	6512-0-0307	1

[9] At ambient temperature higher than 35 °C the load must be reduced by approx. 3 % / °C.
[11] With conventional transformers, take ~20 % transformer losses into account.
[13] A neon lamp can be used for orientation illumination (more detailed information is given in switch range chapters).

	Rotary control dimmer insert with switch-on at minimal brightness level [9] With cover plate fastening nut. For ☼ also for certain 230 V AC compact fluorescent lamps with screw cap (energy saving lamps), designed for dimming (using leading-edge phase control). min. 60 W, max. 400 W for vacuum and halogen lamps, 230 V AC min. 10 W, max. 80 W for dimmable compact fluorescent lamps, 230 V AC		
	2200 U-503	6514-0-0111	1

[9] At ambient temperature higher than 35 °C the load must be reduced by approx. 3 % / °C.

	Rotary control dimmer insert with ON/OFF soft-catch [9] [13] For ☼ also for certain 230 V AC compact fluorescent lamps with screw cap (energy saving lamps), designed for dimming (using the leading-edge phase control). Can be combined with 1g2w or 1g2w/intermediate switches (for ON/OFF operation only, brightness control is not possible). min. 60 W, max. 600 W for vacuum and halogen lamps, 230 V AC min. 10 W, max. 100 W for dimmable compact fluorescent lamps, 230 V AC		
	2250 U	6515-0-0704	1

[9] At ambient temperature higher than 35 °C the load must be reduced by approx. 3 % / °C.
[13] A neon lamp can be used for orientation illumination (more detailed information is given in switch range chapters).

Dimmers

Product	Article-No.	Order-No.	Pack/Qty

Rotary control dimmer insert with ON/OFF soft-catch [9) 13)]

For ☼ [11)]; also for certain compact fluorescent lamps for 230 V AC with screw cap (energy saving lamps), designed for dimming (using the leading-edge phase control).
Can be combined with 1g2w or 1g2w/intermediate switches (for ON/OFF operation only, brightness control is not possible).
min. 20 W/V·A, max. 500 W/V·A, for 230 V or ELV lamps, 230 V AC
min. 5 W, max. 100 W for dimmable compact fluorescent lamps, 230 V AC

	2247 U	6512-0-0057	1

[9)] At ambient temperature higher than 35 °C the load must be reduced by approx. 3 % / °C.
[11)] With conventional transformers, take ~20 % transformer losses into account.
[13)] A neon lamp can be used for orientation illumination (more detailed information is given in switch range chapters).

Rotary control dimmer insert with ON/OFF soft-catch [9) 13)]

Short-circuit and overload electronic protection.
Minimum brightness setting option.
For ☼ [11)]
Can be combined with 1g2w or 1g2w/intermediate switches (for ON/OFF operation only, brightness control is not possible).
min. 200 W/V·A, max. 1000 W/V·A, 230 V AC

	6520 U-500	6520-0-0227	1

[9)] At ambient temperature higher than 35 °C the load must be reduced by approx. 3 % / °C.
[11)] With conventional transformers, take ~20 % transformer losses into account.
[13)] A neon lamp can be used for orientation illumination (more detailed information is given in switch range chapters).

Rotary control dimmer insert with switch-on at minimal brightness level, combined with ON/OFF soft-catch [9) 13)]

For ☼ [11)]
The switching part of the insert can be combined with 1g2w or 1g2w/intermediate switches.
The dimmed output is independent on the switch.
Switch: 6 A; dimmer: min. 60 W/V·A, max. 400 W/V·A, 230 V AC

	6517 U-101-500	6517-0-0018	1

[9)] At ambient temperature higher than 35 °C the load must be reduced by approx. 3 % / °C.
[11)] With conventional transformers, take ~20 % transformer losses into account.
[13)] A neon lamp can be used for orientation illumination (more detailed information is given in switch range chapters).

Rotary control dimmer insert with ON/OFF soft-catch [9) 13)]

Short-circuit and overload electronic protection.
For ☼ [12)]
Can be combined with 1g2w or 1g2w/intermediate switches (for ON/OFF operation only, brightness control is not possible).
min. 40 W/V·A, max. 420 W/V·A, 230 V AC

	6513 U-102	6513-0-0568	1

[9)] At ambient temperature higher than 35 °C the load must be reduced by approx. 3 % / °C.
[11)] With conventional transformers, take ~20 % transformer losses into account.
[12)] With electronic transformers, take 5 % transformer losses into account.
[13)] A neon lamp can be used for orientation illumination (more detailed information is given in switch range chapters).

Product	Article-No.	Order-No.	Pack/Qty

Electronic potentiometer insert for 1 -10 V electronics ballasts, for rotary control and switch-on at minimal brightness level

For ⊣▭⊢ or for LED control via electronic ballast with 1 - 10 V interface.
Max. control current: 50 mA DC
Potential-free contact for switching the ballast power supply. It is recommended to use a relay for more than 5 ballasts.
4 A (cos ϕ = 0.9), 3 A (cos ϕ = 0.5)
700 W/V·A, 230 V AC, 50/60 Hz

	2112 U-101	6599-0-2035	1

DALI Power-potentiometer insert, with rotary control and ON/OFF push operation

For central switching and dimming up to 64 DALI devices in accordance with EN 62386. Increased brightness sensitivity setting at slow rotation.
Integrated orientation LED illumination (18 colour presets or OFF).
Short-circuit and overload electronic protection.
DALI cable length: max. 300 m (cores' cross section 1.5 to 2.5 mm²).
The brightness level when switched on by brief pressing: the same as it was when last used or pre-selectable. The brightness level when the power supply is restored after power failure: switched off status or pre-selectable (if supported by the DALI device).
In active mode the insert serves as a DALI power supply (15.5 V DC / 75 mA) for up to 37 DALI devices (or for up to 111 DALI devices with 3 power-potentiometers in parallel connection).
In passive mode the insert behaves as an additional control unit.
Parallel interconnection of power-potentiometers: up to 3 pcs in active mode or up to 5 pcs in passive mode.
The insert is not suitable for combination with other DALI sensors.
Power consumption: max. 2.5 W
4-wire connection in active mode, 2-wire connection in passive mode 230 V AC, 50/60 Hz

	2117/11 U-500	6599-0-2988	1

DALI potentiometer insert, with rotary control and ON/OFF push operation

For central switching and dimming up to 64 DALI devices in accordance with EN 62386.
Increased brightness sensitivity setting at slow rotation. Integrated orientation LED illumination (18 colour presets or OFF). An additional DALI power supply is needed (e.g. by Tridonic, Philips, Helvar, or the DALI power-potentiometer 6599-0-2988).
Current consumption: 7 - 15 mA
The insert is polarity-reversal proof.
DALI cable length: max. 300 m
(cores' cross section 1.5 to 2.5 mm²)
The brightness level when switched on by brief pressing: the same as it was when last used or pre-selectable.
The brightness level when the power supply is restored after power failure: switched off status or pre-selectable (if supported by the DALI device).
Up to fi ve potentiometers may be connected in parallel.
The insert is not suitable for combination with other DALI sensors.
2-wire connection

Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	Cover plate for rotary dimmer [16] With fastening nut. With two types of button (for 6514-0-0111 and other devices).		
white		3294G-A00125 B1	5
ivory		3294G-A00125 C2	5/1

[16] Cover illumination with neon lamp or LED is not possible.

Movement detectors

Product	Article-No.	Order-No.	Pack/Qty
	Switch insert for movement detector Switching element: relay Operating temperature: –10 °C to +55 °C 2 300 W for ☼, 1 750 V·A for ⫼⊗ ◿⊗, 500 V·A / 64 µF pro ⊐▭⊏ [44] For easy connection, terminal N is doubled. 3-wire connection, 230 VAC		
		3299U-A00006	1

[44] Also for example, for compact 230 V AC lamps (so-called CFL bulbs) or luminaires with LED.

	Switch insert for movement detector Switching element: 2 relays (relay 2 switches on about 3 min after relay 1 switches on, independently of external lighting; relay 2 switches off about 5 min after relay 1) Operating temperature: –10 °C to +55 °C Max. 3 A (cos ϕ > 0,8) [44] One spare fuse is inserted in the fuse box. 4-wire connection, 230 VAC		
		3299U-A00005	1

[44] Also for example, for compact 230 V AC lamps (so-called CFL bulbs) or luminaires with LED.

	Switch insert for movement detector Switching element: triac 5 s before switching off the brightness is reduced Operating temperature: –10 °C to +55 °C 40 - 300 W pro ☼ One spare fuse is inserted in the fuse box. 2-wire connection, 230 V AC		
		3299U-A00001	1

[36] Parallel connection of devices is not allowed. Can not be used for non-ohmic loads (control coils, fluorescent relays, LEDs, etc.).

	Movement detector Detection angle: approx. 180° Adjustable values (on the back of the cover): lighting threshold (1 - 1000 lx); sensitivity; switch-off delay (5 sec - 10 min, or 15 / 30 / 45 / 60 min by pressing integrated button) Operating temperature: –10 °C to +55 °C Need to be used together with a switch insert for movement detector.

Thermostats, timers

Product	Article-No.	Order-No.	Pack/Qty
	Switching unit insert for thermostats or time switch Optional connection of external temperature sensor 3292U-A90100 for floor heating. Optional connection of potential free remote control contact (only for programmable control units 3292.-A10301, 3292.-A20301). Note: In the event of power failure the control unit display goes off. Operating temperature: 0 °C to +50 °C Output: potential free NO relay contact with safety galvanic isolation 16 A (cos ϕ = 1), 230 V AC, 3-wire connection		
		3292U-A00003	1
	Universal thermostat with rotary temperature setting Control unit (must be used with switching unit). Selectable room or fl oor function of the thermostat. Linear temperature setting. Indication of output status by two-colour LED. Push buttons for regulation ON/OFF and for manual temperature reduction (with LED indication). Operating temperature: 0 °C to +55 °C Room thermostat with thermal feedback: Temperature range: approx. +13 °C to +27 °C Adjustable manual temperature reduction: approx. 2 K to 8 K Hysteresis: approx. ±0.25 K Floor thermostat: Temperature setting range: approx. +15 °C to +48 °C Manual temperature reduction: approx. 4 K to 16 K Hysteresis: approx. ±0.5 K The external temperature sensor 3292U-A90100 (not included) must be connected to terminals 1 and 2 of the switching unit.		
white		3292G-A10101 B1	1
ivory		3292G-A10101 C2	1
	Floor heating temperature sensor For thermostat with rotary temperature setting 3292.-A10101, for programmable thermostat 3292.-A10301. Sensor element: PTC thermistor, 2 kΩ at 25 °C Cable: PVC, 4 m length Conductors: 2× 0.35 mm² Cable head: metal, Ø 6 × 18 mm Degree of protection: IP 54		
grey		3292U-A90100	1

Swing®L
Accessories

Product	Article-No.	Order-No.	Pack/Qty
	Compensator 1. Prevents the self-ignition/fl ickering of energy-saving lamps (CFL, LED) in OFF state when orientation illumination is used. This effect is caused by features of built-in ballasts, occures if the illumination is connected between phase and the lamp. The compensator is applicable in the circuits with switches 1g1w, 1g2w, intermediate. (To be connected in parallel to the lamp). 2. Prevents after-glow of extra-low-voltage halogen or LED lamps in the deactivated state due to possible ripple voltage or activation via touch-dimmer without neutral conductor connection. (To be connected in parallel to the primary transformer side or to the lamp). 3. Removes noise generation on electronic transformers in the switched-off state during activation via touch dimmer without neutral conductor connection. (To be connected in parallel to the primary transformer side). 4. Removes ripple voltages on the control line in blind control/group controls with Busch-Jalousiecontrol® II devices. (To be connected between control wire “UP” and N conductor, and between “Down” and N conductor). Dimensions: Ø 22 × 25 mm. Length of wires: approx. 235 mm 250 V AC, 50 Hz

Millenium
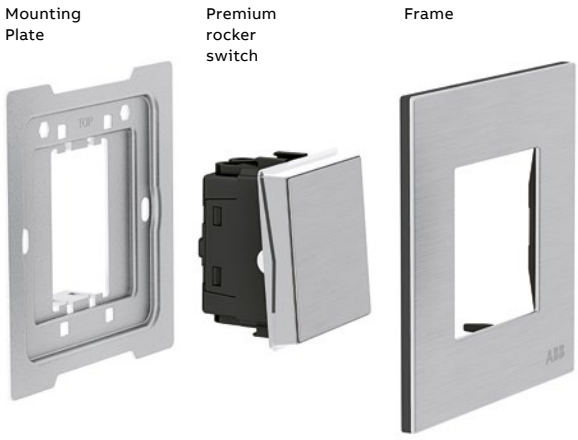
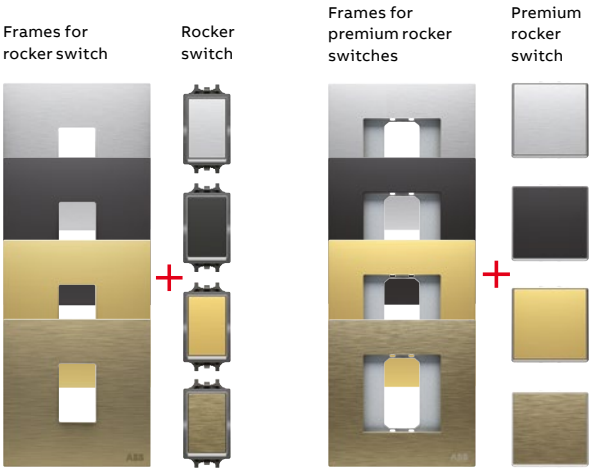
Features and benefits.

Millenium's design and functionality converts into numerous technical and installation advantages.

Millenium installation system
Millenium collection is a grid type system enabling combination of colours and products of different dimension and functionality. The three type of switch dimensions together with the KNX sensors have to be composed with the required frame in order to have the right assortment of functionality and design.



- Modern and contemporary finishes made of real stainless steel.
- Slim design with only 4 mm height. Straight and square lines. Rocker with an attractive chrome profile.
- Screwless front plate.
- The design range includes KNX sensors.
- Large variety of socket outlets equipped with shutters (child protection).
- New LED signalling reduces energy consumption.
- KNX sensors included in the range.
- Easy to install, simple and adaptable. Installation on uneven walls is possible.
- 10 years ABB warranty for mechanical switches and socket outlets, 1 year ABB warranty for electronic devices.
- Environment-friendly range through optimized production and distribution process, reduction of raw material consumption, LED lamps used, recyclable packaging, ...
- Ideal collection for all types of homes, hotels, offices, shops, etc.



Millenium
Complete sets (AM).

Millenium offers high quality complete sets. Each unique reference contains mechanism, frame and mounting plate; making easier the ordering, handling and installation. A reliable and complete collection with all functionality at first sight.

Socket outlet

Product	Article-No.	Order-No.	Pack/Qty
	Universal socket outlet Rated voltage/current: 230Vac/13A, 127Vac/15A Child protection Combination with frames AMD5144-XX & AMD5244-XX		
Anthracite	**AMD39144-AN**	2CLA623900N1801	1

USB charger

	USB charger 2A, 1-gang - 1M Input voltage: 110-230V AC ± 10%; 50/60 Hz Input current: <0.2A AC at maximum load Consumption in standby: <10 mW at 230 VAC, without load Nominal output voltage: 5 VDC +5/-5% Output current per plug: 2000mA at 5 V DC Operating temperature: 0ºC to 45ºC Energy efficiency: > 79% Overload protection and auto-restart Combination with frames: AMD5144-XX & AMD5244-XX		
Anthracite	**AMD85222-AN**	2CLA618520N1801	1
	USB charger 1.500mA, 2-gang - 2M "Input voltage: 100 - 240 Vac ±10%; 50/60 Hz. Input current: 0,20 A (with maximum load). Output voltage: 5 Vdc ±5%. Output current: 1.500 mA (total for both gangs). Power consuption in stand-by: <= 0,3W@230Vac. Energy efficiency: >= 71%. Operating temparature: 0ºC to 35ºC. Combination with frames: AMD5144-XX & AMD5244-XX		
Anthracite	**AMD85144-AN**	2CLA628500N1801	1

Millenium - Grid system for combination (AMD)

Voice data & information connectors

Product	Article-No.	Order-No.	Pack/Qty
	Data outlet RJ45 Cat 6 UTP 1-gang - 1M 8 pole UTP Combination with frames: AMD5144-XX & AMD5244-XX		
Anthracite	**AMD33322-AN**	2CLA611860N1801	10
	Data outlet RJ45 Cat 6A UTP 1-gang - 1M 8 pole UTP Combination with frames: AMD5144-XX & AMD5244-XX		
Anthracite	**AMD33422-AN**	2CLA611870N1801	10
	TV/SAT terminal outlet F type - 1M F type isolated dead-end-feeder. Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD30322-AN**	2CLA615000N1801	10
	TV terminal outlet M type - 1M Single TV outlet - Dead-end M type - 9,52 mm. male For 75Ω impedance coaxial cable Avoid small bending radius Frequency range: 5 - 2.400 Mhz Connection loss: 1 dB Isolation: >16 dB Return loss: >7,6 dB DC path (Vdc / mA / Tono): 34 max. / 500 max. / 22kHz - DiSEqC Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD30122-AN**	2CLA615070N1801	10
	TV/SAT terminal outlet F type - 2M F type isolated dead-end-feeder. Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD30344-AN**	2CLA625000N1801	5
	2RCA connection unit Front: 2x RCA connectors (Red / White) Rear: screw terminals (4 wires) Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD55222-AN**	2CLA615520N1801	1

Product	Article-No.	Order-No.	Pack/Qty
	3RCA connection unit Front: 3x RCA connectors (Red / White / Yellow) Rear: screw terminals (6 wires) Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD55322-AN**	2CLA615530N1801	1
	Mini-Jack connection unit Front: 1x Mini-Jack connector (3,5mm stereo audio jack) Rear: screw terminals (3/4 wires) Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD55422-AN**	2CLA615540N1801	1
	VGA connection unit Front: 1x VGA connector (DE-15 connector) Rear: screw terminals (15 wires) Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD55522-AN**	2CLA615550N1801	1
	HDMI connector female Front: 1x HDMI connector (Type A connector) Rear: 1x HDMI connector (Type A connector) fitted at 90º angle Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD55722-AN**	2CLA615570N1801	5
	HDMI connector screwless Front: 1x HDMI connector (Type A connector) Rear: screwless terminals (20 wires) Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD55122-AN**	2CLA615510N1801	1
	USB connector female USB adaptor. No charger Front: 1x USB 2.0 connector (Type A connector) Rear: 1x USB 2.0 connector (Type A connector) fitted at 90º angle Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD55922-AN**	2CLA615590N1801	1
	USB connector w/screw USB adaptor. No charger Front: 1x USB 2.0 connector (Type A connector) Rear: screw terminals (5 wires) Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD55822-AN**	2CLA615580N1801	1

Millenium - Grid system for combination (AMD)

Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	LED rotatory/push dimmer - 2M Rated voltage: 230 Vac ± 10%. Frequency: 50 Hz (Nominal power: 250 W/VA) / 60 Hz (Nominal power: 200 W/VA). Power (min./max load): - LEDi: 2 / 100 W/VA (max. 10 lamps). - Dimmable energy saving lamps: 2 / 100 W/VA (max. 10 lamps). - LV LEDi with transformer (only type L or LC): 4 / 100 W/VA (max. 10 lamps). - Incandescent lamps: 10 / 250 W/VA. - Halogen lamps: 10 / 250 W/VA. - LV halogen with transformer (only type L or LC): 10 / 250 W/VA (max. 10 lamps). 2 wire connection. Optional: auxiliary on/off with 2-way switch. Indicator LED lamp included. Back-up fuse: Electronic. Overload protection: Electronic. Ambient temperature: 0° C to +35° C. Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD60344-AN**	2CLA626030N1801	1
	Universal rotatory/push dimmer - 2M Rated voltage: 230 Vac ; 50 Hz. Min. power: 60 W / VA. Max. power: - Incandescent: 500 W. - Halogen lamp with electronic transformer: 500 VA. - Halogen lamp with ferromagnetic transformer: 400 VA. 2 wire connection. Optional: auxiliary control with push-buttons. Indicator LED lamp included. Operating temperature: 0° C to +30° C. Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD60244-AN**	2CLA626020N1801	1
	1-10V rotary dimmer - 2M Rated voltage: 127 - 230 Vac ; 50-60 Hz Dimmable electronic ballast/driver with 1-10V control input. Max. power: - 230 Vac: 700 VA. - 127 Vac: 350 VA. Max. 6 ballasts per device. Indicator LED lamp included. Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD60944-AN**	2CLA626090N1801	1

Motion sensor

Product	Article-No.	Order-No.	Pack/Qty
	110° motion sensor - 2M Rated voltage: 127 - 230 Vac ± 10% ; 50 - 60 Hz Outputs: 1 Normally Open (NO). Potential free Max. power: - Incandescent: 1.800W @230Vac / 1.000W @127Vac - Halogen with electronic o ferromagnetic transformer: 750VA @230Vac / 400VA @127Vac - Fluorescent lamps or motors: 400VA @230Vac / 200VA @127Vac For automatic switching of devices dependent on motion and brightness. With integrated selector switch for ON-AUTOMATIC-OFF in the front side. Switch-off delay: 10 sec to 10 min or short-time pulse 1 sec adjustable (from the front side). Detection range: 5 m radious. Adjustable light set point level for activation (from the front side). Detection angle: 110 ° Mounting height: 1,2 m Auxiliary control with push-buttons Temperature range (Device): -10 °C to 40 °C Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD41144-AN**	2CLA624100N1801	1

Various

	Blank insert 1M Blank insert 1 module Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD50422-AN**	2CLA610000N1801	10
	Buzzer - 2M Rated voltage: 127-230 Vac ; 50-60 Hz. Rated power: 8 VA. Adjustable tone. Acoustic power at 1 meter with cover plate: 75 dB. Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD19144-AN**	2CLA621900N1801	5
	Electronic door bell 230Vac - 2M Rated voltage: 230 Vac ; 50-60 Hz. 4 melodies available. Acoustic power at 1 meter with cover plate: 72 dB. Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD24144-AN**	2CLA622400N1801	5

Millenium - Grid system for combination (AMD)

Sound system

Product	Article-No.	Order-No.	Pack/Qty
	FM stereo receiver with RDS Rated voltage: 230 Vac ±15% / 50-60 Hz Max. consumption:100 mA Stand-by consumption with the display illumination at minimum:0.2 W Stand-by consumption ref. AMD68044-AN + AMD68344-AN9368: 0.6 W Maximum output power: 2+2 W; <1% distorsion (16 W) Speaker Impedance: 16 W (2+2 W audio) Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD68044-AN**	2CLA626800N1801	1
	Input/output , USB & Bluetooth® module Power supply through AUX.: 9 V Bluetooth® v2.1 2.4GHz IEEE 802.15.1 Maximum reach from the module to user's Bluetooth® device: 10 m. Maximum consumption: 175 ~ 200 mA Consumption stand-by: 0.4 W Headphones impedance: 16 ~ 600 Ω (25 + 25 mW audio phones) Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD68344-AN**	2CLA626830N1801	1
	Remote control unit for 9368.1 Power supply: 230 V~ / 127 V~ ; ±15% ; 50-60 Hz Maximum power consumption ref. 9368.2: 15 mA Stand-by consumption with the display illumination at minimum :0.5 W Stand-by consumption ref. AMD68244-AN + AMD68344-AN: 0.9 W Combination with frames AMD5144-XX & 5244-XX		
Anthracite	**AMD68244-AN**	2CLA626820N1801	1

Product	Article-No.	Order-No.	Pack/Qty
	Radio/amplifier module for ceiling with Bluetooth® 9368.1 Bluetooth®: 230 V~ / 127 V~; ±15%; 50-60 Hz Maximum reach from the module to user's Bluetooth® device: 10 m. Maximum power consumption: 200 mA Consumption stand-by: 0.3 W Antenna impedance: 75 Ω Maximum power headphone output: 6+6 W; <1% distortion (4 Ω) Minimum impedance of headphones: 4 Ω (6+6 W audio)		
	9368.1	2CLA936810A1002	10
	Loudspeaker 5" Installation in flush box ref. 9399 drilling 17mm or embedded ring ref. 9399.1 drilling 160mm. Max. Power: 6W Impedance: 16 Ω Response frecuency: 70Hz to 10kHz		
	9329.1	2CLA932910A1001	1
	Flush box for loudspeaker 5"

	9399.2	2CLA939920A1001	12

Millenium - Grid system for combination (AMD)

ABB free@home®

Product	Article-No.	Order-No.	Pack/Qty
	For switching 230 V~ consumers. **With integrated switch actuator.** **Switching function is available also without prior programming (pre-configured).** **Only to be used in combination with ABB-free@home®** **1/2-Fold sensor cover plate.** 44 mm. × 44 mm. ×45 mm. Outputs: 1× normally open contact, potential free. Suitable for: ohmic. Rated current: 10 A. Rated power: 2300 W. Suitable for: capacitive. Rated current: 10 AX. Protection class of device: IP 20. Mounting depth: 32 mm.		
	SSA-F-1.1.PB.1	2CKA006220A0232	1
	For dimming 230 V~ loads. **With integrated universal dimming actuator for controlling different lamps.** **The dimming function is available also without prior programming (pre-configured).** **Only to be used in combination with ABB-free@home®** **1/2-Fold sensor cover plate.** 44 mm. × 44 mm. × 45 mm. Outputs: 1× dimming channel. Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformers. Rated power: 10 – 180 W / VA. Suitable for: LEDi and energy-saving bulbs; typical. Rated power: 2 – 80 W / VA. Protection class of device: IP 20. Mounting depth: 32 mm.		
	SDA-F-1.1.PB.1	2CKA006220A0235	1
	For controlling blind and awning motors. With integrated blind actuator. **Blind function is available also without prior programming (pre-configured).** **Only to be used in combination with ABB-free@home®** **1/2-Fold sensor cover plate.** 44 mm. × 44 mm. × 45 mm. Outputs: 1× Change-over contacts/ normally open contact, potential bound. Rated power: 920 VA. Rated current: 4 A. Suitable for: Operating mode blind. Protection class of device: IP 20. Mounting depth: 32 mm.		
	SBA-F-1.1.PB.1	2CKA006220A0237	1

Product	Article-No.	Order-No.	Pack/Qty
	For sending switching, dimming and blind commands to an ABB-free@home® actuator. **Only to be used in combination with ABB-free@home®** **1/2-Fold sensor cover plate.** 44 mm. × 44 mm. × 45 mm. Control: Push buttons up/down. LEDS: Used as orientation light or as switching status. Protection class of device: IP 20. Mounting depth: 9 mm.		
	SU-F-1.0.PB.1	2CKA006220A0222	1
	1/2-Fold sensor cover plate Cover plate ABB-free@ home® 1/2-Fold sensor for the SSA-F-1.1.PB.1, SDAF-1.1.PB.1, SBA-F-1.1.PB.1 and SU-F-1.0.PB.1 sensors. Combination with frames AMD5144-XX & AMD5244-XX		
	SR-2-AMAN	2CLA622620N1801	5
	For switching 230 V~ consumers. **With one integrated switch actuator.** **Switching function is available also without prior programming (pre-configured).** **Only to be used in combination with ABB-free@home®** **2/4-Fold sensor cover plate.** 44 mm. × 44 mm. ×45 mm. Outputs: 1× normally open contact, potential free. Suitable for: ohmic. Rated current: 10 A. Rated power: 2300 W. Suitable for: capacitive. Rated current: 10 AX. Protection class of device: IP 20. Mounting depth: 32 mm.		
	SSA-F-2.1.PB.1	2CKA006220A0233	1
	For switching 230 V~ consumers. **With two integrated switch actuators.** **Switching function is available also without prior programming (pre-configured).** **Only to be used in combination with ABB-free@home®** **2/4-Fold sensor cover plate.** 44 mm. × 44 mm. × 45 mm. Outputs: 2× normally open contact, potential free. Suitable for: ohmic. Rated current: 10 A. Rated power: 2300 W. Suitable for: capacitive. Rated current: 10 AX. Protection class of device: IP 20. Mounting depth: 32 mm.		
	SSA-F-2.2.PB.1	2CKA006220A0234	1

KNX system

Product	Article-No.	Order-No.	Pack/Qty
	2-Fold sensor Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Control element: Switch contacts. Display elements: LED to indicate the function. Protection class (Device): IP 20. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 53 mm. x 44 mm.		
	AMD72053-AN (6125/20-981-500)	2CKA006115A0443	1
	4-Fold sensor Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Control element: Switch contacts. Display elements: LED to indicate the function. Protection class (Device): IP 20. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 53 mm. x 44 mm.		
	AMD74053-AN (6126/20-981-500)	2CKA006116A0218	1
	6-Fold sensor Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Control element: Switch contacts. Display elements: LED to indicate the function. Protection class (Device): IP 20. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 53 mm. x 44 mm.		
	AMD76053-AN (6129/20-981-500)	2CKA006118A0104	1
	6-Fold sensor with IR Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Control element: Switch contacts. Display elements: LED to indicate the function. Protection class (Device): IP 20. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 53 mm. x 44 mm.		
	AMD76153-AN (6129/21-981-500)	2CKA006118A0107	1

Product	Article-No.	Order-No.	Pack/Qty
	Watchdog 180° flush mounted Movement sensor with up to four channels. Detection range: frontal: 6 m., lateral: 6 m. Detection angle: 180 °. Brightness limit value: 5 Lux - 150 Lux. Mounting height: 1.1 m. Protection class (Device): IP 20. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 53 mm x 44 mm Position for installation: vertical.		
	AMD70153-AN (6122/20-981-500)	2CKA006132A0306	1
	Room thermostat heating/cooling fan coil Control element with room thermostat function for triggering the heating, ventilation and fan-coil actuators. The controller is a thermostat for fan coil units in 2 - and 4-pipe systems and conventional heating or cooling systems. The fan stage can be switched manually or in automatic mode. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Switch contacts for operating mode selection and dial for setpoint or fan speed adjustment. Display elements: LCD showing operation modes. Protection class (Device): IP 20. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 53 mm. x 44 mm.

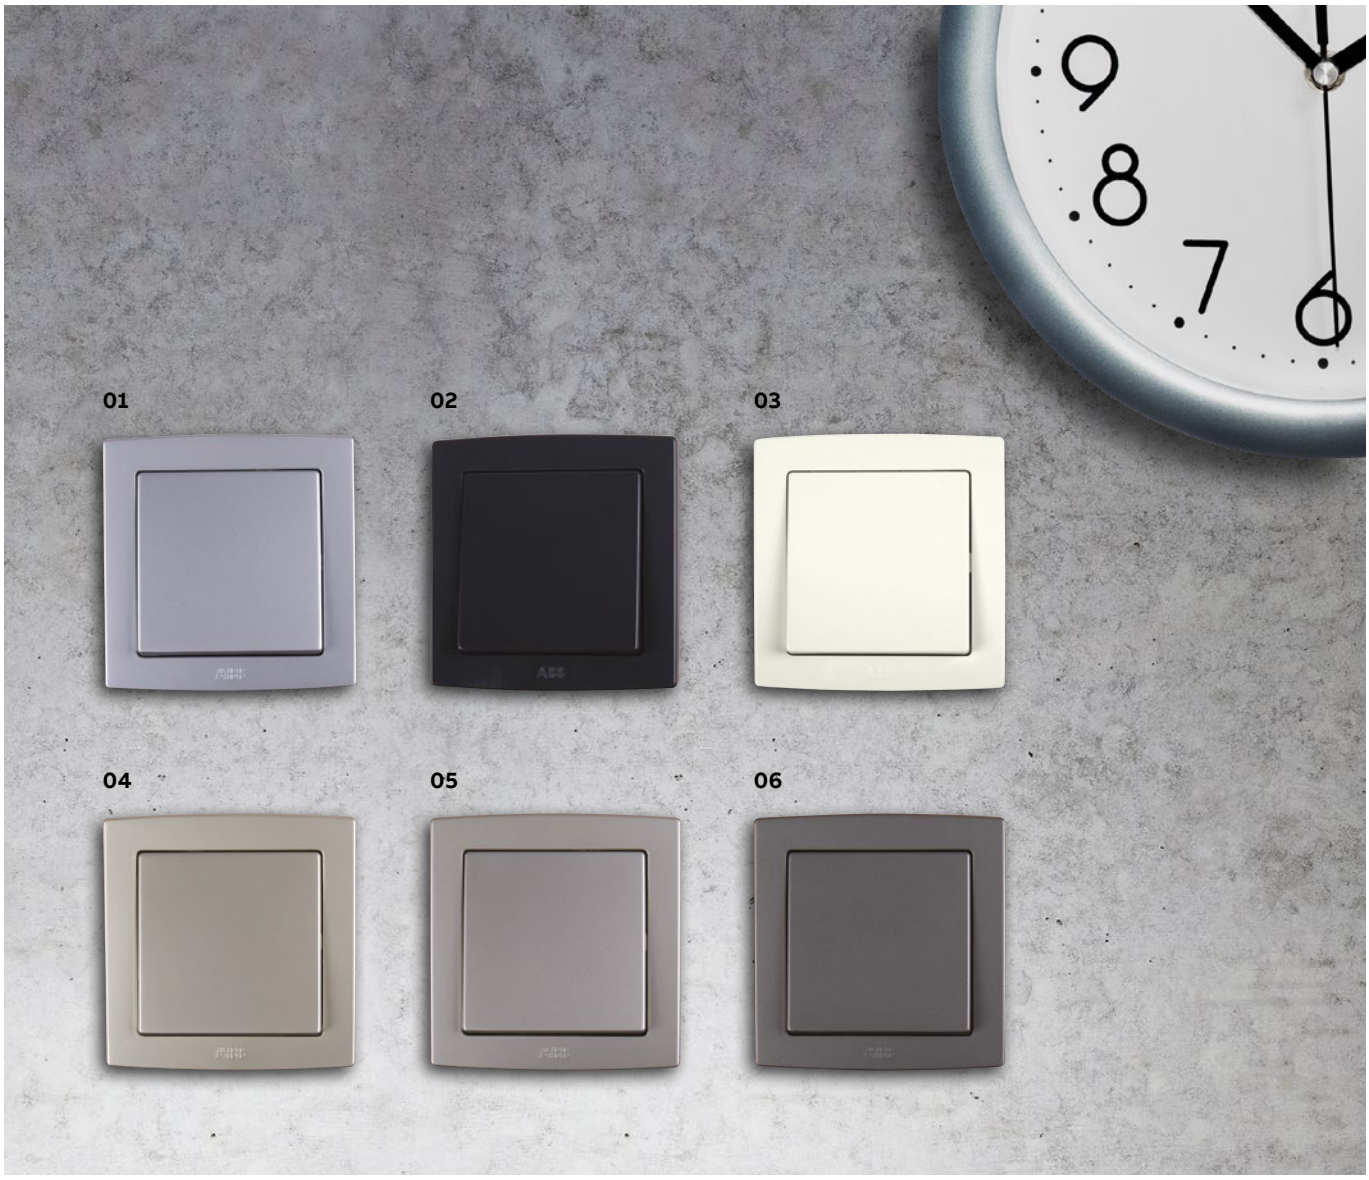
Concept bs

Concept in every detail.

An eye for detail is the secret to success. LED light shines through a slight curve on square shaped switches and so emphasises the most distinctive feature of the design. A wide choice of colours, comprehensive functionality and quality material brought together. Let the details shine.



01 silver
02 anthracite
03 ivory white
04 pearl gold
05 stainless steel
06 elegant grey

Materials
High quality polycarbonate with improved flame-retardant characteristics and colour stability.

- Incandescent and 230V halogen lamps
- Low voltage halogen lamps with conventional transformer. In the case of conventional transformers, take ~20% transformer loss into account.
- Low voltage halogen lamps with electronic transformer. In case of electronic transformers, 5% transformer losses.
- Fluorescent lamps with electronic ballasts

Kalo
Attraction in simplicity.

Elegance lies in simplicity and purity. Kalo is a proof of it. Its pleasant slim design in angelic white, perfectly complements any interior. The blue LED backlight illuminates switches and socket outlets in the dark. When you need to switch on and plug in your appliances, Kalo makes it easy.

Mylos®
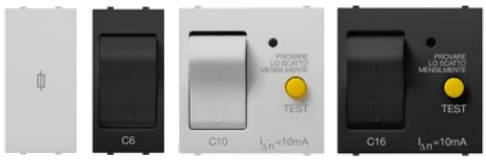
Selected functions

Control devices
Maximum flexibility in the selection of switches, push switches, two-way switches, intermediate switches, relays and change-over switches. The most common control devices are available in screwless versions, reducing installation times even further. All the conventional control devices, except for relays and change-over switches, can be lit. Switches are available with an incorporated LED to enable all types of functional indication.

Socket outlets
The versions with 2P+E 10-16A socket outlets for 250V lines are available in the Italian and German standards, with safety shutters and side/central earth. For telephone and data transmission applications various types of connectors compatible with the most widespread international wiring standards are available.

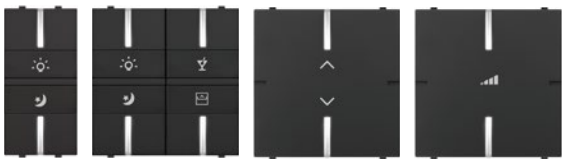
Key covers
The key covers in 1 module or 1/2 module versions allow conventional switches to be customised as desired.



Protection devices
These devices intervene in the event of overloads, short circuits and other phenomena that involve a risk for the safety of persons and which compromise proper operation of connected appliances, performing their protection function directly downstream without impacting the power supply to other points in the electrical installation.

Signalling devices
Warning lights to display the operating status of connected appliances, as well as bells and buzzers. The warning lights are supplied with an incorporated 230V LED, which can be replaced for use under different voltages, if necessary.

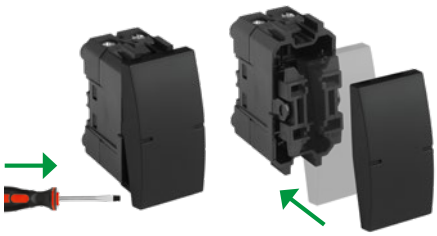
Comfort devices
To optimize the operation of electrical appliances and increase the liveability of environments, the range includes devices for programming, adjustment and timing such as time-programmed thermostats, electronic thermostats and dimmers. IR presence detectors and receivers for remote controls complete the product range to guarantee the maximum level of comfort. Removable anti-blackout lights and emergency lights are available with ample operating autonomy.



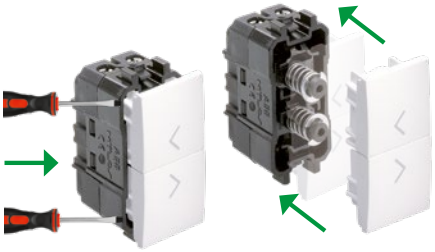
Home and building automation
Mylos represents also a simple and immediate solution to best meet the needs of both residential and building applications. Mylos free@home® and Mylos KNX are, respectively, the home and building automation systems which are perfectly integrated into Mylos aesthetic and functionalities. Both the ranges includes thermostats, rocker switches, actuators, blind actuators and dimmers.

Access Control for hospitality
Based on transponder technology, and exploiting their flexibility and security, ABB's solution for access control is fully compatible with the KNX-standard Home & Building Automation System. The access control system, perfectly integrated into Mylos conventional wiring accessories range, is particularly suitable for hotel applications and allows construction of flexible systems with advanced functions to optimize the services provided to hotel guests.

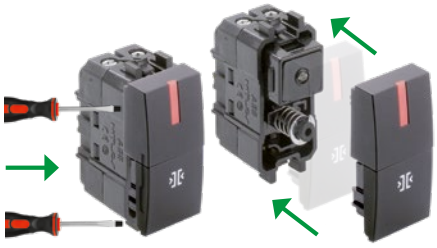
Command devices features.



Standard key cover composition

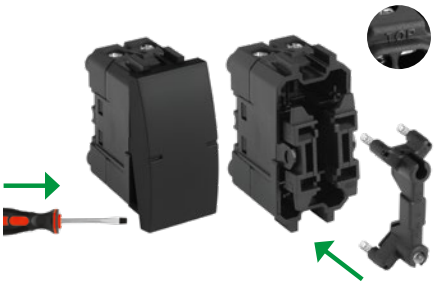


Key cover composition on 2CSY1017MY

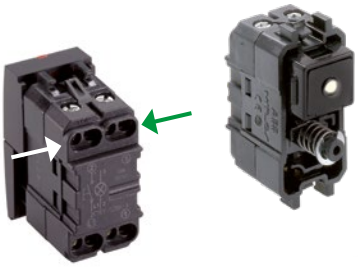


Key cover composition on 2CSY1027MY

LED illumination.



Plug-in LED illumination.
Conventional switches are lit by plug-in LEDs. There is no need for additional wiring because once the device is fixed in place, it is already ready to light up. In this way it is possible to implement night-time location signalling in a very easy manner.

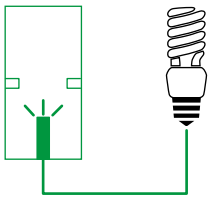


Incorporated LED illumination.
Switches with incorporated LEDs provide maximum freedom for wiring the signalling LED through the presence of dedicated terminals.

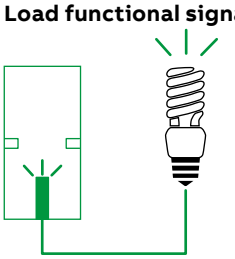
Night-time location signalling

The 2CSY1632MY and 2CSY1633MY LEDs can be added to conventional switches (see page 45) for night-time location. The LED electrically connected in parallel with the ON operating mechanism: it is lit when the load is off (OFF command), and it turns off when the load is powered (ON command).

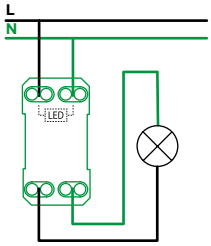
Location signalling (Always ON)



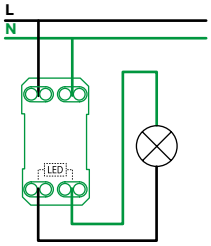
Load functional signalling



Switches with incorporated LED (see page 50) have preinstalled 250V~ LEDs and dedicated terminals for wiring. It is possible to implement any type of functional indication, also with LEDs at different voltages.



Wiring of double-pole switches 2CSY1006MC/S for Always ON signalling. The LED is built in.



Wiring of double-pole switches 2CSY1006FC/S for load functional indication. The LED is built in.

Mylos®
User interfaces

System Access Point

PC

For commissioning and remote control of the ABB-free@home® system.
Allows the execution of Astro and time programs. Commissioning and remote control is executed via web interface or via App. No additional commissioning PC software is required. Connection to the home network via WLAN client mode or via CAT cable.

- Dimensions (H × W × D): 110 mm × 170 mm × 31 mm
- Display: Status LED
- Rated voltage: 230V~
- Rated frequency: 50/60Hz
- Protection class: IP 20

Description	Finishing	Global ID	Product type	Packing
System Access Point	White	6220-0-0136	SAP-S-1-84	1

ABB-free@homeTouch 7"

PC

Touch panel 7” for the centralized management of ABB-free@home® system, that allows the control of up to 16 configurable functions and display of the video image of an ABB Welcome and ABB Welcome M outdoor station. SD card slot for extension of the picture memory. Suitable as room temperature controller extension unit. For surface mounting.

– Dimensions (H × W × D): 155 mm × 218 mm × 29 mm
– Display size: 17,8 cm (7")
– Display resolution: 800 x 480
– Display elements: TFT Touch Display
– Protection class: IP 30

Description	Finishing	Global ID	Product type	Packing
ABB-free@homeTouch 7"	White	8300-0-0356	DP7-S-6XX	1
ABB-free@homeTouch 7"	Black	8300-0-0357	DP7-S-6XX	1

Power supply

The 7" ABB-free@homeTouch device must be powered by the Welcome M power supply and connected to both buses (free@home and Welcome M).
Even when the device is used only with the free@home system, it is necessary to provide for the Welcome M power supply.

Modular devices

Binary input, 4gang

Interface device for 4 external channels.

- 230V~ inputs
- AC/DC input current In: max 1 mA
- Dimensions (H × W × D): 90 mm × 36 mm × 64 mm
- Inputs: 4
- Protection type: IP 20
- DIN modules: 2

Description	Finishing	Global ID	Product type	Packing
Binary input, 4gang		2CDG510004R0011	BI-M-4.0.1	1

Switch actuator, 4gang

Device with 4 switching channels in ON/OFF mode for managing 4 system's output channels. Manual mode operation.

- Dimensions (H × W × D): 90 mm × 72 mm × 64 mm
- Outputs: 4
- Type of load: AC1
- Nominal current: 16 A, at cos ϕ 0.8
- Nominal voltage: 230 V~
- Type of load: AC3
- Nominal current: 8 A, at cos ϕ 0.45
- Protection type: IP 20
- DIN modules: 4

Description	Finishing	Global ID	Product type	Packing
Switch actuator, 4gang		2CDG510006R0011	SA-M-0.4.1	1

Sensor/Switch actuator, 8/8gang

Device equipped with 8 switching channels in ON/OFF mode with 6A range for managing 8 system's output channels and 8 INPUT channels for interfacing 8 system's binary inputs. Manual mode operation.

- Dimensions (H × W × D): 90 mm × 140 mm × 64 mm
- Outputs: 8 (6 A)
- Inputs: 8
- Type of load: AC1
- Nominal current: 6 A, at cos ϕ 0,8
- Nominal voltage: 230 V~
- Type of load: AC3
- Nominal current: 6 A, at cos ϕ 0.45
- Protection type: IP 20
- DIN modules: 8

Description	Finishing	Global ID	Product type	Packing

Modular devices

Dim actuator, 4gang

PC

Multi-channel universal dimming actuator for controlling LEDs, incandescent lamps, 230 V halogen lamps, low-voltage halogen lamps with conventional or electronic transformers, and dimmable energy-saving halogen lamps. For dimmable retrofit LED lamps (LEDi). Parallel switching of channels for increasing the loads through wire bridges possible. The outputs can be switched parallel in any combination. Outputs automatically recognise the connected load. In addition, the operating mode can be selected manually. Status display of the outputs via LED.

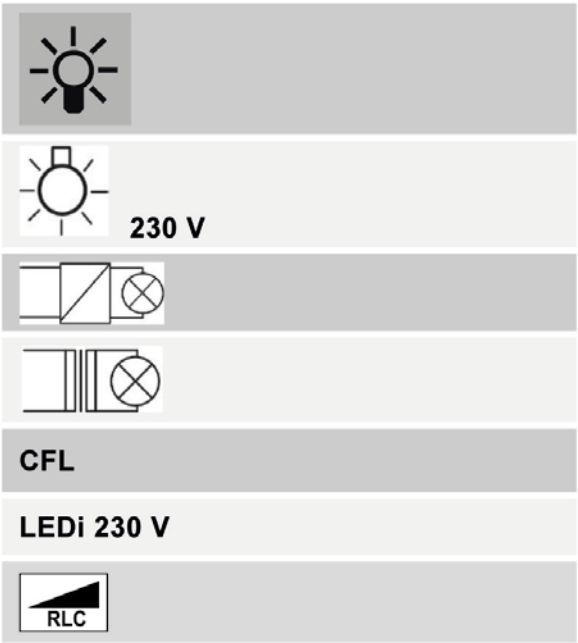
- Display elements: status display of outputs via LED
- Nominal voltage: 230 V~
- Rated frequency: 50 Hz/60 Hz
- Outputs: 4 dimming channels
- Type of load: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformers
- Type of load: LEDi and energy-saving lamps
- Nominal voltage: 2-80 W/VA
- Protection type: IP 20
- DIN modules: 8
- Nominal voltage: 10–315 W/VA

Description	Finishing	Global ID	Product type	Packing
Dim actuator, 4gang		6220-0-0395	DA-M-0.4.1	1

Dim actuator, 4gang

1 x 40 - 1260 W/VA
2 x 20 - 630 W/VA
2 x 20 - 630 W/VA
LEDi + CFL:
tipic. 1 x 8 - 160 W/VA
tipic. 2 x 4 - 120 W/VA
tipic. 4 x 2 - 80 W/VA

Load type



Blind actuator, 4gang

For controlling 4 independent blind or roller shutter drives.
The BUS connection is provided via the enclosed bus terminal.

- Dimensions (H × W × D): 90 mm × 72 mm × 64 mm
- Outputs: 4
- Type of load: AC3
- Nominal current: 6 A, at cos ϕ 0,45
- Nominal voltage: 230 V~
- Protection type: IP 20
- DIN modules: 4

Description	Finishing	Global ID	Product type	Packing
Blind actuator, 4gang		2CDG510011R0011	BA-M-0.4.1	1

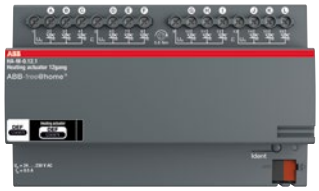
Heating actuator, 6gang

For controlling thermoelectric actuating drives in heating/cooling systems.
The outputs are protected against short-circuit and overload.

- Dimensions (H × W × D): 90 mm × 72 mm × 64 mm
- Outputs: 6
- Type of load: resistive
- Nominal current: 160 mA
- Nominal voltage: 230 V~
- Protection type: IP 20
- DIN modules: 4

Description	Finishing	Global ID	Product type	Packing
Heating actuator, 6gang		2CDG510008R0011	HA-M-0.6.1	1

Heating actuator, 12gang



For controlling thermoelectric actuating drives in heating/cooling systems.
The outputs are protected against short-circuit and overload.

- Dimensions (H × W × D): 90 mm × 144 mm × 64 mm
- Outputs: 12
- Type of load: AC3 resistive
- Nominal current: 160 mA
- Protection type: IP 20
- DIN modules: 8

Description	Finishing	Global ID	Product type	Packing
Heating actuator, 12gang		2CDG510009R0011	HA-M-0.12.1	1

ocean®

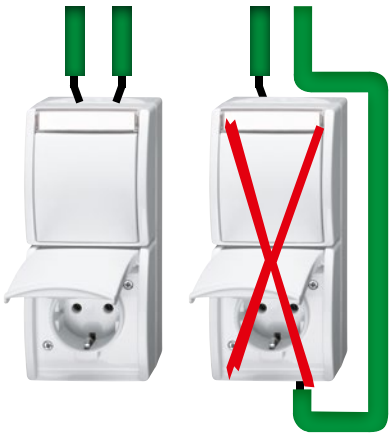
Water protected ranges IP 44.

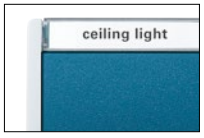
Combination possibility
Using the cable entry, various inserts are freely combinable. In addition to data communication products, other special inserts like key switches, rocker switches, or twilight switches can be fully integrated.

The combination that acts like a single component.
Article-No. 2601/6/20 EW-54
Article-No. 2138 W-54
Article-No. 2661 W-54 with 2863-13-53

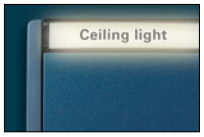
Double cable entry from the top



Due to the large connecting space the power cord for the socket outlet, which is connected to a different electric circuit, can be fed through the shielding up to the socket outlet.

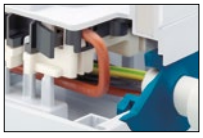


Clear assignment of the consumers
Uniform labelling field for switches and socket outlets (optional).

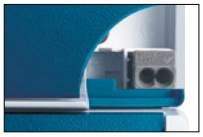


Visible in the dark
Large-area lighting of the labelling field by LED for all switches and push-switches (optional).

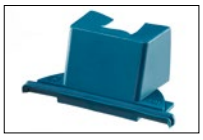
Fast mounting using the PoziDriv screw (+/–), PZ 1 (with triple-pitch fast release stainless steel thread). Same mounting dimensions as the WS range.



Easy connection
Large connection area even for 5 x 2.5 mm² conductors. Easy through--connections underneath the base.



Safe feed-through
Feed-through of earth wire via terminal block.



Colour-matching duct entry
Available in both colours for use in cable ducts.

Movement detector
For the pleasant feeling of safety.

These innovative and high-quality optical detection systems by Busch-Jaeger simply make life more comfortable. They are alert, helpful, efficient. And they automatically manage many tasks in every sector of the building. Inside and outdoors. When it comes to safety, they know precisely when the light is needed. And other functions such as heating, blinds and air-conditioning are precisely, intelligently and reliably controlled.

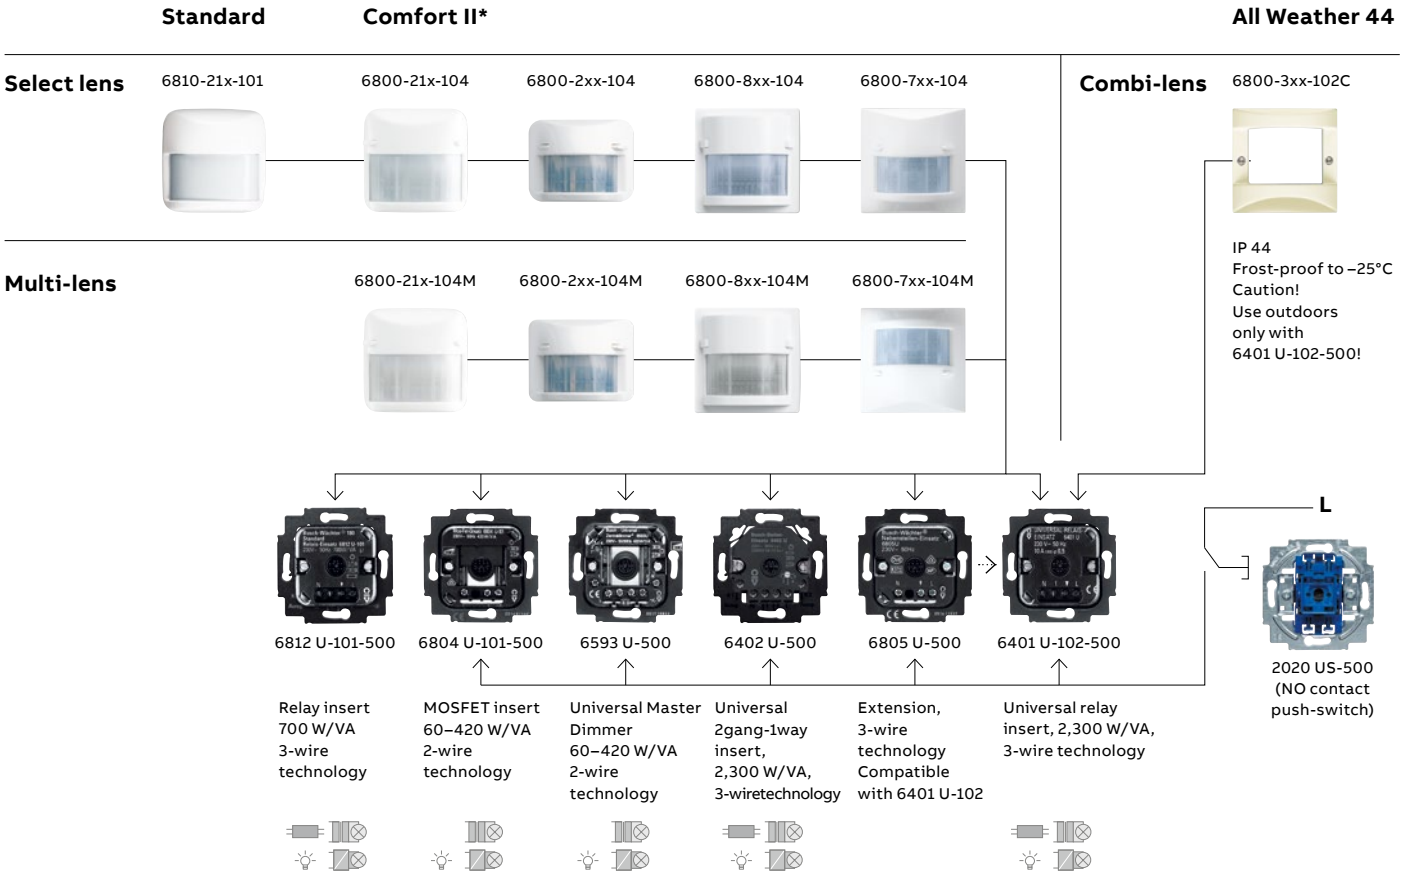
For more information about light switch ranges visit ABB global web sites.

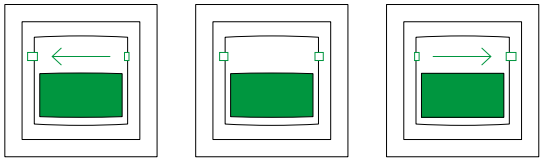
Movement detector

This switch can sense your needs.

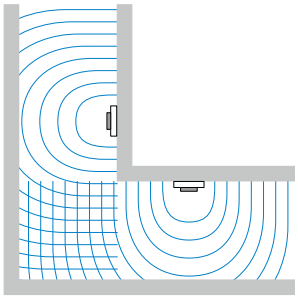
Selection guide: the Busch-Watchdog flush-mounted range



*Switch-off behaviour: In combination with 6593 U (soft OFF function), the Comfort II sensor dims and switches off within 60 seconds.



Slide switch.
Always on, allways off, or automatic mode can be individually selected using the slide switch. Optionally, the slide switch can be fixed to automatic mode using a screw on the back side, e.g. in public buildings.



Application of main and auxiliary units.
If more than only one movement detector is requirement, additional movement detectors can be installed using extension inserts. This makes sense, for example, in the case of L-shaped corridors.

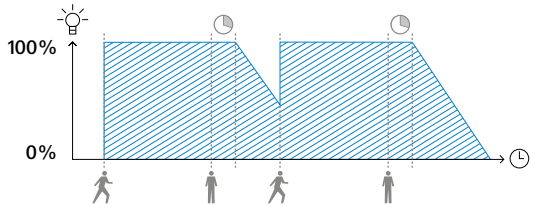
Movement detector

Hands free for the important things Busch-Watchdog 180, flush-mounted.

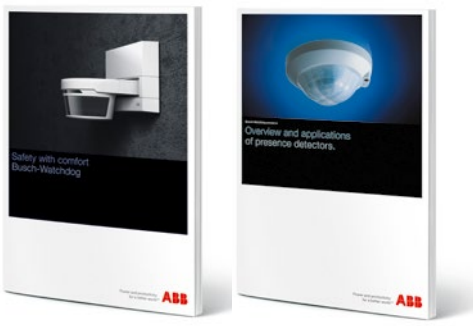
The convenient home help.
The flush-mounted Busch-Watchdog 180 is the ideal movement detector for the stairwell, hall, bathroom and large rooms without a clear overview. It responds as soon as it registers body heat. And leaves no one standing in the dark. It offers a large range of effectiveness, especially during a frontal approach. As soon as someone enters the door, the switching process is triggered. And it automatically switches off again when the person exits the room.

The convenient combination:
The movement detector and dimmer of ABB/Busch-Jaeger do not suddenly leave you in the dark.

Flush-mounted insert: Dimmer 6593 U-500
Busch-Watchdog sensor: 6800-xx-104M



Light whenever needed.
The flush-mounted Busch-Watchdog 180 Comfort does not switch the light off suddenly but, in connection with a Busch-Dimmer®, dims it slowly within a period of 60 seconds. It does this as soon as it no longer detects movement and the set switch-off delay has expired. This switch-off warning means that one does not immediately stand in the dark but has the opportunity to move into the detection range which then switches back to 100% brightness.



Additional information is available in our range and products brochure.

Busch-Watchdog

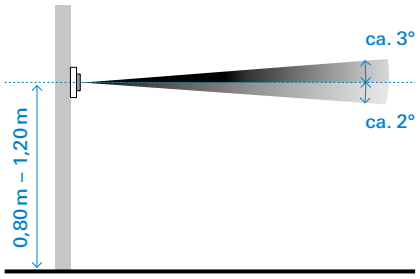
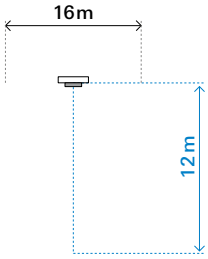
Movement detector

Reliable and uninterrupted surveillance.

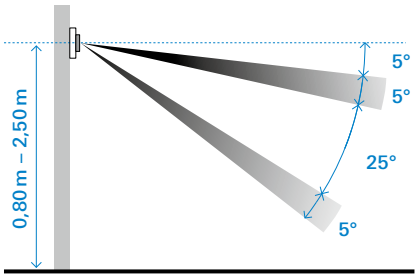
Select lens

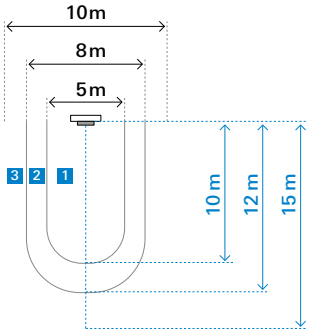




Mounting height of 0.80 m to 1.20 m.

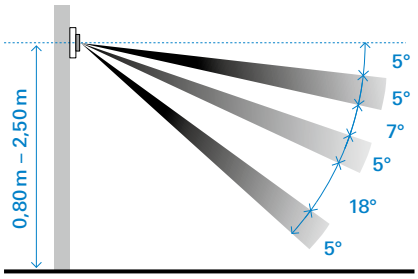
Multi-lens

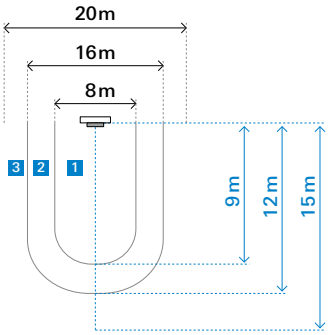




1 Mounting height of 1.20 m.
2 Mounting height of 2 m.
3 Mounting height of 2.50 m.

Combi-lens





1 Mounting height of 1.20 m.
2 Mounting height of 2 m.
3 Mounting height of 2.50 m.

The optimum shape.
A flush-mounted movement detector must match perfectly with its surroundings while at the same time reliably fulfilling its detecting function. The flush-mounted Busch-Watchdog 180 Standard and the flush-mounted Busch-Watchdog 180 Comfort are optimally designed for this. Not too flat and not too high. Nothing escapes their notice. The flush-mounted Busch-Watchdog 180 Standard is available in the design of the Reflex SI Linear switch range. The flush-mounted Busch-Watchdog 180 Comfort on the other hand is available in almost all Busch-Jaeger switch ranges. It additionally has a comfortable sliding switch for individually setting the light control.

Everything under control.
The flush-mounted Busch-Watchdog 180 offers a large range of effectiveness, especially during a frontal approach. As soon as someone enters the door the switching process is triggered. It switches off automatically when exiting. The detection angle is 180° and extends laterally up to the wall. In spite of its compact dimensions it has a transmission range of 12 m frontal and, depending on the model, from 5 to 8 m lateral. Depending on the spatial conditions, the connection of an additional movement detector is recommended, which is connected as extension unit. For example, when an area that does not lie within the detection range is accessed.

Intelligent combination.
The flush-mounted Busch-Watchdog 180 Comfort in connection with a Busch-Dimmer® does not switch the light off suddenly, but dims it slowly within a period of 60 seconds. The switch-off delay time and twilight value can be flexibly set, it is freely selectable up to 30 minutes.

Three lenses for each surveillance situation.
Depending on design and application the Busch-Watchdog models have three different lenses: select lens, multi-lens and combination lens. With the select lens, for example, domestic animals are not detected in the lower area, the multi-lens also detects persons that are on the stairs and the combination lens detects every angle of the surveillance area.

Movement detector

Reliable and uninterrupted surveillance.

The right model for each task.

The select lens.
Monitors an area above approx. 1.20 m.
Small animals are therefore not detected.
Mounting height: 0.80 m to 1.20 m
Detection zone: 12 m frontal, 8 m to each side

The multi-lens.
Due to its detection range it also detects persons on a staircase.
Mounting height: 1.20 m
Detection zone: 10 m frontal, 2.50 m to each side
Mounting height: 2 m
Detection zone: 12 m frontal, 4 m to each side
Mounting height: 2.50 m
Detection zone: 15 m frontal, 5 m to each side

The combination lens. (Only All Weather 44)
Makes possible the largest detection of the area to be monitored.
Mounting height: 1.20 m
Detection zone: 9 m frontal, 4 m to each side
Mounting height: 2 m
Detection zone: 12 m frontal, 8 m to each side
Mounting height: 2.50 m
Detection zone: 15 m frontal, 10 m to each side

Movement detector

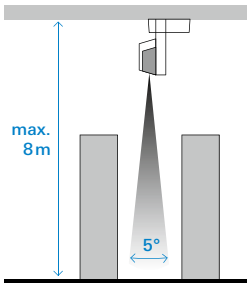
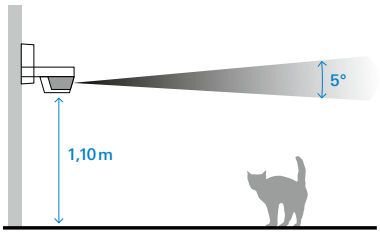
The angle is what matters. Mounting and detection ranges.

Busch-Watchdog 220 MasterLINE select



Precise surveillance.
Aside from horizontal mounting, which is ideally suited for the surveillance of houses, properties and parking areas, also vertical mounting is possible. This also allows warehouse thoroughfares on large industrial sites to be monitored so precisely that areas are illuminated only when being approached.



Sees everything. Except small animals.
Practical for the surveillance of outdoor areas: At a mounting height of 1.10 m with a horizontal alignment small animals are not detected by the Busch-Watchdog 220 MasterLINE select.

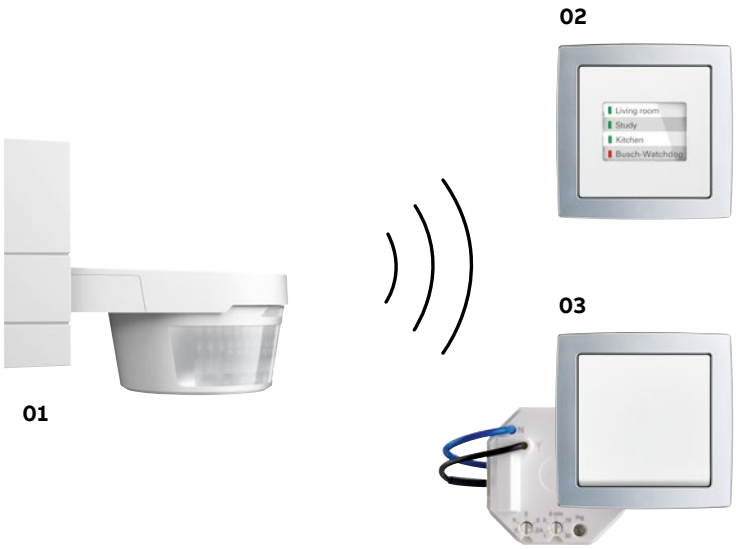
10.0 m	12.5 m

Movement detector

Extra versatile. Busch-Watchdog 220 WaveLINE.

Special functions of the Busch-Watchdog 220 WaveLINE.
This model was designed especially for living concepts and additionally offers the technology of the Busch-Watchdog 220 MasterLINE. Since it operates with radio signals, the functions of the sensors and actuators are spread over both devices. The sensor can be mounted in any location - preferably where it has the best overview. Several Busch-Watchdog 220 WaveLINE can be assigned to a single actuator. This allows angled and hilly areas to be completely monitored. The device operates without cables. Its operation is especially economical because the high-performance batteries last up to ten years. If it detects a movement, it radios the switch-on signal to the built-in actuator, which can even be installed in a deep flush-mounted socket outlet underneath a push-button. The battery test is carried out on the device. The transmission of a low-battery telegram is possible.

Even without the supply voltage, movement can be reliably detected.
The battery-operated Watchdog sensors can be mounted in any terrain.



- For properties without a clear overview
- Cableless retrofitting
- Radio control for ideal positioning in the detection range
- Detection and status display
- Battery operated for line-independent mounting

- Partition wall function
- Scene module

Busch-Watchdog presence tech DualLINE

Mounting heights

- The characteristics of detection depend on the mounting height
- As the mounting height increases, the sensitivity and detection density decrease

Application example: DualLINE presence detector

Today, presence detectors are a vital part of all publicly and commercially used buildings and result in great savings. The new Busch-Watchdog presence dualLINE. It doesn't just monitor, it also offers many useful additional functions.

- Control two independent lighting rows by only one presence detector dependent on daylight.
- Either fully automatic or semiautomatic mode: activation and deactivation is controlled only by the presence detector or activation is controlled by a push-switch, while deactivation takes place automatically.
- In fully automatic operation, the presence detector can be switched to continuous OFF using the push-switch; activation using the push-switch is possible at any time.
- Manual continuous lighting is possible via push-switch: the automatic return to automatic mode takes place when no more movement is detected.

Mounting height	Seated persons*	Walking persons
2.0 m	4 m	8 m

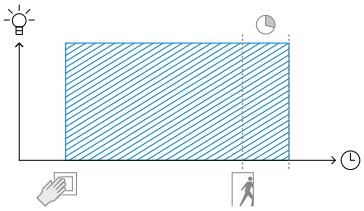
Remote control 6843			X	

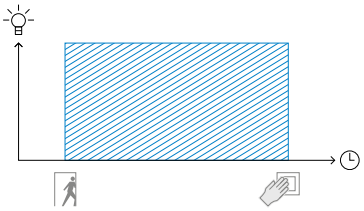
Movement detector

Perfect support. Busch-Comfort switch.

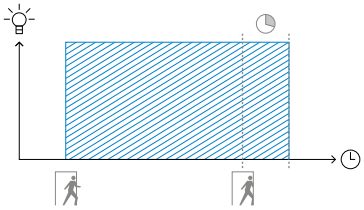
Functional and attractive. The elegant Busch-Comfort switch can be operated just like a normal light switch. However, it offers interesting functions which have not been available in this combination in a device up to the present. Switching contactless, manually or time controlled: The Busch-Comfort switch demonstrates what is expected of technology today.



Time comfort.
Manually on, but switching off automatically. For stairwells as staircase light timer switch. You come home and the light is still on because someone else just came through the corridor. After a few steps you are suddenly in the dark because the set time has expired. The innovative Busch-Watchdogs reliably prevent such, at times dangerous, situations from occurring. They register again when a person is in the corridor and start the selected switch-off delay anew.

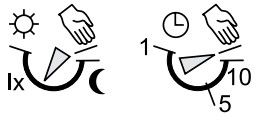


Medium comfort.
Automatic on, but switching off manually.
The angled cellar or workroom. Busch-Comfort switches turn on the light automatically and leave it switched on as long as you need it. If you do not move or you temporarily leave the detection range, the light remains switched on. This allows you to concentrate on your work and decide yourself when it needs to be dark again.



Maximum comfort.
Never switch by hand again.
For transit rooms such as corridor, cellar and toilet. The light is switched on automatically when someone enters the detection range. The switch-off delay can be selected between one to ten minutes. Special safety: If a person again passes through the detection range, the timer setting starts anew from the beginning. Also the brightness threshold from which the light switches itself on can be adapted to the prevailing conditions. This gives you freedom and flexibility - even when the light conditions change. Busch-Comfort switch relay inserts can also be switched in parallel.

Setting options on the back of the control element



Operating mode 1
The lighting is switched on at detection and automatically off.

Operating mode 2
Switching on manually, and off automatically.

Operating mode 3
Switching on at detection, and off manually.

Note
The comfort switch changes between selected and manual operating mode with a long press of the button.

The flat lens is available in various finishes tones and matches the colour of the rocker switch.

Movement detector

Elegance and intelligence. Busch-Comfort switch.

Always a solution that convinces.
The Busch-Comfort switch offers different comfort stages for each requirement. For example, it can be used as fully automatic. In this case it switches the light on and off independently when a movement is registered. And the semi-automatic version leaves the light on until it is switched off manually.

Always at the right time.
Busch-Comfort switches also operate ideally as automatic time control. With this version the light is switched with the press of a button and switched off again after a pre-programmed time if no movement is registered. Of course, they can also be used as a normal light switch that only responds to manual operation.

Informative and stylish.
The integrated sensor does not catch the eye because of its flat construction. And an LED in the lens informs everyone who enters or leaves the room that the light switch must be operated manually. Very useful. The LED at the same time serves as a light for orientation and is therefore a safe signpost in the dark. Aside from their technical qualities the Busch-Comfort switches are also beautiful. Their design impresses with straight-lined, timeless elegance and matches every living room concept. It is available in almost all Busch-Jaeger switch ranges.

Movement detector

Module principle of the electronic inserts and control elements.

	Busch-Watchdog 220 ProfessionalLINE [1] **without IR remote control** Electronic movement detector for detecting thermal motion. With display for detection and operation mode. With ground and rear-field detection. With planar compensation: +/- 30°. With high-quality lens for optimum detection. Detection sensitivity selectable in 3 steps. Surveillance density: 84 sectors with 336 switching segments. All functions controlled by microprocessor. Always-On (4 hours) and Presencesimulation can be activated via IR-remote control. With automatic range stabilization. With automatic interference suppression. With automatic dazzle-proofing. With brightness-independent test mode for evaluating the detection zone. Additional possibility for switch-on via normally open push-button switch. Switch-off delay: 10 sec to 30 min or short-time pulse 1 sec adjustable. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Outputs: 1x Normally open contact, potential-bound Suitable for: ohmic, capacitive and inductive loads Rated current: 16 AX, cos ϕ 0.6 Rated power: 3680 W/VA Detection range: frontal: 16 m, lateral: 16 m Detection angle: 220 ° Brightness limit value: 0.5 Lux - 300 Lux , Daytime operation Mounting height: 2.5 m Protection class (Device): IP 55 Temperature range (Device): -25 °C to 55 °C Dimensions: (L x W x D): 97 mm x 97 mm x 159 mm

Product	Article-No.	Order-No.	Pack/Qty
	WaveLINE switch actuator, 1gang, with extension unit [1] For wireless switching of electrical loads. Functions via radio control: ON/OFF, timer and light scene control. Functions via the extension unit: ON/OFF, timer and sending a radio control telegram. Operation also possible via conventional push-buttons (2020 US, 2012/6 UK). Actuation of the extension unit (via conventional push-button) causes the output to switch and a radio control telegram to be sent. Actuation of extension unit in ON/OFF function: Alternate sending of an ON/OFF telegram. Actuation of extension unit in timer function: Sending of an ON telegram. For Busch-Watchdog WaveLINE. For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx. For remote control WaveLINE 6780. For WaveLINE window position sensor 6720-6x. For WaveLINE 6721-xx universal signalling unit. Compatible with WaveLINE KNX gateway TP-RF 6770. Switch-off delay: Adjustable to 5 seconds, 1-5-15 minutes. Repeater function can be activated for extended range. For universal attachment or installation. 3 wire connection (neutral conductor required). For installation in (deep) flush-mounted boxes to German Standard DIN 49073, Part 1. Controllable up to 32 transmission addresses. Send/receive frequency: 868 MHz. Free-field range: approx. 100 m. Control element: Adjustable potentiometer Display elements: Status indication of output via LED. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Inputs: 1 Polling voltage: 230 V~, Sensing pulse, L-wire Outputs: 1x Normally open contact, potential-bound Suitable for: Resistive load Rated current: 10 A Output voltage: 230 V~ Rated power: 2300 W Suitable for: capacitive Rated current: 10 AX Output voltage: 230 V~ Rated power: 2300 VA Suitable for: inductive Rated current: 10 A, cos ϕ 0.6 Output voltage: 230 V~ Rated power: 2300 VA Protection class (Device): IP 20 Temperature range (Device): -20 °C to 45 °C Dimensions: (L x W x D): 47 mm x 48 mm x 22 mm Mounting depth: 25 mm

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Watchdog Presence tech BasicLINE mini [1) 2)] For switching lighting systems that depend on brightness and movement. Detection range (installation height 3m, up to 6m in diameter). Low mounting height due to separate sensor/actuator concept. Continuously variable detection sensitivity. With brightness-independent test mode for evaluating the detection zone. With detection display in test mode. Ceiling installation using integrated spring bracket. Surveillance density: 19 sectors with 76 switching segments. Switch-off delay: approx. 1 sec - 15 min or short-time pulse adjustable. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 1x Normally open contact, potential-bound Suitable for: 230 V incandescent lamps Rated power: 2000 W Suitable for: Energy-saving bulbs Rated power: 7 - 400 W Suitable for: Fluorescent lamps Rated current: 4 AX, cos ϕ 0.5 Rated power: 1000 W/VA Detection angle: 360 ° Brightness limit value: 10 Lux - 1000 Lux , Daytime operation Mounting height: 2 m - 5 m Protection class (Device): IP 20 Protection class (Sensor): IP 40 Temperature range (Device): 0 °C to 45 °C Mounting depth: 77 mm IEC 60669-2-1		
alpine white	**6811 EB-500**	2CKA006800A2517	1

[1)] When mounting the actuator through the drilled hole of the sensor an installation depth of ≥ 205 mm is to be taken into account.
[2)] In combination with a relay/contactor, an RC suppressor 6899 has to be used.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Watchdog Presence tech BasicLINE [1) 2)] For switching lighting systems that depend on brightness and movement. Detection range (for installation height of 3 m), circular, up to 8 m in diameter. For semiautomatic and fully automatic operation. Additional activation/deactivation possibility through pushbutton input. Adaptation of the detection range possible using the included masking elements. With brightness-independent test mode for evaluating the detection zone. With detection display in test mode. Mounting possibility in combination with built-in installation boxes and device sockets. Ceiling installation using integrated spring bracket. Adjustment elements accessible on the front side. Low mounting height (31 mm) Surveillance density: 32 sectors with 128 switching segments. Switch-off delay: approx. 5 sec - 30 min or short-time pulse adjustable. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Outputs: 1x Normally open contact, potential-bound Suitable for: 230 V incandescent lamps Rated power: 2000 W Suitable for: Energy-saving bulbs Rated power: 7 - 400 W Suitable for: Fluorescent lamps Rated current: 4 AX, cos ϕ 0.5 Rated power: 1000 W/VA Detection angle: 360 ° Brightness limit value: 10 Lux - 2000 Lux Mounting height: 2 m - 4 m Protection class (Device): IP 40 Temperature range (Device): 0 °C to 45 °C Dimensions: (L x W x D): 111 mm x 111 mm x 59 mm Mounting depth: 41 mm 60669-2-1

With electronic switch contact for LED operation. Detection range (for installation height of 3 m): circular Seated persons: up to Ø 10 m, walking persons: up to Ø 12 m. Extension of the detection range by means of master/slave combination. Visible height 23 mm. For semiautomatic and fully automatic operation. Additional activation/deactivation possibility through pushbutton input. With continuous light/continuous off function (4 hours), activation via intelligent extension unit input possible. With brightness-independent test mode for evaluating the detection zone. With teach-in function of the brightness switching threshold. With detection display in test mode. Ceiling installation using integrated spring bracket. Twist protection via additional quick tensioning. Adjustment elements accessible on the front side. Surveillance density: 72 sectors with 640 switching segments. Switch-off delay: approx. 1 min. - 30 min. or short-time pulse adjustable. Remote control possible via IR service remote control 6843. Suitable for false ceilings with a board thickness from 9 to 25 mm. Hole size: Ø 68 mm. Control element: 2 controllers for setting the brightness switching threshold and switch-off delay. Display elements: LED detection and status indication. Rated voltage: 110 - 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Outputs: 1x Normally open contact, potential-bound Suitable for: 230 V incandescent lamps Rated power: 3 - 200 W Suitable for: 230 V~ LEDi Rated power: 3 - 200 W/VA Detection angle: 360 ° Brightness limit value: 5 Lux - 2000 Lux Mounting height: 2 m - 4 m Protection class (Device): IP 40 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 94 mm x 94 mm x 59 mm Mounting depth: 36 mm 60669-2-1

Protection class (Device): IP 40
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 94 mm x 94 mm x 72 mm
Mounting depth: 49 mm

studio white	**6819/38-24**	2CKA006800A2752	1
matt	**6819/38-24-500**	2CKA006800A2753	1
aluminium	**6819/38-183**	2CKA006800A2786	1
silver	**6819/38-183-500**	2CKA006800A2787	1

1) The detection range with a central approach is reduced.
2) Recommendation: HaloX-O flush-mounted box from Kaiser (article no. 1290-40) with corresponding cover (1290-47 or 1290-85 for exposed concrete) or IBTronic H120-68 from Spelsberg

Movement detector

Presence detector

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Presence detector Corridor, slave [1] **30 meters** Slave presence detector for extension of the detection range of master presence detectors. Detection range (for installation height of 3 m): rectangular Gehende Personen: quer zum Melder 24 m x 3 m, frontal/längs zum Melder 14 m x 3 m. Mounting height 27 mm. Ceiling installation using integrated spring bracket. Twist protection via additional quick tensioning. Surveillance density: 92 sectors with 368 switching segments. Suitable for false ceilings with a board thickness from 9 to 25 mm. Hole size: Ø 68 mm. Rated voltage: 110 - 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Detection angle: 360 ° Mounting height: 2 m - 4 m Protection class (Device): IP 40 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 94 mm x 94 mm x 76 mm Mounting depth: 49 mm

Product	Article-No.	Order-No.	Pack/Qty
	Busch extension unit coupling [1] For transmitting different control commands via a single conductor wire. For devices with intelligent extension input. For operation via conventional push-buttons 2020 US and 2021/6 U. For operation via conventional 2gang push-buttons 2020 US-205 and 2021/6/6 U. For universal attachment or installation. For installation in (deep) flush-mounted boxes to German Standard DIN 49073, Part 1. Including compact connecting terminal for cable connection. Cable length: approx. 80 mm. Rated voltage: 110 - 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Inputs: 2 Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 33 mm x 45 mm x 8.5 mm		
	6494-500	2CKA006499A0002	1
	6494	2CKA006499A0001	1

[1] To be mounted only in connection with commercially available flush-mounted installation boxes according to DIN 49073 > 40 mm depth gauge or Busch-Jaeger art. no. 3040, 3050 or 3060.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Presence detector mini KNX [1] **8 meters** Detection range (for mounting height 2.5 m, 3 m and 4 m): circular. Seated persons Ø: max. 5 m, max. 6.5 m and max. 9 m. Walking persons Ø: max. 6.5 m, max. 8 m and max. 10.5 m. Visible height 16 mm. With 2 channels. Targeted for connection and disconnection of lights bands depending on the room brightness. Regulation in response to the movement possible. Using the device as presence and/or movement detectors. Detectors application with 2 power off stages. Detectors application with integrated monitoring function. Constant light switch with up to two independent channels. Constant light switch with max. 2 outputs for brightness-dependent switching of two light bands in the area. With integrated KNX bus coupler. Suitable for false ceilings with a board thickness from 9 to 25 mm. Hole size: Ø 68 mm. Suitable for surface mounting installation. Cannot be installed in British Standard or VDE flushmounted box. Recommendation: Installation housing from Kaiser HaloX-O (Art.no. 1290-40) with corresponding cover plates (1290-47 or 1290-85 for fair faced concrete) or IBTronic H120-68 from Spelsberg. Connections: KNX-line: Bus connection terminal Brightness limit value: 1 Lux - 1000 Lux Mounting height: 2 m - 4 m Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 80 mm x 80 mm x 45 mm Mounting depth: 29 mm

	Busch-Presence detector mini premium KNX [1] [2] **8 meters** Detection range (for mounting height 2.5 m, 3 m and 4 m): circular. Seated persons Ø: max. 5 m, max. 6.5 m and max. 9 m. Walking persons Ø: max. 6.5 m, max. 8 m and max. 10.5 m. Visible height 16 mm. With 4 channels. For dimming/brightness of the rules to a defined value in a designated collection area. HVAC function for controlling heating and/or cooling systems and ventilation systems in the designated collection area. Detectors application with 2 power off stages. Detectors application with integrated monitoring function. Constant light controller with up to two independent channels. Constant light controller with max. 2 outputs for dimming daylight control/rules of two rooflights in the room. Integrated object room temperature controller. 10 freely programmable IR channels (blue and/or white) Incl. 5 logic channels (logic gates, gates, delay and staircase lighting) Evaluation via internal brightness sensor. Weighting of up to 2 external brightness values and the internal brightness sensor possible. The programming button can be activated with the IR transmitter 6010-25 (-500). With integrated KNX bus coupler. Suitable for false ceilings with a board thickness from 9 to 25 mm. Hole size: Ø 68 mm. Suitable for surface mounting installation. Cannot be installed in British Standard or VDE flushmounted box. Recommendation: Installation housing from Kaiser HaloX-O (Art.no. 1290-40) with corresponding cover plates (1290-47 or 1290-85 for fair faced concrete) or IBTronic H120-68 from Spelsberg. Busch-Watchdog presence inserts

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Universal relay switch insert 3 wire connection (neutral conductor required). For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101. For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M. For Busch-Watchdog 180 FP sensor for All Weather 44 6800-3x-102C. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. For comfort timer control element 6455-101-500. For Busch-Remote control IR control cover 6067-xxx-10x. For control cover with control lamp 6543-xxx-10x. Combinable with Busch-Watchdog extension insert 6805 U. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Outputs: 1x Normally open contact, potential-bound Suitable for: 230 V incandescent lamps, 230 V halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are operated via transformers. Rated current: 10 AX Rated power: 2300 W/VA Temperature range (Device): -25 °C to 55 °C British Standard EN 60669-2-1		
	6401 U-102-500	2CKA006401A0049	1/10
	Busch-Watchdog relay mechanism 3 wire connection (neutral conductor required). For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101. For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Rated voltage: 230 V, +10 % / -10 % Rated frequency: 50 Hz Outputs: 1x Normally open contact, potential-bound Suitable for: 230 V incandescent lamps, 230 V halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are operated via transformers. Rated power: 700 W/VA Temperature range (Device): 0 °C to 55 °C British Standard EN 60669-2-1		
	6812 U-101-500	2CKA006800A2160	1/10

Product	Article-No.	Order-No.	Pack/Qty
	Busch-Watchdog MOS-Fet Insert [1) 2) 3) 4) 5) 6)] 2-wire connection (neutral conductor not required) For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101. For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Combinable with Busch-Watchdog extension insert 6805 U. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 60 - 420 W/VA Temperature range (Device): 0 °C to 35 °C British Standard EN 60669-2-1		
	6804 U-101-500	2CKA006800A2219	1/10

[1)] In case of electronic transformers, 5 % transformer losses.
[2)] In the case of conventional transformers, take ~20% transformer loss into account.
[3)] Not suitable for the activation of energy-saving lamps, conventional and electronic ballast units and LED lamps.
[4)] Not suitable for activating the staircase time delay.
[5)] Cannot be used to control relais.
[6)] Requires an NIS international socket, E-No. 372507676.

	Busch-Universal 2gang 1way insert 3 wire connection (neutral conductor required). For the serial switch operating mode: 2 separate outputs, 2 separate extension inputs. For operation mode timer: output 1 (eg lighting), output 2: ON/Off delay in dependence of output 1 (eg fan control). For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101. For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. For Busch-Remote control IR control cover 6066-xxx-10x and 6067-xxx-10x. For control cover 6430-xxx-10x and 6543-xxx-10x. Combinable with Busch-Watchdog extension insert 6805 U. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact, potential-bound Suitable for: 230 V incandescent lamps, 230 V halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are operated via transformers. Rated current: 10 AX Rated power: 2300 W/VA Temperature range (Device): 0 °C to 35 °C British Standard EN 60669-2-1		
	6402 U-500	2CKA006401A0051	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	neon lamp 3855, one neon lamp is supplied together with control cover plates 6540-2x.

	Busch-Watchdog extension insert [1] 3 wire connection (neutral conductor required). For extending Busch-Watchdog 180 flush-mounted and Busch-Watchdog Presence tech installations. For combination with relay insert 6401 U-102 and 6402 U. For combination with MOS-Fet insert 6804 U-101. For combination with Dimmer insert 6593 U and 6550 U-101. For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101. For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Control/Signal outputs: 1, electronic output, potential-bound Temperature range (Device): 0 °C to 35 °C		
	6805 U-500	2CKA006800A2161	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
Cover frames:	1gang frame 1721 BS-2xG or Dual Box frame 1722 BSDB-2xG.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1] Not combinable with relay switch insert 6812 U-101.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-touch dimmer [1] [2] [3] [4] **flush mounted, RLC, 60-420 W** With light-level memory and intelligence for universal operation. Selectable Soft-ON/OFF function and memory function. Capacity expansion via output-side, parallel connectable load line with a power module 6594 U up to 735 W/VA possible. For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers. Short-circuit-proof, overload-protected. With touch control. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control cover with control lamp 6543-xxx-10x. For Busch-Remote control IR control cover 6066-xxx-10x. For comfort timer control element 6455-101-500. For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101. For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Combinable with Busch-Watchdog extension insert 6805 U. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 60 - 420 W/VA IEC 60669-2-1, British Standard EN 60669-2-1 R,L,C		
	6593 U-500	2CKA006590A0171	1/10

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] In conjunction with 6800-xxx-104 (M) a Soft Off can be adjusted.
[4] Only in conjunction with standard flush-mounting boxes according to DIN 49073.

Product	Article-No.	Order-No.	Pack/Qty
	Busch-touch dimmer [1] [2] [3] [4] [5] [6] **Flush-mounted, LED, 2-100 W** Touch dimmer. 2-wire connection (neutral conductor not required) Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Optimised for dimming of retrofit LED lamps (LEDi). For incandescent lamps, 230V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers and dimmable halogen energy-saving lamps. Mix operaton of LEDi with conventional loads possible. With adjustable minimum brightness. The minimum brightness for the leading edge control can be adjusted using the potentiometer. The potentiometer at the left limit stop corresponds with the trailing edge control mode. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With light-level memory and minimum brightness memory. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control cover with control lamp 6543-xxx-10x. For Busch-Remote control IR control cover 6066-xxx-10x. For comfort timer control element 6455-101-500. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 200 W/VA (non-LED loads). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C IEC 60669-2-1, British Standard EN 60669-2-1 R,L,C LEDi		
	6526 U-500	2CKA006512A0323	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Only in conjunction with standard flush-mounting boxes according to DIN 49073.
[5] Recommendation: Please use loads and types of one producer.
[6] In connection with 6810-21x-101 and 6800-xx-104 (M) only suitable for switching retrofit LEDs (for 2-conductor connection).

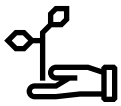
ABB Tailor made	12/10

Installation materials

ABB installation materials are continuously developed in cooperation with installers, paying close attention to easy and quick installation, high quality and reliability. They are designed to be compatible with each other and suitable for different installation situations and building methods.

ABB installation materials are:

- **Future oriented.**
  Offering customized solutions, following trends and future requirements for building constructions like prefabrication and modularity, supported by BIM models.



- **Environmentally friendly.**
  Choosing the materials with minimal environmental impact, minimizing waste and managing product environmental data in a transparent way.

- **Well documented.**
  The right information always easily available for each customer. Products are fully documented including ETIM data supporting digital sales.

Advantages of ABB installation materials:

- **Wide choice** of installation materials, meeting different worldwide requirements and installation habits.
- **Efficient, easy and fast installation.** Products are easy and fast to install and they enable efficient installation of wiring accessories and KNX products. Effective project execution brings overall cost-efficiency.
- **Reliable connections** in hollow, concrete and stone structures. Faulty installations are expensive and difficult to fix. Therefore we put effort in ensuring that the connections are reliable.
- **Quality material with specific properties used.** Material properties are selected to withstand demanding environments like fire, high temperature variations, frost, rain, etc.
- **Environmentally friendly.** Products are halogen free.
- **Safety.** Installation materials are designed to meet the highest requirements in regard to health and safe operation.
- **Special applications available.** Special applications to fire retardant walls and exterior walls (airtight solutions) are available.
- **Innovation based on cooperation with a customers and their needs**

Installation materials
A comprehensive offering

Conduits and accessories

Piping materials and accessories are developed to work as a system with ABB installation boxes and are easy to adapt to different installations. The piping materials ensure a safe and cost-efficient installation. Product range offers great variety of products as conduit extensions and adaptors, conduit bends, conduit end pieces and sleeves and accessories for concrete casting applications. Product colour coding helps customers to choose easier the right accessory size.

Flush mounted boxes

A wide variety of flush mounted junction and installation boxes, accompanied with accessories, helps installers work in an efficient and flexible way. The customer will find a suitable solution for any type of building or wall: brick or solid walls, various hollow or dry walls. Special solutions like for fire retardant walls or air tight and sound proof walls are also available (complying with relevant standards). The products are made of high quality halogen free plastic materials.

Surface mounted boxes

Discover growing portfolio of ABB surface mounted junction boxes for different types of applications. Boxes come in different shapes, sizes and IP ratings to match to each application requirement. Different colours of AP9 boxes can be used to improve the overview of different installations (e.g. green boxes for KNX, red boxes for fire or alarm systems etc.). The surface mounted box solutions are fast and reliable in all conditions.

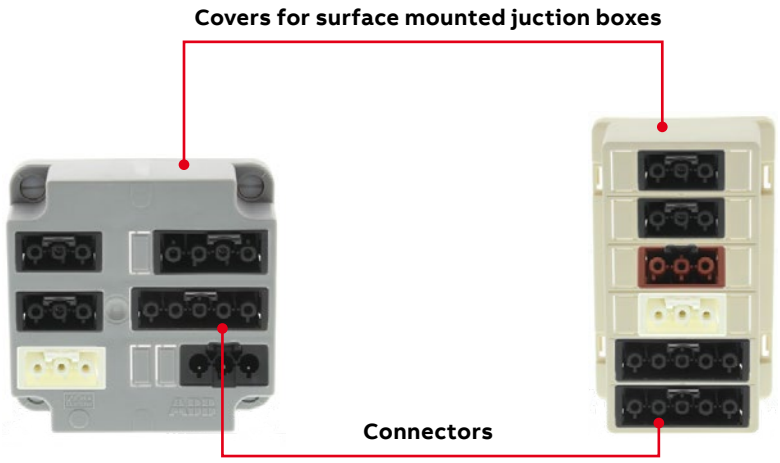
Installation materials
ABB Tailor-Made

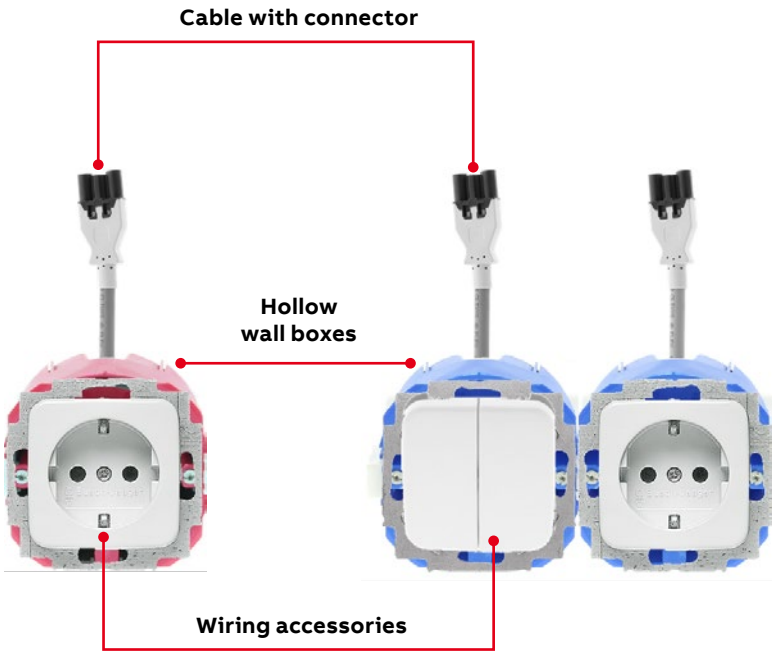
ABB Tailor-Made is a concept that conveys convenience, efficiency, speed and time savings. Standard ABB products are re-configured to a customer's specification, ready for installation; Tailor-Made.

A smart combination of boxes, wiring accessories and covers with plug & play connectors guarantees efficient, quick and highly reliable installation.

Through all the preparations in the design phase and the assembly of parts by ABB, the installation will be effortless and at lightning speed.

Examples:





We listen to our customers. We develop and improve our products together with our customers to meet their needs and special requirements. Contact us and tell us your demand.

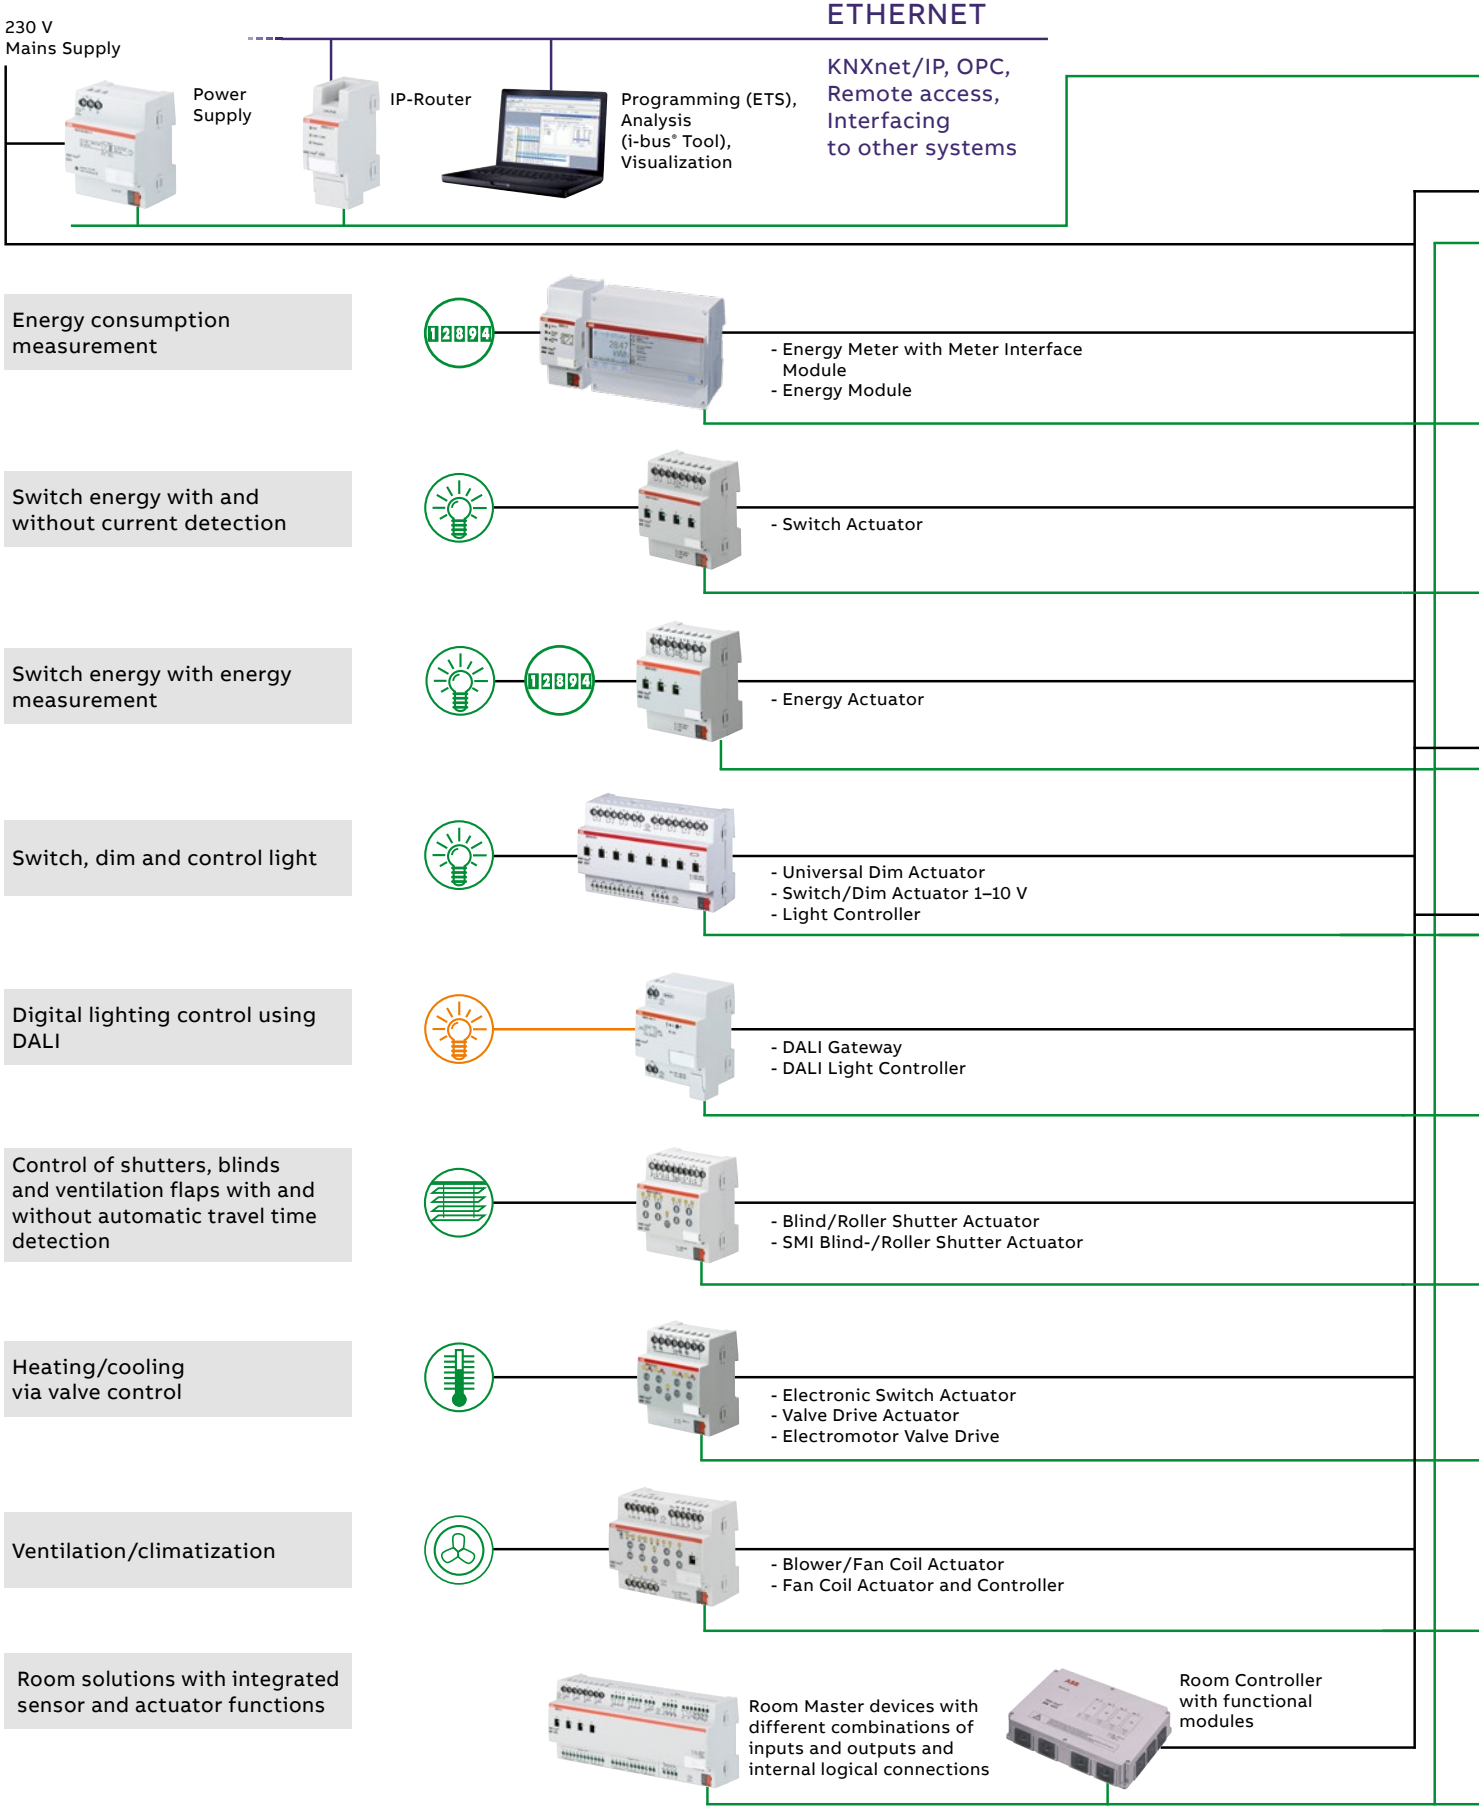
ABB i-bus® KNX – Overview

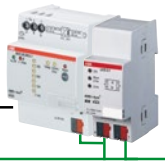


KNX-Main Line/TP

Line 1 2 3 4 ... ... 13 14 15

- 64 devices/line
- 15 lines/area with superordinated main line
- max. 15 areas with superordinated area line

Power Supply



Line Coupler

- Binary Input

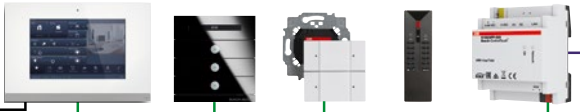
Detect and evaluate switching commands

- Analogue Input

Capture, evaluate and monitor physical values

- Weather Station and Weather Sensor

Evaluate and monitor meteorological data (wind, temperature, rain, etc.)



Remote control via internet

Display operating conditions and control functions

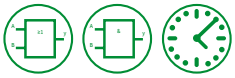
- Presence Detector
- Movement Sensor
- Light Sensor

Lighting Control

Detect presence and movement

Measure brightness levels

- Logic Module
- Application Unit Logic
- Application Unit Time
- Time Switch

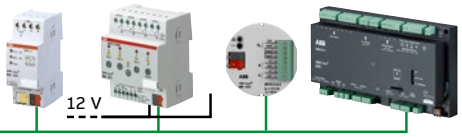


Perform logical operations and trigger timer-controlled functions

- Room Thermostat
- Air Quality Sensor

Capture, evaluate, monitor and control room conditions, temperature, air quality, etc.

- Security Terminal
- Security Module
- KNX Security Panel
- Fault Monitoring Unit
- Monitoring Unit
- Data Logging Unit



Security System

Monitor operating conditions, signal technical faults, recognize hazards and trigger alarms

Access Control system for hotel rooms

- Transponder Reader
- Transponder Holder
- Transponder Card
- Configuration Software

SV/S 30.160.1.1

Power Supply Standard, 160 mA, MDRC

KNX power supplies generate and monitor the KNX system voltage (SELV). The bus line is decoupled from the power supply by an integrated choke.
The voltage output is short-circuit and overload protected.
The two-color LED indicates device output status. With two-coloured status indicator and wide range input from 85…265 V AC, 50/60 Hz.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	4	SV/S 30.160.1.1	2CDG110144R0011		0.30	1

SV/S 30.320.1.1

Power Supply Standard, 320 mA, MDRC

KNX power supplies generate and monitor the KNX system voltage (SELV). The bus line is decoupled from the power supply by an integrated choke.
The voltage output is short-circuit and overload protected.
The two-color LED indicates device output status.
With two-coloured status indicator and wide range input from 85…265 V AC, 50/60 Hz.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	4	SV/S 30.320.1.1	2CDG110166R0011		0.30	1

SV/S 30.640.3.1

Power Supply Standard, 640 mA, MDRC

KNX power supplies generate and monitor the KNX system voltage (SELV). The bus line is decoupled from the power supply by an integrated choke. The voltage output is short-circuit and overload protected.
The two-color LED indicates device output status.
Device type SV/S 30.640.3.1 has an additional 30 V DC short-circuit and overload protected voltage output that can be used to power an additional bus line (in combination with a separate choke).
With two-coloured status indicator and wide range input from 85…265 V AC, 50/60 Hz.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

Intelligent Building Solutions

ABB i-bus® KNX – Power Supply

SV/S 30.320.2.1

Power Supply with Diagnostics, 320 mA, MDRC

Compact Power Supply with integrated choke. Quick diagnostics by LED display and ETS communication objects. Analysis of the operating state and the bus line possible by means of ABB i-bus® Tool.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	4	SV/S 30.320.2.1	2CDG110145R0011		0.26	1

SV/S 30.640.5.1

Power Supply with Diagnostics, 640 mA, MDRC

Compact Power Supply with integrated choke. Quick diagnostics by LED display and ETS communication objects. Analysis of the operating state and the bus line possible by means of ABB i-bus® Tool. Additional voltage output to supply an additional line in conjunction with an additional choke.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	4	SV/S 30.640.5.1	2CDG110146R0011		0.26	1

SU/S 30.640.1

Uninterruptible Power Supply, 640 mA, MDRC

Power supply with integrated choke for supplying a bus line from an uninterrupted supply. Quick diagnostics via LED display for operational readiness, fault and battery level as well as a floating contact for a fault signal indication. The accumulator module or up to 2 rechargeable batteries can be charged in normal operation by the voltage supply. The bus voltage is provided by the batteries in the event of a mains failure.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	8	SV/S 30.640.5.1	GHQ6310049R0111		0.55	1

AM/S 12.1

Battery Module, 12 V DC, MDRC

With lead-gel battery for use in uninterruptible power supply SU/S 30.640.1 and for maintaining the bus voltage during a mains failure for 10 minutes (at full load). Connection is made via 4-core standard cable.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	8	AM/S 12.1	GHQ6310062R0111		0.81	1

KS/K 4.1

KS/K 2.1

Cable Sets

For connection of sealed lead gel batteries SAK7, SAK12 and SAK17 to the uninterruptible KNX power supply SU/S 30.640.1 or the uninterruptible power supply NTU/S 12.2000.1.
If only one battery is connected, the basic cable set KS/K 4.1 with integrated temperature sensor is to be used. In case two batteries are connected in parallel, the basic cable set KS/K 4.1 is to be used for the first battery and the extension cable set KS/K 2.1 is to used for the second battery. It is not permitted to connect more than two batteries in parallel.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
Basic	–	KS/K 4.1	GHQ6301910R0001		0.18	1
Extension	–	KS/K 2.1	GHQ6301910R0011		0.12	1

SAK17, SAK12, SAK7

Sealed Lead Acid Batteries, 12 V DC

For maintaining the bus voltage during a mains failure. For connection to the uninterruptible power supply SU/S 30.640.1 or the uninterruptible power supply NTU/S 12.2000.1. A maximum of two batteries of the same type can be connected in parallel. For connection, the cable sets KS/K 4.1 and KS/K 2.1 are to be used.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
7 Ah	–	SAK7	GHV9240001V0011		2.98	1
12 Ah	–	SAK12	GHV9240001V0012		4.66	1
17 Ah	–	SAK17	GHV9240001V0013		7.15	1

DR/S 4.1

Choke, MDRC

The device can be used together with the SV/S 30.640.5 to supply a second line. Integrated reset button for resetting the bus devices. Connection via connection terminals.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	2	DR/S 4.1	2CDG110029R0011		0.16	1

NTI/Z 28.30.1

Commissioning Power Supply, 28 V DC, 30 mA

For temporary power supply of KNX devices during commissioning. The Euroconnector and plug-in terminal provide faster connection and supply of devices with manual operation (e.g. FCA/S).

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	NTI/Z 28.30.1	2CDG110096R0011		0.14	1

Intelligent Building Solutions

ABB i-bus® KNX – Power Supply

CP-D 24/2.5

Power Supply Units, MDRC

The supply units that can be used universally as auxiliary power supply in KNX installations or other SELV applications. The devices supply a regulated output voltage of 12 V DC or 24 V DC with a maximum output current of 0.42 A up to 4.2 A. The units are protected against overload, the output being able to sustain a continuous short circuit. LED indication of the status of the supply and output voltage. With a width between one to five modules only, the CP-D range power supplies are ideally suited for the installation in distribution panels. Optimized for world-wide applications: The CP-D power supplies can be supplied with a rated voltage of 100 – 240 V AC.

Description	Mod. width	Order details			Price 1 piece	Weight 1 piece	Pack unit

ABB i-bus® KNX – System Infrastructure and Interfacing

LK/S 4.2

Line Coupler, MDRC

The line coupler is used in larger installations to connect KNX lines or areas. The lines or areas are galvanically isolated from one another. Telegrams can be filtered to simultaneously reduce the telegram traffic between lines or areas. With ETS 4 (V4.1.2 and higher) the complete group address range of the main groups 0...31 can be filtered. Within a line, the LK/S 4.2 can also be used as a line amplifier (repeater).

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	2	LK/S 4.2	2CDG110171R0011		0.1	1

IPR/S 3.1.1

IP Router, MDRC

Connects the KNX bus with the Ethernet network. The device uses the KNXnet/IP protocol for communication (Routing and Tunneling). It can be used as a fast line and area coupler. The full filter table for main groups 0-31 is supported. KNX devices can be programmed via the LAN using ETS. For this and further clients 5 Tunneling Servers are available. The IP address can be fixed or can be received from a DHCP server. Power supply via 12…30 V DC or PoE (IEEE 802.3af class 1). The KNX Standard Communication (Multicast) can be switched off. In this case, up to 10 IPR/S 3.1.1 can communicate using unicast communication.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	2	IPR/S 3.1.1	2CDG110175R0011		0.11	1

IPR/S 3.5.1

IP Router Secure, MDRC NEW

Connects the KNX bus with the Ethernet network and encrypts communication on the IP backbone. The device uses the KNXnet/IP Secure protocol for communication (Routing and Tunneling). It can be used as a fast line and area coupler. The full filter table for main groups 0-31 is supported. KNX devices can be programmed via the LAN using ETS. For this and further clients 5 Secure Tunneling Servers are available. The IP address can be fixed or can be received from a DHCP server. Power supply via 12…30 V DC or PoE (IEEE 802.3af class 1). The KNX Standard Communication (Multicast) can be switched off. In this case, up to 10 IPR/S 3.5.1 can communicate using unicast communication.
Available September 2018

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	2	IPR/S 3.5.1	2CDG110176R0011			1

IPR/S 2.1

IP Router, MDRC

to be discontinued

Connects the KNX bus with the Ethernet network. The device uses the KNXnet/IP protocol for communication (Routing and Tunneling). It can be used as a fast line and area coupler. KNX devices can be programmed via the LAN using ETS. For this and further clients 1 Tunneling Server is available. The IP address can be fixed or can be received from a DHCP server. Power supply via 12…30 V DC.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	2	IPR/S 2.1	2CDG110061R0011		0.11	1

IPS/S 3.1.1

IP Interface, MDRC

Connects the KNX bus with the Ethernet network. The device uses the KNXnet/IP protocol for communication (Tunneling). KNX devices can be programmed via the LAN using ETS. For this and further clients 5 Tunneling Servers are available. The IP address can be fixed or can be received from a DHCP server. Power supply via 12..30 V DC or PoE (IEEE 802.3af class 1).

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit

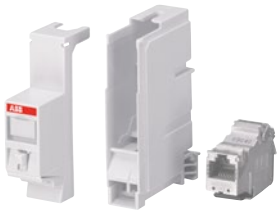
Intelligent Building Solutions

ABB i-bus® KNX – System Infrastructure and Interfacing



IPM/S 1.1

IP Patch Module, MDRC

The IP Patch Module consists of an RJ-45 module and a mounting adapter for rail mounting.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	1	IPM/S 1.1	2CDG120036R0011		0.1	1

USB/S 1.1

USB Interface, MDRC

For connection of a PC via the USB port for programming and diagnostics from ETS3. Display of connection and data transfer via LED.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	2	USB/S 1.1	2CDG110008R0011		0.12	1

LL/S 1.1

Optical Fibre Interface, MDRC

The device is used to couple two sections of an bus line using an optical fibre link. Ideal for bridging longer distances or to avoid having to implement lightning and overvoltage protection when laying cables between buildings. Two devices are needed to complete a transmission link.

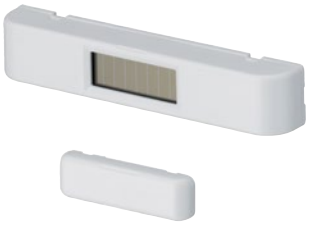
Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	4	LL/S 1.1	GHQ6050053R0001		0.28	1

EG/A 32.2.1

KNX/EnOcean Gateway, SM

To connect and integrate EnOcean devices into KNX networks with bidirectional data exchange. The KNX/EnOcean Gateway sends its data within the 868.3 MHz frequency band which is only approved for EnOcean in the European Union incl. Switzerland, Turkey & Norway. Please ensure that the product is suitable for application in the intended country of final installation and use before purchase. Dimensions: (L x W x H) 100 x 70 x 28.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	EG/A 32.2.1	2CDG120047R0011		0.1	1



MKE/A 1.868.1

Magnetic Contact EnOcean

The Magnetic Contact EnOcean is a surface mounted device for windows or doors recognizing opening or closing. The magnetic contact EnOcean communicates on this with a gateway via radio.
The frequency is 868.3 MHz. The interior range is up to 30 m, typically 5 – 10 m, depending on the structural conditions. When using the ABB i-bus® KNX/EnOcean Gateway EG/A 32.2.1, to link to the KNX-Bus, the signal strength can be measured with the ABB i-bus® Tool.
The magnetic contact supplies itself with power via a solar cell and does not require a battery or other supply voltage.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	MKE/A 1.868.1	2CDG120048R0011		0.1	1

6770-500

KNX TP/RF WaveLine Gateway, SM

Media converter with internal antenna for conversion of KNX RF WaveLine radio signals to KNX twisted pair networks with 24 channels. For the evaluation and transfer of up to 24 channels each with 4 sub-channels as transmitter or receiver. Simple operation due to “programming button” and display on the device. Is surface-mounted. The KNX/WaveLine Gateway is powered via KNX and does not require an additional power supply.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	6770-500	2CKA006770A0002			1

WaveLINE components are available in chapter WaveLINE wireless control.

Intelligent Building Solutions

ABB i-bus® KNX – Connection and Wiring

DSM/S 1.1

Diagnosis and Protection Module, MDRC

Enables quick diagnosis of the bus state and indicates telegram traffic via an LED. A bus fault is indicated by contacts. The DSM also suppresses transient overvoltages and interference voltage spikes on the bus and thus protects the connected devices.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	2	DSM/S 1.1	2CDG110060R0011		0.11	1

VB/K ...

Wiring Jumpers

For the interconnection of devices with a bus connection terminal. The vertical and horizontal versions are matched to typical wiring applications.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
horizontal, 100 mm	–	VB/K 100.1	GHQ6301908R0003		0.06	10

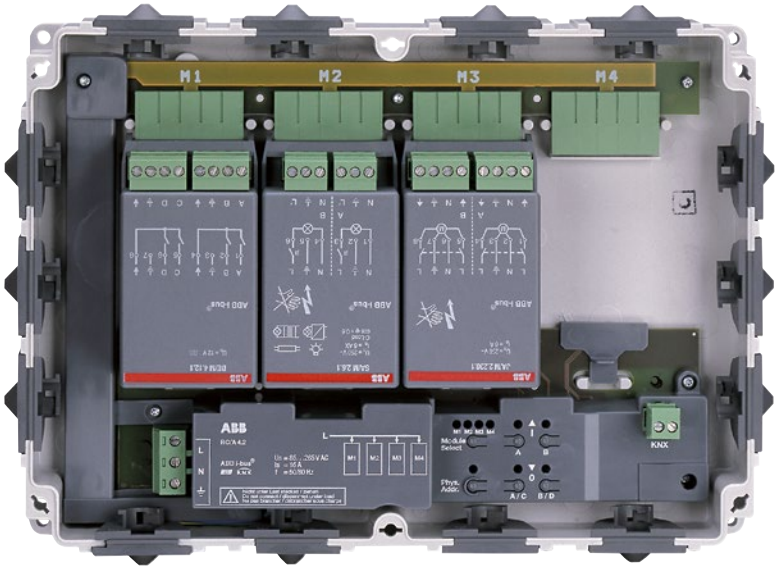
Intelligent Building Solutions

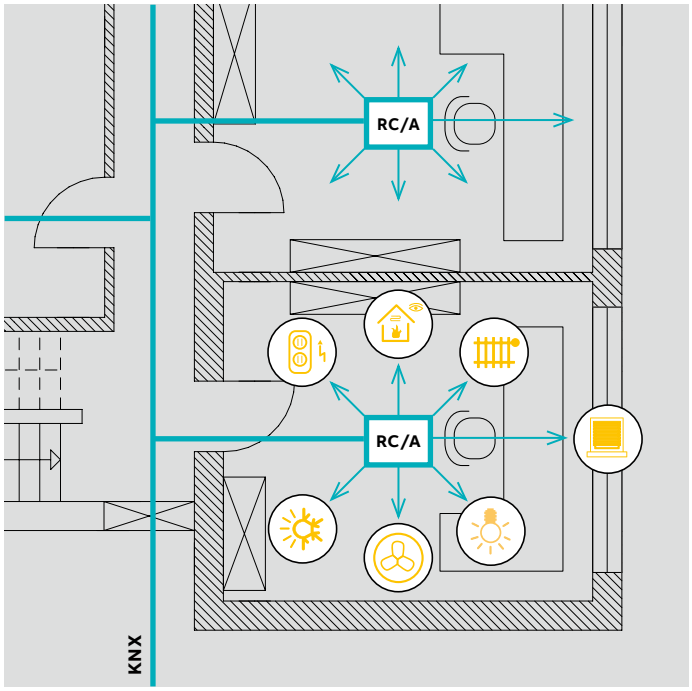
ABB i-bus® KNX – Multifunction Room Automation – Room Controller



The fundamental principle: One device per room
A single Room Controller controls all the room functions.
This “one device per room” principle economically and flexibly provides KNX functionality: With 4 or 8 modules, which are simply inserted into the basis device, all loads in this room (lights, blinds, heating, etc.) can be controlled.

Economic security from the outset
The installation concept of the Room Controller, particularly the simple plug-in module concept, provides security and reliability.

- **When planning the infrastructure of a building:**
  - It can be undertaken without exact knowledge of the subsequent user demands.
- **During commissioning:**
  - When user demands have been determined, they are implemented by simple insertion of modules.
- **In operation in a building:**
  - Modifications to the room utilisation are easy to implement.
  - The changes to the cable routing are limited to the room concerned.



Improved fire protection included
The significant reduction in the wiring also considerably reduces the fire load and thus improves safety for persons and assets.

Save on energy and not on comfort
Each room is used differently. The different module assignments of the Room Controller can be configured accordingly.
Just three examples of special building functions that can be implemented with the device.

In the lighting sector
Constant lighting control is not the only conceivable solution.
A high level of comfort can be assured by the control of different light scenes.

Blinds and roller shutters
Not only do they provide pleasant shading, they also assist in responsible use of energy. Intelligent facade controls move the blinds to suit the position of the sun.

Heating/Ventilation/Air conditioning
The control of electrothermal valves on radiators is no problem for the “electronic switch actuator” module of the Room Controller. The ventilation can also be integrated into this automatic control.

Intelligent Building Solutions

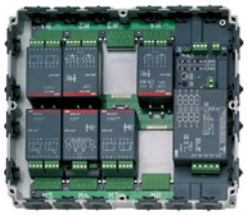
ABB i-bus® KNX – Multifunction Room Automation – Room Controller Basis Devices



Configuration example RC/A 8.1

Room Controller

The Room Controller controls all the functions in the room as a central device. Due to its modular design, it can be adapted flexibly to the required functionality.
On-site installation enables short assembly and commissioning times. A structured cable entry creates clarity and flexibility for changes in function – both during planning and operation.

Special features

- Height 50 mm: optimised for underfloor installation or suspended ceilings
- Room Controller counts as just one bus device
- Robust housing, IP 54 degree of protection
- Manual operation for immediate testing – even without bus voltage
- Comprehensive software functionality

RC/A 4.2

Room Controller, Basis Device for 4 Modules, SM

It accommodates up to 4 plug-in modules and controls their functions. The RC/A 4.2 communicates as a bus device. Any module type can be plugged into each module slot. A manual control for module function test is integrated. Dimensions: (H x W x D) 200 x 275 x 50.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	RC/A 4.2	2CDG110104R0011		0.98	1

RC/A 8.2

Room Controller, Basis Device for 8 Modules, SM

It accommodates up to 8 plug-in modules and controls their functions. Any module type can be plugged into each module slot. The inserted module is automatically detected. The manual operation facility enables an immediate function test even when bus voltage is not applied. Dimensions: (H x W x D) 270 x 316 x 50.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

Intelligent Building Solutions

ABB i-bus® KNX – Multifunction Room Automation – Room Controller Function Modules

BE/M 4.230.1

Binary Input Modules, 4-fold

Each of the modules provides 4 inputs. There are 3 module types available for the connection of 115/230 V, 12/24 V (AC or DC) or floating contacts to cover all demands.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
230 V	–	BE/M 4.230.1	2CDG110005R0011		0.13	1
12/24 V	–	BE/M 4.24.1	2CDG110006R0011		0.13	1
Contact Scanning	–	BE/M 4.12.1	2CDG110007R0011		0.13	1

SA/M 2.6.1

Switch Actuator Module, 2-fold, 6 A

For switching loads up to 16 A at a maximum continuous current of 6 A.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	SA/M 2.6.1	2CDG110002R0011		0.17	1

SA/M 2.16.1

Switch Actuator Module, 2-fold, 16 A, floating contact

For switching two loads up to 16 A. The switched voltage is independent of the basic device and is connected directly to the module.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	SA/M 2.16.1	2CDG110100R0011		0.16	1

JA/M 2.230.1

Shutter Actuator Modules, 2-fold

For controlling two independent blind or shutter drives. There are two module types available for 115/230 V AC or 24 V DC drives.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
230 V AC	–	JA/M 2.230.1	2CDG110003R0011		0.17	1
24 V DC	–	JA/M 2.24.1	2CDG110004R0011		0.17	1

SD/M 2.6.2

Switch/Dim Actuator Module, 2-fold, 6 AX

It enables the switching and dimming of two groups of luminaries in conjunction with electronic ballasts via a 1…10 V control voltage. Enhanced switching capacity.
(Replaces the SD/M 2.6.1).

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	SD/M 2.6.2	2CDG110107R0011		0.17	1

Intelligent Building Solutions

ABB i-bus® KNX – Multifunction Room Automation – Room Controller Function Modules

LR/M 1.6.2

Light Controller Module, 1-fold, 6 AX

Enables switching and dimming of a lighting group via 1...10 V control voltage. The device can be used for constant lighting control in conjunction with Light Sensor LF/U 2.1. (Replaces the LR/M 1.6.1).

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	LR/M 1.6.2	2CDG110108R0011		0.13	1

UD/M 1.300.1

Universal Dim Actuator Module, 1-fold, 300 VA

For dimming incandescent lamps, 230 V or low-voltage halogen lamps up to 300 W/VA. The automatic load detection detects the connected load and optimises the control. The minimum load is just 2 W.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	UD/M 1.300.1	2CDG110012R0011		0.18	1

ES/M 2.230.1

Electronic Switch Actuator Module, 2-fold

With 2 overload-proof outputs for noiseless control of heating systems and chilled ceilings via thermoelectric valve drives. Two module types for voltages from 115/230 V or 24 V (AC or DC) are available.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
115/230 V	–	ES/M 2.230.1	2CDG110013R0011		0.15	1
24 V	–	ES/M 2.24.1	2CDG110014R0011		0.15	1

ABB i-bus® KNX – Multifunction Room Automation – Room Master

RM/S 1.1

RM/S 2.1

RM/S 3.1

RM/S 4.1

Room Master

The Room Master is a KNX device with a combination of inputs and outputs. The quantities, technical data and the functions of these inputs and outputs are compiled, so that overall control of all the functions in rooms of a live-in character or apartments, are implemented via a device. Typical areas of application of the Room Master are hotel rooms, hospital rooms as well as apartments in institutions for residential care or in student residential homes. The Room Master with its compact design covers all the basic requirements for Lighting control Heating/Air conditioning Shading control (shutters, blinds or curtains - with the RM/S 2.1) Control of further loads via switched electrical sockets Function extensions are possible at any time, e.g. devices for dimming via ABB i-bus® KNX.

Overview of the inputs and outputs

	RM/S 1.1	RM/S 2.1	RM/S 3.1	RM/S 4.1	Application possibilities
Binary inputs via contact scanning	8	18	12	8	For connection of switches or push-buttons (light on/off, shutter up/down,etc.) or sensors (window contacts, door contacts, water sensors, condensation water sensors, hotel acrd readers, etc.)
Outputs 20 A (16 AX)	1	3	4	–	Bathroom fan, switching of electrical sockets
Outputs 16 A (10 AX)	2	1	–	–	Auxiliary electrical heating of fan-coil units (at RM/S 1.1 and 2.1), lighting
Outputs 6 A	3	12	–	8	3-speed fan control (at RM/S 1.1 and 2.1), lighting
Outputs 0.5 A electronic	4	4	–	–	Valve control (heating, cooling)
Outputs 6 A changeover contact	–	1	4 (config-urable as switch outputs too)	–	Blind or roller blind control

- RM/S 1.1 and RM/S 2.1 are preprogrammed ex factory
- RM/S 3.1 and RM/S 4.1 are programmable with predefined and tested example projects (ETS 4) for different fields of application (office, schools, hotel rooms, ...)
- Commissioning of the preprogrammed devices on the construction site without notebook and ETS programming. With the electrical connection all room functions are available.
- Optional functional extensions via integration into KNX networks with ETS software.

Intelligent Building Solutions

ABB i-bus® KNX – Inputs

Intelligent Building Solutions

ABB i-bus® KNX – Inputs

Wide-range inputs and a streamlined range – The ABB i-bus® KNX Binary Inputs.

ABB i-bus® KNX Binary Inputs serve as an interface for operation of KNX systems via conventional push buttons and switches as well as for processing binary signals (signalling contacts).

In contrast to the existing solutions, where the input voltages of 24 V and 230 V required separate devices, the Binary Inputs now feature **wide-range inputs**, which can process voltage signals ranging from 10 to 230 V AC/DC. This offers the **installer significantly greater flexibility.**

In addition to two devices with 4 and 8 wide-range inputs, the ABB i-bus® KNX Binary Input product range is rounded off by two devices with 4 and 8 inputs with scanning voltage. On these types, a pulsed scanning voltage is provided for connection of floating contacts from the device.

With an identical range of applications, the number of ABB i-bus® KNX Binary Inputs is now reduced from 6 types to 4.

All Binary Inputs feature **a high-quality membrane keypad for comfortable manual operation and display of the device functions.** Input states can be simulated at the device, so that the conventional push buttons, switches or floating contacts do not need to be connected for commissioning purposes. The device functions can be easily tested during commissioning in this way.

The Binary Inputs are powered via the KNX and do not require an additional power supply.

The software functionality of the Binary Inputs has also been extended. It is now possible to send **several switching telegrams with just a single push of a button.**
Especially useful, just as in the case of the Switch Actuators, it is also possible **to copy the channels of the device in the ETS.** The parameters and group addresses of a channel can be simply transferred to other channels in this way. This simplifies project engineering and helps reduce sources of error.

Application
- Operation of KNX systems via conventional push buttons and switches
- Processing of binary signals (signalling contacts)

Benefits
- Flexible application due to wide-range inputs
- Reduced stock requirement due to streamlined product range
- Simplified commissioning using the copy function

Product
- BE/S 4.20.2.1 with 4 inputs for contact scanning and manual operation

BE/S 8.230.2.1

Binary Inputs, 10 – 230 V AC/DC, MDRC

Detects AC/DC signals in the voltage range from 12...230 V. The state of the input is displayed via yellow LEDs. The binary inputs enable detection of independent input signals. The devices feature a manual operation pushbutton for each channel. The devices are powered via the ABB i-bus® and do not require an additional power supply.

US/U 4.2

Universal Interface, FM

The universal interface has 2, 4 or 12 channels which can be parametrised as inputs or outputs with the ETS software. Conventional push-buttons, auxiliary contacts, LEDs and the electronic relay ER/U can be connected. The connecting cables can be extended up to 10 m. The contact scanning voltage and the supply voltage for the LEDs are made available by the device, the series resistors for the LEDs are integrated.

ABB i-bus® KNX – Inputs

AE/S 4.1.1.3

AE/A 2.1

WZ/S 1.3.1.2

WES/A 3.1

WS/S 4.1.1.2

Analogue Input

Used wherever analogue variables should be detected. The sophisticated housing concept of the surface mounted device and the screw terminals of the MDRC device enable quick and clear wiring and improve the speed of connection of the sensors.
Comprehensive range of adjustment for many typical sensors (1 – 10 V, 0(4) – 20 mA, 0 – 1 V, PT 100, PT 1000,...) for detection of temperature, brightness, fill levels, etc.
For active sensors the auxiliary voltage is supplied by AE/S 4.1.1.3; in case of AE/A 2.1 a separate auxiliary voltage supply is required.

2-fold, SM	–	AE/A 2.1	2CDG110086R0011		0.30	1

Weather Unit, MDRC and Weather Sensor, SM

It is used to detect and process weather data from weather sensor. It supplies data for twilight and brightness levels in 3 directions, rain, temperature, information on day/night, wind speed, date and time. An additional input for the connection of a PT - 1000 sensor is provided. Four value memories which can store up to 24 values each are available. The Weather Unit WZ/S 1.3.1.2 can be operated either with the new Weather Sensor WES/A 3.1 or with the former sensor WES/A 2.1. The Weather Unit also provides the supply voltage for the connected sensor. The Weather Unit has to be supplied with a operating voltage of 85 to 265 V AC. The Weather Unit supports the ABB i-bus® Tool for advanced diagnosis and improved commissioning.
The Weather Sensor WES/A 3.1 detects twilight, brightness in three directions, rain, temperature, day/night, wind speed and the date and time using a GPS module. An additional heating transformer is not required. The new Weather Sensor WES/A 3.1 can be connected to the new Weather Unit WZ/S 1.3.1.2 or to the former Weather Unit WZ/S 1.1.

Weather Station, 4-fold, MDRC

All common weather sensors for wind speed, wind direction, rain, amount of rain, brightness, light intensity, pyranometers, twilight, air pressure, humidity or temperature can be connected to the device. The power supply generates the 24 V DC voltage for external sensors (max. 300 mA). The device can be operated with 85 to 265 V AC, 50/60 Hz. The application software is configured for the detection of weather based data and enables quick sensor programming. The Weather Station supports the ABB i-bus® Tool for advanced diagnosis and improved commissioning.

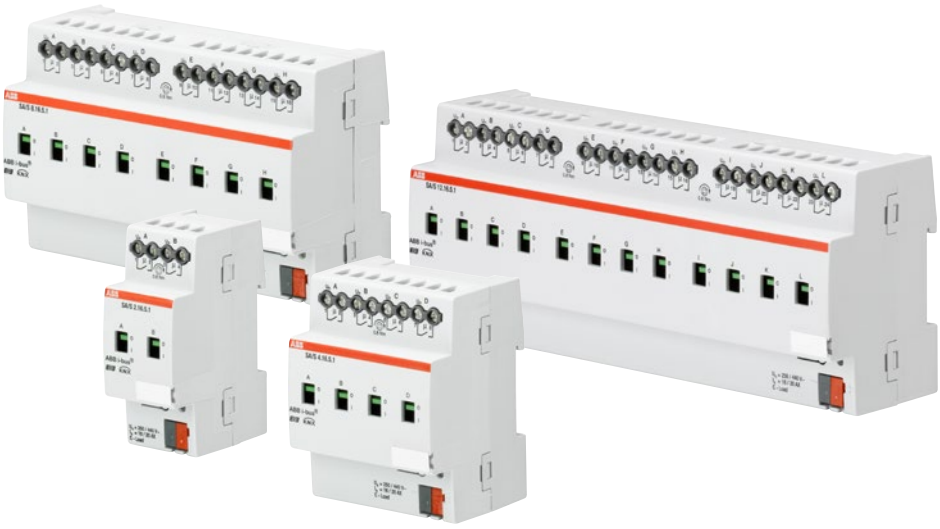
ABB i-bus® KNX – Outputs – A Complete Switch Actuator Range



Switch Actuators are responsible for reliable switching of different electrical loads in the KNX system.
Many different load situations are possible. ABB offers a suitable Switch Actuator for all application areas. The range has been rounded off with a series. Now 16/20 AX C-Load Switch Actuators with and without a current detection feature are available; each featuring 2, 4, 8 or 12 outputs.

In the following table, you will find an overview of the ABB i-bus® Switch Actuators and their type designations:

–	SA/S 2.6.2.1	SA/S 2.10.2.1	SA/S 2.16.2.1	SA/S 2.16.5.1	SA/S 2.16.6.1
SA/S 4.6.1.1	SA/S 4.6.2.1	SA/S 4.10.2.1	SA/S 4.16.2.1	SA/S 4.16.5.1	SA/S 4.16.6.1

Intelligent Building Solutions

ABB i-bus® KNX – Outputs

SA/S 8.6.1.1

Switch Actuator, 6 A, MDRC

Using floating contacts it switches 4, 8 or 12 independent electrical loads. The 6 A-AC3 devices are suited for switching resistive, inductive and capacitive loads. Please note: Increased module width compared to previous generation.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
4-fold	4	SA/S 4.6.1.1	2CDG110152R0011		0.18	1

12-fold	8	SA/S 12.6.1.1	2CDG110154R0011		0.35	1

SA/S 8.6.2.1

Switch Actuator with manual Operation, 6 A, MDRC

Switches 2, 4, 8 and 12 independent electrical loads using floating contacts. Every output can be operated manually and features display of the switching state. The 6 A-AC3 devices are suited for switching resistive, inductive and capacitive loads.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit

SA/S 4.10.2.1

Switch Actuator, 10 AX, MDRC

Switches 2, 4, 8 and 12 independent electrical loads using floating contacts.
Every output can be operated manually and features display of the switching state.
The 10AX-AC1 devices are especially suited for switching resistive, inductive and capacitive loads such as fluorescent lighting (AX) compliant to EN 60669.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit

SA/S 12.16.5.1

Switch Actuator, 16/20 AX, C-Load, MDRC

Uses floating contacts to switch independent electrical loads via ABB i-bus® KNX. Every output can be operated manually and features display of the switching state. The 16AX-AC3, C-Load devices are especially suited for switching loads with high surge currents such as luminaries with ballasts or fluorescent lighting (AX) according to EN 60669.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit

SA/S 8.16.6.1

Switch Actuator with Current Detection, 16/20 AX, C-Load, MDRC

Switches with floating contacts, 2, 4, 8 or 12 independent electrical loads with high surge currents. The Switch Actuators feature a circuit for high precision current detection for each output that is used to monitor the connected circuits. Every output can be operated manually and features display of the switching state. The 16/20A, C-Load devices are especially suited for switching loads with high surge currents such as luminaries with ballasts or fluorescent lighting (AX) according to EN 60669.

Intelligent Building Solutions

ABB i-bus® KNX – Outputs

6151/11 U-500

Switch Actuator, 1-fold, FM

For switching 230 V~ consumers. Equipped with two extension inputs which depending on parameterization can act directly on the switching output or alternatively as binary inputs on the KNX bus. One Normally open contact, potential free; switching voltage: 230 V AC; 50/60 Hz; max. switching current: 16 A; switching capacity: up to 2.500 W depending on the consumer. Rated voltage: 230 V~, +10% / –10%, 50 Hz – 60 Hz. The bus can be connected via enclosed terminal block.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

IO/S 4.6.1.1

I/O Actuator, 6 A, MDRC

For the control of loads in residential areas, typically in hotel rooms and apartments.
The I/O Actuators provide binary inputs for the connection of conventional push-buttons and outputs for switching loads. Inputs and outputs can be internally connected by ETS.
By integrating the devices into KNX networks further functions can be realised: e.g. central control or room based emergency calls to a control centre.

AA/S 4.1.2

Analogue Actuator

The Analogue Actuators convert KNX telegrams in voltage or current signals. These analogue output signals are used to influence regulatory processes. For example, devices for heating, air conditioning or ventilation applications can be adjusted in their operation depending on the information, which are transmitted via the bus system. The Analogue Actuators are available in a 4-fold DIN rail version and a 2-fold device with surface mounting housing. The ABB i-bus® Tool is supported for advanced diagnosis and improved commissioning.

EQmatic Energy Analyzer

Energy management is getting smarter

Identify energy guzzlers and sustainably reduce energy costs – ABB's EQmatic Energy Analyzer makes it possible. The intelligent energy meter from the EQmatic range uses M-Bus to read, save, and analyze energy consumption data from electric, gas, water, and heat meters. It accesses meters via an intuitive, web-based user interface, which can be flexibly configured to meet specific demands. Especially practical: the energy meters can be extended at any time when needed. **abb.com/buildings**

Intelligent Building Solutions

ABB i-bus® KNX –Shading Control

Modern building installation enables a high degree of functionality and simultaneously complies with increased security requirements. Due to the structured installation of the electrical components, it is possible to carry out rapid planning, installation and setup as well as achieve cost benefits during operation.

Modern sun protection devices have a significant role, as they must fulfil many demands:

- Anti-glare protection (e.g. PC workstations)
- Utilization of daylight by tracking the sun's position and directing available daylight
- Protecting furniture and carpets from fading
- Regulating the room temperature (overheating protection in summer; harvesting the available energy on cold days)
- Providing protection from people looking in from the outside
- Protection against intruders.

With the Blind/Roller Shutter Actuators JRA/S, the complex requirements on a sustainable and energy efficient automatic sun protection control can be implemented in offices, residential and functional buildings via ABB i-bus® KNX.

The Blind/Roller Shutter Actuators are ideal for the control of drives in the area of sun protection:

- Blinds, exterior blinds, slat blinds and panel curtains
- Roller shutters, roller blinds, screens, vertical blinds
- Awnings, pleated blinds, pleated curtains, etc.

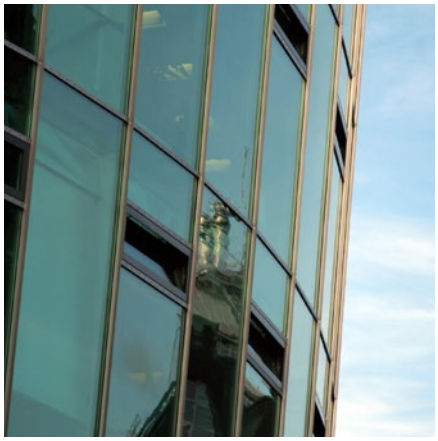
Optimum room air quality via automatic ventilation

The demands for the reduction of energy consumption often results in poor ventilation in today's heavily insulated buildings. The quality of the room air does not comply with the desired and required level.

Natural ventilation is often an effective and efficient method for exchanging the "used" room air and improving the air quality in the room. If the air quality in the room is monitored with sensors (temperature, humidity, CO_2 concentration), the ventilation flaps can be opened automatically and in good time ensuring that the air quality is kept in a comfortable range.

Blind/Roller Shutter Actuators are ideal for control of ventilation elements such as

- Ventilation flaps
- Roof hatches, skylights
- Windows, doors and gates



Automatic travel detection
Travel times for the connected drives can be easily determined during operation with the automatic travel detection feature. It saves time during setup. Furthermore, compensation of age and weather-related length changes to blinds or roller shutters is assured. It facilitates precise positioning of the blinds/shutter when using sun position-dependent control.

Diagnostics
Enhanced diagnostic messages can be issued with the Blind/Roller Shutter Actuators. They are particularly useful during setup or in the event of faults. It is possible, for example, to detect and signal if the power supply to a drive is interrupted.

Copy and exchange
This function allows parameter settings of an output to be copied or exchanged with other freely selectable outputs.
This is possible within a device or in conjunction with several devices. Copy and exchange is useful particularly on projects, where all drives of a facade are controlled identically.
It shortens the setup process and reduces the possible sources of error with parameterization.

Integration in the room temperature control
The intelligent and networked blind and roller shutter control plays an important role in the energy efficient usage of a building. The level of sunlight in the room and heating up due to the sun‘s energy can be controlled in conjunction with the room climate control. The software function “overheat control” prevents unintentional overheating of a room. The blinds are closed in good time. The shutter control can be actively involved in the room temperature control – a requirement for implementing high-efficient buildings compliant to EN 15232.

Intelligent Building Solutions

ABB i-bus® KNX –Shading Control

JRA/S 8.230.5.1

Blind/Roller Shutter Actuator with Travel Detection and Manual Operation, 230 V AC, MDRC

For the control of independent 230 V AC drives via ABB i-bus® KNX. The devices are designed for positioning blinds, roller shutters, awnings and other shading products as well as for controlling doors, windows and ventilation flaps. Additional auxiliary voltage is not needed. The travel times of the drive are detected automatically via current detection. To protect the drives, the output contacts are electromechanically locked against each other. Push buttons are located at the front of the device to control the outputs e.g. during commissioning. The current status of the output is displayed via LEDs.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit

JRA/S 4.24.5.1

Blind/Roller Shutter Actuator with Travel Detection and Manual Operation, 4-fold, 24 V DC, MDRC

For the control of up to 4 independent 24 V DC drives via ABB i-bus® KNX. The device is designed for positioning blinds, roller shutters, awnings and other shading products as well as for controlling doors, windows and ventilation flaps. Additional auxiliary voltage is not needed. The travel times of the drive are detected automatically via current detection. Push buttons are located at the front of the device to control the outputs e.g. during commissioning. The current status of the output is displayed via LEDs.

JRA/S 6.230.3.1

Blind/Roller Shutter Actuator with Binary Inputs, 6-fold, 230 V, MDRC NEW

For the control of 6 independent Blind/ Roller drives or air dampers. Via the 12 binary input a direct operation of the outputs is possible with conventional switch sensors. The binary inputs may also be used for other operations (e.g. switching, dimming). To protect the drives, the output contacts are electromechanically locked against each other.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

6152/11 U-500

Shutter Actuator, 1-fold, FM

For controlling blind or awning motors. With 3 inputs and 1 change-over output – normally open contact, potential-bound –. Rated voltage: 230 V~, +10% / – 10%, 50 Hz – 60 Hz. Input polling voltage: 5 V. Output rated current: 3 A, cos ϕ 0.8, Output voltage: 250 V~.
The bus can be connected via enclosed terminal block.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	6152/11 U-500	2CKA006152A0040		0.11	1

6173/11 U-500

Combi Actuator, FM

For controlling blind or awning motors. For connecting thermoelectric actuating drives. With 3 inputs and 2 outputs. A first output (O1) allows the control of electrically-operated Venetian blinds, roller shutters, awnings, venting louvers or similar blinds for 230 V AC mains voltage. One additional electronic switching output (O2) allows silent control of electrothermal valve drives for heating or cooling systems. The bus can be connected via enclosed terminal block. Rated voltage: 230 V~, +10% / –10%, 50 Hz – 60 Hz. Input polling voltage 5V. O1 Rated current 3 A, cos ϕ 0.8; Output voltage: 250 V~. O2: Rated current: 25 mA, cos ϕ 1, Output voltage: 250 V~.

Intelligent Building Solutions

ABB i-bus® KNX –Shading Control

JA/S 4.SMI.1M

SMI Shutter Actuator with Manual Operation, 4-fold, MDRC

It controls four independent groups (broadcast) with up to four SMI (Standard Motor Interface) drives (230 V) for positioning blinds, roller shutters, awnings and other shading products. Status signals (motor fault, direction of movement) can also be sent from the SMI drive on the bus. Push buttons are located at the front of the device to control the outputs e.g. during commissioning. The current status of the output is displayed via LEDs.

Intelligent Building Solutions

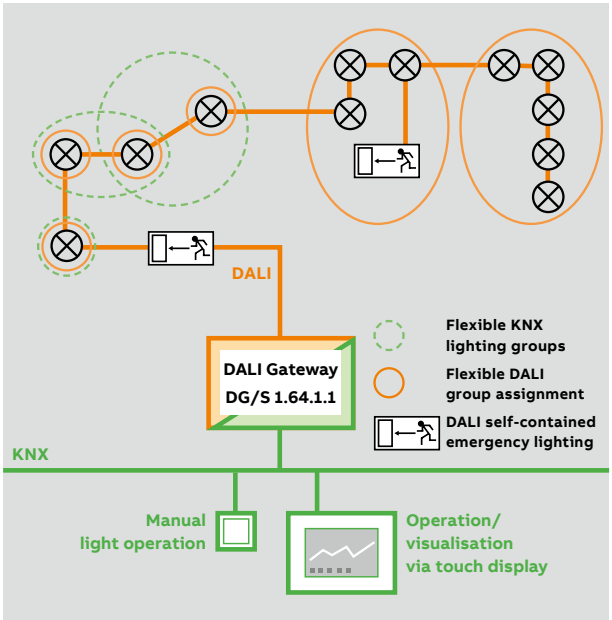
ABB i-bus® KNX – Lighting Control – DALI

The ABB DALI Gateways are used to interface between DALI (Digital Addressable Lighting Interface) and KNX installations. Two new Gateways will be available in April 2017: DG/S 1.64.1.1 DALI-Gateway (1fold) and DG/S 2.64.1.1 DALI Gateway (2fold). Both incorporate the DALI power supply.

Both Gateways are equipped with emergency lighting function, support the DALI standard EN 62386-202 that specifies DALI emergency lighting (self-contained).

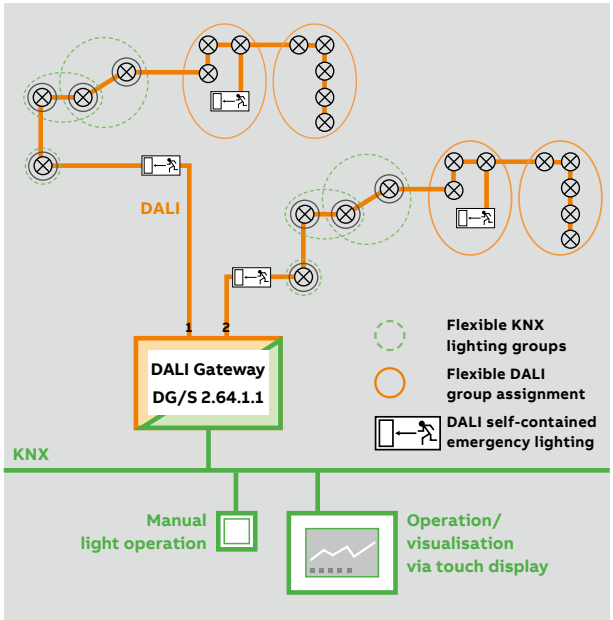
DALI-Gateway DG/S 1.64.1.1
Flexibility by controlling light individually per device or in groups

The DG/S 1.64.1.1 DALI-Gateway (1fold) can install up to 64 DALI devices both via 16 flexible DALI (orange lined group) and KNX lighting groups (green dotted lined group), each with one or more DALI participants. Control and Monitoring via KNX. Control and status feedback can also be carried out via Broadcast. 16 independent Lighting scenes are available.



DALI-Gateway DG/S 2.64.1.1
Maximum flexibility combined with highest amount of DALI participants and groups, to meet all customer needs

The DG/S 2.64.1.1 DALI-Gateway (2fold) can install up to 2 x 64 DALI devices both via 2 x 16 flexible DALI (orange lined group) and KNX lighting groups (green dotted lined group), each with one or more DALI participants. Control and Monitoring via KNX. Control and status feedback can also be carried out via Broadcast. 2 x 16 independent Lighting scenes are available.

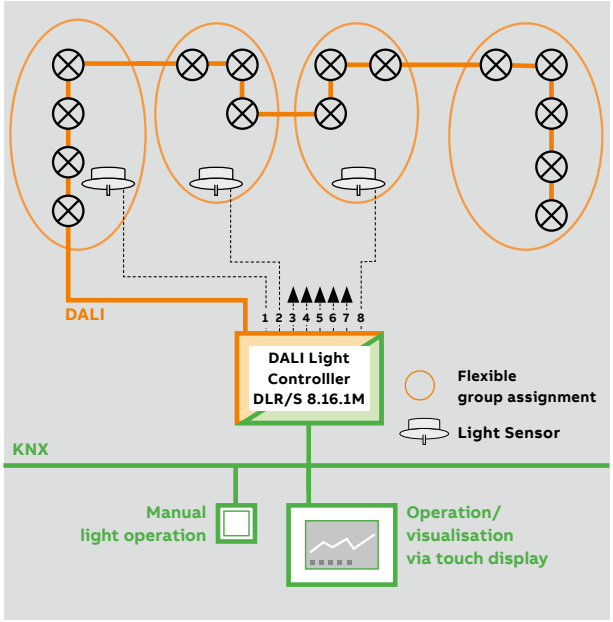


Intelligent Building Solutions

ABB i-bus® KNX – Lighting Control – DALI

DALI Light Controller DLR/S 8.16.1M
Energy through constant lighting control

Control via 16 lighting groups. Up to 8 lighting groups can be controlled with 8 light sensors. Master-slave, staircase light and Scene mode round off the functions.



DALI Light Controller DLR/A 4.8.1.1
Decentralized Constant Lighting Control

The new DALI Light Controller DLR/A 4.8.1.1 is a surface mounting device for switching and dimming of 8 independent lighting groups. A maximum of 64 DALI devices can be connected. The device can be used for 4-fold constant lighting control in connection with 4 Light Sensors LF/U 2.1. Furthermore staircase lighting and master / slave functions are provided. Fault feedback messages, e.g. concerning ballast or lamp failures, can be programmed and activated via KNX. The compact surface-mounted housing allows the decentralized installation in the underfloor or in false ceilings – optimal for the use with Room Controller RC/A.

DALI Gateway DG/S 8.1
The proven technology

Lighting groups are formed via “rigid” hardware wiring.
Fast commissioning as no addressing is necessary.
No readdressing when a ballast is exchanged. 8 x 16 DALI devices.

DG/S 1.64.1.1

DALI-Gateway, Basic, 1-fold, MDRC

The device is used to interface between DALI and KNX installations and incorporates the DALI power supply. One DALI output for up to 64 DALI Slaves. Control and status feedback is carried out via KNX per DALI slave (64), with lighting groups (16), together in broadcast or per scenes (16). Extensive fault and error messages are available. Self-contained emergency converter (64) acc. EN 62386-202 will be supported. By means of KNX and emergency converter, different emergency tests (e.g. function and duration test) can be triggered. Feedback is sent. Slave-, staircase-, force-, block- and scene- function are integrated. DALI telegram rate can change. For diagnostic use and individual change of the DALI address or group assignment a separate ABB i-bus® Tool is available.

Intelligent Building Solutions

ABB i-bus® KNX – Lighting Control – DALI

DLR/S 8.16.1M

DALI Light Controller, 8-fold, MDRC

For switching and dimming of 16 independent lighting groups. A maximum of 64 DALI devices can be connected. The device can be used for 8-fold constant lighting control in connection with eight Light Sensors LF/U 2.1. Fault feedback messages can be programmed and activated via KNX. With comfortable manual operation and status display.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	6	DLR/S 8.16.1M	2CDG110101R0011		0.26	1

DLR/A 4.8.1.1

DALI Light Controller, 4-fold, SM

Surface mounting device for switching and dimming of 16 independent groups of luminaries. Up to 64 DALI participants can be connected to one DALI control line. When combined with the light sensor LF/U 2.1 the device can be used as a 8-fold light controller for constant light control. Additionally a staircase and master/slave function is integrated.
A great number of status feedback e.g. lamp and ballast fault can be transferred from DALI to KNX. With this functions the DALI light controller is a key factor in every energy efficient building automation. With his surface mounting housing it is possible to insert the device central in false ceiling or underfloor installation.

1) = For multiple element lamps or other types, the number of electronic ballasts must be determined using the peak inrush current of the electronic ballasts

LR/S 4.16.1

Light Controller, 16 A, MDRC

The device enables the switching and dimming of 2 or 4 independent lighting circuits in conjunction with electronic ballasts. In combination with the Light Sensor LF/U 2.1, the device can be used for constant lighting control. 2 or 4 light sensors can be connected to the controller for precise detection of the lighting conditions.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

4-fold	6	LR/S 4.16.1	2CDG110088R0011		0.40	1

LF/U 2.1

Light Sensor, FM

Used for implementing constant lighting control applications in conjunction with light controllers LR/S, LR/M, DLR/S 8.16.1M or DLR/A 4.8.1.1. The scope of delivery includes different optical rods, the connection terminals and the cover for discrete fitting in a room.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	LF/U 2.1	2CDG110089R0011		0.07	1

SD/S 8.16.1

Switch/Dim Actuator, 16 A, MDRC

Used for switching and dimming of 2, 4 or 8 independent groups of luminaries with electronic ballasts with 1 – 10 V control interfaces. On each channel the power supply of the ballasts is switched by a floating load relay (16 A – AC1). Every output can be operated manually and features display of the switching state. The device can assume a range of applications thanks to the programming options. The switching load is identical to the SA/S x.16.2.1 range (see Standard Outputs – Overview).

ABB i-bus® KNX – Lighting Control

UD/S 4.210.2.1

LED Dimmer, 4-fold, 210 W/VA, MDRC **NEW**

Multichannel universal dimming actuator optimized for dimming of retrofit LED lamps (LEDi). Also suitable for dimming of incandescent lamps, low-voltage halogen lamps with conventional or electronic transformers, 230 V incandescent halogen lamps and dimmable halogen energy-saving lamps. Automatic load detection (deactivatable). One separate N-terminal per channel. Channel bridging possible in order to increase the maximum load. Outputs can be switched in parallel as required. Minimum load: 2 W. Manual operation on the device is possible also without bus voltage or in unprogrammed state. One LED control button per channel (including status indication) for ON and OFF switching as well as for up and down dimming. Programming of the device is possible without connecting 230 V supply voltage. Comprehensive test and diagnostic functions via the i-bus® Tool. Fast parameterization in the ETS by means of copyable channel templates. With integrated bus coupler.
Rated power at 230 V ~:

- 230 V ~ incandescent and halogen lamps: 4 x 210 W/VA to 1 x 800 W/VA.
- Dimmable 230 V ~ LEDi: 4 x 210 W/VA to 1 x 800 W/VA in trailing edge mode, 4 x 80 W/VA to 1 x 200 W/VA in leading edge mode.
- Inductive L-transformers with LED/low-voltage halogen lamps: 4 x 210 W/VA to 1 x 800 W/VA.
- Electronic C-transformers with LED/low voltage halogen lamps: 4 x 210 W/VA to 1 x 800 W/VA.
- Electronic LC transformers with LED/low-voltage halogen lamps: 4 x 80 W/VA to 1 x 200 W/VA.

Recommendation: Always use bulbs of one type and manufacturer.
Available June/July 2018

UD/S 2.300.2

Universal Dim Actuator, 2-fold, 300 VA, MDRC

For switching and dimming of incandescent lamps, 230 V halogen lamps or low-voltage halogen lamps which are powered by wound or electronic transformers (automatic load detection). Output power 2 x 300 VA or 1 x 500 VA up to 45 °C ambient temperature at a minimum load of just 2 W. Both outputs are independent of one another and can be supplied by different phases. Comprehensive application program with scene and time functions.

6197/13-101-500

Universal Dim Actuator, MDRC

Multi-channel universal dimming actuator for control of incandescent lamps, 230 V halogen lamps, lowvoltage halogen lamps with conventional or electronic transformers and dimmable energy-efficient lamps. Optimized for dimming of Philips retrofit LEDs (LEDi).
Parallel connection of channels to increase load capacity via wire jumpers possible.
Status/state indication of the outputs via LED. Local operation even without bus voltage or in non-programmed state possible.

HS/S 4.2.1

Outside Light Sensor Interface, MDRC

The device is used for the connection and evaluation of up to 3 Outside Light Sensors LFO/A 1.1. The Outside Light Sensors can be analysed individually or combined. Amongst others 10 logical switching channels for the evaluation of threshold values are provided. Threshold values can be adjusted directly on the device. The device can be used as a twilight switch (1 ... 100 lux) or as a light value switch (100 ... 20.000 lux). One Outside Light Sensor LFO/A 1.1 is supplied with the device.

6131/20-24-500

Busch-Presence detector mini KNX
8 meter
Detection range (for mounting height 2.5 m, 3 m and 4 m): circular.
Seated persons Ø: 5 m, 6,5 m and 9 m.
Walking persons Ø: 6,5 m, 8 m and 10,5 m.
Visible height 16 mm. With 2 channels.
Targeted for connection and disconnection of lights bands depending on the room brightness. Regulation in response to the movement possible. Using the device as presence and/or movement detectors. Detectors application with 2 power off stages. Detectors application with integrated monitoring function. Constant light switch with up to two independent channels. Constant light switch with max. 2 outputs for brightnessdependent switching of two light bands in the area. With integrated KNX bus coupler. Connections: KNX-line: Bus connection terminal. Brightness limit value: 1 Lux – 1000 Lux. Mounting height: 2 m – 4 m.
Protection class (Device): IP 20. Temperature range (Device): – 5 °C to 45 °C.
Dimensions: (L x W x D): 80 mm x 80 mm x 45 mm. Mounting depth: 29 mm.

Intelligent Building Solutions

ABB i-bus® KNX – Heating, Ventilation and Air Conditioning – Influencing Variables on Room Climate

Influencing Variables on Room Temperature

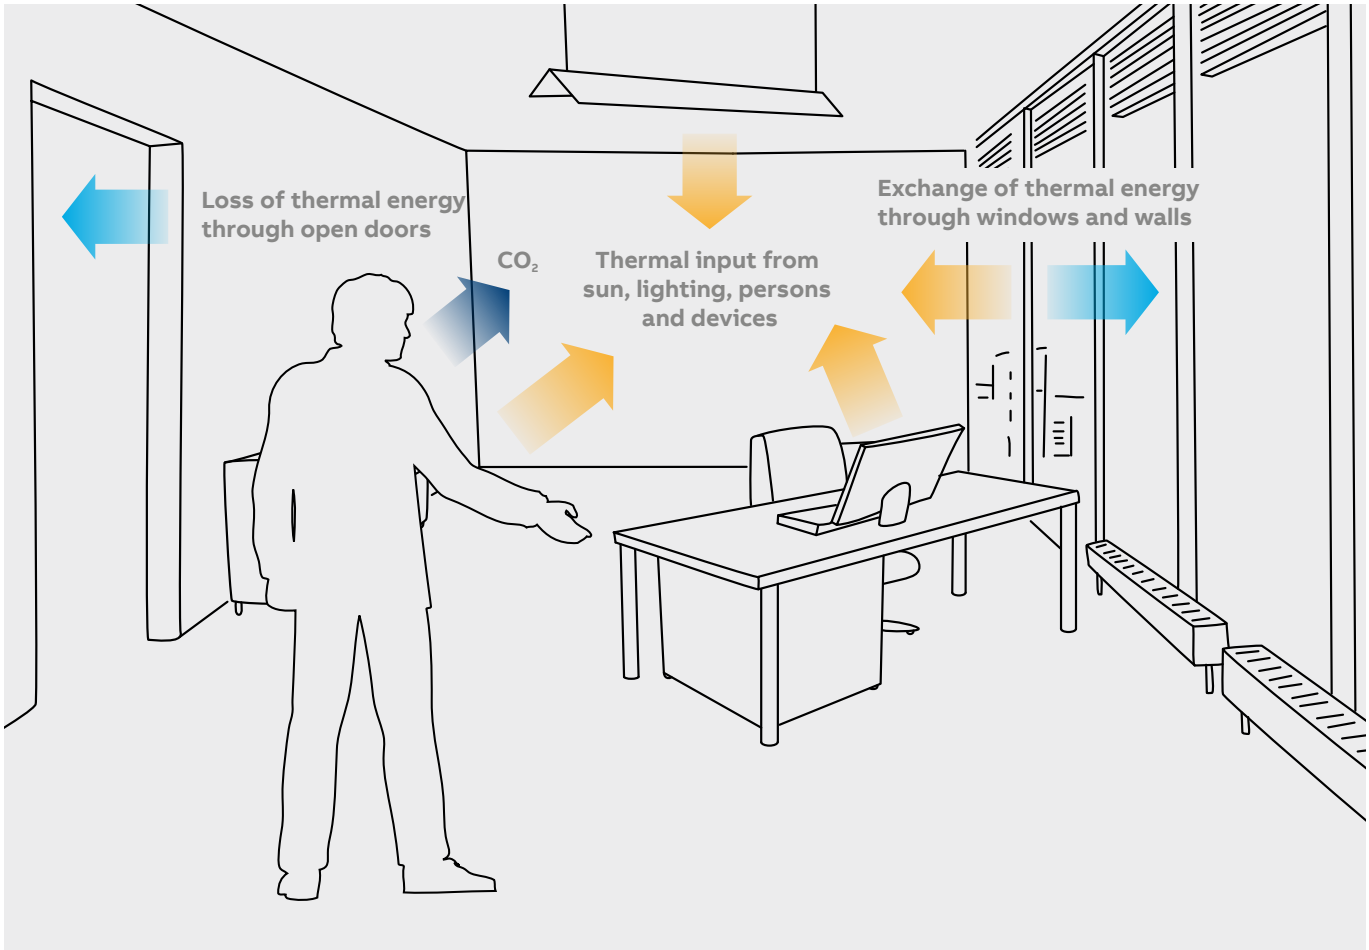
Internal and external factors have an effect on the thermal conditions in a room or a building. As an external factor the solar radiation is important for the indoor temperature – particularly with regard to modern architecture with glass fronts. Besides this, the room temperature is strongly affected by the exchange of thermal energy through windows and walls as well as the loss of thermal energy through open doors and windows.

Depending on the intensity, all this interactions influence also the energy efficiency of a building and have therefore to be optimised.
Internal thermal inputs from lighting, devices or persons have also an influence on the room climate. By planning a heating, ventilation or air conditioning system all this internal and external factors have to be considered.

Influencing Variables on Air Quality

The indoor climate in living and working areas has a scientifically proven impact on health, job performance and well-being of people. A suitable indicator for determination of the room air quality is the CO_2 concentration. In addition the values for room temperature and air humidity must be controlled to meet the requirements for a comfortable room climate.

Studies have shown, that high CO_2 concentration in the air influences the well-being as well as the performance and learning ability of people. Besides the normal CO_2 concentration in the air, human respiration is an important factor increasing the CO_2 concentration in a room. Therefore it is important to measure the CO_2 concentration in rooms where many persons are present (schools, conference rooms, open-plan offices). Monitoring of thresholds enables fans to be switched via ABB i-bus® KNX allowing automatic control of the CO_2 concentration and sufficient supply of fresh air.



Intelligent Building Solutions

ABB i-bus® KNX – Heating, Ventilation and Air Conditioning – Room Thermostat FanCoil

Intelligent Building Solutions

ABB i-bus® KNX – Heating, Ventilation and Air Conditioning

Living and working with a feeling of well-being.
And here the air in the room is one of the most important factors. Because the body takes an ideal temperature for granted and therefore easily reacts to changes. Heated or air-conditioned rooms can be optimally adjusted – to a consistently pleasant ambience.

The KNX Fan Coil room temperature controller for stand-alone applications.
The Fan Coil room temperature controller with display is a room temperature controller for ventilator convectors or conventional systems for heating and cooling. This option offers complete air-conditioning for rooms. The temperature can be adjusted precisely for personal comfort. The fan speeds can be selected by push buttons. Even very large rooms can be heated or cooled to a comfortable temperature quickly – with additional air-conditioning units. The KNX Fan Coil room temperature controller can be operated individually. The bus coupler is integrated into the control element.

Function
- Temperature sensor
- RTC setting
- Illuminated display
- Fan Coil operation for heating and cooling

Features
- Very easy to operate with large, clear display
- Complete air conditioning
- Fan speeds can be manually selected
- Integrated bus coupler
- Surface-mounted, independent switching program
- Colours: studio white, aluminium silver

Intelligent Building Solutions

ABB i-bus® KNX – Heating, Ventilation and Air Conditioning

VC/S 4.1.1

Valve Drive Controller, 4-fold, MDRC **NEW**

For the control of heating and cooling applications in the room, such as radiator, floor heating or cooling ceiling. The device has 4 channels each for the independent control of a heating or cooling application. Each channel has an electronic valve output for the control of a thermoelectric valve drive, as well as 3 inputs to detect and monitor the room status (use for window contact, dew point sensor, level sensor or temperature sensor). Also it is possible to connect one analog room control unit (SAR/A) to the inputs of each channel. Each channel has its own integrated room temperature controller for the control of the room temperature, which can be used directly to control the outputs of the device. The VC/S 4.2.1 features an easy to use manual operation.
Both devices support the ABB i-bus® Tool for advanced diagnosis and improved commissioning.
Available August 2018

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit

VAA/S 6.230.2.1

Valve Drive Actuator, 230 V, MDRC

Controls thermoelectric valve drives (e.g. TSA/K) in heating or cooling systems. Each three outputs are protected against short-circuit and overload. With manual operation and status display.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
6-fold	4	VAA/S 6.230.2.1	2CDG110116R0011		0.17	1
12-fold	8	VAA/S 12.230.2.1	2CDG110117R0011		0.3	1

VAA/A 6.24.1

Valve Drive Actuator, 6-fold, 24 V, SM

In conjunction with the thermostat it controls up to 13 thermoelectric valve drives (24 V), max. 4 per channel. The device is suitable for the installation in heating circuit distribution systems where the application of a triac ensures noiseless switching of the drives. Mains plug on the transformer (230 V) for ease of installation.

SUG/U 1.1

Split Unit Gateway, FM **NEW**

The Split Unit Gateway forms the interface between the KNX system and many manufacturers' air conditioners, so-called split units. The device converts the KNX telegrams into infrared commands and transmits them to the split unit. The transmitter of the supplied cable is bonded directly onto the split unit's receiver. The split unit then no longer receives the commands from a remote control. Instead, it can be operated via any KNX sensors or via a visual display system. The device is put into operation with the ETS, and a free ETS app is available to select the split unit model. Auxiliary voltage is not required.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

FCL/S 2.6.1.1

Blower Actuator, 6 A, MDRC

to control blowers or fans with up to three fan speeds via step or changeover control. The FCL/S 1.6.1.1 have one fan output and one additional floating switch output. The FCL/S 2.6.1.1 feature two fan outputs plus two floating switch outputs. Alternatively the second fan output can be used as three switch outputs.
The fan speed can be directly choosen, increased and decreased as well as controlled by the control value of a closed-loop controller.

FCC/S 1.1.1.1

Fan Coil Controller PWM, 3-stage, MDRC **NEW**

For the control of fan coil units. Via two electronic outputs, two thermoelectric or one motor-driven valve drive can be controlled for heating and cooling. For the fan control the devices features three relay outputs. A relay output switches an additional load of up to 16 A, such as auxiliary heating. Over 4 inputs the room status can be detected and monitored (Use for window contact, dew point sensor, level sensor or temperature sensor). Also it is possible to connect one analog room control unit (SAR/A or SAF/A) to the inputs of the device.
The device has an integrated room temperature controller for the control of the room temperature, which can be used directly to control the outputs of the device. The FCC/S 1.1.2.1 features an easy to use manual operation.
Both devices support the ABB i-bus® Tool for advanced diagnosis and improved commissioning.
Available July 2018

HCC/S 2.1.2.1

Heating/Cooling Circuit Controller, 0 – 10V, 2-fold, MDRC **NEW**

For the control of a heating or cooling circuit. The device has 2 channels, each with an analog output to control the mixing valve (0…10V) of a heating or cooling circuit as well as a relay output (5A) to switch the pump of the circuit. Via 3 binary inputs it is possible to monitor the status of the pump (via potential free contacts) and integrate these feedback into the control of the pump. The flow and return flow temperature are measured and used for the calculation of the control value for the valve output in the integrated controller. The set point temperature is received via the KNX bus. By bundling both channels of the device it is also possible to use it for double pump systems

The HCC/S 2.1.2.1 features an easy to use manual operation.

Both devices support the ABB i-bus® Tool for advanced diagnosis and improved commissioning.

Available August 2018

Intelligent Building Solutions

ABB i-bus® KNX – Heating, Ventilation and Air Conditioning

BCI/S 1.1.1

Boiler/Chiller Interface, 1-fold, MDRC **NEW**

As interface between the KNX system and a heat generator or chiller. Via an analog output (0…10 V) the set point or set point adjustment temperature can be transmitted to the heat generator/chiller. The set point itself is received via KNX. Via two binary inputs the device can monitor the status of the heat generator/chiller (via potential free contacts) and send it on the KNX bus. A relay output (5 A) is included to switch or enable/disable the heat generator/chiller. With an additional relay output (5 A) the pump of the heat generator/chiller can be switched on and off. Via 3 binary inputs it is possible to monitor the status of the pump (via potential free contacts) and integrate these feedback into the control of the pump.
The device supports the ABB i-bus® Tool for advanced diagnosis and improved commissioning.
Available September 2018

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	6	BCI/S 1.1.1	2CDG110222R0011		0.21	1

AC/S 1.1.1

Application Controller, MDRC **NEW**

The AC/S Application Controller has predefined Automation Modules for a holistic HVAC Automation Solution from Central HVAC to Room Automation. For example Schedule, Set Point Calculation, Heat Curve Calculation, Data Logging and Device Monitoring. Furthermore own Automation Modules can be created by a graphical Logic Editor. By a web based User Interface the whole system can be monitored and managed. The AC/S 1.2.1 has additional a built in bidirectional KNX-BACnet/IP Gateway (Server) for data exchange with superordinate Building Management Systems.
The Engineering is done completely by the ETS Version 5.6.3 or higher. An additional external Software is not required. The device has a KNX TP port and requires for operation an auxiliary power supply, either via 24 V AC/DC or via PoE.
Available September 2018

6138/11-84-500

Room Thermostat Fan Coil with Display, SM

Sends control values for the room to the Fan Coil Actuators or devices with the respective outputs (e.g. Room Master). The intuitive control operation allows each user to individually set the room temperature and the fan speed. The large LC display can display the actual and target temperatures, the current operating mode as well as the fan speeds. With integrated Bus Coupler.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

LGS/A 1.1

Air Quality Sensor, SM **to be discontinued**

Accurately measures the CO_2 concentration, humidity and temperature in a room.
Three independent thresholds can be set for the CO_2 concentration and the relative humidity in addition to a threshold for the temperature. Exceeding or underrunning the thresholds can trigger a response. Disable object for every threshold. Measured variables can be transmitted directly on the bus. Communication object “Ventilation” is used for RPM control or as a position indicatior for the ventilation flaps. Maintenance free sensor. The sensor is powered via the bus. With integrated Bus Coupler.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	LGS/A 1.1	2CDG120038R0011		0.136	1

LGS/A 1.2

Air Quality Sensor with RTC, SM **NEW**

For the control and measuring of the room air quality and temperature. Accurately measures the $C0_2$ concentration (390…10.000 ppm), humidity (0...100 %) and temperature (0…50 °C) in a room and sends the values on the bus. By using the integrated thresholds the measured values can be monitored. The integrated controller controls the room temperature as well as the HVAC actuator. This is possible because of the integrated bus coupler.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

Intelligent Building Solutions

ABB i-bus® KNX – Heating, Ventilation and Air Conditioning

ST/K 1.1

Electromotor Valve Drive

The drive is a proportional valve drive for controlling heating valves and is mounted on thermostat valve bases. Valve Adapters VA10, VA78 for conventional valves are supplied.
The control is carried out via a continuous KNX room thermostat. The actual valve position is indicated by 5 LEDs. The valve drive has two binary inputs for a presence contact and/or window contact and for further signal indication. With integrated Bus Coupler.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	ST/K 1.1	2CDG120004R0011		0.32	1

TSA/K 230.2

Thermoelectric Valve Drives

For opening and closing valves in heating, ventilation and air-conditioning systems. Both variants (230 V and 24 V) feature a plug-in connection cable (1 m) and a splash-proof housing. The mounting on the valve is easily implemented using the Valve Adapter VA/Z xx.1.

SE/K 1.868.1

EnOcean Valve Drive

The Valve Drive EnOcean is used for efficient room temperature control. It communicates via the wireless, bidirectional EnOcean protocol. The Valve Drive has a large display for showing the current room temperature setpoint and a setting dial for manual setpoint adjustment. Via the ABB i-bus® KNX/EnOcean Gateway (EG/A 32.2.1) the Valve Drive EnOcean can easily be included in every KNX system.

Intelligent Building Solutions

ABB i-bus® KNX – Automation, Logic and Time Control

LM/S 1.1

Logic Module, MDRC

Used to solve a varied range of project-specific control tasks and can implement 3 functions simultaneously. The following functions are available for selection: logic gate, filter, time delay, multiplier, min/max value detector, temperature comparator, toggle values, threshold detection, format converter, scenes, increment/decrement values, staircase lighting.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	2	LM/S 1.1	GHQ6310080R0111		0.1	1

ABL/S 2.1

Application Unit, Logic, MDRC

Allows the compilation of complex logical functions by simply combining different logic elements and gates using a graphical user interface as an ETS plug-in and does not require additional software. 50 logical elements, 50 gates, 30 timer modules and 10 comparators are available.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	2	ABL/S 2.1	2CDG110073R0011		0.12	1

ABZ/S 2.1

Application Unit, Time, MDRC

It provides a yearly time clock program with 15 daily routines (800 switching events), a weekly schedule and allowance for 100 special days. Additionally, the unit can control up to 300 participants in 30 macro groups, that can be triggered using a single command. In this way, each time controlled switching event can cause a series of actions. The switching times can be modified with the free PZM software without using ETS. PZM Software and additional information on www.abb.com/knx.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	2	ABZ/S 2.1	2CDG110072R0011		0.12	1

ABA/S 1.2.1

Logic Controller, MDRC

The device provides extensive logic functions. The logic is defined via a graphic editor integrated in the ETS. Up to 3000 logic gates are possible.
The generated logic can be tested by a simulation function. User-defined function blocks can be created and saved for taking them over into other projects.
The device requires an auxiliary voltage, either 24 V DC or Power over Ethernet (PoE). If timer functions are used the date and time has to be provided via KNX/TP.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	2	ABA/S 1.2.1	2CDG110192R0011			1

FW/S 8.2.1

Radio Time Switch , 8-channel, MDRC

The Radio Time Switch sends current time and date on the bus. The time can be optionally received via a DCF or GPS antenna. Furthermore the device can be used to easily adjust the time programs.

The device provides 8 channels. Every channel supplies an independent daily, time and/or yearly program. Additionally, special programs (e.g. for vacation or public holiday days) are possible.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	3	FW/S 8.2.1	2CDG120039R0011		0.33	1

FAD/A 1.1

DCF-Antenna for Radio Time Switch, SM

For the connection to the Radio Tme Switch FW/S 8.2.1. The time signal from the DCF 77 transmitter can be received within a radius of approx. 1000 km around Frankfurt.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	FAD/A 1.1	2CDG120040R0011		0.17	1

FAG/A 1.1

GPS-Antenna for Radio Time Switch, SM

For the connection to the Radio Time Switch FW/S 8.2.1. The device receives time and date via GPS signal which is available worldwide.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	FAG/A 1.1	2CDG120041R0011		0.21	1

PS/E 2.1

Programming Set OBELISK top2 for Radio Time Switch

The programming set contains a CD ROM with the Obelisk top2 for the creation of switching programs for the Radio Time Switch FW/S 8.2.1, a memory card PK/E 2.1 for transferring switching programs to the Radio Time Switch and a USB programming adapter for the memory card.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	PS/E 2.1	2CDG120042R0011		0.20	1

Intelligent Building Solutions

ABB i-bus® KNX – Automation, Logic and Time Control

PK/E 2.1

Memory Card for OBELISK top2

The memory card can be used for transferring switching programs to Radio Time Switch.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	PK/E 2.1	2CDG120043R0011		0.02	1

TR/A 1.1

Time Receiver GPS, SM **NEW**

For the reception and processing of the GPS signal, as well as for brightness and temperature measurement. The sensor measures the brightness and outside temperature and sends them on the KNX bus. Likewise the time, date and geographical coordinates are send to the KNX bus. Additionally the sunrise and sunset times are also send to the bus. With integrated Bus Coupler.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

Intelligent Building Solutions

ABB i-bus® KNX – Visualisation, Display and Signalling

UK/S 32.2

Universal I/O Concentrator, 32-fold, MDRC

Used to connect push buttons or signal lamps, e.g. to an operating/display tableau. It has 32 channels which can be freely parameterised as inputs/outputs using the ETS software. The device requires an external 12 or 24 V DC auxiliary power supply, (e. g. NT/S 24.800).

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	4	UK/S 32.2	2CDG110071R0011		0.18	1

MT 701.2, WS
with T-RAHM, WS

Control and Display Tableau, LCD

For indication of switching status, fault reports and measurement values. Using the robust push buttons, electrical consumers can be manually switched, values can be set in addition to timer programs and light scenes. The alarms can also issue an acoustic warning. The FM wall box simplifies mounting.

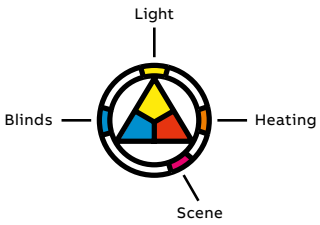
ABB i-bus® KNX – Visualisation, Display and Signalling – Busch-ComfortTouch®

The Busch-ComfortTouch® offers not only an extremely versatile range of switching and control functions for KNX systems, but also satisfies the highest design requirements. Its unique colour coding concept makes for particularly easy operation.

Busch-ComfortTouch® unites the functions of a home control system, an information and entertainment centre with the highest design requirements. You can use Busch-ComfortTouch® to switch lamps on and off, dim them, control blinds, room temperature or select scenes comprising a combination of the above-named functions – even via remote control. There is also an integrated audio and video player. These functions are not only of interest for private households – the system is often used in doctor's surgeries, offices, restaurants or stores to provide attractive lighting, soft background music or comfortable room climates. A presence simulation function and alarm message display provide added security. It is also possible to display images from surveillance cameras. The system can be connected to the Internet, enabling you to call up e-mails, the latest stock market news, the weather forecast or traffic information. Operation is simple and easy via touch screen. A menu created individually for the user with clearly assigned buttons and a unique colour coding concept allow simple and intuitive operation.



Simplicity and user-friendliness are always the top priorities for operation. Busch-Jaeger has developed a unique colour coding concept for the user interface of its intelligent home control system. Each comfort area is assigned a specific colour. Yellow stands for lighting, blue for the blind control unit, magenta for light scenes and orange for the heating control unit. These colours are also used in the menus on the display.

The system is controlled via the Busch-ComfortTouch® – it couldn't be easier. Buttons with text and symbols allow intuitive operation. Just a touch of the finger, and you can call up the MP3-player and play individual titles or playlists. And the volume is regulated via the panel, too. The ideal solution, not only for homes – the system is, for example, popular in restaurants. No more CDs lying around, no more finding space for a conventional hifi centre. The system can also be used to call up light scenes for various situations, from a cosy dinner at home to night-time lighting for store windows, at the press of a button or via a time-controlled function. Another useful feature is the handy memo field allowing you to write text by hand - use it, for example to write a shopping list or for leaving messages for others. Colour pictures from surveillance cameras on stairways or outside the building can be called up on the display, offering added security. This allows you to keep an eye on the building at all times – handy, for example, for checking the surrounding area before opening the door for customers in the morning or when the doorbell rings.

ABB i-bus® KNX – Visualisation, Display and Signalling

6136/07-811-500

Busch-SmartTouch® 7"

Free programmable KNX touch display as a control, notification and operation center for the entire house. Works as a video indoor station with the ABB-Welcome Door Entry System. During the conversation a picture of the visitor can be taken and stored in the picture memory. For the display and operation of the following KNX standard functions: switching, dimming, slider, blind, RGBW LED control, step switch, RTC, scene switch, display element, audio control. With scene and logic functions, presence simulation and time programs.
Displays alerts and malfunctions. Available with induction loop for connecting to hearing aid devices. Programmable with up to 16 functions per page.
External power supply: 20 – 32 V DC (SELV) or through the ABB-Welcome bus. The freely programmable touch display (7") comes with a resolution of 1024 x 600.

6136/APP-500

Busch-ControlTouch®, MDRC **NEW**

Freely programmable IP-/KNX gateway as multi-room app control for the KNX system.
MDRC devices with associated IOS and Android apps. Easy control using intuitive navigation concept. Representation of individual operating pages with list view.
Complete web-based commissioning. Home automation, switching, dimming, blind, RTC control, scene/sequences, timing, Philips Hue.
Entertainment: multimedia integration via UPnP.
Infotainment: monitoring of usage data for up to 3 years.
Safety: video surveillance with IP cameras, message function via push messages or e-mail.
Time programs and scenes can be created by the end customer.
Access via KNXnet/IP tunnelling.
Script editor for logic functions.
Compatible with ABB i-bus® KNX.
Control with smartphones and tablets via the ControlTouch app (Apple iOS /Google Android).
External power supply: 5-36 V DC (SELV).
Control element: freely programmable touch surfaces,
Rated voltage: 5 V- - 36 V-, Bus voltage: 24 V-,
Protection class (Device): IP 20, Temperature range (Device): 0 °C to 70 °C,
Dimensions: (L x W x D): 90 mm x 72 mm x 60 mm, Module width: 4 MW, Position for installation: Horizontal

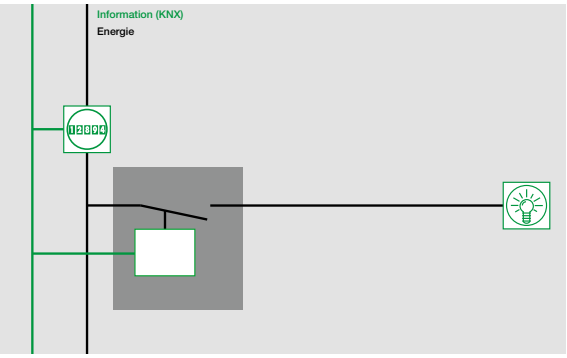
Intelligent Building Solutions

ABB i-bus® KNX – Energy Management

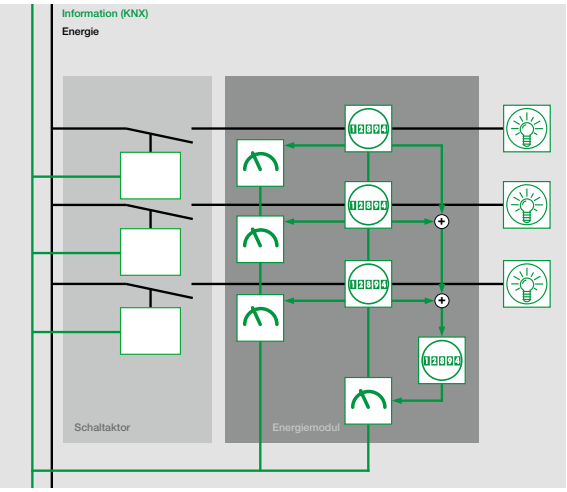
ABB offers various solutions for decentral energy measurement on the basis of the KNX standard.

Version 1



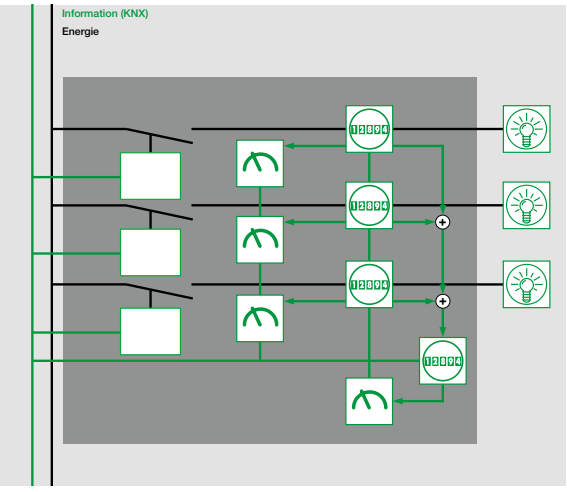
Electronic energy meters make the current energy values available on the KNX bus system in conjunction with a KNX interface. The measured data can be intermediately stored, evaluated and visualized from here.

Version 2



The Energy Module can record the energy consumption for the individual devices. It is used particularly when upgrading existing KNX systems and wherever energy measurement is required without switch functions. It facilitates a detailed and transparent insight into the energy consumption of a building. The current meter values can be sent and evaluated.

Version 3



The Energy Actuator facilitates control of the connected consumer loads via the ABB i-bus® KNX. For each of the three switch channels, the individual consumption can be measured in the same way as for the Energy Module. For every channel, the proven functionality of the ABB i-bus® KNX Switch Actuators are available.

Intelligent Building Solutions

ABB i-bus® KNX – Energy Management

SE/S 3.16.1

Energy Actuator, 3-fold, 16/20 AX, MDRC

Records the energy consumption of the connected electrical loads in the load circuit. Various electrical variables can be monitored and load peaks can be limited by simple load control. The 3 output channels can be manually operated and display the current switching state. The Energy Actuator can switch resistive, inductive and capacitive loads The switching capacity corresponds to the SA/S X.16.6.1.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

ZS/S 1.1

Meter Interface Module, MDRC

It records consumption and measured values of the electrical energy consumption meters. Using an infra-red interface, the ABB energy meter types of the A- and B-series are incorporated. The information and data which is read can be used, for example, for cost centre accounting, energy optimisation, monitoring of installations and visualisation.

The following values are available (depending on the meter type):

Meter reading

Active energy	Tariff 1-4, total
Reactive energy	Tariff 1-4, total

Power values

Active power	L1, L2, L3, total
Reactive power	L1, L2, L3, total
Apparent power	L1, L2, L3, total
Phase angle power	L1, L2, L3, total
Power factor	L1, L2, L3, total

Instrument values

Voltages	L1-N, L2-N, L3-N, L1-L2, L2-L3, L1-L3
Currents	L1, L2, L3, N
Phase angle voltage	L1, L2, L3, total
Phase angle current	L1, L2, L3, total
Quadrant	L1, L2, L3, total
Mains frequency	

Other

Transformer ratio	Read CT and VT
Power failures	Send and delete
Tariffs	Read and changeover
Status information	Send and read
Communication monitoring	
Intermediate meter	Read and reset

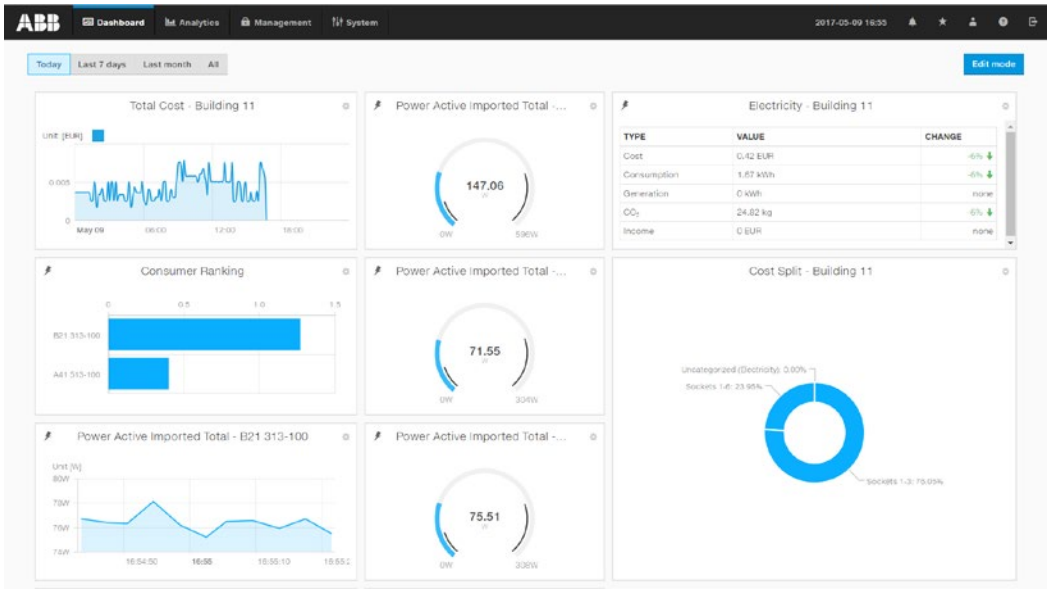
Intelligent Building Solutions

Energy Management

EQmatic

With the new EQmatic series, ABB offers a solution for storing, displaying and analyzing the consumption data of electricity, gas, water and heat meters. Thus, energy flows and costs in the building can be monitored and made transparent. This serves to increase energy efficiency and as a basis for further operational optimizations, based on the energy management standard ISO 50001.
The commissioning, evaluation and analysis of the data are carried out via the web-based graphical user interface.
For a detailed monitoring the devices offer several analysis functions such as historical data analysis, benchmark functions, cost analysis, instantaneous values etc. For a quick overview, metering data and analytic charts can be individually configured and arranged on a dashboard page.
Various export functions are available for further processing of the meter data.



Intelligent Building Solutions

Energy Management

QA/S 3.16.1

QA/S 3.64.1

Energy Analyzer, M-Bus, MDRC*

Compact and web-based stand-alone devices for energy management applications.
For monitoring, logging, displaying and analyzing consumption data of up to 16 or 64 electricity, gas, water or heat meters via M-Bus. Automatic detection for ABB EQ meters (A/B-Series). Access to the device via web browser. The user interface provides graphical analysis functions, e.g. dashboard, historical data, instantaneous values, benchmark functions, cost allocation according to consumer groups and more.
* Pure M-Bus Master, no data routing from M-Bus to KNX

Intelligent Building Solutions

ABB i-bus® KNX – Safety and Monitoring

SMB/S 1.1

Fault Monitoring Unit, MDRC

It is used to detect and manage up to 100 fault messages which are processed within the unit and can be forwarded to a display unit. Furthermore, an optical and an acoustic collective status signal is provided. Messages can be acknowledged and data losses can be reported.
The devices support message formats to DIN 19 235: messages with continuous lighting, new value messages with simple flashing light, initial value messages with simple acknowledgement, motor messages. Current values can be centrally scanned.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	2	SMB/S 1.1	GHQ6310085R0111		0.12	1

EUB/S 1.1

Monitoring Unit, MDRC

Monitors up to 100 bus devices in KNX systems, which can be divided into 5 groups. The devices are monitored to ensure their presence and minimum functionality (send and receive). Monitoring can be undertaken based on the physical address or the group address. A total of four different monitoring modes are available.

		Type code	Order code		kg	pc.
	2	EUB/S 1.1	2CDG110066R0011		0.12	1

BDB/S 1.1

Data Logging Unit, MDRC

It detects local operation cycles and operating hours to plan the maintenance or durability evaluation of the devices. For each of the 35 channels to be monitored, limit values can be set and a message sent if this limit is exceeded. The logging of operating hours can be predetermined for the total or remaining time. These values can be modified via communication objects.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

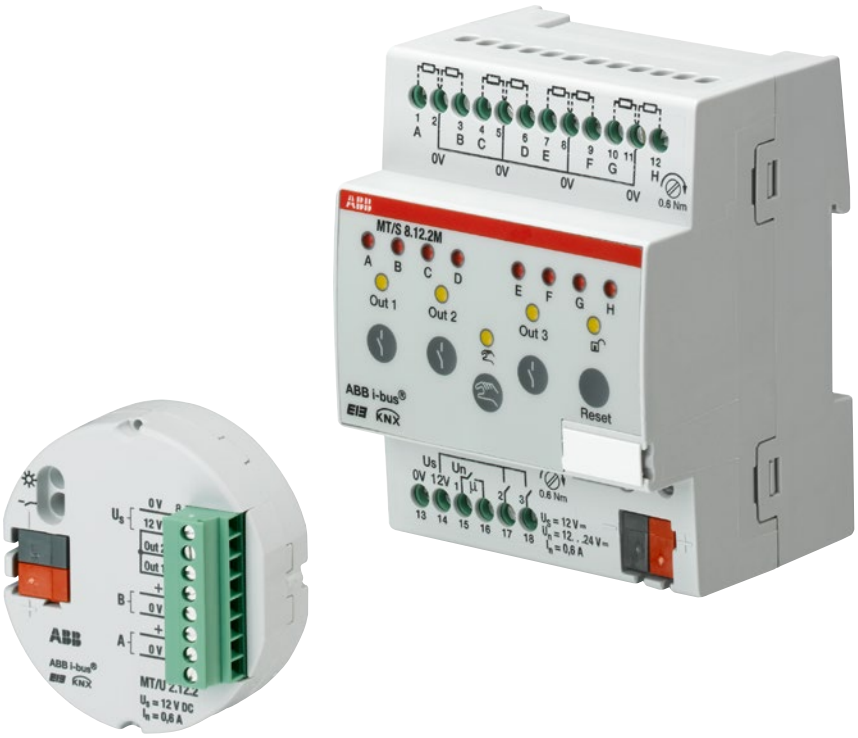
Intelligent Building Solutions

ABB i-bus® KNX – Security – Alarm System KNX



The compact solution for security applications – the Security Terminals
The Security Terminal provides a compact security solution for KNX applications for detection and signalling of intrusion, personal attack and technical hazards. They are used as the interface between the security technology sensors and KNX.

Depending on the configuration, the devices feature 2, 4 or 8 inputs – so-called detector circuits or zones. They are used for monitoring connected passive detectors (e.g. magnetic contacts, glass break sensors, etc.) to the ABB i-bus® KNX as well as for connection of floating contacts in applications with enhanced security requirements.

Through the connection of security technology and KNX, the detectors employed can, in addition to the security functions, also be used for heating control (e.g. window contact signal for control of the heating valve) or lighting control (e.g. central switch off of the lighting when the alarm logic is set).

The Security Terminals can be used as autonomous systems with the integrated alarm logic, in conjunction with the Security Module SCM/S or with an Intrusion Alarm Panel GM/A 8.1 or L240.

The application program offers several functions for security applications, such as

- Direct and delayed setting
- Internal setting with occupancy and external setting when absent
- Setting of the connected detector types
- Reset input and setting input
- Detector monitoring
- Zones (detector circuits) can be switched off
- Different types of alarms
- Setting for freely programmable relay outputs, e.g. for direct control of signalling devices.

Intelligent Building Solutions

ABB i-bus® KNX – Security – Alarm System KNX

SCM/S 1.1

Security Module, MDRC

The module provides the necessary logic functions to link the various KNX devices (e.g. zone terminals) to a security system. Up to 64 different zones can be evaluated via communication objects. Arming, operation and display are also implemented using communication objects. The device has a freely programmable relay output for connection of a signal encoder. An uninterruptable KNX power supply with battery back-up is recommended for security function buffering on mains failure.

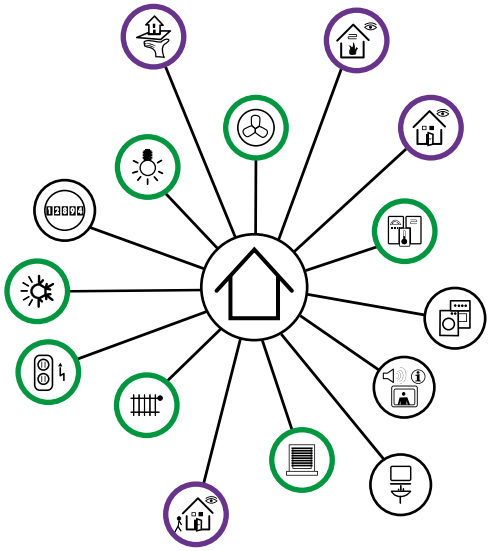
Intelligent Building Solutions

ABB i-bus® KNX – Security – Alarm System GMA



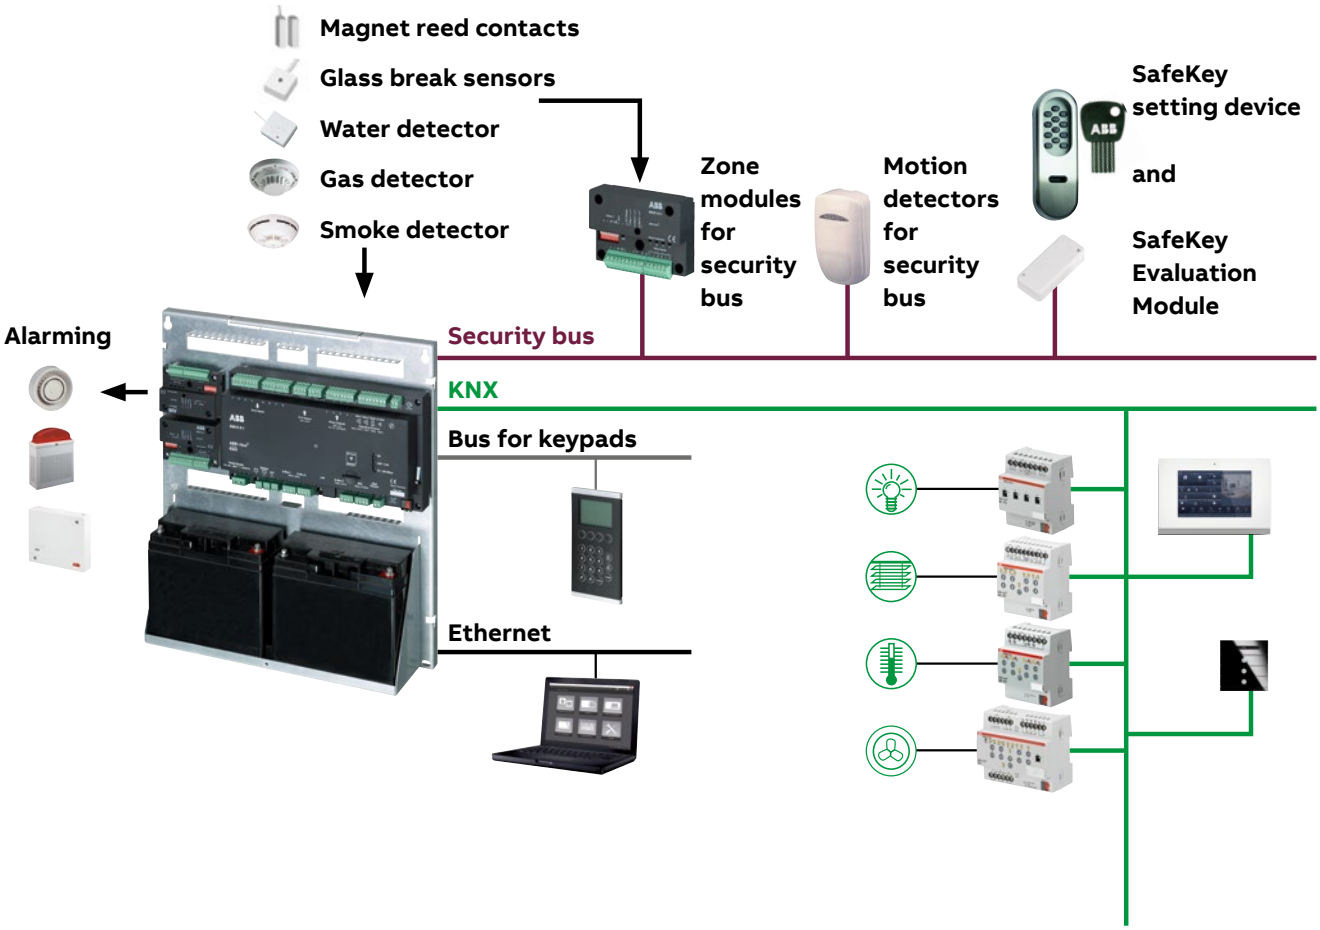
Professional alarm system for KNX experts

With the KNX Security Panel GM/A 8.1 ABB presents the first security system that is compatible with both, the international KNX standard (14543-3-x ISO / IEC) and the international standard for alarm systems (ISO / IEC 62642). Therefore the KNX Security Panel GM/A 8.1 is ready for a worldwide usage and expands business opportunities of nearly 40,000 KNX partners in 124 countries. The system is the perfect solution for projects ranging from simple to high security requirements.

This innovation is the result of more than 30 years of system and application knowledge in alarm technology and building automation at ABB.

Intelligent Building Solutions

ABB i-bus® KNX – Security – Alarm System GMA



A complete product product portfolio: One system – all interfaces

To fulfill the project requirements ABB provides the user besides the panel and keypad a complete product portfolio for professional alarm technology as well as known solutions for all trades of KNX building automation.

The KNX Security Panel is for universal usage for all kinds of hazardous situations in buildings like intrusion, personal attack, smoke, gas- and water leakage.

KNX Security Panel without cover, integrated zone modules and batteries

Ethernet connection for programming, diagnostics and operation via a standard webbrowser

Direct inputs for security sensors

Keypads

Internal, external or remote alarming

Security bus for security sensors, zone modules and setting devices

KNX interface to display alarm states via displays of building automation and to control automatic building functions with support of security sensors.

The KNX Security Panel provides all needed system interfaces: An ethernet connection is used for programming, diagnostics and operation via a standard webbrowser as well as integration into the building network. The security sensors will be connected directly to the panel inputs or via the security bus, where the setting device for the system is also connected. Furthermore the panel provides interfaces for the also newly developed keypads and for internal, external or remote alarming. Finally the integrated KNX interface allows on the one hand to display alarm states via displays of building automation and on the other to control automatic building functions with support of security sensors.

Intelligent Building Solutions

ABB i-bus® KNX – Security – Alarm System GMA

GM/A 8.1

KNX Security Panel, SM

for the protection of small to medium residential or commercial properties against intrusion and technical faults. The Security Panel is suitable for up to five logical areas. It has 8 integrated zones for detectors, a Security Bus for Bus-detectors, Bus-Zone Modules and Setting devices, Ethernet connection (RJ45) for programming, operating and displaying system status via Web-Browser and an integrated KNX interface. The Security Panel GM/A 8.1 complies with the requirements to VdS classes A, B and C, to the European Standard EN 50131, Grade 1 to 3 and to ISO/IEC 62642 Grade 1 to 3.

ABB i-bus® KNX – Security – Components

MG/A 4.4.1

Zone Module, 4-fold

to connect to Security Panel GM/A 8.1 via the Security-Bus. For expansion of the Security-Panel by 4 detector zones. Used for connection to the exterior perimeter detectors such as magnetic reed contacts and passive glass break sensors. The module has 4 zones to which several detectors can be connected. The status of each zone is displayed with a status LED. The Zone Module delivers the control signals and the supply voltage for the external detectors. There is no need for an external voltage supply, the Zone Modules are supplied via the Security-Bus.

EIM/XB
EIM/XC

Dualtech Bus Motion Detector, 15 m

For direct connection to the security-bus of the Intrusion Alarm Panel GM/A 8.1. The Dual-Motion Detector combines proven passive infra-red technology with temperature independent microwave technology. The combination of both functional principles results in a detector featuring high immunity to false alarms, even with unfavourable ambient conditions, and which still has high detection security. The detectors are registered for VdS classes B/EN Grade 2 and C/EN Grade 3 (anti-masking monitored). They facilitate monitoring of an area with an IR range of up to 15 m.

ND/W

Emergency Call Button, white

For manual alarm tripping. Complies with the police regulations since it features permanent trip recognition, momentary-contact function, with cover contact. Surface mount version. Colour: white. VdS class C.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
Surface mounting	–	ND/W	GHQ7132443R0011		0.15	1
Flush mounting	–	NDU/W	GHQ7132443R0021		0.15	1

NDA/W

Cover Plate for Emergency Call Button

Used primarily in the banking sector or other institutions, where unintentional alarm triggering is possible due to public access.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	NDA/W	GHQ7132443R0004		0.03	1

SGL

Gas Detector

For measurement and evaluation of the concentration of natural gas or liquefied gas in the air. The detector requires a 10 – 30 V DC voltage supply and has a normally open relay output contact for connection to the intrusion alarm panels features an LED display and a Piezo buzzer. For ceiling and wall mounting.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	SGL	GHQ3050008R0001		0.16	1

SWM 4

Water Detector for Zone Inputs

A resin-encapsulated water detector with gold-plated Termipoint pins, detects water ingress, e.g., pipe fractures, ingress of groundwater and sewage, water damage caused by washing machines and dishwashers etc. before the damage becomes too expensive.
For operation directly on detector circuits of intrusion alarm panels or security terminals.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit

	–	SWM 4	GHQ4030001R0004		0.16	1

SWM 4/RN

Water Detector with Relay Output

Features a potential free changeover contact output, an LED parallel output and a LED display. The detector resets itself automatically when the affected area dries out. The device draws its power from an external 10 ... 23 V DC voltage source.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit

FC650/O

Optical Smoke Detector

Optical smoke detector in threshold alarm technology that detects smoke according to the scattered-light principle The detectors feature an alarm indicator on the detector head that is visible from all angles, and which can be be triggered with a permanent magnet for test purposes. A detector base is provided for mounting and cable connection purposes into which the detector is simply screwed in via the bayonet connection. Each detector is equipped with an alarm LED, which displays the stored alarm in the event of an a alarm Detector/base diameter: 110 mm. VdS approved.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	FC650/O	2CDG430079R0011		0.09	1

FC650/TMAX

Maximum Heat Detector

Static Heat Detector in threshold alarm technology, – trigger temperature 78 °C. The detectors feature an alarm indicator on the detector head that is visible from all angles, and which can be be triggered with a permanent magnet for test purposes. A detector base is provided for mounting and cable connection purposes into which the detector is simply screwed-in via the bayonet connection. Each detector is equipped with an alarm LED, which displays the stored alarm in the event of an a alarm. Detector/base diameter: 110 mm. VdS approved.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit

	–	FC650/TMAX	2CDG430081R0011		0.09	1

FC600/BREL

Detector Base, 12 V

Enables system-independent connection of the FC650 series fire detector to systems or devices that are not specifically designed for this detector technology. Examples include Intrusion Alarm Panels, KNX Security Terminals, elevator controls or other signal processing equipment. The detector base must be supplied by either a 12 V or a 24 V DV voltage supply. A floating 30 V DC/1 A changeover contacting is provided for transferring an alarm.

		Type code	Order code		kg	pc.
	–	FC600/BREL	2CDG430051R0011		0.08	1

FPA03

Testing Aerosol for Smoke Detectors, 250 ml

For optical smoke detector testing, 250 ml.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	FPA03	GHV9020012V0021			1

6833/01-84-500

Busch-Smoke Alarm® ProfessionalLine

For early detection of smouldering fires and open fires with smoke development indoors according to the photooptical measurement principle (Tyndall). With installed Lithium battery. Battery life min. 10 years. With test button and muting. Can be networked with up to 12 detectors using the radio module. Can be networked via 2-wire twisted pair cable with up to 12 detectors. Acoustic alarm: installed horn (85 dBA). Cyclic functional test. Including attachment material – VdS certified. Conform to EN 14604 studio white.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
not networkable	–	6833-84-500	2CKA006800A2720			1

Intelligent Building Solutions

ABB i-bus® KNX – Security – Components

6829-84

Busch-Smoke Alarm® Relay

For connecting external systems, e.g. KNX. Relay contact, floating changeover contact 230 V~ max. 5 A. Cable connection: up to 2 x 2 x 1.5 mm². With installed radio module. Rated voltage: 230 V~.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
studio white	–	6829-84	2CKA006800A2515			1

6824-84

Busch-Smoke Alarm® Remote Control

For service purposes. With muting, test and search function.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
studio white	–	6824-84	2CKA006800A2516			1

SSS

Electronic Solid-State Siren

Electronic solid-state siren with intermittent tone for alarm purposes in indoor installations. External dimensions: ø x H = 90 x 37 mm.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	SSS	GHV9270001V0001		0.17	1

SSF/G

Outdoor Sirene

An aluminium protective housing with additional protective enamel coating. Protected against sabotage by a case tamper contact. The alarm inputs are wired onto a terminal strip. With fixing screw (M4) for potential equalization on the base.
Dimensions: H x W x D = 200 x 205 x 88 mm; Color: RAL 9002 Environmental class III to VdS.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

Reed Relay, 12 V

For connection, e.g. to transistor outputs of Intrusion Alarm Panels. Coil voltage 8.5...14 V DC. Current consumption 5 mA at 12 V DC. Contact loading 24 V/100 mA.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	RL	GHV9270013V0101		0.015	1

Bright prospects for all

We bring energy to buildings and the people within them – whether these are modern single residential units, all kinds of hotels or ground-breaking industrial buildings. For us, power is more than just what comes from the wire. Why? Because it forms the basis of a comfortable life. As a result, we are constantly improving every little detail, looking for the most userfriendly solution and bringing people and technology together. That's what our large company is all about – we do everything to give you the freedom of choice.

A vision for the perfect building
What's key is the synergy created in the building as a whole. It starts with the power that's created using renewable sources of energy, which then feeds into the things that this power can do for the people within – from the infrastructure in the buildings right through to the emotional experience of the occupants, from the lowest parking level right through to the most exquisite penthouse suite. Only when everything intertwines are values created, which you can experience with all your senses.

Building automation from ABB governed by our core values
All ABB solutions are checked against the six core values and constantly improved until they meet the very highest requirements in terms of technology, management and the guests.

Economic efficiency
A hotel building is for the people within. This is the only way to measure the value of what's inside. Every day, development gives rise to performance.

Safety
The building automation technology can't take a break. With a complete system, the management can count on it as a whole – and on the fact that everything is functioning safely.

Energy efficiency
You need energy for absolutely anything you wish to accomplish. That's why, for ABB, it is crucial to never waste energy and to make the most of it at the same time.

Durability
The future always comes quicker than you think. It must be easy to upgrade the technology. The new fits perfectly with what is already there.

Design
Hotels are more than just buildings. They shape the city and are sometimes a key part of the skyline. The aesthetics count – from the largest detail right down to the smallest.

Sustainability
A safe future starts today with technologies which combine all energy-saving capabilities with quality of life.

ABB i-bus® KNX – Guest Room Management

TR/U 1.1

Transponder Reader MIFARE

The “transponder reader” is a flush-mounting device for British Standard wall boxes, designed to realize access control systems with a communication support based on KNX bus.
It is equipped with one relay (4 A @24 V AC/DC) and one input to be used for connecting external conventional card-holder (e.g. Millenium wiring accessories card-holder).
The output can be programmed in three different ways: “Linked to access control”, receiving in this case switching commands from the device itself (according to transponder card validation); being a standard KNX Switch actuator output, able to be controlled by every KNX-standard devices; “linked to card-holder”, that means that the relay is switched according to closing/opening internal input contact available on transponder reader.
The bicolor (red-green) LED placed on the front of the device allow you to monitor device operation and can be also switched ON/OFF in the proper color according to KNX telegram (for example for DND/MUR purposes).
The transponder reader requires a 12...24 V AC/DC external power supply to ensure its operation even with bus voltage failure.
The transponder reader is available for ABB Millenium wiring accessories range.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
	–	TR/U 1.1	2CSY235683R2001			1

TH/U 1.1

Transponder Holder MIFARE

The “transponder holder” is a flush-mounting device for British Standard wall boxes, designed to realize access control systems with a communication support based on KNX bus.
It is equipped with one relay (4 A @24 V AC/DC) and one binary input to be used for connecting external conventional push-button for switch, dimmer and shutter functionalities, or for example for connecting window contact or similar.
The output can be programmed as “Linked to access control”, receiving in this case switching commands from the device itself (according to card insertion/removal); or being a standard KNX Switch actuator output, able to be controlled by every KNX-standard devices. The bicolor (red-green) LED placed on the front of the device allow you to monitor device operation and can be also switched ON/OFF in the proper color according to KNX.
The transponder reader requires a 12...24 V AC/DC external power supply to ensure its operation even with bus voltage failure.
The transponder reader is available for ABB Millenium wiring accessories range.

LT/U 1.1.MC
LT/U 1.1.MS

Transponder Reader, Mylos

The transponder reader is used for access control in the hotel, residential and commercial sectors (office buildings, business centers, laboratories, etc.). The device is equipped with two bistable relays (8 A, 250 V AC), one of which can be assigned to control electronic lock, and three voltage-free, non-optically insulated inputs; the 5-V DC scanning voltage is available on the COM terminal.
The transponder reader requires a 10...32 V DC/12...24 V AC external power supply to ensure its operation even with bus voltage failure.

ABB i-bus® KNX – User Operation – Design Ranges – ABB-tacteo

TB/U1.1.1-CG

Touch Control Element with Bus Coupler, FM **NEW**

Freely configurable multifunction control element. The icons and/or texts are configured by means of a web configuration tool. With integrated KNX bus coupler. With integrated temperature sensor. Push switch function: switching / dimming / blind / sending values / scenes etc. Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. The bus connection is provided via the enclosed bus terminal.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

TBR/U4.7.1-CG

Touch Control Element with Room Temperature Controller and Bus Coupler, 4-fold, FM **NEW**

Freely configurable multifunction control element. The icons and/or texts are configured by means of a web configuration tool. Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. Rocker switch left/right (switching/dimming/blind/value sender/light scenes/fan function). The controller is a constant room temperature controller for ventilator convectors (fan coils) in 2-pipe and 4-pipe systems and conventional heating or cooling systems. The fan stage can be switched manually or in automatic mode. Class of temperature controller 1. Contribution to space heating energy efficiency 1,0 %. With integrated KNX bus coupler.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

Room Outdoor Sensor with Card Reader and Bus Copupler, FM **NEW**

Ordering possible only in connection with the design ID. The icons and/or texts are configured by means of a web configuration tool. Freely programmable function ”Do not disturb“, ”Bell“ and ”Make up room“. Push switch function: switching / dimming / blind / sending values / scenes etc. Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. With integrated KNX bus coupler. With integrated temperature sensor. The bus connection is provided via the enclosed bus terminal.

TR/U.3.1-CG

Touch Room Temperature Controller with Bus Coupler, FM **NEW**

Ordering possible only in connection with the design ID. The icons and/or texts are configured by means of a web configuration tool. Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/ no function assigned) or standard illumination red/green. Control element with room thermostat function for controlling TSA/K 230.1, TSA/K 24.1 in connection with KNX-Heating actuator, commercially available valve drives or analogue valve drives (continuous controllers). The controller is a constant room temperature controller for ventilator convectors (fan coils) in 2-pipe and 4-pipe systems and conventional heating or cooling systems. The fan stage can be switched manually or in automatic mode. Class of temperature controller 1. Contribution to space heating energy efficiency 1,0 %. With integrated KNX bus coupler.

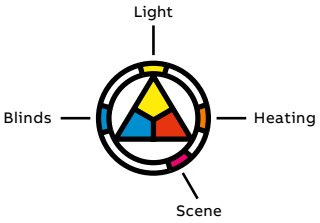
Intelligent Building Solutions

ABB i-bus® KNX – User Operation – Design Ranges – Busch-priOn®

Busch-priOn® allows you to control and monitor functions for the entire room. Light, scenes, timer, blind control unit, heating control unit – all functions are controlled simply and intuitively via a rotary dial, and freely programmable functions can be called up via the rocker switches. Busch-priOn® is a non-fixed, modular concept.



Colours that make life easier.
A consistent colour coding concept and durable LED technology make Busch-priOn® extremely easy to operate. The dial lights up in the colours of the coding system, thus providing feedback on the function currently selected. Yellow stands for lighting, blue for the blind control unit, magenta for light scenes and orange for the heating control unit. These colours are also found on the rocker switches of the control element panels.

01

The rotary control element is equipped with a freely programmable button which can be pressed and turned. It can be used to switch and dim individual lamps, but also to switch on whole groups of lamps with one press of a button and vary their brightness continuously via the dial.

Function
Dimming | Blinds | Value | Light scenes | Logic functions | Time functions

Features
Illuminated dial | Colour coding concept | Anti-theft protection | Day/night operation

02

The single control element is equipped with a freely programmable “large” operating button. It can be assigned to one topic and can carry out a maximum of two commands.

Function
Switching | Dimming | Blinds | Value | Buttons | Light scenes | Logic functions | Time functions

Features
Illuminated rocker switch | Colour coding concept | Freely programmable control button | Anti-theft protection | Replaceable labelling symbol (Fig. shows Lighting labelling symbol)

03

The triple control element is equipped with 3 freely programmable control buttons. Each can be assigned to one topic and can carry out a maximum of two commands.

Function
Switching | Dimming | Blinds | Value | Buttons | Light scenes | Logic functions | Time functions

Features
Illuminated rocker switches | Colour coding concept | Freely programmable control buttons | Anti-theft protection | Replaceable labelling symbol (Fig. shows labelling symbols Lighting, Blinds and Scene)

reddot design award
best of the best 2008

Busch-priOn® received special commendment in the category “best of the best,” winning the “red dot award: communication design 2008” for its interface design.

01

A single-line display with integrated room temperature controller has been designed for the Busch-priOn® 3gang control element, technically reduced to the basics and optically elegant. It is particularly easy to read due to the monochromatic design for white on black information. The room temperature controller, information function like time and date, up to 17 freely programmable text displays, IR sensor and proximity sensor have been integrated into the display. The design of the display is available in the colour and material “glass black” only.

02

The 8.9 cm (3.5") TFT display gives a clear overview of all information. Operation is simple intuitive, supported the colour coding concept. It is possible freely combine several Busch-priOn® elements with each other. display and a special allow simple and convenient control.

03

Busch-priOn® is a nonfixed, modular-design system. The rocker switches of the triple control element allow you to call up freely programmable functions such as light scenes, blind functions or specific lamps.

04

Busch-priOn® is ideal in combination with the carat® switch series, which has surfaces in the same design.

05

The Busch-priOn® flush-mounted movement sensor can be used individually or with other Busch-priOn® modules. Practical because users thus do not have to look for the light switch and are greeted with light when first entering a dark room.

The 8.9 cm (3.5") TFT display gives a clear overview of all information. The user can choose from 3 surface designs: black, blue and silver.

6351/08-825-500

Top End Strip with Display, Room Thermostat, IR Receiver and Proximity Sensor, Busch-priOn®

Top end strip for installation on 1gang to 3gang support frame (6346/10-101, 6346/11-101 and 6346/12-101). With integrated IR receiver for control using the Busch remote control 6010-25 or 6020-.../6121... and integrated proximity function. For heating and cooling (PI, PWM or 2-point). For control of up to 5-level ventilation actuators. With manual adjustment of fan levels. Master/slave configuration. With base-load operation. Display of up to 17 functions as text and/or icon. Only in connection with 1-gang rotary control element (6341-xxx-101) and 3-gang control element (6342-xxx-101) possible. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Detection range: frontal: 0.5 m, lateral: 0.5 m. Detection angle: 100 °. Mounting height: 1.1 m. Protection class (Device): IP 20. Temperature range (Device): – 5 °C to 45 °C.
Dimensions: (L x W x D): 33.4 mm x 106.6 mm x 15.5 mm

ABB i-bus® KNX – User Operation – Design Ranges – ClimaECO Sensors

SBS/U6.0.1-84

Control Element with RTC Slave Unit, 6-fold **NEW**

Freely configurable multifunction control element. Room Thermostat extension with max. 6gang control. With labelling field. Transparent labelling sheet with standard symbols included in delivery. Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. Rocker switch left/right (switching/dimming/blind/value sender/light scenes/fan function). With integrated temperature sensor. With actual value temperature display. With display of set-value temperature. The bus can be connected via enclosed terminal block.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.
davos/studio white	–	SBS/U6.0.1-84	2CKA006330A0002			1

SBR/U6.0.1-84

Room Temperature Controller with Control Element, 6-fold **NEW**

Freely configurable multifunction control element. With integrated KNX bus coupler. With labelling field. Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. Push switch function: switching / dimming / blind / sending values / scenes etc. For activating heating, ventilation and fan coil actuators. Master/slave configuration. With base-load operation. The fan stage can be switched manually or in automatic mode. Class of temperature controller 1.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code		kg	pc.

Intelligent Building Solutions

ABB i-bus® KNX – User Operation – Design Ranges – Standard Control Elements

The standard control elements are available as 1/2gang, 2/4gang or 4/8gang models. Every switch rocker has two LEDs, which display the status of the connected loads. The separate switch rockers are freely programmable and are suitable for switching and dimming, and also for operating blinds and as a light scene extension unit.

They can also be used in commercial applications. Anti-theft protection has also been integrated – an important factor for installations in public areas.

Customised text. Pictograms can be applied to push buttons for easier orientation. A clear text template with standard symbols is included for every sensor. The self-explanatory pictograms are available for the complete range of building control technology and if necessary can be easily replaced. If the appropriate symbol is not included, the push buttons can be labelled as desired. The related bus-coupler unit is included in delivery.

01

Function
Switching | Dimming | Blinds | Push-button | Value transmitter | Light scene extension unit

Features
Labellable switch rockers | Anti-theft protection | Freely programmable switches | Status/orientation light (red/green/OFF)

Intelligent Building Solutions

ABB i-bus® KNX – User Operation – Design Ranges – Multifunction Control Elements

The multifunction control elements with LED colour code concept meet the highest demands for comfort and technology. They each come with two RGB LEDs per rocker switch, which conform to a consistent colour concept. This makes the function obvious at a glance, and the surfaces can be additionally fitted with pictograms. Each side of a rocker switch can be occupied with its own function – each for calling up one light scene, for instance. This turns a 4gang control element into an 8gang control element.

ABB i-bus® KNX – User Operation – Design Ranges – Room Thermostats

6128/28-884-500

Room Thermostat with Display and 2/4-fold Switch Sensor, FM
For ABB i-bus® KNX bus coupler 6120/12-101-500, 6120/13-500. Support of KNX functions through innovative colour concept (yellow = lighting, blue = blind, orange = RTC, magenta = scene and white = neutral/no function assigned) or standard illumination red/green. Rocker switch left/right (switching/dimming/blind/value sender/light scenes/fan function). Master/slave configuration. With base-load operation. The controller is a constant room temperature controller for ventilator convectors (fan coils) in 2-pipe and 4-pipe systems and conventional heating or cooling systems. The fan stage can be switched manually or in automatic mode. Transparent labelling sheet with standard symbols included in delivery. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Control element: Switch contacts left/right, also for selecting setpoint and mode of operation Display elements: LCD showing operation mode and temperature. Protection class (Device): IP 20. Temperature range (Device): – 5 °C to 45 °C. Dimensions: (L x W x D): 63 mm x 63 mm.

Intelligent Building Solutions

ABB i-bus® KNX – User Operation – Design Ranges – Busch-triton®

With freely programmable switch rockers, backlit label fields and IR sensor Busch-triton® is ideal for any application and with its elegant design it is commonly installed in hotels and public areas. Busch-triton® is equipped with an integrated bus coupler and IR receiver. The unit composed of control element and integrated bus coupler now really has everything required to control building systems elegantly and comfortably.

01	1/2gang control element with rear-illuminated labelling area and IR reception
02	3/6gang control element with rear-illuminated labelling area and IR reception
03	5/10gang control element with rear-illuminated labelling area and IR reception

01

Function
Switching | Dimming | Blinds | Value transmitter | Value dimming sensor | Light scene extension unit | Step-type switch | Short/long operation | 13 freely programmable IR channels | 8 light scenes

Features
Labellable switch rockers | Rear-illuminated labelling field | Anti-theft protection | Freely programmable switches | IR remote-controllable | Freely programmable additional key

02

Function
Switching | Dimming | Blinds | Value transmitter | Value dimming sensor | Light scene extension unit | Step-type switch | Short/long operation | 13 freely programmable IR channels | 8 light scenes

Features
Labellable switch rockers | Rear-illuminated labelling field | Anti-theft protection | Freely programmable switches | IR remote-controllable

03

Function
Switching | Dimming | Blinds | Value transmitter | Value dimming sensor | Light scene extension unit | Step-type switch | Short/long operation | 13 freely programmable IR channels | 8 light scenes

Features
Labellable switch rockers | Rear-illuminated labelling field | Anti-theft protection | Freely programmable switches | IR remote-controllable | Freely programmable additional key

Colour-coordinated.
The Busch-triton® is available in five stunning colours, offering exactly the right ambience for any environment. The colours offer exactly the right accent to the carat®, impuls, alpha and future® linear ranges – such as the use of the colour-coordinated socket outlets or motion detectors.

01

Function
LCD display room temperature controller | Comfort | Stand-by | Night operation | Frost protection | Heating | Cooling | Fan control | Switching | Dimming | Blinds | Value | 13 freely programmable IR channels | 8 light scenes

Features
Labellable switch rockers | Rear-illuminated labelling field | Anti-theft protection | Freely programmable switches | IR remote-controllable | Freely programmable additional key

6321/38-24G-500

Busch-triton® Control Element with Room Thermostat and 3/6-fold Switch Sensor, FM

With integrated KNX bus coupler. With labelling field. Rocker switch left/right (switching/dimming/blind/value sender/light scenes/fan function). Master/slave configuration. With base-load operation. Control element with room thermostat function for triggering the heating, ventilation and fan-coil actuators. The controller is a constant room temperature controller for ventilator convectors (fan coils) in 2-pipe and 4-pipe systems and conventional heating or cooling systems. The fan stage can be switched manually or in automatic mode. To control up to 13 IR channels (RC5) using Busch-Remote control. IR mobile remote control 6010-25 or 6020-.../6021... . Control element: rocker switch left/right. Display elements: One LED per rocker via separate communication object for status (Red/Green/OFF) or orientation light. Connections: KNX-line: Bus connection terminal. Protection class (Device): IP 20. Temperature range (Device): – 5 °C to 45 °C.

Intelligent Building Solutions

ABB i-bus® KNX – User Operation – Design Ranges – Push Button Coupling Unit

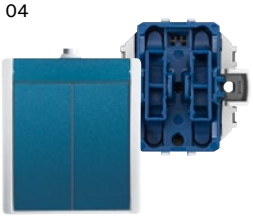
The push-button coupling unit with a centre position offers maximum flexibility. Installed in a flush-mounted wall box, it accepts switch rockers from conventional switch ranges* like a completely standard flush-mounted insert. Covers from all conventional ranges can now be used for KNX. This offers maximum freedom in the selection of the switch range and makes retrofitting easier.

01

02

03

04



Features

Easy mounting and uncomplicated commissioning
All flush-mounted switch ranges* can be used for the ABB i-bus® KNX
Affordable solution for renovations
Status/orientation light (red/green/OFF)
(only with 1gang push-button/switches)
Integration in surface-mounted water protected units

01	Push-button coupler 2gang with integrated bus coupler
02	Push-button coupler 4gang with integrated bus coupler
03	Push-button coupler 2gang for ocean with integrated bus coupler
04	Push-button coupler 4gang for ocean with integrated bus coupler

Design without limits. The push-button coupling unit includes the complete range* of switches for KNX. Switch rockers from all switch ranges can now be converted to KNX push buttons, which not only switch on and off but also dim or show the status with an LED (6108/01 and 6108/04 only). 1gang and 2gang models for single and 2gang switch rockers are available.

KNX – water protected
The push-button coupling unit also allows special products to be used for KNX. Special models for water-protected installation allow covers from, for example, the ocean® surface-mounted range to be used. This means that KNX sensors can also be safely installed in a cellar, outside on a patio or in commercial applications. Temperature range: -25 °C to 45 °C

*except impuls, basic55® and All Weather 44 Busch-Jaeger switch ranges only available for selected markets. For further information please contact your local ABB office.

Intelligent Building Solutions

ABB i-bus® KNX – User Operation – Design Ranges – Push Button Coupling Unit

6108/06-AP-500

KNX Switch Connection Unit for design ocean® (IP44), FM

For contacting conventional 1gang rocker switches. With middle position. For inserting in the ocean surface-mounted housing. The bus can be connected via enclosed terminal block.
