## motor-mechanism Compact MT630 - 48..60 V AC

32839

### Main

|                                     |                                          |
|-------------------------------------|------------------------------------------|
| Device short name                   | Motor mechanism modules with SDE adapter |
| Product or component type           | Motor mechanism                          |
| Device application                  | Automatic spring charging                |
| Control type                        | Standard                                 |
| [Uc] control circuit voltage        | 48...60 V AC 50/60 Hz                    |
| circuit breaker frame rated current | 630 A                                    |

### Complementary

|                                 |                       |
|---------------------------------|-----------------------|
| Control signal type             | Impulse<br>Maintained |
| Maximum power consumption in VA | 500 VA close          |
| Provided equipment              | SDE adaptor           |

### Contractual warranty

|                      |    |
|----------------------|----|
| Warranty (in months) | 18 |
|----------------------|----|

Disclaimer: This documentation is not intended as a substitute for and is not to be used for determining suitability or reliability of these products for specific user applications

## Environmental Data

Schneider Electric aims to achieve Net Zero status by 2050 through supply chain partnerships, lower impact materials, and circularity via our ongoing “Use Better, Use Longer, Use Again” campaign to extend product lifetimes and recyclability.

[Environmental Data explained >](#)

[How we assess product sustainability >](#)

### Use Longer

| Lifetime extension |    |
|--------------------|----|
| Repair             | No |

### Use Again

| Repack and remanufacture |                                                                                                                                                                                                               |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| WEEE Label               |  The product must be disposed on European Union markets following specific waste collection and never end up in rubbish bins |
