

SIMATIC RTLS transponder RTLS4030T, UWB, phase, CMIIT

suitability for operation	RTLS4000 with UWB, phase technology
product brand name	SIMATIC RTLS
Technical Product Detail Page	https://l.siemens.com/1P6GT2700-3DA23
radio frequencies	
operating frequency / 1	6000 ... 7000 MHz; depending on the country approvals
range / 1 / maximum	30 m; Range information for open air applications; always follow the manual
accuracy of localization / 1	
• typical	0.1 m
protocol / 1 / with radio transmission	IEEE 802.15.4-2015 UWB HRP PHY
transfer rate / 1 / with radio transmission / maximum	850 kbit/s
operating frequency / 2	2400 ... 2480 MHz; depending on the country approvals
range / 2 / maximum	50 m; Range information for open air applications; always follow the manual
accuracy of localization / 2	
• typical	3 m
protocol / 2 / with radio transmission	IEEE 802.15.4
transfer rate / 2 / with radio transmission / maximum	1000 kbit/s
electrical data	
type of voltage supply	battery
product component / backup battery	Yes
product feature / replaceable battery	Yes
battery life / typical	1 a; Standby mode: 1 year, UWB localization 1 second cycle: 6 months
memory	
type of memory	FLASH
data retention time / at ambient temperature < 40 °C / not less than	20 a
property of memory	Configuration memory
mechanical data	
material	PC (translucent)
color	Gray.
tightening torque / of the screw for securing the equipment / maximum	0.4 N·m
ambient conditions	
ambient temperature	
• during read/write access	-10 ... +50 °C
• outside the read/write area	-10 ... +50 °C
• during storage	-10 ... +50 °C
protection class IP	IP54
design, dimensions and weights	
width	89 mm

height	30 mm
depth	29 mm
net weight	90 g
fastening method	2 x M2.5 screws, cable ties

product features, product functions, product components / general

display version	1 two-color LED
-----------------	-----------------

standards, specifications, approvals

certificate of suitability	EU conformity according to RED, RoHS, CMIIT
product function / is supported / identification link	Yes; acc. to IEC 61406-1:2022

accessories

accessories	CR123A replacement battery
-------------	----------------------------

security information

security information	<p>Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)</p>
