Specifications

OnSite ProDiag Diagnostics Trip Unit on LV ACB MCCB electronic Trip Units

FSMOFDTRIPUNIT

Main

Lifecycle Service	OnSite prodiag diagnosis
Service benefits	Maintenance costs optimisation Minimised risk of failure
Terms and conditions	Local terms and conditions apply
Excluded services	Fire suppression Physical security Structural analysis Circuit tracing Repair of damage due to abuse, misuse, lack of maintenance Any specialised testing
Service use conditions, context and limits	All equipment to be served is de-energised Access to all necessary site locations and facility documentations Safe workspace

Complementary

Applicable products	Compact C Compact CM Compact NS Compact NSX EasyPact EVS EasyPact CTU EasyPact MVS Masterpact M Masterpact MT MasterPact MTZ MasterPact NT MasterPact NW Masterpact MTE PowerPact H PowerPact J PowerPact L PowerPact P PowerPact R
Service description	Check the state of the equipment before the intervention Testing instruments installation (injection console) Device characterisation Testing through secondary injection for tripping times and breaking capacity Testing through secondary injection for discrimination assessment Alarms and events interpretation Data analytics based on technical specifications Expert insights with recommendations summarised in a report

Packing Units

Unit Type of Package 1	PCE
Number of Units in Package 1	1

Environmental Data

Schneider Electric aims to achieve Net Zero status by 2050 through supply chain partnerships, lower impact materials, and circularity via our ongoing “Use Better, Use Longer, Use Again” campaign to extend product lifetimes and recyclability.
