One Space Required

SDT Two-Pole
Two Spaces Required

- ▲ UL Listed as HACR type for use with heating, air conditioning, and refrigeration equipment having motor group combinations and marked for use with HACR type circuit breakers.
- 15–30 ampere circuit breakers are suitable for use with 60°C or 75°C conductors.
- 35–100 ampere circuit breakers are suitable for use with 75°C conductors.
- ◆ No longer available.

TRILLIANT Circuit Breakers With Ground Fault

SDT-GFI circuit breakers provide overload and short circuit protection, combined with Class A ground fault protection. Class A denotes a ground fault circuit interrupter that will trip when a fault current to ground is 6 milli-amperes or more.
